Subject:	Simplification of the Common Agriculture Policy - Information from the Commission on state of play and next steps

---

The Council adopted conclusions on CAP simplification in May 2015 (doc. 8485/15). As stated in the Council conclusions, the aim of the simplification exercise is to reduce the administrative burden and associated costs for farmers and national administrations, while at the same time ensuring the necessary legal stability and not jeopardising sound financial management.

The Council took note of, and exchanged views on, the state of play in November 2015 (doc. 13878/15). The annexed table provides an update on the simplification measures already taken by the Commission.

At the Council meeting on 17 May 2016, Commissioner Hogan is invited to provide an update on the simplification measures already taken and those planned for the coming months, except as regards greening, on which he is expected to report to the Council in June.
