of foreign direct investments into the Union**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 207(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee¹,

Acting in accordance with the ordinary legislative procedure³,

¹ OJ C 262, 25.7.2018, p. 94.

² OJ C 247, 13.7.2018, p. 28.

³ Position of the European Parliament of 14 February 2019 (not yet published in the Official Journal) and decision of the Council of 5 March 2019.

Whereas:

- (1) Foreign direct investment contributes to the Union's growth by enhancing its competitiveness, creating jobs and economies of scale, bringing in capital, technologies, innovation, expertise, and by opening new markets for the Union's exports. It supports the objectives of the Investment Plan for Europe and contributes to other Union projects and programmes.
- (2) Article 3(5) of the Treaty on European Union (TEU) specifies that the Union, in its relations with the wider world, shall uphold and promote its values and interests and contribute to the protection of its citizens. Moreover, the Union and the Member States have an open investment environment, which is enshrined in the Treaty on the Functioning of the European Union (TFEU) and embedded in the international commitments of the Union and its Member States with respect to foreign direct investment.
- (3) Pursuant to the international commitments undertaken in the World Trade Organization (WTO), in the Organisation for Economic Cooperation and Development, and in the trade and investment agreements concluded with third countries, it is possible for the Union and the Members States to adopt restrictive measures relating to foreign direct investment on the grounds of security or public order, subject to certain requirements. The framework established by this Regulation relates to foreign direct investments into the Union. Outward investment and access to third country markets are dealt with under other trade and investment policy instruments.

- (4) This Regulation is without prejudice to the right of Member States to derogate from the free movement of capital as provided for in point (b) of Article 65(1) TFEU. Several Member States have put in place measures according to which they may restrict such movement on grounds of public policy or public security. Those measures reflect the objectives and concerns of Member States with respect to foreign direct investment, and might result in a number of mechanisms which are different in terms of scope and procedure. Member States wanting to put in place such mechanisms in the future could take into account the functioning, experiences and best practices of existing mechanisms.
- (5) There is currently no comprehensive framework at Union level for the screening of foreign direct investments on the grounds of security or public order, while the major trading partners of the Union have already developed such frameworks.
- (6) Foreign direct investment falls within the field of the common commercial policy. In accordance with point (e) of Article 3(1) TFEU, the Union has exclusive competence with respect to the common commercial policy.

- (7) It is important to provide legal certainty for Member States' screening mechanisms on the grounds of security and public order, and to ensure Union-wide coordination and cooperation on the screening of foreign direct investments likely to affect security or public order. That common framework is without prejudice to sole responsibility of Member States for safeguarding their national security, as provided for in Article 4(2) TEU. It is also without prejudice to the protection of their essential security interests in accordance with Article 346 TFEU.
- (8) The framework for the screening of foreign direct investments and for cooperation should provide Member States and the Commission with the means to address risks to security or public order in a comprehensive manner, and to adapt to changing circumstances, while maintaining the necessary flexibility for Member States to screen foreign direct investments on grounds of security and public order taking into account their individual situations and national specificities. The decision on whether to set up a screening mechanism or to screen a particular foreign direct investment remains the sole responsibility of the Member State concerned.
- (9) A broad range of investments which establish or maintain lasting and direct links between investors from third countries including State entities, and undertakings carrying out an economic activity in a Member State should be covered by this Regulation. It should, however, not cover portfolio investment.

- (10) Member States that have a screening mechanism in place should provide for the necessary measures, in compliance with Union law, to prevent circumvention of their screening mechanisms and screening decisions. This should cover investments from within the Union by means of artificial arrangements that do not reflect economic reality and circumvent the screening mechanisms and screening decisions, where the investor is ultimately owned or controlled by a natural person or an undertaking of a third country. This is without prejudice to the freedom of establishment and the free movement of capital enshrined in the TFEU.
- (11) It should be possible for Member States to assess risks to security or public order arising from significant changes to the ownership structure or key characteristics of a foreign investor.
- (12) To guide Member States and the Commission in the application of this Regulation, it is appropriate to provide a list of factors that could be taken into consideration when determining whether a foreign direct investment is likely to affect security or public order. That list will also improve the transparency of Member States' screening mechanisms for investors considering making or having made foreign direct investments in the Union. The list of factors that might affect security or public order should remain non-exhaustive.

