## **ITEMS DEBATED**

### **EUROPEAN SEMESTER 2017 - LESSONS LEARNED**

The Council took stock of the 'European Semester' policy monitoring process in the light of lessons learned from the 2017 exercise.

The European Semester involves simultaneous monitoring of the member states' economic, fiscal and employment policies during a roughly six-month period every year. Covering a broad range of policy areas, it involves several Council configurations and preparatory committees.

The 2018 European Semester will start in November 2017 with the Commission's publication of its annual growth survey.

## **G20 AND IMF MEETINGS IN WASHINGTON DC**

The Council discussed preparations for international finance meetings to be held in Washington DC between 12 and 15 October 2017, namely:

- a meeting of G20 finance ministers and central bank governors;
- IMF annual meetings.

The G20 meeting will feature a discussion on the state of the global economy, a compact with Africa, international financial institutions, financial regulation, taxation issues and the outlook for the Argentinian G20 presidency. It will be the last G20 ministerial meeting of the German G20 presidency, with Argentina taking over on 1 December 2017.

## **CLIMATE CHANGE**

The Council adopted [conclusions](#) on climate change ahead of the 23rd conference of the parties (COP23) to the UN framework convention on climate change, to be held in Bonn from 6 to 17 November 2017.

The conclusions constitute a mandate for the EU's negotiators as concerns the financing aspects of climate change.

The Bonn conference will follow up on a global agreement reached at COP21 in Paris in December 2015.

The EU and its member states have committed to scale up their public finance contributions for the coming years. The conclusions call for the participation of a broader range of contributors, urging other developed countries to meet their commitments and to mobilise private finance.

## **OTHER BUSINESS**

### **– *Financial services - Legislative proposals***

The Council was updated regarding work on legislative proposals on financial services.

### **– *VAT reform***

The Commission presented proposals for a reform of the EU's VAT system, aimed at simplifying the VAT system and making it more fraud-proof and business-friendly.

The proposals set out to create a definitive VAT system to replace the current set-up which, dating from 1993, was conceived as a transitional VAT system.

### **– *Taxation of the digital economy***

The Commission presented a communication on taxation of the 'digital economy', and the presidency reported on an EU summit on digital issues held in Tallinn on 29 September 2017.

The presidency also presented next steps regarding taxation of the digital economy, following a discussion by finance ministers on 16 September 2017 at an informal meeting in Tallinn.

Conclusions will be prepared for the Council's meeting on 5 December 2017 as an input for discussions by the OECD and the spring 2018 G20 finance ministers meeting. These will reflect the member states' views on how to ensure fair taxation of the digital economy.

**OTHER ITEMS APPROVED****ECONOMIC AND FINANCIAL AFFAIRS****Double taxation - Dispute resolution**

The Council adopted a directive introducing a new system for resolving double taxation disputes within the EU.

The directive strengthens the mechanisms used to resolve disputes between member states that arise from the interpretation of agreements on the elimination of double taxation.

The aim is to encourage a favourable tax environment where compliance costs for businesses are reduced to a minimum.
