#### Proposal for a

#### **REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**

#### on the use of the Schengen Information System for the return of illegally staying thirdcountry nationals

#### THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 79(2)(c) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) The return of third-country nationals who do not fulfil or no longer fulfil the conditions for entry, stay or residence in the Member States, in full respect of fundamental rights and in particular the principle of non-refoulement, and in accordance with Directive 2008/115/EC of the European Parliament and of the Council, is an essential part of the comprehensive efforts to tackle irregular migration and increase the rate of return of irregular migrants.
- (2) It is necessary to increase the effectiveness of the European system to return illegally staying third-country nationals. This is essential for maintaining public trust in the Union migration and asylum policy and providing support to persons in need of international protection.
- (3) Member States should take all necessary measures to return illegally staying third-country nationals in an effective and proportionate manner, in accordance with the provisions of Directive 2008/115/EC.

- (4) A Union-wide system for sharing information between Member States on return decisions issued in respect of third-country nationals staying illegally on the territory of the Member States in accordance with provisions respecting Directive 2008/115/EC and for monitoring whether third-country nationals subject to those decisions have left the territory of the Member States should be established.
- (4a) This Regulation does not affect the rights and obligations of the third-country nationalslaid down in Directive 2008/115/EC. The alert in the SIS for the purpose of return doesnot, in itself, constitute a determination of the status of the third country national on theterritory of Member States, especially in Member States other than the alert issuingMember State.
- (5) Regulation (EU) 2018/xxx [border checks]<sup>1</sup> and Regulation (EU) 2018/xxx [police and judicial cooperation]<sup>2</sup> lay down the conditions for the establishment, operation and use of the Schengen Information System (SIS).
- (6) SIS alerts on return and the exchange of supplementary information on these alerts should support competent authorities to take the necessary measures to enforce return decisions issued in accordance with provisions respecting Directive 2008/115/EC. SIS should contribute to the identification and the information sharing between Member States on third-country nationals who are the subject of such return decision, who have absconded and are apprehended in another Member State. These measures should help prevent and deter irregular <u>illegal im</u>migration, secondary movements, and enhance cooperation between Member States' authorities.

Regulation (EU) 2018/... on the establishment, use and operation of the Schengen Information System for the purposes of border checks (OJ L ...).

Regulation (EU) 2018/... on the establishment, use and operation of the Schengen Information System for the purposes of police and judicial cooperation in criminal matters (OJ L...).

- To ensure the effectiveness of return and increase the added value of alerts on return, Member (7)States should enter alerts in SIS in relation to all return decisions they issue to illegally staying third-country nationals in accordance with provisions respecting Directive 2008/115/EC. For this purpose, Member States should enter an alert in SIS also when decisions imposing or stating an obligation to return are issued in the situations described in Article 2(2) of that Directive, notably to third-country nationals who are subject to a refusal of entry in accordance with the Schengen Borders Code, or who are apprehended or intercepted by the competent authorities in connection with the irregular crossing by land, sea or air of the external border of a Member State and who have not subsequently obtained an authorisation or a right to stay in that Member State, and to third-country nationals who are subject to return as a criminal law sanction or as a consequence of a criminal law sanction, according to national law, or who are the subject of extradition procedures. In certain circumstances, where the risk of the return decision not being complied with is low, namely during any period of detention or when the return decision is issued at the external border and is executed immediately, Member States may refrain from entering alerts on third-country nationals.
- (8) This Regulation should set out common rules for entering alerts related to return in SIS as soon as the underlying return decisions in accordance with provisions respecting Directive 2008/115/EC are issued. The alert should indicate whether a period for voluntary departure has been granted to the third-country national concerned, including whether such period has been extended taking into account the specific circumstances of the individual case, and whether the decision has been suspended or the removal has been postponed.

- (9) It is necessary to specify the categories of data that can be entered in SIS in respect of third-country nationals who are the subject of a return decision issued in accordance with provisions respecting Directive 2008/115/EC. Alerts on return should contain only those data that are required in order to identify the data subjects, to allow the competent authorities to take informed decisions without losing time and to ensure, where necessary, their protection in relation to persons who are armed, violent, have escaped or are involved in an activity as referred to in Articles 1, 2, 3 and 4 of Council Framework Decision 2002/475/JHADirective 2017/541 on combating terrorism<sup>3</sup>. Furthermore, in order to facilitate identification and detect multiple identities, the alert should include also a reference to the personal identification document and a copy of such document, if available. Dactyloscopic data should always be entered into the system when available.
- Each Member State should designate an authority responsible for the exchange of supplementary information in connection to alerts on return in order to ensure efficient and swift cooperation among the Member States. <u>The exchange of supplementary information</u>, <u>provided by the competent national authorities, should always be carried out through the SIRENE channel using the SIRENE Bureau as point of contact.</u>
- (11) Procedures should be established to enable Member States to verify that the obligation to return has been complied with and to confirm the departure of the third-country national concerned to the Member State that issued the alert on return. This information should contribute to a more comprehensive follow-up of the compliance with return decisions in accordance with provisions respecting Directive 2008/115/EC.