- (13) In determining whether a foreign direct investment may affect security or public order, it should be possible for Member States and the Commission to consider all relevant factors, including the effects on critical infrastructure, technologies (including key enabling technologies) and inputs which are essential for security or the maintenance of public order, the disruption, failure, loss or destruction of which would have a significant impact in a Member State or in the Union. In that regard, it should also be possible for Member States and the Commission to take into account the context and circumstances of the foreign direct investment, in particular whether a foreign investor is controlled directly or indirectly, for example through significant funding, including subsidies, by the government of a third country or is pursuing State-led outward projects or programmes.
- (14) Member States or the Commission, as appropriate, might consider relevant information received from economic operators, civil society organisations, or social partners such as trade unions, in relation to a foreign direct investment likely to affect security or public order.
- (15) It is appropriate to lay down the essential elements of the framework for the screening of foreign direct investments by a Member State to allow investors, the Commission and other Member States to understand how such investments are likely to be screened. Those elements should at least include timeframes for the screening and the possibility for foreign investors to seek recourse against screening decisions. Rules and procedures relating to screening mechanisms should be transparent and should not discriminate between third countries.

- (16) A mechanism which enables Member States to cooperate and assist each other where a foreign direct investment in one Member State could affect security or public order in other Member States should be set up. It should be possible for Member States to provide comments to a Member State in which such investment is planned or has been completed, irrespective of whether that Member State has a screening mechanism in place, or such an investment is undergoing screening. Requests for information, replies and comments of Member States should also be forwarded to the Commission. It should be possible for the Commission, where appropriate, to issue an opinion within the meaning of Article 288 TFEU to the Member State in which the investment is planned or has been completed. It should also be possible for a Member State to request the Commission to issue an opinion or other Member States to provide comments on a foreign direct investment taking place in its territory.
- (17) When a Member State receives comments from other Member States or an opinion from the Commission, it should give such comments or opinion due consideration through, where appropriate, measures available under its national law, or in its broader policy-making, in line with its duty of sincere cooperation laid down in Article 4(3) TEU.

The final decision in relation to any foreign direct investment undergoing screening or any measure taken in relation to a foreign direct investment not undergoing screening remains the sole responsibility of the Member State where the foreign direct investment is planned or completed.

- (18) The cooperation mechanism should only be used for the purpose of protecting security or public order. For that reason, Member States should duly justify any request for information regarding a specific foreign direct investment in another Member State, as well as any comment they address to that Member State. The same requirements should apply when the Commission requests information on a particular foreign direct investment or issues an opinion to a Member State. Compliance with those requirements is also important in situations where an investor of a Member State competes with investors of third countries for making an investment in another Member State such as acquiring assets.
- (19) Furthermore, it should be possible for the Commission to provide an opinion within the meaning of Article 288 TFEU with regard to foreign direct investments likely to affect projects and programmes of Union interest on grounds of security or public order. This would give the Commission a tool to protect projects and programmes which serve the Union as a whole and represent an important contribution to its economic growth, jobs and competitiveness. This should include in particular projects and programmes involving substantial Union funding or established by Union law regarding critical infrastructure, critical technologies or critical inputs. Those projects or programmes of Union interest should be listed in this Regulation. An opinion which is addressed to a Member State should also be simultaneously sent to the other Member States.

The Member State should take utmost account of the opinion received from the Commission through, where appropriate, measures available under its national law, or in its broader policy-making, and provide an explanation to the Commission if it does not follow that opinion, in line with its duty of sincere cooperation under Article 4(3) TEU. The final decision in relation to any foreign direct investment undergoing screening or any measure taken in relation to a foreign direct investment not undergoing screening remains the sole responsibility of the Member State where the foreign direct investment is planned or completed.

- (20) In order to take into account developments relating to projects and programmes of Union interest, the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission to amend the list of projects and programmes of Union interest set out in the Annex to this Regulation. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making¹. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.

¹ OJ L 123, 12.5.2016, p. 1.

