Subject:	Decision of the European Parliament and of the Council on EU seed equivalence for Brazil and the Republic of Moldova - <i>Draft text for consultation of the European Economic and Social Committee</i>

Delegations will find in Annex the draft text of the Decision on EU seed equivalence for Brazil and the Republic of Moldova which will be submitted to the European Economic and Social Committee for consultation, following the proposed amendment of the legal basis to refer to Art. 43(2) TFEU. This text was agreed by the Permanent Representatives Committee at its meeting of 27 April 2018.

DECISION (EU) 2018/...
OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
of ...

amending Council Decision 2003/17/EC as regards the equivalence of field inspections carried out in Brazil on fodder plant seed-producing crops and cereal seed-producing crops and on the equivalence of fodder plant seed and cereal seed produced in Brazil, and as regards the equivalence of field inspections carried out in the Republic of Moldova on cereal seed-producing crops, vegetable seed-producing crops and oil and fibre plant seed-producing crops and on the equivalence of cereal seed, vegetable seed and oil and fibre plant seed produced in the Republic of Moldova

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43 (2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee¹,

¹ OJ C , p. .

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) Council Decision 2003/17/EC² provides that, under certain conditions, field inspections carried out on certain seed-producing crops in the listed third countries are to be considered equivalent to field inspections carried out in accordance with Union law and that, under certain conditions, the seed of certain species of fodder plants, cereal, beet, and oil and fibre plants produced in those countries is to be considered equivalent to seed produced in accordance with Union law.
- (2) Brazil has submitted a request to the Commission to grant equivalence to its system of field inspections of fodder plant seed-producing crops and cereal seed-producing crops, and to fodder plant seed and cereal seed produced and certified in Brazil.
- (3) The Commission examined the relevant legislation of Brazil, and, based on an audit carried out in 2016 concerning the system of official controls and of certification of fodder plant and cereal seed in Brazil, and its equivalence with Union requirements, published its findings in a final report entitled ‘Final report of an audit carried out in Brazil from 11 April 2016 to 19 April 2016 in order to evaluate the system of official controls and certification of seed and its equivalence with European Union requirements’.
- (4) Following that audit, it has been concluded that field inspections of seed-producing crops, sampling, testing and official post-controls of fodder plant and cereal seed are carried out appropriately, and satisfy the conditions set out in Annex II to Decision 2003/17/EC and the respective requirements set out in Council Directives 66/401/EEC³ and 66/402/EEC⁴. Moreover, it has been concluded that the national authorities responsible for the implementation of seed certification in Brazil are competent and operate appropriately.
- (5) The Republic of Moldova has submitted a request to the Commission to grant equivalence to its system of field inspections of cereal seed-producing crops, vegetable seed-producing crops and oil and fibre plant seed-producing crops, and to cereal seed, vegetable seed and oil and fibre plant seed produced and certified in the Republic of Moldova.

² Council Decision 2003/17/EC of 16 December 2002 on the equivalence of field inspections carried out in third countries on seed-producing crops and on the equivalence of seed produced in third countries (OJ L 8/10, 14.1.2003).

³ Council Directive 66/401/EEC of 14 June 1966 on the marketing of fodder plant seed (OJ 125, 11.7.1966, p. 2298).

⁴ Council Directive 66/402/EEC of 14 June 1966 on the marketing of cereal seed (OJ 125, 11.7.1966, p. 2309).

- (6) The Commission examined the relevant legislation of the Republic of Moldova, and, based on an audit carried out in 2016 concerning the system of official controls and of certification of cereal, vegetable and oil and fibre plant seed in the Republic of Moldova, and its equivalence with Union requirements, published its findings in a final report entitled ‘Final report of an audit carried out in the Republic of Moldova from 14 June to 21 June 2016 in order to evaluate the system of official controls and certification of seed and their equivalence with European Union requirements’.
- (7) Following that audit, it has been concluded that field inspections of seed-producing crops, sampling, testing and official post-controls of cereal, vegetable and oil and fibre plant seed are carried out appropriately, and satisfy the conditions set out in Annex II to Decision 2003/17/EC and the respective requirements set out in Council Directives 66/402/EEC, 2002/55/EC⁵ and 2002/57/EC⁶. Moreover, it has been concluded that the national authorities responsible for the implementation of seed certification in the Republic of Moldova are competent and operate appropriately.
- (8) Therefore it is appropriate to grant equivalence as regards field inspections carried out in respect of fodder plant seed-producing crops and cereal seed-producing crops in Brazil, and as regards fodder plant seed and cereal seed produced in Brazil and officially certified by its authorities.
- (9) It is also appropriate to grant equivalence as regards field inspections carried out in respect of cereal seed-producing crops, vegetable seed-producing crops and oil and fibre plant seed-producing crops in the Republic of Moldova, and as regards cereal seed, vegetable seed and oil and fibre plant seed produced in the Republic of Moldova and officially certified by its authorities.
- (10) There is a demand in the Union to import vegetable seed from third countries, including the Republic of Moldova. Therefore, the provisions of Decision 2003/17/EC should cover officially certified vegetable seed as referred to in Council Directive 2002/55/EC in order to address the demands for those seeds originating in the Republic of Moldova, as well as in other third countries in the future.
- (11) Taking into consideration the applicable rules of the International Seed Testing Association (ISTA), it is appropriate that the third country concerned provide a statement as official information that the seed has been sampled and tested in accordance with the provisions set out in the ISTA International Rules for Seed Testing (‘ISTA Rules’) with regard to Orange International Seed Lot Certificates, and that the seed lots be accompanied by such a certificate.

⁵ Council Directive 2002/55/EC of 13 June 2002 on the marketing of vegetable seed (OJ L 193, 20.7.2002, p. 33).

⁶ Council Directive 2002/57/EC of 13 June 2002 on the marketing of seed of oil and fibre plants (OJ L 193, 20.7.2002, p. 74).

- (12) In view of the expiration of the ‘Derogatory experiment on seed sampling and seed analysis’ set out in Annex V(A) to the Decision adopted by the Council of the Organisation for Economic Co-operation and Development (OECD) on 28 September 2000 on the OECD Schemes for the Varietal Certification of Seed Moving in International Trade, any reference to that experiment should be deleted.
- (13) Any reference to Croatia as a third country should be deleted, in view of its accession to the European Union in 2013.
- (14) Decision 2003/17/EC should therefore be amended accordingly,
- HAVE ADOPTED THIS DECISION:
