Proposal for a

COUNCIL DECISION

on the position to be taken on behalf of the European Union within the Association Council established by the Euro-Mediterranean Agreement establishing an association between the European Community and its Member States, of the one part, and the Republic of Lebanon, of the other part, as regards the amendment of Protocol 4 to that Agreement concerning the definition of the concept of 'originating products' and methods of administrative cooperation

EXPLANATORY MEMORANDUM

1. SUBJECT MATTER OF THE PROPOSAL

This proposal concerns the decision establishing the position to be taken on the Union's behalf in the Association Council of the EU-Lebanon Association Agreement in connection with the envisaged adoption of a Decision amending Protocol 4 of the EU-Lebanon Association Agreement.

2. CONTEXT OF THE PROPOSAL

2.1. The Euro-Mediterranean Agreement establishing an Association between the European Community and its Member States, of the one part, and the Republic of Lebanon, of the other part

The Euro-Mediterranean Agreement establishing an Association between the European Community and its Member States, of the one part, and the Republic of Lebanon, of the other part¹ ('the Agreement') aims to establish the conditions for the gradual liberalization of trade in goods, services and capital. The Agreement entered into force on 1st of April 2006.

2.2. The Association Council

The Association Council established according to the provisions of article 74 of the Agreement, may decide to amend the provisions of Protocol 4 concerning the definition of the concept of 'originating products' and methods of administrative cooperation (Article 38 of Protocol 4). The Association Council consists of the members of the Council of the European Union and members of the Commission of the European Union, on one hand, and the members of the Government of Lebanon, on the other. The Association Council draws up its decisions and recommendations by agreement between the two Parties.

2.3. The envisaged act of the Association Council

On its next meeting, the Association Council is to adopt a Decision regarding the amendment of the provisions of Protocol 4 concerning the definition of the concept of 'originating products' and methods of administrative cooperation ('the envisaged act').

The purpose of the envisaged act is the amendment of the provisions of Protocol 4 concerning the definition of the concept of 'originating products' and methods of administrative cooperation.

The envisaged act will become binding on the parties in accordance with Article 76, paragraph 2 of the Association Agreement.

¹ OJ L 143, 30.05.2006, p2.

3. POSITION TO BE TAKEN ON THE UNION'S BEHALF

The Regional Convention on pan-Euro-Mediterranean preferential rules of origin ('the Convention') lays down provisions on the origin of goods traded under relevant Agreements concluded between the Contracting Parties. The EU and Lebanon signed the Convention on 15 June 2011 and on 22 October 2014 respectively.

The EU and Lebanon deposited their instrument of acceptance with the depositary of the Convention on 26 March 2012 and 25 October 2017 respectively. As a consequence, in application of its Article 10(2), the Convention entered into force in relation to the EU and Lebanon on 1 May 2012 and on 1 December 2017 respectively.

Article 6 of the Convention provides that each Contracting Party shall take appropriate measures to ensure that the Convention is effectively applied. To that effect, the Association Council established by the Association Agreement between the European Union and its Member States, of the one part, and the Republic of Lebanon, of the other part, should adopt a Decision introducing the rules of the Convention under Protocol 4 concerning the definition of the concept of 'originating products' and methods of administrative cooperation. This is done by introducing in the amended Protocol a reference to the Convention that will render it applicable.

At the same time, the ongoing process of amending the Convention resulted in a new set of modernised and more flexible rules of origin. The formal amendment of the Convention requires a vote by unanimity by the Contracting Parties. The fact that there are still some contracting parties which have objections to the amendment risks delaying its adoption. Additionally, given the number of Contracting Parties and their respective internal procedures required to be in a position to vote on the formal adoption and to prepare the entry into force of the amended rules, no clear timeframe for the application of the amended Convention can be established.

Against this background, Lebanon has requested: (i) to start applying the amended set of rules as soon as possible, alternatively to the current rules of the Convention, while awaiting the outcome of the amendment process; and (ii) to agree on more relaxed rules of origin for certain textile products within limited annual quotas. Such requests are explained below.

(a) Alternative rules of origin.

These rules are intended for provisional application, on an optional and bilateral basis, by the EU and Lebanon pending the conclusion and entry into force of the amendment of the Convention. They are intended to apply alternatively to the rules of the Convention, as the latter are laid down without prejudice to the principles laid down in the relevant agreements and other related bilateral agreements among Contracting Parties. Accordingly, these rules will not be mandatory but of optional application by economic operators that wish to use preferences based on them, instead of Convention-based preferences. They are not intended to modify the Convention, which will remain in application among the Contracting Parties, and will not alter the rights and obligations of the Contracting Parties under the Convention.

(b) Relaxed rules of origin for certain textile products.

