No. Cion doc.:	14893/17 FISC 308 ECOFIN 1031 - COM(2017) 706 final
Subject:	Amended proposal for a Council Regulation amending Regulation (EU) No 904/2010 as regards measures to strengthen administrative cooperation in the field of value added tax – General approach

I. INTRODUCTION

1. On 30 November 2017, the Commission presented an amended proposal for amending Council Regulation (EU) No 904/2010 as regards measures to strengthen administrative cooperation in the field of value added tax¹.
2. This initiative is part of the 'fair taxation package for the creation of a single EU value added tax area' set out in the Commission roadmap for a more united, stronger and more democratic Union. It aims at tackling cross-border VAT fraud by implementing the Council, European Parliament and European Court of Auditors recommendations and drastically and swiftly improving how tax administrations cooperate between themselves and with other law enforcement bodies.

¹ COM (2017) 706 final. See 14893/17 FISC 308 ECOFIN 1031.

3. The proposal aims at adding measures specifically designed to tackle the main types of cross-border fraud schemes across the EU to Council Regulation (EU) No 904/2010², which is the reference legal basis for administrative cooperation.
4. The main objectives of the proposal are:
 - jointly processing and analysing all relevant data within Eurofisc;
 - improving the operational framework for coordinated checks between Member States;
 - developing the exchange of data between Member States' tax administrations and law enforcement authorities at EU level;
 - tackling fraud involving the dual VAT regime applicable to cars by improving access to vehicle registration data;
 - fighting fraud involving customs procedures 42 and 63.
5. The issues covered by this legislative proposal are high on the EU VAT agenda. In its conclusions of 25 May 2016³, the Council welcomed the Commission Communication "Towards a single EU VAT area – Time to decide" (VAT Action Plan) and took note of the Special Report of the Court of Auditors No. 24: "Tackling intra-Community VAT Fraud: More action needed", as well as of the findings and recommendations set out therein.
6. At this occasion, the Council recalled the Council conclusions of 15 May 2012 "On the Future of VAT", where the Council had emphasised that the EU needs a simpler VAT system, which at the same time is more efficient, more robust, fraud-proof and tailored for single market and had pointed out the following principles and legal considerations, which should be taken into account in furtherance of any future action: cost-efficiency, proportionality, unanimity, data protection legislation, compliance with the subsidiarity principle and full respect for the respective competences of the Union and the Member States.

² Council Regulation (EU) No 904/2010 of 7 October 2010 on administrative cooperation and combating fraud in the field of value added tax (recast).

³ See 9494/16 FISC 86 ECOFIN 509.

7. The Council further agreed that the EU VAT system needed to be modernised and improved with these general objectives in mind, while stressing the importance of keeping the EU's business environment competitive and acknowledging the objectives outlined in the VAT Action Plan, which provide a framework to achieve a Single EU VAT area.
8. Given the utmost importance of robust legal rules which hamper VAT fraud, the Council agreed already in 2016 with the Commission and the Court of Auditors that improving administrative cooperation between tax authorities was of significant importance in the fight against VAT fraud. Therefore, the Council also took note of the Commission's intention to table in 2017 a legislative proposal that would aim at improving the exchange, sharing and analysis of key information and foresee conducting of joint audits.
9. The Commission proposal broadly reflects the Council's request for an improvement of information exchange that would result in a clear improvement of efficiency in the fight against VAT fraud, by proposing ways of addressing legal obstacles and practical limitations that might exist in the EU and in the Member States that prevent from making a qualitative leap in this area in the EU.
10. With a view to addressing the challenges both to customs and tax authorities, the proposal also meets the Council's request to promote co-operation and cover the full range of available means and methods and alignment of procedures, including, *inter alia*, VIES, Eurofisc, feedback procedures and customs procedure 42.
11. The European Parliament has not yet delivered its opinion on this legislative proposal.

II. STATE OF PLAY

12. The Bulgarian Presidency has prioritized work on this file. In its Tax Policy Roadmap, the Bulgarian Presidency committed to seek agreement on the key elements on the basis of the proposal presented by the Commission.⁴ In 2018, five meetings of the Working Party on Tax Questions (WPTQ) took place (24 January, 7 February, 7 March, 13 April and 3 May 2018).
13. On 25 May 2018, ECOFIN Council was not in a position to agree on a general approach on this important legislative proposal. On 6 June 2018, at the meeting of the High Level Working Party for taxation (HLWP), delegations could largely support the last amendments suggested by the Commission and the Presidency in relation to Recitals 2 and 13 and to Article 7(4a).
14. In the course of the negotiations, Member States deemed it appropriate and necessary, in order to allow for early progress in the field of administrative co-operation in VAT area, to advance the work on the core of this Commission proposal. Therefore, the Council will subsequently continue to work on the elements of the Commission proposal relating to the certified taxable person (namely Article 1(3)(a), Article 1(3)(c), Article 1(9), the relevant parts of Article 3, 2nd subparagraph, and the corresponding recitals (4 to 7)), when discussing the following legislative proposals :
 - i) Proposal for a Council Directive amending Directive 2006/112/EC as regards harmonising and simplifying certain rules in the value added tax system and introducing the definitive system for the taxation of trade between Member States; and the
 - ii) Proposal for a Council Implementing Regulation amending Implementing Regulation (EU) No 282/2011 as regards certain exemptions for intra-Community transactions.

⁴ Doc. 5668/18 FISC 37, point 34.

Member States also stressed the need to continue to work in the Council on the elements of this Commission proposal relating to the small and medium enterprises (namely Article 1(10), the relevant parts of Article 3, 4th subparagraph, and the corresponding recital (12)), when discussing the Proposal for a Council Directive amending Directive 2006/112/EC as regards the special scheme for small enterprise (the so called "SMEs proposal").

III. THE WAY FORWARD

15. Following the positive outcome of the discussions at HLWP meeting on 6 June, the Presidency suggested by silence procedure a new version of the compromise text, which included the last amendments suggested at the HLWP. That text was agreed by all delegations and by the Commission.
16. Therefore, in view of reaching a general approach at the upcoming meeting of ECOFIN Council on 22 June 2018, the Presidency tables that compromise text, as set out in Annex to this note, which should be acceptable to all delegations.
17. The Committee of Permanent Representatives is therefore invited to recommend that the Council adopts, as an "A" item on the agenda of a forthcoming meeting, a general approach on the text of the draft Regulation on the basis of the Presidency compromise text set out in Annex to this note, with a view to adopting the Regulation at a later date, subject to receiving the opinion of the European Parliament and legal-linguistic revision.

DRAFT

COUNCIL REGULATION

amending Regulation (EU) No 904/2010 and Regulation (EU) 2017/2454 as regards measures to strengthen administrative cooperation in the field of value added tax

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 113 thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Parliament¹,

Having regard to the opinion of the European Economic and Social Committee²,

Acting in accordance with a special legislative procedure,

Whereas:

¹ OJ C [...], [...], p. [...].

² OJ C [...], [...], p. [...].

- (1) The current system for the taxation of trade between Member States is based on transitional arrangements introduced in 1993 which have become outdated and prone to fraud in the context of a highly complex value added tax (VAT) system. The Commission put forward a proposal³ setting out the principles for a definitive VAT system for cross-border business-to-business trade between Member States that would be based on the taxation of cross-border supplies in the Member State of destination. Given the fact that it could take several years for the definitive VAT system for intra-Union trade to be fully implemented, short term measures are needed to combat cross-border VAT fraud more effectively and in a more timely manner. Improving and simplifying the administrative cooperation instruments, in particular Eurofisc, is also of significant importance in the fight against VAT fraud in general and to strengthen trust between tax authorities before the definitive VAT regime is introduced.

³ COM(2017) 569 final of 4 October 2017.

- (2) Carrying out an administrative enquiry is often necessary to combat VAT fraud in particular when the taxable person is not established in the Member States where the tax is due. To ensure the proper enforcement of VAT and to avoid duplication of work and administrative burden of tax authorities and business, where at least two Member States consider that an administrative enquiry into the amounts declared by a taxable person not established on their territory but taxable therein is necessary, the Member State where the taxable person is established should undertake the enquiry unless it is able to provide the information requested. The requiring Member States should stand ready to assist the Member State of establishment by taking part actively in the enquiry. As the officials of the requesting Member States might have better knowledge of the facts and circumstances of the case and where the requested Member State has not required officials from the requesting Member States the officials of the latter should be able to be present during the administrative enquiry in so far as conditions under national law of the requested Member State for such a presence are met. In this occasion the officials of the requesting Member States should have access to the same premises and documents as the officials of the requested Member State through their intermediation. Where the legislation of the requested Member State contains such conditions for providing the presence it should be assumed that the requested Member State shall undertake the necessary actions to satisfy these conditions. In any case officials from the requesting Member States should, where they deem it necessary, have the possibility to be present for consultation on the enquiry in the requested Member State with its officials after informing them. The purpose of such consultation could be to exchange views and information about the development of the enquiry and to propose and discuss possible actions.

