1. Introduction

The Oireachtas Joint Committee on Communications, Climate Action and Environment, considers COM(2018) 340 Proposal for a Regulation of the European Parliament and of the Council on the reduction of the impact of certain plastic products on the environment to be significantly important to Ireland and the EU.

2. Scrutiny by the Joint Committee

The Joint Committee on Communications, Climate Action and Environment (hereinafter referred to as the "Committee") has scrutinised this proposal at two meetings on 04 July and 11 July, 2018.

- 2.1 At its meeting of 04 July 2018, the Committee agreed that COM(2018)340 warranted further scrutiny and agreed to invite officials from the Department of Communications, Climate Action and Environment to a meeting of the Committee to further discuss the proposals, and to be briefed on the technical aspects of the proposals.
- 2.2 Officials from the Department of Communications, Climate Action and Environment attended the Committee meeting on [11 July 2018](#). Following this meeting, the Committee agreed, to prepare a Political Contribution.

3. Decision of the Joint Committee

- 3.1 On 18 September 2018 the Committee agreed to forward a copy of this Political Contribution to Mr Jean Claude-Juncker, President of the European Commission, Mr Antonio Tajani MEP, President of the European Parliament, and Mr Donald Tusk, President of the European Council and to copy it to Mr Denis Naughten T.D., Minister for Communications, Climate Action and Environment.
- 3.2 The Joint Committee further agreed, that in the interests of inter-parliamentary cooperation on EU matters, a copy of this report be forwarded to the appropriate Committee in the National Parliament of each EU Member State and each of Ireland's MEPs.

4. Opinion of the Joint Committee

Having considered the proposal in detail, the Committee makes the following observations.

- 4.1 The Committee welcomes the proposals and supports the objectives to tackle the problems posed by single-use plastic items, and believes that working proactively with our European colleagues will achieve a greater environmental benefit.
- 4.2 The Committee also supports the potential benefits of the proposal to prevent and to reduce the impact of certain plastic products on the environment, in particular the aquatic environment. This is achieved by defining specific waste prevention and waste management objectives, and measures in relation to single-use plastic products that are most found on the beaches in the Union as well as fishing gear containing plastic.
- 4.3 The Committee also supports the proposal for Member States to set up separate collection targets for beverage bottles that are single-use plastic products in the framework of the extended producer responsibility schemes, or by establishing deposit refund schemes, or by any other measure that they find appropriate.
- 4.4 The Committee recommends that, in line with international best practice, the processing of the Proposal should be expedited and implemented as quickly as possible.
- 4.5 The Committee also recommends that any joint assessment reports must be translated into all official languages of the European Union immediately to ensure that all efficiency gains are realised.
