Proposal for a

COUNCIL DECISION

on the signing, on behalf of the European Union, of a Protocol to the Agreement between the European Community and the Kingdom of Denmark on the criteria and mechanisms for establishing the State responsible for examining a request for asylum lodged in Denmark or any other Member State of the European Union and 'Eurodac' for the comparison of fingerprints for the effective application of the Dublin Convention extending that agreement to law enforcement

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

- **Reasons for and objectives of the proposal**

The Regulation (EU) No. 603/2013¹ that recasts Regulation No 2725/2000 of 11 December 2000 concerning the establishment of 'Eurodac' for the comparison of fingerprints for the effective application of the Dublin Convention was adopted and entered into force on 19 July 2013. The Regulation is applicable since 20 July 2015.

The Regulation (EU) No. 603/2013 allows, *inter alia*, for the consultation of Eurodac by law enforcement authorities for the purpose of prevention, detection and investigation of terrorist offences and other serious criminal offences. This aims at enabling law enforcement authorities to request the comparison of fingerprint data with those stored in the Eurodac central database when they seek to establish the exact identity of or obtain further information concerning a person who is suspected of a terrorism or serious crime.

In accordance with Articles 1 and 2 of Protocol No 22 on the position of the Kingdom of Denmark (hereinafter referred to as 'Denmark'), annexed to the TEU and to the TFEU, Denmark does not take part in the adoption of Title V *acquis* and therefore does not participate in the Regulation (EU) No. 603/2013.

On 8 March 2006, the Agreement between the European Community and the Kingdom of Denmark on the criteria and mechanisms for establishing the State responsible for examining a request for asylum lodged in Denmark or any other Member State of the European Union and 'Eurodac' for the comparison of fingerprints for the effective application of the Dublin Convention (hereinafter referred to as 'the Agreement of 8 March 2006') was concluded².

Denmark applies the asylum elements of the Regulation (EU) No. 603/2013 in line with the Agreement of 8 March 2006. However, the law enforcement access to Eurodac falls outside the scope of the said Agreement.

At a meeting on 14 May 2014 with representatives from the Commission, Denmark and the Associate Countries confirmed their interest in entering into negotiations with the European Union to extend the law enforcement provisions of the Regulation (EU) No. 603/2013 to them via an international agreement.

On 14 December 2015, the Council authorised the Commission to open negotiations on agreement between the European Union, on the one part, and Denmark, on the other part, on the modalities of the participation by Denmark to the procedure for comparison and data

¹ Regulation (EU) No 603/2013 of the European Parliament and of the Council of 26 June 2013 on the establishment of 'Eurodac' for the comparison of fingerprints for the effective application of Regulation (EU) No 604/2013 establishing the criteria and mechanisms for determining the Member State responsible for examining an application for international protection lodged in one of the Member States by a third-country national or a stateless person and on requests for the comparison with Eurodac data by Member States' law enforcement authorities and Europol for law enforcement purposes, and amending Regulation (EU) No 1077/2011 establishing a European Agency for the operational management of large-scale IT systems in the area of freedom, security and justice (recast) (OJ L 180, 29.6.2013, p. 1).

² OJ L 66, 8.3.2006, p. 38.

transmission for law enforcement purposes foreseen in chapter VI of the Regulation (EU) No 603/2013 on the establishment of 'Eurodac' for the comparison of fingerprints for the effective application of Regulation (EU) No 604/2013 establishing the criteria and mechanisms for determining the Member State responsible for examining an application for international protection lodged in one of the Member States by a third-country national or a stateless person and on requests for the comparison with Eurodac data by Member States' law enforcement authorities and Europol for law enforcement purposes.

The negotiations have been finalised and an Agreement in the form of a Protocol to the Agreement of 8 March 2006, extending the application of the Agreement of 8 March 2006 to law enforcement was initialled.