Moreover, during the discussions on the amendments to the Convention, Lebanon asked for more flexible list rules for certain textile products, in order to allow garments produced from imported tissues to be originating under the agreement. Lebanon asked that those rules last for

15 years and are applied without any quota. Considering, on one side, the serious effects of the Syrian refugee crisis on Lebanon and the limited development of the Lebanese textiles sector and, on the other side, the needs of the EU industry, it is proposed to consider the Lebanese request by establishing limited origin quotas that would allow the use of more relaxed rules. These limited quotas represent a total value of € 17 million or a value similar to the average exports of clothing products from Lebanon to the EU in years 2015-2017. Such derogation shall apply for 10 years. The Lebanese also requested a review clause that would allow for a modification – possibly an increase – of the quota after three years. It is proposed that a review is foreseen after at least 5 years, without explicitly committing on a revision of the quota but on the possibility of amending the system. The new rules should make it easier for the EU industry to export to Lebanon, as a result of applying alternative and more modern rules of origin; and for the Lebanon industry to export to the EU, as a result of more relaxed rules of origin for certain textile products within limited annual quotas.

The position to be taken by the EU within the Association Council should be established by the Council.

The proposed amendments insofar they relate to the current Convention are technical in nature and do not affect the substance of the protocol on rules of origin currently in effect. Therefore, they do not require an impact assessment.

3.1. Details on the alternative rules of origin

The proposed amendments relating to the introduction of the alternative set of rules of origin provide for additional flexibilities and elements of modernisation, which have already been agreed by the Union in other bilateral agreements (Comprehensive Economic and Trade Agreement between the EU and Canada, EU-Vietnam Free Trade Agreement, EU-Japan Economic Partnership Agreement, EU-South African Development Community Economic Partnership Agreement) or preferential schemes (Generalised System of Preferences). The main ones are the following:

(a) Wholly obtained products - ‘vessels’ conditions:

The so-called vessel conditions contained in the alternative set of rules are simpler and provide for more flexibility. Compared to the current text (art. 5) certain conditions have been deleted (i.e. specific crew requirements); others have been amended in order to provide for more relaxation (ownership).

(b) Sufficient working or processing – Average basis

The proposed alternative set of rules (art. 4) offers the exporter the flexibility to ask the customs authorities an authorisation to calculate the ex-works price and the value of non-originating materials on an average basis in order to take account of fluctuations in costs and currency rates. This should provide exporters with more predictability.

(c) Tolerance

The current tolerance (art. 6) is set at 10% in value of the ex-works price of the product.

The proposed text (art. 5) provides for agricultural products a tolerance of 15% of the net weight of the product and for industrial products a tolerance of 15% in value of the ex-works price of the product.

The tolerance in weight introduces a more objective criterion and a 15% threshold should provide a sufficient level of leniency. It ensures also that the international price fluctuation of the commodities does not have an impact on the origin of the agricultural products.

(d) Cumulation

The proposed text (art. 7) maintains diagonal cumulation for all products. In addition, it provides for a generalised full cumulation for all products except textiles and clothing listed in Chapters 50-63 of the Harmonised System (HS).

Moreover, for products of HS Chapters 50-63, it provides for bilateral full cumulation. Finally, the Union and Lebanon will have the option to agree to extend the generalised full cumulation also to products of HS Chapters 50-63.

(e) Accounting segregation

Under the current rules (art. 20 of 'the Convention'), customs authorities may authorise accounting segregation where 'considerable cost or material difficulties arise in keeping separate stocks'. The amended rule (art. 12) stipulates that customs authorities may authorise accounting segregation 'if originating and non-originating fungible materials are used'.

An exporter will no longer have to justify when requesting an authorisation for accounting segregation that keeping separate stocks has a considerable cost or gives rise to material difficulties; it will be sufficient to indicate that fungible materials are used.

In the case of sugar, being a material or a final product, originating and non-originating stocks will no longer have to be kept physically separated.

(f) Principle of territoriality

The current rules (art. 12) allow for certain working or processing to be done outside the territory under certain conditions, with the exception of products of HS Chapters 50 to 63, such as textiles. The proposed rules (art. 12) no longer contain the exclusion for textiles.

(g) Non-alteration

The proposed non-alteration rule (art. 14) provides for more leniencies for the movement for originating products between Contracting Parties. It should avoid situations whereby products, for which there is no doubt about their originating status, are excluded from the benefit of the preferential rate at importation because the formal requirements of the direct transport provision are not met.

(h) Prohibition of drawback of, or exemption from, customs duties

Under the current rules (art. 15) the general principle of the prohibition of drawback applies to materials used in the manufacture of any product. Under the proposed rules (art. 16) the prohibition is eliminated for all products, with the exception of materials used in the manufacture of products falling within the scope of HS Chapters 50 to 63. Nevertheless, the text also provides for some exceptions to the prohibition of duty drawback to these products.