- (21) In order to provide greater certainty for investors, Member States should have the possibility to make comments and the Commission should have the possibility to issue an opinion in relation to completed investments not undergoing screening for a period limited to 15 months after the completion of the foreign direct investment. The cooperation mechanism should not apply to foreign direct investments completed before ... [date of entry into force of this Regulation].
- (22) Member States should notify their screening mechanisms and any amendment thereto to the Commission, and should report on the application of their screening mechanisms on an annual basis, including on decisions allowing, prohibiting or subjecting foreign direct investments to conditions or mitigating measures and on decisions regarding foreign direct investments likely to affect projects or programmes of Union interest. All Member States should report on the foreign direct investments that took place in their territory, on the basis of the information available to them. In order to improve the quality and comparability of information provided by Member States as well as to facilitate compliance with the notification and reporting obligations, the Commission should provide standardised forms considering, inter alia, relevant forms applied for the purpose of reporting to Eurostat, where appropriate.

- (23) In order to ensure the effectiveness of the cooperation mechanism, it is also important to ensure a minimum level of information and coordination with regard to foreign direct investments falling under the scope of this Regulation in all Member States. That information should be made available by Member States for foreign direct investments undergoing screening as well as, upon request, for other foreign direct investments. Relevant information should include aspects such as the ownership structure of the foreign investor and the financing of the planned or completed investment, including, when available, information about subsidies granted by third countries. Member States should seek to provide accurate, comprehensive and reliable information.
- (24) Upon request by a Member State where a foreign direct investment is planned or has been completed, the foreign investor or the undertaking concerned should provide the information requested. In exceptional circumstances, when, despite its best efforts, a Member State is unable to obtain such information, it should notify the Member States concerned or the Commission without delay. In such a case, it should be possible that any comment issued by another Member State or any opinion issued by the Commission in the framework of the cooperation mechanism be made on the basis of the information available to them.
- (25) When making available the information requested, Member States are to comply with Union law and national law that complies with Union law.

- (26) The communication and cooperation at Member State and Union level should be enhanced through the establishment of a contact point for the implementation of this Regulation in each Member State and the Commission.
- (27) The contact points established by the Member States and the Commission should be appropriately placed within the respective administration, and should have the qualified staff and the powers necessary to perform their functions under the coordination mechanism and to ensure a proper handling of confidential information.
- (28) The development and implementation of comprehensive and effective policies should be supported by the Commission group of experts on the screening of foreign direct investments into the European Union, set up by Commission Decision of 29.11.2017¹, composed of representatives of the Member States. That group should discuss, in particular, issues related to the screening of foreign direct investments, share best practices and lessons learned and exchange views on trends and issues of common concern related to foreign direct investments. The Commission should consider seeking the advice of the group on systemic issues relating to the implementation of this Regulation. The Commission should consult the expert group on draft delegated acts in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making.

¹ Commission Decision of 29.11.2017 setting up the group of experts on the screening of foreign direct investments into the European Union (not published in the Official Journal), C(2017) 7866 final.

- (29) Member States and the Commission should be encouraged to cooperate with the responsible authorities of like-minded third countries on issues related to screening of foreign direct investments likely to affect security or public order. Such administrative cooperation should aim to strengthen the effectiveness of the framework for screening of foreign direct investments by Member States and the cooperation between Member States and the Commission pursuant to this Regulation. It should also be possible for the Commission to monitor developments with regard to screening mechanisms in third countries.
- (30) Member States and the Commission should take all necessary measures to ensure the protection of confidential information in compliance with, in particular, Commission Decision (EU, Euratom) 2015/443¹, Commission Decision (EU, Euratom) 2015/444² and the Agreement between the Member States of the European Union, meeting within the Council, regarding the protection of classified information exchanged in the interests of the European Union³. This includes, in particular, the obligation not to downgrade or declassify classified information without the prior written consent of the originator⁴. Any non-classified sensitive information or information which is provided on a confidential basis should be handled as such by the authorities.

- (31) Any processing of personal data pursuant to this Regulation should comply with the applicable rules on the protection of personal data. Processing of personal data by the contact points and other entities within Member States should be carried out in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council¹. Processing of personal data by the Commission should be carried out in accordance with Regulation (EU) 2018/1725 of the European Parliament and of the Council².
- (32) On the basis of, inter alia, the annual reports submitted by all Member States, and with due respect to the confidential nature of certain information included in those reports, the Commission should draw up an annual report on the implementation of this Regulation and submit it to the European Parliament and to the Council. For greater transparency, the report should be made public.
- (33) The European Parliament should have the possibility to invite the Commission to a meeting of its committee responsible to present and explain systemic issues related to the implementation of this Regulation.

