Proposal for a

COUNCIL REGULATION

on the financial regulation applicable to the 11th European Development Fund

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

• **Reasons for and objectives of the proposal**

The objective of this proposal is to align the financial rules of the European Development Fund ('EDF') with those applicable to the Union budget. Council Regulation (EU) 2015/323 on the financial regulation applicable to the 11th European Development Fund ('11th EDF Financial Regulation') is structured as a set of references to the financial regulation applicable to the general budget of the Union, excluding or supplementing provisions to cater for EDF specificities. Since Regulation No 966/2012, the financial regulation applicable to the general budget of the Union ('the Financial Regulation'), has been recently revised, it is necessary to adapt the 11th EDF Financial Regulation. This is the only way to extend to the EDF the benefit of the simplification achieved through the Financial Regulation, for instance as regards:

- cross reliance on audits and assessments,
- extension of pillar assessment use,
- single set of rules for bodies eligible under indirect management,
- new grounds of exclusion,
- extension of the basic principles of cooperation on good taxation governance (non-cooperative jurisdictions) to all funds under indirect management

Since changes introduced to the Financial Regulation are significant and therefore proposed in the form of a new legal act repealing Regulation (EU, EURATOM) No 966/2012, this proposal follows the same approach: in the interest of legal clarity and readability, and given the significant amendments a new legal act is proposed.

The present alignment only concerns the current 11th EDF which expires in 2020 and is unrelated to the discussions on the 2021-2027 Multiannual Financial Framework.

• **Consistency with existing policy provisions in the policy area**

The overarching principle of this proposal is to align it as much as possible with the Financial Regulation, which also applies to the other external policy instruments. However, since this 11th EDF expires in December 2020, certain provisions of the Financial Regulation that will enter into force only with the 2021-2027 Multiannual Financial Framework have not been made applicable in the 11th EDF Financial Regulation.

• **Consistency with other Union policies**

Not applicable.

2. LEGAL BASIS, SUBSIDIARITY AND PROPORTIONALITY

• **Legal basis**

The 11th EDF Financial Regulation is based on Article 10(2) of the Internal Agreement governing the 11th EDF.

• **Subsidiarity (for non-exclusive competence)**

The adoption of the 11th EDF financial rules falls under the exclusive competence of the EU.

- **Proportionality**

This proposal focuses on alignment and simplification. The amendments are limited to those necessary to allow the simplifications proposed in the Financial Regulation to deploy their full effect on the ground while keeping the necessary specificities of the 11th EDF.

3. RESULTS OF EX-POST EVALUATIONS, STAKEHOLDER CONSULTATIONS AND IMPACT ASSESSMENTS

- **Stakeholder consultations**

The proposal draws on the results of the public consultation in 2016 that preceded the Commission proposal No 2016/0605 of 14 September 2016 for the Financial Regulation.

- **Collection and use of expertise**

Not applicable.

- **Impact assessment**

No impact assessment for the revision of the 11th EDF Financial Regulation has been carried out. The proposed amendments follow the simplifications proposed in the Financial Regulation applicable to the general budget of the Union. Moreover, the 11th EDF Financial Regulation as such has a limited economic, environmental or social impact, since it provides the general rules for the implementation of the 11th EDF.

- **Regulatory fitness and simplification**

The proposal does not fall under the Regulatory Fitness Programme.

- **Fundamental rights**

The proposal has no impact on fundamental rights.

4. BUDGETARY IMPLICATIONS

The proposal has no budgetary implications. The EDF is not included in the EU budget and its financial envelope is determined in the Internal Agreement. While the funds will be implemented according to the 11th EDF Financial Regulation, its adoption has no financial impact.

5. LEGAL ELEMENTS OF THE PROPOSAL

- **Detailed explanation of the specific provisions of the proposal**

As stated above, the overarching principle of this proposal is to align it as much as possible with the Financial Regulation. This is achieved by direct references to that Regulation.

Such references have to be read bearing in mind that:

- Article 2(2) of the proposal excludes the application of provisions which give the Commission the power to adopt delegated acts under Article 290 TFEU.
- Certain provisions of the Financial Regulation apply *mutatis mutandis*; in such a case, the applicable provisions have to be read and applied in a reasonable context with the EDF as a whole rather than literally.

Where the applicable Financial Regulation provisions contain internal references, the provisions referred to only apply if the 11th EDF Financial Regulation provides that they are

applicable. In other words, it is solely the 11th EDF Financial Regulation that explicitly lays down the provisions of the Financial Regulation that are applicable to the EDF.

The proposal follows as much as possible the structure of the Financial Regulation. It is divided into three Parts: Main Provisions, Investment Facility, and Transitional and Final Provisions.

The recitals of the proposal address the degree of alignment with the Financial Regulation in more detail.

Part One “Main Provisions” is subdivided into 11 Titles: Subject matter, scope and general provisions; Financial principles; EDF resources and implementation; Financial actors; Revenue operations; Expenditure operations; Various implementation provisions; Funding instruments; Annual accounts and other financial reporting; and External audit and discharge.

The self-standing text of the proposal largely falls into one of two categories. Part of the text is aligned on the substance with the Financial Regulation but the terminological differences or the necessity to carry out minor adjustments to the EDF require complementary text. Examples of this are in Title VIII “Funding instruments”. Other self-standing text is specific to the EDF. Examples of this are in Title VI “Revenue operations” which is largely untouched by this revision.

Part Two, on the investment facility managed by the EIB, is specific to the EDF and is largely unchanged by this revision.

As stated above, since this EDF expires in December 2020, certain provisions of the Financial Regulation applicable to the general budget of the Union that will enter into force only during the period of the 2021 - 2027 multiannual financial framework have not been made applicable in the 11th EDF Financial Regulation. As an example, the proposal does not make applicable the provisions related to the Common Provisioning Fund (Title X of the Financial Regulation applicable to the general budget of the Union).

Proposal for a

COUNCIL REGULATION

on the financial regulation applicable to the 11th European Development Fund

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union and the Treaty on the Functioning of the European Union,

Having regard to the Partnership Agreement between the members of the African, Caribbean and Pacific Group of States of the one part, and the European Community and its Member States, of the other part, as last amended¹ ('ACP-EU Partnership Agreement'),

Having regard to the Internal Agreement between the Representatives of the Governments of the Member States of the European Union, meeting within the Council, on the financing of European Union aid under the multiannual financial framework for the period 2014 to 2020, in accordance with the ACP-EU Partnership Agreement, and on the allocation of financial assistance for the Overseas Countries and Territories to which Part Four of the Treaty on the Functioning of the European Union applies² ('the Internal Agreement'), and in particular Article 10(2) thereof,

Having regard to the proposal from the European Commission,

Having regard to the opinion of the Court of Auditors³,

Having regard to the opinion of the European Investment Bank on the provisions concerning it⁴,

Acting in accordance with a special legislative procedure,

Whereas:

- (1) Council Regulation (EU) 2015/323 has determined the detailed rules for the financial implementation of the 11th European Development Fund ('11th EDF') concerning, notably the applicable principles; the constitution of the 11th EDF resources; the financial actors and entities entrusted with budget-implementation tasks; the financing decisions, commitments and payments; the funding instruments including procurement, grants, financial instruments and Union trust funds; the presentation of the accounts and accounting; the external audit by the Court of Auditors and discharge by the European Parliament; as well as the Investment Facility managed by the European Investment Bank.
- (2) For the sake of simplification and coherence, Regulation (EU) 2015/323 has been aligned, as much as possible, with Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council and Commission Delegated Regulation (EU) No 1268/2012. This alignment has been achieved by direct references to those

regulations and has, on the one hand, allowed for an easy identification of specificities in the financial implementation of the 11th EDF and, on the other hand, reduced the diversity of Union funding rules in the area of external action that creates an unnecessary burden for the recipients, the Commission as well as other actors involved.

- (3) Regulation (EU, Euratom) No 966/2012 and Delegated Regulation (EU) No 1268/2012 have been merged and replaced by a single legal act, Regulation (EU) No [the new Financial Regulation], which introduced significant changes and improvements, and which simplified the financial rules applicable to the general budget of the Union. In the interest of simplification, the financial regulation applicable to the 11th EDF should be aligned as much as possible to that Regulation. For reasons of legal clarity and taking into consideration the significant number of amendments required for that alignment, Regulation (EU) 2015/323 should be repealed and replaced by this Regulation.
- (4) It is necessary to recall that the framework for financial implementation of the 11th EDF is, besides this Regulation, constituted by the Partnership Agreement between the members of the African, Caribbean and Pacific group of States of the one part, and the European Community and its Member States of the other part, signed in Cotonou on 23 June 2000, revised in Luxembourg on 25 June 2005 and revised in Ouagadougou on 22 June 2010 ('the Cotonou Agreement'), in particular by its Annex IV, further by the Internal Agreement, by Council Decision 2013/755/EU of 25 November 2013 on the association of the overseas countries and territories with the European Union ('the Overseas Association Decision') and by Council Regulation (EU) 2015/322 .
- (5) The financial implementation of the 11th EDF should be guided by the principles of unity and budgetary accuracy, unit of account, specification, sound financial management and transparency. Having regard to the multiannual set-up of the 11th EDF, the budgetary principle of annuality should not apply to the 11th EDF.
- (6) It is necessary to determine the detailed rules for the payment of the contributions by the Member States to the 11th EDF, set up by the Internal Agreement, and for the country allocation of financial assistance for the Overseas Countries and Territories to which Part IV of the Treaty applies.
- (7) The rules concerning the financial actors, i.e. the authorising and accounting officers, the delegation of their tasks as well as their liability should be aligned with Regulation (EU, Euratom) No [the new Financial Regulation] as these actors act within the framework of the Commission when it implements the EDF under this Regulation.
- (8) It is necessary to establish the detailed rules in accordance with which the authorising officer by delegation establishes the necessary arrangements to ensure the proper execution of operations, in close cooperation with the national, regional, intra-ACP or territorial authorising officer.
- (9) The rules on methods of implementation, i.e. on the entrustment of budget-implementation tasks and on its conditions and limits, should be aligned with Regulation (EU, Euratom) No [the new Financial Regulation]. In addition, a provision on further entrustment of budget-implementation tasks mirroring that in Regulation (EU) No 236/2014 of the European Parliament and of the Council should be inserted in order to ensure a coherent implementation of funding of external action. This Regulation should nonetheless contain specific provisions on temporary acting in the

place of the national authorising officer, on entrustment by the ACP States and Overseas Countries and Territories ('OCTs') to a service provider and on strengthening the protection of EU financial interests in the case of indirect management with ACP States and OCTs.

- (10) The provisions on financing decisions should be aligned with those of Regulation (EU, Euratom) No [the new Financial Regulation] where the Commission implements the 11th EDF under this Regulation.
- (11) The rules on commitments should be aligned with those of Regulation (EU, Euratom) No [the new Financial Regulation] with the exception of provisional commitments. In addition, an extension of deadlines should be provided where it is necessary for actions carried out in indirect management by ACP States or OCTs.
- (12) The time limits for payments should be aligned with those of Regulation (EU, Euratom) No [the new Financial Regulation]. Special provisions should be laid down where ACP States and OCTs are not entrusted with carrying out payments under indirect management and where, consequently, the Commission continues to carry out payments to recipients.
- (13) Various implementation provisions concerning the internal auditor, good administration and redress, the IT system, electronic transmission, e-Government, and the administrative and financial penalties and the use of the central exclusion database should be aligned with those of Regulation (EU, Euratom) No [the new Financial Regulation]. In addition, the protection of EU financial interests through the penalties should be strengthened where the 11th EDF is implemented in indirect management with ACP States and OCTs.
- (14) The rules on procurement, grants, prizes and experts should be aligned with those of Regulation (EU, Euratom) No [the new Financial Regulation]. The rules on financial instruments and EU trust funds should be aligned with adjustments due to the nature of the 11th EDF. Budget support to OCTs should take the institutional links with the Member State concern into account.
- (15) The rules on presentation of the accounts and accounting, and on external audit and discharge should mirror those of Regulation (EU, Euratom) No [the new Financial Regulation].
- (16) It is necessary to lay down the conditions in accordance with which the Court of Auditors must exercise its powers in respect of the 11th EDF.
- (17) It is necessary to lay down the conditions in accordance with which the European Investment Bank (EIB) manages EDF resources.
- (18) The provisions concerning scrutiny by the Court of Auditors of the 11th EDF resources managed by the EIB should comply with the Tripartite Agreement concluded between the Court of Auditors, the EIB and the Commission provided for in Article 248(4) of the Treaty.
- (19) The transitional provisions should lay down the rules on treating balances and revenue from previous EDFs as well as the application of this Regulation to residual operations under these previous EDFs.
- (20) The interpretation of this Regulation should aim to ensure consistency with Regulation (EU, Euratom) No [the new Financial Regulation] unless such an interpretation would be incompatible with the specificities of the 11th EDF as provided for in the ACP-EU

Partnership Agreement, the Internal Agreement, the Overseas Association Decision, or Council Regulation (EU) No 2015/322.

- (21) As the application of different sets of financial rules could lead to an unnecessary burden for the recipients, the Commission and the other actors involved, this Regulation should enter into force as soon as possible and should apply retroactively from the date of entry into force of Regulation (EU, Euratom) No [the new Financial Regulation],

HAS ADOPTED THIS REGULATION:

In respect of the OCTs, those instruments are laid down in Part Four of the Overseas Association Decision and Annex II thereto. 1. In accordance with Article 7 of the Internal Agreement, the ceiling for the annual amount of the contribution for the year $n + 2$ and the annual amount of the contribution for the year $n + 1$, as well as its payment in three instalments, shall be determined in accordance with the procedure set out in paragraphs 2 to 7 of this Article.

The instalments to be paid by each Member State shall be set in such a way as to be in proportion to that Member State's contributions to the 11th EDF as fixed in Article 1(2) of the Internal Agreement.

 - (a) the ceiling for the annual amount of the contribution for the year $n + 2$;

The Council shall decide on the proposal at the latest 21 calendar days following the presentation by the Commission of its proposal.

The Member States shall pay the second instalment at the latest 21 calendar days following the adoption of the Council decision.

- 4. By 15 June of the year $n + 1$, the Commission, taking into account the EIB's forecasts concerning the management and operation of the Investment Facility, including those interest rates subsidies which are implemented by the EIB, shall establish and communicate to the Council a statement of the commitments, payments, and the annual amount of the calls for contributions made in the year n and to be made in the years $n + 1$ and $n + 2$. The Commission shall provide the annual amounts of the contributions by Member State, as well as the amount still to be paid by the EDF, distinguishing between the shares of the EIB and of the Commission. The amounts for the years $n + 1$ and $n + 2$ shall be based on the capacity to deliver effectively the proposed level of resources while endeavouring to avoid significant variations between the different years, as well as significant end-of-year balances.
- 5. The Commission shall present a proposal by 10 October of the year $n + 1$, setting out:
 - (a) the amount of the third instalment of the contribution for the year $n + 1$;

The Council shall decide on the proposal at the latest 21 calendar days following the presentation by the Commission of its proposal.

The Member States shall pay the third instalment at the latest 21 calendar days following the adoption of the Council decision.

- 6. The sum of the instalments relating to a certain year shall not exceed the annual amount of the contribution determined for that year. The annual amount of the contribution shall not exceed the ceiling determined for that year. The ceiling shall not be increased except in accordance with Article 7(4) of the Internal Agreement. A possible increase of the ceiling shall be made part of the proposals referred to in paragraphs 2, 3 and 5 of this Article.
- 7. The ceiling for the annual amount of the contribution to be paid by each Member State for the year $n + 2$, the annual amount of the contribution for the year $n + 1$ and the instalments of the contributions shall specify:
 - (a) the amount managed by the Commission; and
 - (b) the amount managed by the EIB, including the interest rates subsidies managed by it.

Article 20

Payment of the instalments

- 1. Calls for contributions shall first use up the amounts laid down for previous European Development Funds, one after the other.

2. The contributions of the Member States shall be expressed in euro and shall be paid in euro.
3. The contribution referred to in point (a) of Article 19(7) shall be credited by each Member State to a special account entitled ‘European Commission — European Development Fund’ opened with the central bank of the relevant Member State or the financial institution designated by it.
