Statement by the Commission

The Commission welcomes the adoption of the Council Decision authorising the Commission to negotiate on behalf the European Union elements of draft text of an international legally-binding instrument under the United Nations Convention on the Law of the Sea on the conservation and sustainable use of marine biological diversity in areas beyond national jurisdiction.

However, the Commission maintains its view that – in the absence of any draft text at this stage - Article 218(3) and (4) provide a sufficient legal basis for the Decision, without any substantive legal base being necessary, nor even possible to be determined on the basis of objective factors, taking into account the aim and the contents of the agreement.

In addition, since the negotiations in the UN Preparatory Committee concern primarily "the conservation and sustainable use" of marine biodiversity in areas beyond national jurisdiction, they are likely to cover issues which go beyond any single policy area, without it being possible to determine at this stage which policy area would be predominant in the sense of the Court's jurisprudence. In any event the Commission cannot agree on the limitation of the legal basis to a single policy area (environment) while leaving out other possible policy areas, in particular fisheries policy.

Furthermore, the Commission also recalls that, in accordance with the jurisprudence of the Court, as reflected in Case C-459/03 (point 94), the existence of the Union's external competence with regard to the protection of the marine environment is not in principle contingent on the adoption of measures of secondary law covering the area in question. Therefore the Commission does not agree that the Union can participate in the negotiations only "as regards matters falling within the Union's competence and for which the Union has adopted rules".

The Commission reserves its right to make use, if necessary, of all the legal means at its disposal to ensure the respect of the provisions of the Treaties.

8. Recommendation for a Council Decision authorising the Commission to open negotiations on behalf of the European Union for the renewal of the Protocol setting out the fishing opportunities and the financial contribution provided for by the Sustainable Fisheries Partnership Agreement between the European Union and the Republic of Mauritius