- (34) By ... [three years after the date of application of this Regulation] and every five years thereafter, the Commission should evaluate the functioning and effectiveness of this Regulation and present a report to the European Parliament and to the Council. That report should include an assessment of whether or not this Regulation requires an amendment. Where the report proposes amending this Regulation, it may be accompanied by a legislative proposal.
- (35) The implementation of this Regulation by the Union and the Member States should comply with the relevant requirements for the imposition of restrictive measures on grounds of security and public order in the WTO agreements, including, in particular, Article XIV(a) and Article XIV bis of the General Agreement on Trade in Services¹ (GATS). It should also comply with Union law and be consistent with commitments made under other trade and investment agreements to which the Union or Member States are parties and trade and investment arrangements to which the Union or Member States are adherents.

¹ OJ L 336, 23.12.1994, p. 191.

- (36) When a foreign direct investment constitutes a concentration falling within the scope of Council Regulation (EC) No 139/2004¹, the application of this Regulation should be without prejudice to the application of Article 21(4) of Regulation (EC) No 139/2004. This Regulation and Article 21(4) of Regulation (EC) No 139/2004 should be applied in a consistent manner. To the extent that the respective scope of application of those two regulations overlap, the grounds for screening set out in Article 1 of this Regulation and the notion of legitimate interests within the meaning of the third paragraph of Article 21(4) of Regulation (EC) No 139/2004 should be interpreted in a coherent manner, without prejudice to the assessment of the compatibility of the national measures aimed at protecting those interests with the general principles and other provisions of Union law.

- (37) This Regulation does not affect Union rules for the prudential assessment of acquisitions of qualifying holdings in the financial sector, which is a distinct procedure with a specific objective¹.
- (38) This Regulation is consistent with and without prejudice to other notification and screening procedures set out in sectoral Union law,

HAVE ADOPTED THIS REGULATION:

¹ As introduced by Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC (OJ L 176, 27.6.2013, p. 338); Directive 2009/138/EC of the European Parliament and of the Council of 25 November 2009 on the taking-up and pursuit of the business of Insurance and Reinsurance (Solvency II) (OJ L 335, 17.12.2009, p. 1); Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (OJ L 173, 12.6.2014, p. 349).

Article 1

Subject matter and scope

1. This Regulation establishes a framework for the screening by Member States of foreign direct investments into the Union on the grounds of security or public order and for a mechanism for cooperation between Member States, and between Member States and the Commission, with regard to foreign direct investments likely to affect security or public order. It includes the possibility for the Commission to issue opinions on such investments.
2. This Regulation is without prejudice to each Member State having sole responsibility for its national security, as provided for in Article 4(2) TEU, and to the right of each Member State to protect its essential security interests in accordance with Article 346 TFEU.
3. Nothing in this Regulation shall limit the right of each Member State to decide whether or not to screen a particular foreign direct investment within the framework of this Regulation.

Article 2

- (1) ‘foreign direct investment’ means an investment of any kind by a foreign investor aiming to establish or to maintain lasting and direct links between the foreign investor and the entrepreneur to whom or the undertaking to which the capital is made available in order to carry on an economic activity in a Member State, including investments which enable effective participation in the management or control of a company carrying out an economic activity;
- (2) ‘foreign investor’ means a natural person of a third country or an undertaking of a third country, intending to make or having made a foreign direct investment;
- (3) ‘screening’ means a procedure allowing to assess, investigate, authorise, condition, prohibit or unwind foreign direct investments;
- (4) ‘screening mechanism’ means an instrument of general application, such as a law or regulation, and accompanying administrative requirements, implementing rules or guidelines, setting out the terms, conditions and procedures to assess, investigate, authorise, condition, prohibit or unwind foreign direct investments on grounds of security or public order;

- (5) ‘foreign direct investment undergoing screening’ means a foreign direct investment undergoing a formal assessment or investigation pursuant to a screening mechanism;
- (6) ‘screening decision’ means a measure adopted in application of a screening mechanism;

Article 3

Screening mechanisms of Member States

1. In accordance with this Regulation, Member States may maintain, amend or adopt mechanisms to screen foreign direct investments in their territory on the grounds of security or public order.
2. Rules and procedures related to screening mechanisms, including relevant timeframes, shall be transparent and not discriminate between third countries. In particular, Member States shall set out the circumstances triggering the screening, the grounds for screening and the applicable detailed procedural rules.
3. Member States shall apply timeframes under their screening mechanisms. The screening mechanisms shall allow Member States to take into account the comments of other Member States referred to in Article 6 and 7 and the opinions of the Commission referred to in Articles 6, 7 and 8.

