- (1) ~~In recent years, the challenge posed by corporate income tax avoidance has increased considerably and has become a major focus of concern within the Union and globally. The European Council in its conclusions of 18 December 2014 acknowledged the urgent need to advance efforts in the fight against tax avoidance both at global and Union level. The Commission in its communications entitled ‘Commission Work Programme 2016 - No time for business as usual’² and ‘Commission Work Programme 2015 - A New Start’³ identified as a priority the need to move to a system whereby the country in which profits are generated is also the country of taxation. The Commission also identified as a priority the need to respond to our societies’ call for fairness and tax transparency.~~

- (2) ~~The European Parliament in its resolution of 16 December 2015 on bringing transparency, coordination and convergence to corporate tax policies in the Union⁴ acknowledged that increased transparency in the area of corporate taxation can improve tax collection, make the work of tax authorities more efficient and ensure increased public trust and confidence in tax systems and governments.~~

In parallel with the work undertaken by the Council to fight corporate income tax avoidance, it is necessary to enhance public scrutiny of corporate income taxes borne by multinational undertakings carrying out activities in the Union, as this is an essential element to further foster corporate responsibility to contribute to the welfare of our societies, to promote a better informed public debate and to regain the trust of citizens of the Union in the fairness of the national tax systems. Such public scrutiny can be achieved by means of a report on income tax information, irrespective of where the ultimate parent undertaking of the multinational group is established.

³ COM(2014) 910 final of 16 December 2014.

⁴ 2015/2010(INL)

- (3) Following the European Council conclusions of 22 May 2013, a review clause was introduced in Directive 2013/34/EU of the European Parliament and of the Council⁵ requiring the Commission to consider the possibility of introducing an obligation on large undertakings of additional industry sectors to produce, on an annual basis, a country-by-country reporting taking into account the developments in the Organisation for Economic Cooperation and Development (OECD) and the results of related European initiatives.
- (4) ~~Calling for a globally fair and modern international tax system in November 2015, the G20 endorsed the OECD ‘Action Plan on Base Erosion and Profit Shifting’ (BEPS) which aimed at providing governments with clear international solutions to address the gaps and mismatches in existing rules which allow corporate profits to shift to locations of no or low taxation, where no real value creation may take place. In particular, BEPS Action 13 introduces a country-by-country reporting by certain multinational undertakings to national tax authorities on a confidential basis. On 27 January 2016, the Commission adopted the ‘Anti-Tax Avoidance Package’. One of the objectives of that package is to transpose into Union law, the BEPS Action 13 by amending Council Directive 2011/16/EU⁶.~~
- (5) ~~Enhanced public scrutiny of corporate income taxes borne by multinational undertakings carrying out activities in the Union is an essential element to further foster corporate responsibility, to contribute to the welfare through taxes, to promote fairer tax competition within the Union through a better informed public debate and to restore public trust in the fairness of the national tax systems. Such public scrutiny can be achieved by means of a report on income tax information, irrespective of where the ultimate parent undertaking of the multinational group is established.~~

⁵ Directive 2013/34/EU of the European Parliament and of the Council of 26 June 2013 on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings, amending Directive 2006/43/EC of the European Parliament and of the Council and repealing Council Directives 78/660/EEC and 83/349/EEC (OJ L 182, 29.6.2013, p. 19).

⁶ ~~Council Directive 2011/16/EU of 15 February 2011 on administrative cooperation in the field of taxation and repealing Directive 77/799/EEC (OJ L 64, 11.3.2011, p. 1).~~

(6) The public should be able to scrutinise all the activities of a group when the group has certain establishments within the Union. For groups which carry out activities within the Union only through subsidiary undertakings or branches, **operating** subsidiaries and branches should publish and make accessible the report of the ultimate parent undertaking **to the extent that the requested information is available to the subsidiary or branch. If the requested information is not available the subsidiary or branch should explain in the report the reasons of this omission.** However for reasons of proportionality and effectiveness, the obligation to publish and make accessible the report should be limited to medium-sized or large subsidiaries established in the Union, or branches of a comparable size opened in a Member State. The scope of Directive 2013/34/EU should therefore be extended accordingly to branches opened, **and still operating,** in a Member State by an undertaking which is established outside the Union **and which has a legal form which is comparable to the types of undertakings listed in Annex I of Directive 2013/34/EU.**

