'I/A' ITEM NOTE

From: General Secretariat of the Council
To: Permanent Representatives Committee/Council

Subject: Draft Regulation of the European Parliament and of the Council setting a framework for energy labelling and repealing Directive 2010/30/EU (**first reading**)
- Adoption of the legislative act
= Statements

**Statement by the European Parliament, the Council and the Commission
on Articles 290 and 291 TFEU**

"Recalling the Interinstitutional Agreement of 16 April 2016 on Better Law-Making, in particular, its paragraph 26, the European Parliament, the Council and the Commission declare that the provisions of this Regulation shall be without prejudice to any future position of the institutions as regards the application of Articles 290 and 291 TFEU in other legislative files."

Commission statement on financial compensation for consumers

"In view of its ongoing efforts to strengthen the enforcement of Union harmonisation legislation for products, the Commission - in order to address potential financial loss by consumers due to wrongly labelled products or inferior energy and environmental performance than labelled - should investigate whether compensation for consumers in case of non-compliance with regard to energy class displayed on the label can be addressed."

Statement by Bulgaria

Bulgaria considers that the adoption of the Regulation of the European Parliament and of the Council setting a framework for energy efficiency labelling and repealing Directive 2010/30/EU will not be used as a precedent for ensuring conformity with the New Legislative Framework (NLF) when redrafting any other legislation in the field of products, in particular Directive 2009/125/EC of the European Parliament and of the Council of 21 October 2009 establishing a framework for the setting of ecodesign requirements for energy-related products.
