Subject:	Proposal for a Directive of the European Parliament and of the Council amending Directive 2013/34/EU as regards disclosure of income tax information by certain undertakings and branches (CBCR) - State of play

I. INTRODUCTION

1. On 12 April 2016, the European Commission submitted the above-mentioned proposal to the Council and the European Parliament. In the context of a broader strategy for a Fair and Efficient Corporate Tax System in the EU, the public scrutiny of tax payments is considered a necessary measure in view of reinforcing public trust and strengthen companies' corporate social responsibility. This proposal requires that Multinational Enterprises (MNEs) disclose publicly in a specific report the income tax they pay together with other relevant information. MNEs, whether headquartered in the EU or outside, with turnover of more than EUR 750m will need to comply with these additional transparency requirements. For the first time, not only European businesses but also non-European multinational companies doing business in Europe will, through their branches, have the same reporting obligations.

The proposal complements undertakings' current financial reporting obligations under Accounting Directive No 2013/34/EU and does not interfere with these requirements in relation to their financial statements, for example as regards publishing of their annual accounts.

This proposal does not modify the rules already in place on non-financial reporting and sectoral CBCR for both the banking sector and the extractive and logging industries. However it introduces an exemption clause to avoid double reporting for the banking sector, which is already subject to stringent public reporting rules in the EU banking legislation.

II. STATE OF PLAY

2. The Working Party on Company Law examined the proposal at nine occasions during the Netherlands and Slovak Presidencies.
3. The Presidency is presenting a compromise proposal in the Annex to this note to take stock of the work undertaken with the help of delegations at Working Party level, aiming at better aligning the drafting with the Accounting Directive No 2013/34/EU. Delegations are informed that changes compared to the Commission Proposal (doc. 7949/16) are indicated in **bold/underlined** and deletions are marked with ~~strikethrough~~.
4. It is understood that all delegations have a general scrutiny reservation. DK, FR, LT, SE, UK entered a parliamentary scrutiny reservation.
5. The European Parliament's report is not yet available.

Whereas:

- (1) ~~In recent years, the challenge posed by corporate income tax avoidance has increased considerably and has become a major focus of concern within the Union and globally. The European Council in its conclusions of 18 December 2014 acknowledged the urgent need to advance efforts in the fight against tax avoidance both at global and Union level. The Commission in its communications entitled ‘Commission Work Programme 2016 - No time for business as usual’ and ‘Commission Work Programme 2015 - A New Start’ identified as a priority the need to move to a system whereby the country in which profits are generated is also the country of taxation. The Commission also identified as a priority the need to respond to our societies’ call for fairness and tax transparency.~~
- (2) ~~The European Parliament in its resolution of 16 December 2015 on bringing transparency, coordination and convergence to corporate tax policies in the Union acknowledged that increased transparency in the area of corporate taxation can improve tax collection, make the work of tax authorities more efficient and ensure increased public trust and confidence in tax systems and governments.~~

In parallel to the work undertaken by the Council to fight corporate income tax avoidance, it is necessary to enhance public scrutiny of corporate income taxes borne by multinational undertakings carrying out activities in the Union, as this is an essential element to further foster corporate responsibility to contribute to the welfare of our societies, to promote a better informed public debate and to regain the trust of citizens of the Union in the fairness of the national tax systems. Such public scrutiny can be achieved by means of a report on income tax information, irrespective of where the ultimate parent undertaking of the multinational group is established.

- (3) Following the European Council conclusions of 22 May 2013, a review clause was introduced in Directive 2013/34/EU of the European Parliament and of the Council requiring the Commission to consider the possibility of introducing an obligation on large undertakings of additional industry sectors to produce, on an annual basis, a country-by-country reporting taking into account the developments in the Organisation for Economic Cooperation and Development (OECD) and the results of related European initiatives.

- (4) ~~Calling for a globally fair and modern international tax system in November 2015, the G20 endorsed the OECD ‘Action Plan on Base Erosion and Profit Shifting’ (BEPS) which aimed at providing governments with clear international solutions to address the gaps and mismatches in existing rules which allow corporate profits to shift to locations of no or low taxation, where no real value creation may take place. In particular, BEPS Action 13 introduces a country-by-country reporting by certain multinational undertakings to national tax authorities on a confidential basis. On 27 January 2016, the Commission adopted the ‘Anti Tax Avoidance Package’. One of the objectives of that package is to transpose into Union law, the BEPS Action 13 by amending Council Directive 2011/16/EU.~~
- (5) ~~Enhanced public scrutiny of corporate income taxes borne by multinational undertakings carrying out activities in the Union is an essential element to further foster corporate responsibility, to contribute to the welfare through taxes, to promote fairer tax competition within the Union through a better informed public debate and to restore public trust in the fairness of the national tax systems. Such public scrutiny can be achieved by means of a report on income tax information, irrespective of where the ultimate parent undertaking of the multinational group is established.~~
- (6) The public should be able to scrutinise all the activities of a group when the group has certain establishments within the Union. For groups which carry out activities within the Union only through subsidiary undertakings or branches, subsidiaries and branches should publish and make accessible the report of the ultimate parent undertaking **to the extent that the requested information is available to the subsidiary or branch. If the requested information is not available the subsidiary or branch should explain in the report the reasons of this omission.** However for reasons of proportionality and effectiveness, the obligation to publish and make accessible the report should be limited to medium-sized or large subsidiaries established in the Union, or branches of a comparable size opened in a Member State. The scope of Directive 2013/34/EU should therefore be extended accordingly to branches opened in a Member State by an undertaking which is established outside the Union.