(6a) Multinational groups, and where relevant, certain non-affiliated standalone undertakings, should provide the public with a report on income tax information when they exceed a certain size over a period of the last two consecutive financial years, depending on the consolidated revenue of the group or the revenue of the non-affiliated standalone undertaking. Having regard to Article 2(12) of Directive 2013/34/EU, non-affiliated undertakings are intended to be stand-alone entities which are not part of a group. Given the wide array of accounting financial reporting frameworks with which financial statements may comply, in order to determine the scope of application, such revenue should be defined as the net turnover for undertakings governed by the law of a Member State and following national financial reporting framework of a Member State or „revenue“ as defined in paragraph 2 of Article 48a for other undertakings. Article 43(2)(c) of Directive 86/635/EEC and Article 66(2) of Directive 91/674/EEC provide definitions as to the determination of the net turnover of a credit institution or of an insurance undertaking, respectively. For other undertakings, the revenue should be assessed in accordance with the financial reporting framework on the basis of which these financial statements are prepared. It should be noted that "revenue" has different definition for purposes of content of the report.

(6b) At the same time it is stressed that, as concluded by the G20 and the OECD, country-by-country reports will be helpful for high-level transfer pricing risk assessment purposes only. The information in the Country-by-Country Report on its own does not constitute conclusive evidence that transfer prices are or are not appropriate and that information should not be used as a substitute for a detailed transfer pricing analysis of individual transactions and prices based on a full functional analysis and comparability analysis.

(7) In order to avoid double reporting for the banking sector, ultimate parent undertakings **and non-affiliated standalone undertakings** which are subject to Directive 2013/36/EU of the European Parliament and of the Council⁷ and which include in their report prepared in accordance with Article 89 of Directive 2013/36/EU all its activities and, **where appropriate,** all the activities of its affiliated undertakings included in the consolidated financial statements, including activities not subject to the provisions of Chapter 2 of Title 1 of Part Three of Regulation (EU) No 575/2013 of the European Parliament and of the Council⁸, should be exempted from the reporting requirements set out in this Directive.

⁷ Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC (OJ L 176, 27.6.2013, p. 338)

⁸ Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (OJ L 176, 27.6.2013, p. 1).

(8) The report on income tax information should provide information concerning all the activities of ~~an undertaking or of all the affiliated undertakings of a group controlled~~ **consolidated** by an ultimate parent undertaking **or, depending on the circumstances, concerning all the activities of a non-affiliated standalone undertaking**. The information should be based on the reporting specifications of BEPS' Action 13 and limited to what is necessary to enable effective public scrutiny, in order to ensure that disclosure does not give rise to disproportionate risks or disadvantages **for undertakings. For this reason, the list of required information is exhaustive. The report should be made accessible within 12 months after the balance sheet date. Any shorter periods for the publication of financial statements should not apply with regard to the report on income tax information. The provisions of Chapter 10a of this Directive do not affect the provisions regarding annual financial statements and consolidated financial statements.** The report should also include a brief description of the nature of the activities. Such description might be based on the categorisation provided for in table 2 of the Annex III of Chapter V of the OECD "Transfer Pricing Guidelines on Documentation".

(8a) In order to avoid administrative burden, when preparing a report on income tax information in compliance with this Directive, undertakings should be entitled to prepare the information on the basis of the reporting specifications laid down in Annex III, Section III, parts B and C of Council Directive 2011/16/EU as amended. For this reason, the report should specify the reporting framework used. The report should ~~might~~ **in addition** include an overall narrative providing explanations in case of material discrepancies at group level between the amounts of taxes accrued and the amounts of taxes paid, taking into account corresponding amounts concerning previous financial years.

(9) In order to ensure a level of detail that enables citizens to better assess the contribution of multinational undertakings to welfare in each Member State, the information should be broken down by Member State. Moreover, information concerning the operations of multinational enterprises should also be shown with a high level of detail as regards certain **third country** tax jurisdictions which pose particular challenges. For all other third country operations, the information should be given in an aggregate number, **unless the undertaking wishes to present more detailed information.**

(9a) It is recognised that publicly disclosing data to be included in report on income tax information could in certain cases be seriously prejudicial to commercial position of an undertaking, since it would make it possible for competitors not subjected to similar transparency to draw significant conclusions about its current activities. Therefore, undertakings should have a possibility to defer disclosing certain information for a limited number of years, provided they clearly disclose the deferral and give a reasoned explanation for it in the report.