The extension of the law enforcement provisions of the Regulation (EU) No. 603/2013 to Denmark would enable the law enforcement authorities of Denmark to request a comparison of fingerprint data against the data entered by other participating States and stored in the Eurodac database when they seek to establish the identity or get further information concerning a person who is suspected of a serious crime or terrorism or concerning a victim. On the other hand, it would enable the law enforcement authorities of all other participating States, whether other EU Member States or Associates Countries, to request a comparison of fingerprint data against the data entered by Denmark and stored in the Eurodac database, for the same purposes.

The objective of the present Protocol is to establish legally binding rights and obligations to ensure the effective participation of Denmark in the law enforcement elements of the Regulation (EU) No. 603/2013. The Protocol establishes that all participating States, whether other EU Member States, Associates Countries or Denmark, with access to Eurodac, may also access each other's data for law enforcement purposes.

- **Consistency with existing policy provisions in the policy area**

The proposal is consistent with EU policies regarding access to Eurodac database.

- **Consistency with other Union policies**

The proposal is consistent with the EU policies in the area of freedom, security and justice.

2. LEGAL BASIS, SUBSIDIARITY AND PROPORTIONALITY

- **Legal basis**

The legal basis for this proposal for a Council Decision is Article 87(2)(a), Article 88(2)(a) of the Treaty on the Functioning of the European Union (TFEU), in conjunction with Article 218(5) of the TFEU.

- **Subsidiarity (for non-exclusive competence)**

The Agreement of 8 March 2006 is an existing international agreement concluded by the EU and Denmark. In accordance with the principle of subsidiarity set out in Article 5 TEU, the objectives of the Protocol to this Agreement can only be achieved through a proposal from the Commission at EU level.

- **Proportionality**

In order to support and strengthen police cooperation between the competent authorities of the Member States and those of the Kingdom of Denmark for the purpose of prevention, detection and investigation of terrorist offences and other serious criminal offences, the involvement of the EU is required to enable Denmark to participate in the law-enforcement-related aspects of Eurodac. The proposal complies with the proportionality principle because it does not go beyond what is necessary in order to achieve the objectives of the effective participation of Denmark in the law enforcement elements of the Eurodac Regulation (EU) No. 603/2013.

- **Choice of the instrument**

A Decision of the Council authorising the signature of the Agreement is required under Article 218(5) TFEU.

3. RESULTS OF EX-POST EVALUATIONS, STAKEHOLDER CONSULTATIONS AND IMPACT ASSESSMENTS

- **Stakeholder consultations**

The Council (Asylum Working Party) has been consulted on the content and advancement of the negotiations. The European Parliament (LIBE Committee) has been informed.

4. OTHER ELEMENTS

- **Detailed explanation of the specific provisions of the proposal**

The proposal sets out a decision authorising the signature of the Protocol between the EU and Denmark on behalf of the European Union. The TFEU foresees for the Council to adopt a Commission proposal for a decision to authorise the signature and conclusion of an international agreement.

The Protocol establishes the application of Regulation (EU) No 603/2013 to Denmark regarding access to Eurodac for law enforcement purposes. Therefore it enables the designated law enforcement authorities of the other participating States and Europol to request a comparison of fingerprint data against the data transmitted to the Eurodac Central System by Denmark. It also enables the designated law enforcement authorities of Denmark to request a comparison of fingerprint data against the data transmitted to the Eurodac Central System by the other participating States.

The Protocol guarantees that the current EU level of protection of personal data is applicable to the processing of personal data pursuant to the Protocol by the authorities of Denmark and of the Member States. Such processing of personal data should be subject to a standard of protection of personal data under their national law which complies with Directive (EU) 2016/680 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data by competent authorities for the purposes of the prevention, investigation, detection or prosecution of criminal offences or the execution of criminal penalties, and on the free movement of such data, and repealing Council Framework Decision 2008/977/JHA.

The Protocol conditions the access to Eurodac for law enforcement purposes by Denmark by prior legal and technical implementation of Decision 2008/615/JHA with regard to dactyloscopic data.

The Protocol provides that the mechanisms regarding amendments provided for in the Agreement of 8 March 2006 should apply to all amendments regarding the access to Eurodac for law enforcement purposes.