- (3) Forwarding information without a prior request to the competent authorities of other Member States in accordance with Council Regulation (EU) No 904/2010⁴ should be as simple and effective as possible. It is therefore necessary to allow competent authorities to forward information by means other than the standard forms when they deem other secure means more appropriate and agree to use them or when the information has been received from a third country.
- (4) The VAT exemption for the imports of goods provided for in Article 143(2) of Directive 2006/112/EC⁵ ('customs procedure 42') is often abused and goods are diverted to the black market without VAT having been paid. It is therefore essential that customs officials when checking whether the requirements for granting the exemption are met, have access to the registry of VAT identification numbers and the recapitulative statements. Furthermore, the information collated by the customs authorities, as part of this procedure, should also be made available to the competent authorities of the Member State where the subsequent intra-Community acquisition must take place.
- (5) In order to tackle fraud arising from the dual VAT regime applicable to cars, Eurofisc liaison officials should be able to access vehicle registration data in an automated way. It would allow them to identify swiftly who has committed the fraudulent transactions and where. Such access should be made available via the European Vehicle and Driving Licence Information System (EUCARIS) software application, whose use is mandatory for Member States under Council Decision 2008/615/JHA⁶ and Council Decision 2008/616/JHA⁷, as regards vehicle registration data.

⁴ Council Regulation (EU) No 904/2010 of 7 October 2010 on administrative cooperation and combating fraud in the field of value added tax (OJ L 268, 12.10.2010, p. 1).

⁵ Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax (OJ L 347, 11.12.2006, p. 1).

⁶ Council Decision 2008/615/JHA of 23 June 2008 on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime (OJ L 210, 6.8.2008, p. 1).

⁷ Council Decision 2008/616/JHA of 23 June 2008 on the implementation of Decision 2008/615/JHA (OJ L 210, 6.8.2008, p. 12).

- (6) In order to ensure uniform conditions for the implementation of the provisions on automated access to information collated by the customs authorities and to vehicle registration data, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council⁸.
- (7) For the purpose of ensuring the effective and efficient monitoring of VAT on cross-border transactions, Regulation (EU) No 904/2010 provides for the presence of officials in administrative offices and during administrative enquiries in other Member States. In order to strengthen the capacity of tax authorities to check cross-border supplies, there should be administrative enquiries carried out jointly enabling officials from two or more Member States to form a single team and actively take part in an administrative enquiry carried out jointly.
- (8) In order to combat the most serious cross-border frauds, it is necessary to clarify and strengthen the governance, tasks and functioning of Eurofisc. Eurofisc liaison officials should be able to access, exchange, process and analyse all necessary information swiftly and coordinate any follow-up actions. However, such coordination does not imply a right for requiring any specific enquiry actions from the participating Member State. It is also necessary to strengthen the fight against VAT fraud at Union level, in particular by enabling Eurofisc liaison officials to receive targeted information from Europol and the European Anti-Fraud Office. Therefore, in order to receive relevant information in return held by Europol and the European Anti-Fraud Office, Eurofisc liaison officials should be able to forward to Europol and the European Anti-Fraud Office, as much information as necessary.

⁸ Regulation (EU) No 182/2011 of the European Parliament and of the Council laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p.13).

- (9) In order to ensure uniform conditions for the implementation of the provisions on Eurofisc, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011.
- (10) Organising the forwarding of requests for VAT refunds - pursuant to Article 5 of Council Directive 2008/9/EC⁹ offers an opportunity to reduce the administrative burden for the competent authorities to recover unpaid tax liabilities in the Member State of establishment.
- (11) Member States may also communicate to the European Anti-Fraud Office relevant information where they consider it appropriate. This would enable the European Anti-Fraud Office to fulfil its mandate to carry out administrative investigations into fraud, corruption and other illegal activities affecting the financial interests of the Union, and to provide assistance to the Member States in order to coordinate their action to protect the financial interests of the Union against fraud.
- (12) The Commission may have access to the information communicated or collected pursuant to Regulation (EU) No 904/2010 only in so far as it is necessary for care, maintenance and development of the electronic systems hosted by the Commission and used by the Member States for the purpose of this Regulation.

