Information about Denmark's application of the phasing-in period as set out in the Regulation on the EU Digital COVID Certificate (2021/953)

Dear Secretary-General,

The Danish component of the EU Digital COVID Certificate was connected effectively to the EUDCC gateway on 1 June 2021. Since then, Denmark has been issuing EU Digital COVID Certificates to citizens holding a Danish civil registration number.

However, Denmark will not be ready to issue the certificates referred to in Article 3(1) to persons not holding a Danish civil registration number in a format that complies with the Regulation on the EU Digital COVID Certificate (2021/953) from 1 July 2021. Furthermore, Denmark will issue paper-based certificates to some Danish non-digital citizens in a format that will not comply with Regulation on the EU Digital COVID Certificate (2021/953) from 1 July 2021. The Danish authorities expect to be ready to deliver EU Digital COVID Certificates in the format referred to in Article 3(1) to persons not holding a Danish civil registration number and Danish non-digital citizens from at the latest 12 August 2021.

The Danish authorities will issue certificates that contain the necessary data set out in the Annex of the Regulation to EU citizens and residents, and third-country nationals legally staying or residing on the territories of Member States.

Yours sincerely,

Jonas Bering Lisberg
Ambassadør, Permanent Representative

Re: EU Digital COVID Certificate - Issuance of Certificates

Dear Secretaries-General,
Dear Colleagues,

The recent cyber-attack on our Health Service Executive has had an impact on the ability of Ireland to deliver the EU Digital COVID Certificate initiative on schedule.

As required under Article 15 of (EU) 2021/953, Ireland is notifying the European Commission and Member States that it is not in a position to start with the issuance of EU Digital COVID Certificates on 1 July 2021.

The utmost priority has been attached to the project under these difficult circumstances, and efforts are ongoing at national level to commence issuing these certificates as soon as possible.

Yours sincerely,

Tom Hanney (Electronic Signature)

Dear Colleagues

Malta's Notification on the Issuance of Certificates in Compliance with the EU Digital COVID Certificate Regulation

Pursuant to Article 15(2) of Regulation (EU) 2021/953, I am writing to inform you that on Thursday 1 July Malta will effectively connect to the EU Digital COVID Certificate Gateway and will begin to issue vaccination certificates in a format that complies with this Regulation. Vaccination certificates will be issued to those persons who are fully vaccinated with any of the EMA-approved vaccines. Malta intends to issue all types of certificates to meet the requirements of other Member States, however it will only start issuing test and recovery certificates in a format compliant with the Regulation as from 15 July. Furthermore, consistent with the position expressed throughout negotiations on the EU Digital COVID Certificate, given that evidence published to date suggests that reinfection is still possible after initial infection, Malta will not waive restrictions for holders of recovery certificates at this stage.

Yours Sincerely