4. Confidential information, including commercially-sensitive information, made available to the Member State undertaking the screening shall be protected.
5. Foreign investors and the undertakings concerned shall have the possibility to seek recourse against screening decisions of the national authorities.
6. Member States which have a screening mechanism in place shall maintain, amend or adopt measures necessary to identify and prevent circumvention of the screening mechanisms and screening decisions.
7. Member States shall notify the Commission of their existing screening mechanisms by ... [30 days after the entry into force of this Regulation]. Member States shall notify the Commission of any newly adopted screening mechanism or any amendment to an existing screening mechanism within 30 days of the entry into force of the newly adopted screening mechanism or of any amendment to an existing screening mechanism.
8. No later than three months after having received the notifications referred to in paragraph 7, the Commission shall make publicly available a list of Member States' screening mechanisms. The Commission shall keep that list up to date.

Article 4
Factors that may be taken into consideration
by Member States or the Commission

1. In determining whether a foreign direct investment is likely to affect security or public order, Member States and the Commission may consider its potential effects on, inter alia:
 - (a) critical infrastructure, whether physical or virtual, including energy, transport, water, health, communications, media, data processing or storage, aerospace, defence, electoral or financial infrastructure, and sensitive facilities, as well as land and real estate crucial for the use of such infrastructure;
 - (b) critical technologies and dual use items as defined in point 1 of Article 2 of Council Regulation (EC) No 428/2009¹, including artificial intelligence, robotics, semiconductors, cybersecurity, aerospace, defence, energy storage, quantum and nuclear technologies as well as nanotechnologies and biotechnologies;
 - (c) supply of critical inputs, including energy or raw materials, as well as food security;
 - (d) access to sensitive information, including personal data, or the ability to control such information; or
 - (e) the freedom and pluralism of the media.

¹ Council Regulation (EC) No 428/2009 of 5 May 2009 setting up a Community regime for the control of exports, transfer, brokering and transit of dual-use items (OJ L 134, 29.5.2009, p. 1).

2. In determining whether a foreign direct investment is likely to affect security or public order, Member States and the Commission may also take into account, in particular:
 - (a) whether the foreign investor is directly or indirectly controlled by the government, including state bodies or armed forces, of a third country, including through ownership structure or significant funding;
 - (b) whether the foreign investor has already been involved in activities affecting security or public order in a Member State; or
 - (c) whether there is a serious risk that the foreign investor engages in illegal or criminal activities.

Article 5

Annual reporting

1. By 31 March of each year, Member States shall submit to the Commission an annual report covering the preceding calendar year, which shall include aggregated information on foreign direct investments that took place in their territory, on the basis of information available to them, as well as aggregated information on the requests received from other Member States pursuant to Articles 6(6) and 7(5).

2. For each reporting period, Member States that maintain screening mechanisms shall, in addition to the information referred to in paragraph 1, provide aggregated information on the application of their screening mechanisms.
3. The Commission shall provide an annual report on the implementation of this Regulation to the European Parliament and to the Council. That report shall be made public.
4. The European Parliament may invite the Commission to a meeting of its committee responsible to present and explain systemic issues related to the implementation of this Regulation.

Article 6

Cooperation mechanism in relation to foreign direct investments undergoing screening

1. Member States shall notify the Commission and the other Member States of any foreign direct investment in their territory that is undergoing screening by providing the information referred to in Article 9(2) of this Regulation as soon as possible. The notification may include a list of Member States whose security or public order is deemed likely to be affected. As part of the notification, and where applicable, the Member State undertaking the screening shall endeavour to indicate whether it considers that the foreign direct investment undergoing screening is likely to fall within the scope of Regulation (EC) No 139/2004.