- (6a) Multinational groups, and where relevant, non-affiliated undertakings, should provide the public with a report on income tax information when they exceed a certain size over a period of the last two consecutive financial years, depending on the consolidated revenue of the group or the revenue of the non-affiliated undertaking. Given the wide array of accounting frameworks with which financial statements may comply, such revenue should be defined as the net turnover for undertakings falling within the scope of this Directive. For other undertakings the revenue should be assessed in accordance with the financial reporting framework on the basis of which these financial statements are prepared.**
- (7) In order to avoid double reporting for the banking sector, ultimate parent undertakings **and non-affiliated undertakings** which are subject to Directive 2013/36/EU of the European Parliament and of the Council and which include in their report prepared in accordance with Article 89 of Directive 2013/36/EU all its activities and, **where appropriate**, all the activities of its affiliated undertakings included in the consolidated financial statements, including activities not subject to the provisions of Chapter 2 of Title 1 of Part Three of Regulation (EU) No 575/2013 of the European Parliament and of the Council , should be exempted from the reporting requirements set out in this Directive.

(8) The report on income tax information should provide information concerning all the activities of ~~an undertaking or~~ of all the affiliated undertakings of a group controlled consolidated by an ultimate parent undertaking or, depending on the circumstances, concerning all the activities of a non-affiliated undertaking. The information should be based on the reporting specifications of BEPS' Action 13 and should be limited to what is necessary to enable effective public scrutiny, in order to ensure that disclosure does not give rise to disproportionate risks or disadvantages for undertakings. For this reason, the list of information is exhaustive. The report should also include a brief description of the nature of the activities. Such description might be based on the categorisation provided for in table 2 of the Annex III of Chapter V of the OECD "Transfer Pricing Guidelines on Documentation".

(8a) In order to avoid administrative burden, when preparing a report on income tax information in compliance with this Directive, undertakings should be entitled to prepare the information on the basis of the reporting specifications laid down in Annex III, Section III, parts B and C of Council Directive 2011/16/EU. For this reason, the report should specify the reporting framework used. The report should might in addition include an overall narrative providing explanations in case of material discrepancies at group level between the amounts of taxes accrued and the amounts of taxes paid, taking into account corresponding amounts concerning previous financial years.

(9) In order to ensure a level of detail that enables citizens to better assess the contribution of multinational undertakings to welfare in each Member State, the information should be broken down by Member State. Moreover, information concerning the operations of multinational enterprises should also be shown with a high level of detail as regards certain tax jurisdictions which pose particular challenges. For all other third country operations, the information should be given in an aggregate number.

- (10) In order to strengthen responsibility vis-à-vis third parties and to ensure appropriate governance, the members of the administrative, management and supervisory bodies of the ultimate parent undertaking **or non-affiliated undertakings** which ~~is~~ **are** established within the Union and which ~~has~~ **have** the obligation to draw up, publish and make accessible the report on income tax information, should be collectively responsible for ensuring the compliance with these reporting obligations. Given that members of the administrative, management and supervisory bodies of the subsidiaries which are established within the Union and which are controlled by an ultimate parent undertaking established outside the Union or the person(s) in charge of carrying out the disclosures formalities for the branch may have limited knowledge of the content of the report on income tax information prepared by the ultimate parent undertaking **or may have limited ability to obtain such information from their ultimate parent undertaking**, their responsibility to publish and make accessible the report on income tax information should be limited.
- (11) **To ensure public awareness on the compliance of the reporting obligations by the relevant undertakings**, ~~To ensure that cases of non-compliance are disclosed to the public,~~ statutory auditor(s) or audit firm(s) should ~~check~~ **state** whether the report on income tax information has been ~~submitted and presented~~ **published** in accordance with the requirements of this Directive and made accessible on the relevant undertaking's website or on the website of an affiliated undertaking, **within the time limits established by this Directive**.

(12) This Directive aims to enhance transparency and public scrutiny on corporate income tax by adapting the existing legal framework concerning the obligations imposed on companies and firms in respect of the publication of reports, for the protection of the interests of members and others, within the meaning of Article 50(2)(g) TFEU. As the Court of Justice held, in particular, in Case C-97/96 *Verband deutscher Daihatsu-Händler*, Article 50(2)(g) TFEU refers to the need to protect the interests of "others" generally, without distinguishing or excluding any categories falling within the ambit of that term. Moreover, the objective of attaining freedom of establishment, which is assigned in very broad terms to the institutions by Article 50(1) TFEU, cannot be circumscribed by the provisions of Article 50(2) TFEU. Given that this Directive does not concern the harmonisation of taxes but only obligations to publish reports on income tax information, Article 50(1) TFEU constitutes the appropriate legal basis.

~~(13) In order to determine certain tax jurisdictions for which a high level of detail should be shown, the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of drawing up a common Union list of these tax jurisdictions. This list should be drawn up on the basis of certain criteria, identified on the basis of Annex 1 of the Communication from the Commission to the European Parliament and Council on an External Strategy for Effective Taxation (COM(2016) 24 final). It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement on Better Law-Making as approved by the European Parliament, the Council and the Commission and pending formal signature. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.~~

- (14) Since the objective of this Directive cannot be sufficiently achieved by the Member States but can rather, by reason of its effect, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality as set out in that Article, this Directive does not go beyond what is necessary in order to achieve that objective.
- (15) This Directive respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union.
- (16) In accordance with the Joint Political Declaration of 28 September 2011 of Member States and the Commission on explanatory documents, Member States have undertaken to accompany, in justified cases, the notification of their transposition measures with one or more documents explaining the relationship between the components of a directive and the corresponding parts of national transposition instruments. With regard to this Directive, the legislator considers the transmission of such documents to be justified.
- (17) Directive 2013/34/EU should therefore be amended accordingly,