To be read in conjunction with Article 48c (3a).

(10) In order to strengthen responsibility vis-à-vis third parties and to ensure appropriate governance, the members of the administrative, management and supervisory bodies of the ultimate parent undertaking **or non-affiliated standalone undertakings** which is **are** established within the Union and which ~~has~~ **have** the obligation to draw up, publish and make accessible the report on income tax information, should be collectively responsible for ensuring the compliance with these reporting obligations. Given that members of the administrative, management and supervisory bodies of the subsidiaries which are established within the Union and which are controlled by an ultimate parent undertaking established outside the Union or the person(s) in charge of carrying out the disclosures formalities for the branch may have limited knowledge of the content of the report on income tax information prepared by the ultimate parent undertaking **or may have limited ability to obtain such information or report from their ultimate parent undertaking**, their responsibility to publish and make accessible the report on income tax information should be limited. **In case this information or report is not provided, the subsidiary undertakings should publish and make accessible a statement as to why the report on income tax information could not be published and made accessible.**

- (11) To ensure **public awareness on the scope of and on compliance with of the reporting obligations by the relevant undertakings**, that cases of non-compliance are disclosed to the public, **Member States might require that** statutory auditor(s) or audit firm(s) **should** check **state** whether **an undertaking is required to draw up a** the report on income tax information **has been submitted and presented published, or not, in accordance with the requirements of this Directive and made accessible on the relevant undertaking's website or on the website of an affiliated undertaking, or on the website of the register, within the time limits established by this Directive. A statutory auditor or audit firm should fulfil the requirements set out in Article 48f of this Directive to the extent of the information provided by the undertaking governed by the law of a Member State and to the extent of the information being readily available to the statutory auditor or audit firm.**
- (12) This Directive aims to enhance transparency and public scrutiny on corporate income tax by adapting the existing legal framework concerning the obligations imposed on companies and firms in respect of the publication of reports, for the protection of the interests of members and others, within the meaning of Article 50(2)(g) TFEU. As the Court of Justice held, in particular, in Case C-97/96 *Verband deutscher Daihatsu-Händler*⁹, Article 50(2)(g) TFEU refers to the need to protect the interests of "others" generally, without distinguishing or excluding any categories falling within the ambit of that term. Moreover, the objective of attaining freedom of establishment, which is assigned in very broad terms to the institutions by Article 50(1) TFEU, cannot be circumscribed by the provisions of Article 50(2) TFEU. Given that this Directive does not concern the harmonisation of taxes but only obligations to publish reports on income tax information, Article 50(1) TFEU constitutes the appropriate legal basis.

⁹ Judgement of the Court of Justice of 4 December 1997, C-97/96 *Verband deutscher Daihatsu-Händler* ECLI:EU:C:1997:581

(12a) To ensure the full functioning of the internal market and a level playing field between the European Union and third-country multinational enterprises, the Commission should continue to explore possibilities of increasing fairness and tax transparency. consider issuing recommendations on how to ensure that global dis-aggregation may be achieved particularly in international fora.

~~(13) In order to determine certain tax jurisdictions for which a high level of detail should be shown, the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of drawing up a common Union list of these tax jurisdictions. This list should be drawn up on the basis of certain criteria, identified on the basis of Annex 1 of the Communication from the Commission to the European Parliament and Council on an External Strategy for Effective Taxation (COM(2016) 24 final). It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement on Better Law-Making as approved by the European Parliament, the Council and the Commission and pending formal signature. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.~~

(14) Since the objective of this Directive cannot be sufficiently achieved by the Member States but can rather, by reason of its effect, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality as set out in that Article, this Directive does not go beyond what is necessary in order to achieve that objective.

- (15) This Directive respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union.
- (16) In accordance with the Joint Political Declaration of 28 September 2011 of Member States and the Commission on explanatory documents¹⁰, Member States have undertaken to accompany, in justified cases, the notification of their transposition measures with one or more documents explaining the relationship between the components of a directive and the corresponding parts of national transposition instruments. With regard to this Directive, the legislator considers the transmission of such documents to be justified.
- (17) Directive 2013/34/EU should therefore be amended accordingly,

HAVE ADOPTED THIS DIRECTIVE:
