NOTE

From:	COREPER
To:	Council
No. prev. doc.:	ST 9679/16 PECHE 193 CODEC 789
Subject:	Proposal for a Regulation of the European Parliament and of the Council on the sustainable management of external fishing fleets, repealing Council Regulation (EC) No 1006/2008 (First reading) - General Approach

1. On 11 December 2015, the Commission submitted to the Council and to the European Parliament a proposal for a Regulation of the European Parliament and of the Council on the sustainable management of external fishing fleets, repealing Council Regulation (EC) No 1006/2008. The proposal envisages an overhaul of the regime of authorisations for Union fishing vessels to fish outside Union waters, and for third country fishing vessels to fish inside Union waters.
2. In addition to clarifying and simplifying the rules, and making them more consistent with key legislation adopted in the meantime, the proposal intends to broaden the scope of the regulation to issues such as direct third country licences, chartering and, as a result of the CFP reform¹, "reflagging". The proposal also aims at better monitoring and increasing transparency.

¹ Article 31(9) of Regulation (EU) No 1380/2013.

3. The Working Party on Internal and External Fisheries Policy discussed the proposal between 15 January and 19 May 2016. The DK and UK delegations entered parliamentary scrutiny reservations.
4. The Council had a first exchange of views on the proposal on 15 February 2016. Ministers generally welcomed the proposal but expressed concerns with respect to the additional administrative workload and to the complexity of certain authorisation procedures.
5. The Presidency prepared a number of compromise documents in preparation of a general approach of the Council.²
6. The Permanent Representative Committee examined the final Presidency compromise on 15 June 2016.³ Delegations taking the floor largely supported the compromise as balancing the various demands and expectations. Some delegations considered that further efforts towards simplification, in particular in Art 18 (1d) and 19, would have been welcome. One of these delegations also regretted that its requests concerning Art 5 and 9 had not been fully met. Another delegation requested further changes with regard to Art. 18 (1) (d), (2), 19 and 23 (3).⁴ Finally, two other delegations expressed their concerns as regards, on one hand, Art 7 (5) and, on the other hand, Art 5 (d).
7. The Presidency considered that the proposed changes to the authorisation mechanisms in the compromise document (cf. Articles 11/12, 18/19, 21/22, 26/27, 33/34) had achieved a balance between the political interest in sustainable and transparent fishing activities outside Union waters, and the administrative and economical interest of quick and robust procedures that are a precondition of such fishing activity.

⁴ doc. 7461/3/16 PECHE 110 CODEC 355 REV 3 ADD 2 REV 1.

8. The European Commission representative appreciated the technical improvements brought to the proposal by the Presidency compromise document, while underlying that further simplification or shortening of procedures could affect the quality of the procedure and the assurance of the sustainability of fishing operations. He expressed doubts and reserved his position with regard to some of the changes, especially concerning Art. 5(d), 6, 7(6), 13-15 and 46.
 9. The Presidency concluded on the Committee's support for the compromise document.
 10. The Council is invited to agree on the General Approach as established in the compromise text set out in the annex to this note.

Chapter IV

Fishing activities by Union fishing vessels on the high seas

[Note: Recital 12 to be amended: *"The core principle of the present regulation is that any Union vessel fishing outside Union waters should be authorised by its flag Member State and monitored accordingly, irrespective of where it operates and the framework under which it does so. The issuing of an authorisation should be dependent on a basic set of common eligibility criteria being fulfilled. **This is without prejudice to additional conditions applying for specific activities such as deep-sea fishing on the high seas in accordance with Regulation (EC) No 734/2008."**...]*

Article 24

Scope

This Chapter shall apply to fishing activities carried out on the high seas **outside the scope of chapter III** by Union fishing vessels exceeding 24 meters in overall length.

If the Commission finds that the conditions are met, it shall inform the Member State concerned without delay of its intention not to object.**

4. The flag Member State may issue the fishing authorisation upon expiry of the period referred to in paragraph 2. Where the Commission has requested further information in accordance with that paragraph, the flag Member State may issue the fishing authorisation if no objection has been raised by the Commission within the deadline referred to in paragraph 3 or prior to that deadline, provided that the Commission informed of its intention not to raise objections to the Member State.

Chapter V

Chartering of Union fishing vessels

Article 28

Principles

1. A Union fishing vessel may not carry out fishing activities under chartering arrangements in waters in which where a sustainable fisheries partnership agreement is in force or is provisionally applied is in force, unless otherwise provided for in that agreement. 2. A third country fishing vessel authorised to fish in Union waters shall comply with the rules governing the fishing activities of Union vessels in the fishing zone in which it operates, and the provisions laid down in the relevant fisheries agreement.

[Note: It should be explained, probably in the context of recital 22, that the term "fisheries agreement" is understood in a broad sense.]

3. If a third country fishing vessel is sailing through Union waters without an authorisation issued under this Regulation, its fishing gear shall be lashed and stowed **in accordance with the conditions laid down in Article 47 of Regulation (EC) No 1224/2009** so that it is not readily usable for fishing operations.

Article 36

Closure of fishing activities

1. Where fishing opportunities granted to a third country are deemed to have been exhausted, the Commission shall immediately notify it and the competent inspection authorities of the Member States of this. To ensure the continuance of fishing activities of non-exhausted fishing opportunities, which may also affect the exhausted opportunities, the third country shall submit to the Commission technical measures preventing any negative impact on the exhausted fishing opportunities.
2. From the date of the notification referred to in paragraph 1, the fishing authorisations issued to vessels flying the flag of that third country concerned shall be considered to be suspended for the fishing activities concerned and the vessels shall no longer be authorised to engage in these fishing activities.
- 3.2. Fishing authorisations shall be considered to be withdrawn where a suspension of fishing activities in accordance with paragraph 2 concerns all the activities for which they have been granted.

2. If a deduction according to paragraph 1 cannot be made on the quota for a stock or group of stocks that was overfished as such because that quota for a stock or group of stocks is not sufficiently available to the third country concerned, the Commission may, after consultation with the third country concerned, make deductions from quotas in subsequent years for other stocks or groups of stocks available to that third country in the same geographical area, or to the corresponding commercial value.

[Note: a recital should specify that rules on quota deductions for third country vessels operating in Union waters are to be specified in the relevant fisheries agreement concluded between the Union and the third country concerned.]

Article 38
Control and enforcement

[Note: Recital (22) to be amended: *"With a view to properly addressing access to Union waters of fishing vessels flying the flag of a third country, the relevant rules should be consistent with those applicable to Union fishing vessels, in accordance with the Basic Regulation and the Control Regulation. It is recalled, in particular, that Article 15 of the Basic Regulation on the obligation to land all catches and Article 33 of ~~that~~ the Control Regulation on the reporting of catch and catch-related data ~~should~~ also apply to third country vessels fishing in Union waters."*]
