Subject: MONTHLY SUMMARY OF COUNCIL ACTS - JUNE 2015

---

This document lists the acts adopted by the Council in June 2015.<sup>1 2</sup>

It provides information on the adoption of legislative acts, including:

- the date of adoption,
- the relevant Council session,
- the number of the document adopted,
- the Official Journal reference,
- applicable voting rules, voting results and, where appropriate, explanations of vote and statements published in the minutes of the Council.

---

<sup>1</sup> With the exception of certain acts of limited scope such as procedural decisions, appointments, decisions of bodies set up by international agreements, specific budgetary decisions, etc.

<sup>2</sup> In the case of legislative acts adopted in the ordinary legislative procedure, there may be a difference between the date of the Council's meeting where the legislative act is adopted and the actual date of the act in question, since legislative acts adopted in the ordinary legislative procedure are only considered to have been adopted after signature by both the President of the Council and the President of the European Parliament and the Secretaries-General of the two institutions.

This document also contains information on the adoption of non-legislative acts that the Council has decided to make public.

This document is also available on the Council's website at:

[Monthly summaries of Council acts \(acts\) - Consilium](#)

Documents listed in the summary may be obtained from the public register of Council documents at: [Documents and publications - Consilium](#)

It should be noted that this document is exclusively for information purposes - only Council minutes are authentic. These are available on the Council's website at: [Council Minutes - Consilium](#)

<p><b>Statement by the Commission</b></p> <p>The Commission does not consider it necessary that a Council Decision authorising the opening of negotiations indicates a substantive legal basis.</p> <p><b>Statement by the Commission</b></p> <p>Following article 31(2) of Regulation (EU) No 1380/2013 of the European Parliament and of the Council on the Common Fisheries Policy, the Commission fully recognizes the importance of the sustainable exploitation of marine biological resources and the consequent need to ensure a proper implementation of the concept of surplus, as expressed in article 62(2) of the UNCLOS, particularly when Sustainable Fisheries Partnership Agreement and associated protocols rule the access of the EU external fleet to resources distributed in waters of the partner country.</p> <p>However, regarding article 64 of the UNCLOS and article 31(4) of the R(EU) N° 1380/2013, the Commission considers that the concept of surplus applies to a lesser degree to fishing activities exploiting highly migratory species, where management objectives and management measures – priority access rules, catch, capacity or effort limits, and sharing keys where relevant – have to be primarily fixed at regional or sub-regional levels by the Contracting Parties to competent Regional Fisheries Management Organisations, taking in due account the relevant scientific advice.</p>

### Statement by France

France wishes to see a genuine long-term management strategy introduced for the stock of sea bass in the North-East Atlantic.

Since the beginning of 2015, in the absence of a total allowable catch (TAC) or a management plan, the northern stock has been subject to three groups of ad hoc measures put in place following the release in June 2014 of scientific advice indicating a rapid decline in the stock of sea bass in the North-East Atlantic (divisions IVb, IVc, VIIa and VIId-h) since 2012:

- ban on pelagic trawl fishing from 28 January 2015 to 31 April 2015;
- catch limit of three sea bass per person per day in recreational fisheries;
- area closures and introduction of monthly limits for different métiers.

There are also plans to increase the minimum catch size for commercial fisheries.

Given that this species is spread out over a very wide area and that a large number of small-scale fisheries are involved, it is essential that we move away from the current approach of managing stocks through successive emergency measures which have significant socioeconomic consequences, in order to provide fishing businesses with a more stable framework and thus ensure sustainable and equitable management of this stock.

For this reason, France calls on the European Commission to establish as soon as possible a multiannual management plan for sea bass in the North-East Atlantic, based on a balanced and proportionate approach.

France reiterates that it would also welcome the establishment of a total allowable catch (TAC) for this species.

**Statement by Belgium**

Belgium attaches great importance to the proper functioning of the courts of the European Union. We fully support the goal of the reform of the Statute of the Court of Justice, which is to find a structural solution to the problem of the backlog of cases before the General Court. Given the importance of the objective pursued, Belgium does not oppose the Council's position. We nevertheless abstain because we consider that it could have been achieved more appropriately by other means. In particular, we consider that it would have been sound management to provide for an objective assessment to be carried out before moving on to the third stage in order to determine what the requirements will be at that time.

**Statement by Germany**

Germany welcomes the fact that by doubling the number of judges at the General Court, a structural and sustainable reform is being implemented that will enable the General Court's excessive workload to be reduced and will ensure that legal redress in the European Union is guaranteed within a reasonable time.

At the same time, Germany is aware that increasing the number of judges at the General Court will have a significant financial impact on the Union's budget. Germany is concerned to ensure cost effectiveness of the reform and to minimise its budgetary impact and therefore welcomes the Court's efforts to evaluate the General Court's situation in each phase of its expansion and, where appropriate, to make the necessary adjustments to the General Court's administrative expenditure, but without changing the number of additional judges. Germany likewise supports the Court's commitment to appoint no further legal secretaries or support staff during the third phase in September 2019 when the number of judges is increased by a further nine judges.

In order to support the long-term financing of a thus enlarged General Court, Germany invites the Court of Justice to take all appropriate measures and to give consideration, inter alia, to the possibility of introducing court fees for proceedings before the Courts of the European Union.

**Statement by the Court of Justice**

1. As a follow-up to the reform of the General Court, the Court of Justice proposes to present yearly figures on its judicial activity, including on the evolution of appeal cases, and, if necessary, suggest appropriate measures.
2. At the second and third stages of the enlargement of the General Court, an assessment of the situation of the General Court will take place which, if necessary, could lead to certain adjustments, notably in terms of the administrative expenditure of the Court.
3. Finally, the Court of Justice recalls that on the occasion of the approval of the revised Rules of Procedure of the General Court in January 2015, it invited the General Court to submit, before the swearing-in of the first twelve additional judges, a proposal regarding the creation of specialised chambers within the General Court and to align its internal rules governing the attribution of cases in the General Court with those that the Court of Justice applies.

<p><b>Statement by the Slovak Republic</b></p> <p>The Slovak Republic would like to express concerns about the retroactive application of the tariff suspensions, as it is not consistent with the fundamental principles of the EU legislation. However, we admit that there is a possibility of short-term retroactivity in extraordinary situations, such as reclassification of goods, changes in the GSP scheme or other legal and technical corrections.</p> <p>The requests for the retroactive implementation of the tariff suspensions and other substantial amendments to the proposal for Regulation suspending the autonomous Common Customs Tariff duties on certain agricultural and industrial products cannot be submitted directly to the Customs Union Working Party (CUWP). In the first step they need to be discussed at the expert level and approved by the Economic Tariff Questions Group (ETQG).</p> <p>The Slovak Republic is of the view that the requests for retroactivity unveil the need for definition of appropriate criteria in the existing scheme of tariff suspensions and quotas which would regulate the use of retroactivity. In this respect we are open for the discussion on possible modifications of the Commission Communication (2011/C 363/02).</p>