<sup>&</sup>lt;sup>3</sup> Council Framework Decision 2002/475/JHA of 13 June 2002 on combating terrorism (OJ L 164, 22.6.2002, p. 3).

- (12) Alerts on return should be deleted <u>without delay following the process in which as soon as</u> the Member State or competent authority that issued the return decision in accordance with provisions respecting Directive 2008/115/EC has been <u>is</u> informed that the return has taken place. Where a return decision is accompanied by an entry ban, the latter should be entered in SIS in accordance with Article 24(3) of Regulation (EU) 2018/xxx [border checks]. In such cases Member States should take all necessary measures to ensure that no time-gap exist between the moment in which the third-country national leaves the Schengen area, or if the competent authority has sufficient and convincing information that the third-country national has left the territory of EU and Schengen Associated States, and the activation of the alert on the entry ban in SIS. If the data of SIS shows that the return decision is accompanied by an entry ban, the enforceability of that entry ban should be ensured.
- (13) SIS should contain a mechanism for notifying the Member States about the non-compliance of third-country nationals with an obligation to return within a given period of voluntary departure. The mechanism should support the Member States in fulfilling their obligations in accordance with Article 8(1) of Directive 2008/115/EC with regard to third-country nationals who have not complied with an obligation to return.
- (14) This Regulation should establish mandatory rules for the consultation between national authorities to solve possible conflicting instructions. Consultations should be carried out where third-country nationals who hold, or are being granted, a valid residence permit or other authorisation or right to stay <u>a long-stay visa</u> by a Member State are subject to an alert on return issued by another Member State if the return decision is accompanied by a refusal of entry and stay, or cases where conflicting situations may arise at entry in the territories of the Member States.
- (15) Alerts should be kept in SIS only for the time required to fulfil the purposes for which they were entered. In accordance with Article 34 of Regulation (EU) 2018/xxx [border checks] the review period for alerts on third-country nationals is five years.

- (16) Data processed in SIS or transferred through the exchange of supplementary information may provide to the enforcing Member State information that is useful for the rapid identification and re-documentation of illegally staying third-country nationals, in view of their return to a third country. In individual cases, it should be possible to share such data and information with a third country for this purpose. Sharing of any personal data should be subject to clear conditions, should be carried out in accordance with the provisions of Regulation (EU) 2016/679 and be conducted with the agreement of the Member State that issued the alert.
- (17) National authorities responsible for return may differ significantly among Member States, and such authorities may also vary within a Member State depending on the reasons for illegal stay. Judicial authorities may also issue return decisions in accordance with provisions respecting Directive 2008/115/EC, for instance as result of appeals against a refusal of granting an authorisation or right to stay, or as a criminal sanction. All national authorities in charge of issuing and enforcing return decisions in accordance with Directive 2008/115/EC should be entitled to access SIS in order to enter, update, delete and search alerts on return.
- (18) Access to alerts on return should be granted to national authorities referred to in points (a),
  (b),(c) and (d) of Article 29(1) and in Article 29(2) of Regulation (EU) 2018/xxx [border checks] for the purpose of identification and return of third-country nationals.
- (19) Regulation (EU) 2016/794 on the European Union Agency for Law Enforcement cooperation (Europol Regulation) provides that Europol supports and strengthens actions carried out by the competent authorities of Member States and their cooperation in combating terrorism and serious crime and provides analysis and threat assessments. In order to facilitate Europol in carrying out its tasks, in particular within the European Migrant Smuggling Centre, it is appropriate to allow Europol access to the alert category defined in this Regulation.

- (20) Regulation (EU) 2016/1624 provides that the host Member State shall authorise the members of the European Border and Coast Guard teams or teams of staff involved in return-related tasks, deployed by the European Border and Coast Gard Agency, to consult European databases, where this consultation is necessary for fulfilling operational aims specified in the operational plan on border checks, border surveillance and return. The objective of the deployment of the European Border and Coast Guard teams, teams of staff involved in returnrelated tasks and the migration management support teams is to provide for technical and operational reinforcement to the requesting Member States, especially to those facing disproportionate migratory challenges. Fulfilling the tasks assigned to the European Border and Coast Guard teams, teams of staff involved in return-related tasks and to the migration management support teams, necessitates access to alerts on return SIS via a technical interface of European Border and Coast Gard Agency connecting to Central SIS.
- (21) The provisions on responsibilities of the Member States and the European Agency on the operational management of large-scale IT systems in the area of freedom, security and justice, the entry and processing of alerts, the conditions to access and retention of alerts, data processing, data protection, liability and monitoring and statistics as included in Regulation (EU) 2018/xxx [Border checks] should also apply to data entered and processed in SIS in accordance with this Regulation.
- (22) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application.