(i) Proof of origin

The text introduces a single type of proof of origin (EUR.1 or origin declaration), instead of the double approach EUR.1 and EUR.MED, which substantially simplifies the system. This should improve compliance by economic operators by avoiding mistakes due to complex rules as well as facilitate the management by the customs authorities. Moreover, it should not affect the capacity of verification of proofs of origin, which remains the same.

The amended rules (art. 17) also include the option to agree on the application of a system of registered exporters (REX). These exporters registered in a common database will be responsible for making out themselves statements on origin without going through the approved exporter procedure. The statement on origin will have the same legal value as the origin declaration or the movement certificate EUR.1.

Further, the amended rules foresee the option to agree on the use of proof of origin that is issued and/or submitted electronically.

In order to be able to distinguish products originating under the alternative set of rules from products originating under the Convention, origin certificates or invoice declarations based on the alternative set of rules will have to include a statement pointing to the rules applied.

(j) Validity of a proof of origin

It is proposed to prolong the period of validity of a proof of origin from 4 to 10 months. It should again provide for more leniencies for the movement for originating products between the Parties.

3.2. List rules

3.2.1. Agricultural products

(a) Value and weight

The limit of non-originating materials was expressed only in value. The new thresholds are expressed in weight in order to avoid price fluctuation and currency fluctuation (e.g. ex-chapters 19, 20, 2105, 2106) together with a deletion of certain limit for sugar (e.g. chapter 8 or HS 2202).

The alternative set of rules raised the threshold of weight (from 20% to 40%) and the possibility for some headings to use an alternative choice value or weight. The HS chapters and headings concerned by the change are notably: ex-1302, 1704 (alternative rule weight or value), 18 (1806: alternative rule weight or value), 1901.

(b) Adaptation to sourcing patterns

Other agricultural products (i.e. vegetable oils, nuts, tobacco) contain more flexible rules adapted to the economic reality notably for HS chapters 14, 15, 20 (including heading 2008), 23, 24. The alternative set of rules strike the balance between regional and global sourcing like for chapters 9 and 12. Rules have also been simplified (reduction of exceptions) in chapters 4, 5, 6, 8, 11, ex-13.

3.2.2. Industrial products (except textiles)

The proposed compromise contains considerable changes compared to the current rules:

- regarding a number of products the current Chapter rule contains a double cumulative condition. This is brought to a single condition (HS Chapters 74, 75, 76, 78 and 79);
- a large number of specific rules that are derogating from the Chapter rule have been deleted (HS Chapters 28, 35, 37, 38 and 83). This more horizontal approach implies a simpler panorama for operators and customs;
- the inclusion in the current Chapter rule of an alternative rule thereby offering to the exporter more choice in meeting the origin criterion (Chapters 27, 40, 42, 44, 70 and 83, 84 and 85).

All these changes result in updated and modernised list rules which in general make it easier to meet the criterion for obtaining the originating status of a product. In addition, the above-mentioned possibility of using an average basis over a period of time to calculate the ex-works price and the value of non-originating will provide for further simplification for exporters.

3.2.3. *Textiles*

In relation to textiles and garments, new options have been introduced regarding outward processing and tolerances. New origin conferring processes have also been introduced for these products, especially for fabric which would become more easily available. Finally, full bilateral cumulation will apply also to these products. Such cumulation will allow processing carried out on textile materials (i.e. weaving, spinning etc.) to be taken into account in the production process in the cumulation zone.

The proposed bilateral quotas for certain articles of apparel and clothing accessories would allow imports with a value of about EUR 17 million based on the relaxed rules (estimate based on average unit prices of past imports from Lebanon). The impact on the European market of such limited imports under the quota rules are expected to be negligible.

4. **LEGAL BASIS**

4.1. **Procedural legal basis**

4.1.1. *Principles*

Article 218(9) of the Treaty on the Functioning of the European Union (TFEU) provides for decisions establishing ‘*the positions to be adopted on the Union’s behalf in a body set up by an agreement, when that body is called upon to adopt acts having legal effects, with the exception of acts supplementing or amending the institutional framework of the agreement.*’

The concept of ‘*acts having legal effects*’ includes acts that have legal effects by virtue of the rules of international law governing the body in question. It also includes instruments that do not have a binding effect under international law, but that are ‘*capable of decisively influencing the content of the legislation adopted by the EU legislature*’².

² Judgment of the Court of Justice of 7 October 2014, Germany v Council, C-399/12, ECLI:EU:C:2014:2258, paragraphs 61 to 64.

4.1.2. Application to the present case

The Association Council is a body set up by an agreement, namely the Euro-Mediterranean Agreement establishing an Association between the European Community and its Member States, of the one part, and the Republic of Lebanon, of the other part.