2. Where a Member State considers that a foreign direct investment undergoing screening in another Member State is likely to affect its security or public order, or has information relevant for such screening, it may provide comments to the Member State undertaking the screening. The Member State providing comments shall send those comments to the Commission simultaneously.

The Commission shall notify the other Member States that comments were provided.

3. Where the Commission considers that a foreign direct investment undergoing screening is likely to affect security or public order in more than one Member State, or has relevant information in relation to that foreign direct investment, it may issue an opinion addressed to the Member State undertaking the screening. The Commission may issue an opinion irrespective of whether other Member States have provided comments. The Commission may issue an opinion following comments from other Member States. The Commission shall issue such opinion where justified, after at least one third of Member States consider that a foreign direct investment is likely to affect their security or public order.

The Commission shall notify the other Member States that an opinion was issued.

4. A Member State which duly considers that a foreign direct investment in its territory is likely to affect its security or public order may request the Commission to issue an opinion or other Member States to provide comments.

5. The comments referred to in paragraph 2 and the opinions referred to in paragraph 3 shall be duly justified.
6. No later than 15 calendar days following the receipt of the information referred to in paragraph 1, other Member States and the Commission shall notify the Member State undertaking the screening of their intention to provide comments pursuant to paragraph 2 or an opinion pursuant to paragraph 3. The notification may include a request for additional information to the information referred to in paragraph 1.

Any request for additional information shall be duly justified, limited to information necessary to provide comments pursuant to paragraph 2 or to issue an opinion pursuant to paragraph 3, proportionate to the purpose of the request and not unduly burdensome for the Member State undertaking the screening. Requests for information and replies provided by Member States shall be sent to the Commission simultaneously.

7. Comments referred to in paragraph 2 or opinions referred to in paragraph 3 shall be addressed to the Member State undertaking the screening and shall be sent to it within a reasonable period of time, and in any case no later than 35 calendar days following receipt of the information referred to in paragraph 1.

Notwithstanding the first subparagraph, if additional information was requested pursuant to paragraph 6, such comments or opinions shall be issued no later than 20 calendar days following receipt of the additional information or the notification pursuant to Article 9(5).

Notwithstanding paragraph 6, the Commission may issue an opinion following comments from other Member States where possible within the deadlines referred to in this paragraph, and in any case no later than five calendar days after those deadlines have expired.

8. In the exceptional case where the Member State undertaking the screening considers that its security or public order requires immediate action, it shall notify the other Member States and the Commission of its intention to issue a screening decision before the timeframes referred to in paragraph 7 and duly justify the need for immediate action. The other Member States and the Commission shall endeavour to provide comments or to issue an opinion expeditiously.
9. The Member State undertaking the screening shall give due consideration to the comments of the other Member States referred to in paragraph 2 and to the opinion of the Commission referred to in paragraph 3. The final screening decision shall be taken by the Member State undertaking the screening.
10. Cooperation pursuant to this Article shall take place through the contact points established in accordance with Article 11.

Article 7

Cooperation mechanism in relation to foreign direct investments not undergoing screening

1. Where a Member State considers that a foreign direct investment planned or completed in another Member State which is not undergoing screening in that Member State is likely to affect its security or public order, or has relevant information in relation to that foreign direct investment, it may provide comments to that other Member State. The Member State providing comments shall send those comments to the Commission simultaneously.

The Commission shall notify the other Member States that comments were provided.

2. Where the Commission considers that a foreign direct investment planned or completed in a Member State which is not undergoing screening in that Member State is likely to affect security or public order in more than one Member State, or has relevant information in relation to that foreign direct investment, it may issue an opinion addressed to the Member State in which the foreign direct investment is planned or has been completed. The Commission may issue an opinion irrespective of whether other Member States have provided comments. The Commission may issue an opinion following comments from other Member States. The Commission shall issue such opinion where justified, after at least one third of Member States consider that a foreign direct investment is likely to affect their security or public order.

The Commission shall notify the other Member States that an opinion was issued.

3. A Member State which duly considers that a foreign direct investment in its territory is likely to affect its security or public order may request the Commission to issue an opinion, or other Member States to provide comments.
4. The comments referred to in paragraph 1 and the opinions referred to in paragraph 2 shall be duly justified.
5.
