ACCORDINGLY INVITES THE MEMBER STATES TAKING INTO ACCOUNT THE PRINCIPLE OF SUBSIDIARITY

11. To demonstrate continuous commitment towards the development of quality and professional youth work provision, including by paid staff and volunteers, by developing supportive measures at all levels, including education and training opportunities for youth workers.
12. To increase the outreach of youth work by focusing also on older age groups of young people (aged 18 and over) and young people with fewer opportunities.

INVITES THE MEMBER STATES AND THE COMMISSION WITHIN THEIR RESPECTIVE COMPETENCES

13. To establish a flexible framework for - and engage in - mutual learning and the exchange of good practice with regard to quality in youth work, especially with the aim of reaching out to all young people.
14. To further strengthen "quality" in youth work through considering the development of indicators, quality tools and systems which can be used in different forms of youth work in the different situations of the Member States at all levels.
15. To enhance recognition of youth work by providing visibility not only to quantitative but also qualitative aspects and its impacts on young people's lives and cohesion in society.

16. INVITES THE EUROPEAN COMMISSION

17. Taking into account the Expert Group on Youth Work Quality Systems results, to conduct a study with a focus on developing basic quality principles for youth work in Europe (and a handbook for implementation). If relevant, this could serve both as a reference and a guidance tool for national youth work services and facilities, ensuring transparency and quality for young people, including those in mobility.
18. To consider making a proposal, in the light of the results of the relevant studies and the work of the Expert Group, as well as activities carried out within different international fora, for a Council Recommendation on youth work with an emphasis on promoting young people's inclusion, citizenship and a more cohesive society.