⁹ Council Directive 2008/9/EC of 12 February 2008 laying down detailed rules for the refund of value added tax, provided for in Directive 2006/112/EC, to taxable persons not established in the Member State of refund but established in another Member State (OJ L 44, 20.2.2008, p. 23).

(13) Regulation (EU) 2016/679 of the European Parliament and of the Council¹⁰ applies to the processing of personal data for the purpose of Regulation 904/2010. Regulation 45/2001 of the European Parliament and of the Council applies to the processing of personal data by the Union institutions and bodies for the purpose of that Regulation. The fight against VAT fraud is recognised as an important objective of general public interest of both the Union and its Member States. For the purposes of achieving the objectives of Regulation 904/2010, namely the objective to cooperate and to exchange information that helps to effect a correct assessment of VAT, to monitor correct application of VAT, particularly on intra-Community transactions, and to combat VAT fraud, it is appropriate to provide for specific and limited restrictions on certain rights and obligations laid down by Regulation (EU) 2016/679.

More specifically, full application of the rights and obligations foreseen in that Regulation would seriously undermine the effectiveness of the fight against VAT fraud as it would in particular allow the data subjects to obstruct ongoing investigations and risk profiling. This would jeopardise official or legal enquiries, analyses, investigations or procedures that are carried out in accordance with Regulation 904/2010. It would also disable the administrative cooperation between the competent authorities which is a key instrument for the purpose of combating VAT fraud. Consequently, restrictions should be provided as regards the right for transparent information, the right to receive information where personal data are collected from the data subject, the right to receive information where personal data have not been obtained from the data subject, the right of access by the data subject, the right to erasure, the right to object to processing of personal data and the right concerning automated individual decision-making, including profiling. Exercise of these rights should be restricted only as long as it is necessary in order not to undermine the purposes pursued under Article 1 of this Regulation. This restriction should only apply as regards categories of data referred to in Article 1 to the extent it is strictly necessary in order to ensure compliance with VAT legislation, and in Articles 14, 17 and 21a of this Regulation.

¹⁰ Regulation (EU) 2016/679 of the European Parliament and of the Council on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (OJ L 119, 4.5.2016, p. 1).

As the objective pursued, namely the prevention, investigation and detection of VAT evasion and VAT fraud, cannot be achieved by other less restrictive means of equal effectiveness, these restrictions are strictly necessary for the purpose of achieving the specific purpose in question. They are also proportionate in view of the loss of revenue for the Union and the Member States and the crucial importance of making information available in order to combat fraud effectively. The processing and the storage of information collected and exchanged under this Regulation is limited to the objectives of fight against VAT fraud. Information collected and exchanged under this Regulation does not concern sensitive data. It may not be further processed in a way that is incompatible with such purposes, including prohibition to process it for commercial purposes. As regards the safeguards to prevent abuse or unlawful access or transfer, Regulation 904/2010 already provides detailed conditions concerning the access of the competent national authorities to the data and their subsequent use in order to achieve its general aim provided for under Article 1. The data retention period is limited to what is necessary for the purpose of achieving the objectives pursued.

- (14) As Council Regulation (EU) 2017/2454¹¹ has also amended Article 17 of Regulation (EU) No 904/2010 with application from 1 January 2021, it is necessary to amend Regulation (EU) 2017/2454 to have correct references to paragraph 1 of Article 17 in paragraph 2 of this Article. As Regulation (EU) 2017/2454 has also amended Annex I of Regulation (EU) No 904/2010 with application from 1 January 2021, it is necessary to amend Regulation (EU) 2017/2454 as Annex I is no longer necessary and therefore should be deleted.
- (15) As the implementation of the provisions on the automated access to the information collated by the customs authorities and to vehicle registration data will require new technological developments, it is necessary to defer their application to allow the Member States and the Commission to carry out those developments.

¹¹ Council Regulation (EU) 2017/2454 of 5 December 2017 amending Regulation (EU) No 904/2010 on administrative cooperation and combating fraud in the field of value added tax (OJ L 348, 29.12.2017, p. 1).

- (16) Since the objectives of this Regulation – improving the cooperation instruments between Member States and combating cross-border fraud in the field of VAT- cannot be sufficiently achieved by the Member States and can therefore be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on the European Union. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives.
- (17) The European Data Protection Supervisor was consulted in accordance with Article 28(2) of Regulation (EC) 45/2001 and delivered its formal comments on 21 March 2018.
- (18) Regulation (EU) No 904/2010 and Regulation (EU) 2017/2454 should therefore be amended accordingly,

HAS ADOPTED THIS REGULATION:
