COUNCIL DECISION

**concerning the position to be taken on behalf of the European Union in the Fishery
Committee for the Eastern Central Atlantic**

ANNEX I

The position to be taken on the Union's behalf in the Fishery Committee for the Eastern Central Atlantic (CECAF)

1. PRINCIPLES

In the framework of the CECAF, the Union shall:

- a) act in accordance with the objectives and principles pursued by the Union within the common fisheries policy (CFP), notably through the precautionary approach and the aims related to the maximum sustainable yield as laid down in Article 2(2) of Regulation (EU) No 1380/2013, to promote the implementation of an ecosystem-based approach to fisheries management, to avoid and reduce, as far as possible, unwanted catches, and gradually eliminate discards, and to minimise the impact of fishing activities on marine ecosystems and their habitats, as well as, through the promotion of economically viable and competitive Union fisheries, to provide a fair standard of living for those who depend on fishing activities and take account of the interests of consumers;
- b) work towards an appropriate involvement of stakeholders in the preparation phase for CECAF measures adopted within the CECAF in accordance with its revised Statutes;
- c) ensure that measures adopted within the CECAF are consistent with international law, and in particular with the provisions of the 1982 UN Convention on the Law of the Sea, the 1995 UN Agreement relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks, the 1993 Agreement to promote compliance with international conservation and management measures by fishing vessels on the high seas, and the 2009 Food and Agriculture Organization Port State Measures Agreement;
- d) promote positions consistent with the best practices of regional fisheries management organisations (RFMOs) and regional fisheries bodies (RFBs) in the same area, and ensure the promotion of coordination between RFMOs and relevant organisations such as subregional fisheries organisations and regional sea conventions (RSCs), and cooperation with global organisations, as applicable, within their mandates, where appropriate, including cooperation mechanisms amongst non-tuna RFMOs similar to the so-called Kobe process for tuna RFMOs;
- e) seek consistency and synergy with the policy that the Union is pursuing as part of its bilateral fisheries relations with third countries, and ensure coherence with its other policies, notably in the field of external relations, employment, environment, trade, development, research and innovation;
- f) ensure that the Union's international commitments are respected;
- g) act in line with the Council Conclusions of 19 March 2012 on the Commission Communication on the external dimension of the CFP¹;
- h) aim to create a level playing field for the Union fleet within the area under the competence of the CECAF, based on the same principles and standards as those applicable under Union law, and to promote the uniform implementation of those principles and standards;

¹ 7087/12 REV 1 ADD 1 COR 1.

- i) act in line with the Joint Communication by the High Representative of the Union for Foreign Affairs and Security Policy and the Commission on *International ocean governance: an agenda for the future of oceans*², as well as the Council conclusions on that Joint Communication³ and promote measures to support and enhance the effectiveness of the CECAF and, where relevant, improve its governance and performance, notably by supporting the reform of the CECAF to become a fully fledged RFMO, as a contribution to the sustainable management of oceans in all its dimensions.

2. ORIENTATIONS

The Union shall, where appropriate, endeavour to support the adoption of the following actions by the CECAF:

- a) measures for the conservation and management of living marine resources in the area under the competence of the CECAF based on the best scientific advice available;
- b) measures on monitoring, control and surveillance activities in the area under the competence of the CECAF, including to prevent, deter and eliminate illegal, unreported and unregulated (IUU) fishing activities;
- c) measures to minimise the negative impact of fishing activities and aquaculture on marine biodiversity and marine ecosystems and their habitats, including measures to reduce marine pollution and prevent the discharge of plastics at sea and reduce the impact on marine biodiversity and ecosystems of plastics present at sea, protective measures for vulnerable marine ecosystems in the area under the competence of the CECAF in line with the FAO International Guidelines for the Management of Deep-sea Fisheries in the High Seas and measures to avoid and reduce as far as possible unwanted catches, including in particular vulnerable marine species, and to gradually eliminate discards;
- d) measures to reduce the impact of Abandoned, Lost or Otherwise Discarded Fishing Gear (ALDFG) in the ocean and to facilitate the identification and recovery of such gear;
- e) common approaches with other RFBs and RFMOs, where appropriate, in particular those involved in fisheries management in the same area;
- f) recommendations, where appropriate and to the extent permitted under the relevant constituent documents, encouraging the implementation of the Work in Fishing Convention of the International Labour Organisation (ILO);
- g) additional technical measures based on advice from the subsidiary bodies and working groups of the CECAF.

ANNEX II

Year to year specification of the Union's position to be taken in sessions of the Fishery Committee for the Eastern Central Atlantic

Before each session of the CECAF, when that body is called upon to adopt decisions capable of decisively influencing the content of the legislation adopted by the Union legislature, the necessary steps shall be taken so that the position to be expressed on the Union's behalf takes account of the latest scientific and other relevant information transmitted to the Commission, in accordance with the principles and orientations set out in Annex I.

To this effect, and based on that information, the Commission shall transmit to the Council, or to its preparatory bodies, in sufficient time before each session of the CECAF, a written document setting out the particulars of the proposed specification of the Union's position for discussion and endorsement of the details of the position to be expressed on the Union's behalf.

If in the course of a CECAF session it is impossible to reach an agreement, including on the spot, the matter shall be referred to the Council or its preparatory bodies, in order for the Union's position to take account of new elements.