The act which the Association Council is called upon to adopt constitutes an act having legal effects. The envisaged act will be binding under international law in accordance with Article 76, paragraph 2 of the Association Agreement.

The envisaged act does not supplement or amend the institutional framework of the Agreement.

Therefore, the procedural legal basis for the proposed decision is Article 218(9) TFEU.

4.2. Substantive legal basis

4.2.1. Principles

The substantive legal basis for a decision under Article 218(9) TFEU depends primarily on the objective and content of the envisaged act in respect of which a position is taken on the Union's behalf.

4.2.2. Application to the present case

The main objective and content of the envisaged act relate to the common commercial policy.

Therefore, the substantive legal basis of the proposed decision is Article 207(3) and first subparagraph of Article 207(4) TFEU.

4.3. Conclusion

The legal basis of the proposed decision should be Article 207(3) and first subparagraph of Article 207(4), in conjunction with Article 218(9) TFEU.

5. BUDGETARY IMPLICATIONS

The derogation within certain quotas for the textile sector may have an effect on customs revenues, which are own resources of the EU. However, the likely impact is very limited due to the relatively low value of Lebanese exports to the EU in the sectors concerned, and the fact that in all likelihood the derogation will be used for new exports, rather than to replace exports that are currently dutiable and which would be subject to no duties under the derogation. The use of alternative origin rules may also have an impact, even if not quantifiable.

6. PUBLICATION OF THE ENVISAGED ACT

As the act of the Association Council will amend the Association Agreement, it is appropriate to publish it in the *Official Journal of the European Union* after its adoption.

Proposal for a

COUNCIL DECISION

on the position to be taken on behalf of the European Union within the Association Council established by the Euro-Mediterranean Agreement establishing an association between the European Community and its Member States, of the one part, and the Republic of Lebanon, of the other part, as regards the amendment of Protocol 4 to that Agreement concerning the definition of the concept of 'originating products' and methods of administrative cooperation

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 207(3) and the first subparagraph of Article 207(4), in conjunction with Article 218(9) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) The Euro-Mediterranean Agreement establishing an association between the European Community and its Member states, of the one part, and the Republic of Lebanon, of the other part ('the Agreement') was concluded by the Union by Council Decision 2006/356/EC¹ and entered into force on 1 April 2006.
- (2) The Agreement includes Protocol 4 concerning the definition of the concept of 'originating products' and methods of administrative cooperation. Pursuant to Article 38 of that Protocol, the Association Council established by Article 74(1) of the Agreement ("Association Council") may decide to amend its provisions.
- (3) The Association Council, during its next meeting is to adopt a Decision on an amendment of Protocol 4.
- (4) It is appropriate to establish the position to be taken on the Union's behalf in the Association Council as the Association Council Decision will be binding on the Union.
- (5) The Regional Convention on pan-Euro-Mediterranean preferential rules of origin ('the Convention') was concluded by the Union by Council Decision 2013/93/EU² and

¹ Council Decision of 14 February 2006 concerning the conclusion of the Euro-Mediterranean Agreement establishing an association between the European Community and its Member States of the one part, and the Republic of Lebanon, of the other part (OJ L 143, 30.5.2006, p. 2).

² Council Decision 2013/93/EU of 14 April 2011 on the signing, on behalf of the European Union, of the Regional Convention on pan-Euro-Mediterranean preferential rules of origin (OJ L 54, 26.2.2013, p. 4).

entered into force in relation to the Union on 1 May 2012. It lays down provisions on the origin of goods traded under relevant agreements concluded between the Contracting Parties, which apply without prejudice to the principles laid down in those agreements.

- (6) Article 6 of the Convention provides that each Contracting Party is to take appropriate measures to ensure that the Convention is effectively applied. To that effect, the Association Council should adopt a decision introducing in Protocol 4 to the Agreement a reference to the Convention.
- (7) The discussions on amending the Convention have resulted in a new set of modernised and more flexible rules of origin to be incorporated into the Convention. The Union and Lebanon have signalled their will to apply the new rules as soon as possible bilaterally, on an alternative basis alongside the current rules while awaiting the final outcome of the amending process.
- (8) In the context of amending the Convention, Lebanon has formulated to the Union a request for more flexible rules of origin for certain textile products, in order to allow garments produced from imported tissues to be regarded as originating under the Agreement. In the light of the serious effects of the Syrian refugee crisis on Lebanon and given the limited development of the Lebanese textiles sector, the Council, on behalf of the Union, considers it justified to agree to more relaxed rules of origin for certain textile products within limited annual quotas,

HAS ADOPTED THIS DECISION:

Article 1

The position to be taken on the Union's behalf in the Association Council shall be based on the draft act of the Association Council attached to this Decision.

Article 2

This Decision is addressed to the Commission.

Done at Brussels,

*For the Council
The President*
