'I' ITEM NOTE

| | |
|----------------|--|
| From: | General Secretariat of the Council |
| To: | Permanent Representatives Committee |
| No. Cion doc.: | COM(2018) 375 |
| Subject: | Common Provisions Regulation 2021-2027 - Annexes |

I. INTRODUCTION

1. On 29 May 2018 the Commission adopted the proposal for the Common Provisions Regulation (CPR)¹. The Common Provisions Regulation sets out common provisions for seven shared management funds: the Cohesion Fund, the European Maritime and Fisheries Funds, the European Regional Development Fund, the European Social Fund Plus, the Asylum and Migration Fund, the Border Management and Visa Instrument and the Internal Security Fund.
2. The Economic and Social Committee and the Committee of the Regions have been consulted on the CPR Regulation and have adopted their opinions on 17 October and 5 December 2018, respectively.

¹ Doc. 9511/18 + ADD 1.

3. The European Parliament voted its first reading position on the Common Provisions Regulation on 27 March 2019.

II. WORK WITHIN THE COUNCIL SO FAR

a) *CPR mandates agreed so far (Blocks 1 to 7)*

4. The CPR Regulation was presented to the Structural Measures Working Party in June 2018 during the Bulgarian Presidency.
5. Detailed examination of the texts started during the Austrian Presidency, as stated in their Presidency's Report (doc. 15428/1/18 REV). On 17 December, the Permanent Representatives Committee agreed on a mandate for negotiations on the Common Provisions Regulation covering provisions on programming and strategic planning (Block 1) and management and control (Block 5) as set out in doc. 15429/18 ADD1.
6. Under the Romanian Presidency, the Permanent Representatives Committee agreed on a mandate for negotiations on the Common Provisions Regulation covering provisions on:
 - conditions for eligibility and performance framework (Block 2), including Annex IV on thematic enabling conditions, as set out in doc. 6147/19 ADD1.
 - monitoring, evaluation, communication and visibility (Block 3) and on financial support from the Funds (Block 4) and their related annexes, as set out in doc. 7983/19.
 - financial management (Block 6) and their related annexes, as set out in doc. 8728/19.
 - definitions and other provisions such as delegation of power, implementing, transitional and final provisions (Block 7), as set out in doc. 9590/19.
 - Annex III on the horizontal enabling conditions, as set out in doc. 9961/19.
7. The only CPR provisions for which the Council has not yet a mandate are the ones related to MFF issues (mainly contained in CPR Block 8), of either a budgetary or horizontal nature.

b) Work on CPR Annexes

8. Since the Council reached partial mandates on almost all of the CPR provisions, the Presidency decided to align all the CPR Annexes with the partial mandates reached on CPR Blocks 1 to 7. The alignment is thus understood as a purely technical exercise to make sure the Annexes are in line with the Articles of the CPR.
9. At its meetings on 4 and 11 June, the Structural Measures Working Party scrutinised the Annexes. Following the meeting on 11 June, **the Presidency is of the view that, based on the principle that "nothing is agreed until everything is agreed", a balanced compromise text on the Annexes has emerged from discussions amongst Member States.** It is to be noted that the Annexes will have to be aligned at a later stage with the outcome of the inter-institutional negotiations.

III. WAY FORWARD

10. The Permanent Representatives Committee is, therefore, invited to agree on a partial mandate for negotiations on the Annexes of the Common Provisions Regulation and confirm the compromise proposed by the Presidency as set out in the Annex to this note.

- 1.9. Graphic standards for the Union emblem and the definition of standard colours:

A) SYMBOLIC DESCRIPTION

Against a background of blue sky, twelve golden stars form a circle representing the union of the peoples of Europe. The number of stars is fixed, twelve being the symbol of perfection and unity.

B) HERALDIC DESCRIPTION

On an azure field a circle of twelve golden mullets, their points not touching.

C) GEOMETRIC DESCRIPTION

The emblem has the form of a blue rectangular flag of which the fly is one and a half times the length of the hoist. Twelve gold stars situated at equal intervals form an invisible circle whose centre is the point of intersection of the diagonals of the rectangle. The radius of the circle is equal to one third of the height of the hoist. Each of the stars has five points which are situated on the circumference of an invisible circle whose radius is equal to one eighteenth of the height of the hoist. All the stars are upright, i.e. with one point vertical and two points in a straight line at right angles to the mast. The circle is arranged so that the stars appear in the position of the hours on the face of a clock. Their number is invariable.

D) REGULATION COLOURS

The emblem is in the following colours: PANTONE REFLEX BLUE for the surface of the rectangle; PANTONE YELLOW for the stars

E) FOUR-COLOUR PROCESS

If the four-colour process is used, recreate the two standard colours by using the four colours of the four-colour process.

PANTONE YELLOW is obtained by using 100 % 'Process Yellow'.

PANTONE REFLEX BLUE is obtained by mixing 100 % 'Process Cyan' and 80 % 'Process Magenta'.

INTERNET

PANTONE REFLEX BLUE corresponds in the web-palette colour RGB:0/51/153 (hexadecimal: 003399) and

PANTONE YELLOW corresponds in the web-palette colour RGB: 255/204/0 (hexadecimal: FFCC00).

MONOCHROME REPRODUCTION PROCESS

Using black, outline the rectangle in black and print the stars in black on white.

Using blue (Reflex Blue), use 100 % with the stars reproduced in negative white.

REPRODUCTION ON A COLOURED BACKGROUND

If there is no alternative to a coloured background, put a white border around the rectangle, the width of the border being 1/25th of the height of the rectangle.

The principles of the use of the Union emblem by third parties are set out in an administrative agreement with the Council of Europe³⁷

Reconciling items include negative sampling units where financial corrections have been made.

5.5 Where there are negative sampling units, confirmation that they have been treated as a separate population. Analysis of the principal results of the audits of these units, namely focusing on verifying whether the decisions to apply financial corrections (taken by the Member State or by the Commission) have been registered in the accounts as withdrawals.

5.6 Where a non-statistical sampling method is used, specify the reasons for using the method, the percentage of sampling units covered by audits, the steps taken to ensure randomness of the sample bearing in mind that the sample has to be representative.

In addition, define the steps taken to ensure a sufficient size of the sample, enabling the audit authority to draw up a valid audit opinion. A total (projected) error rate should also be calculated a where non-statistical sampling method has been used.

5.7 Analysis of the main findings of the audits of operations, describing:

(1) the number of sampling units audited, the respective amount;

(2) the type of error by sampling unit⁴⁹,

(3) the nature of errors found⁵⁰

(4) the stratum⁵¹ error rate and corresponding serious deficiencies or irregularities the upper limit of the error rate, root causes, corrective measures proposed (including those intending to improve the management and control systems) and the impact on the audit opinion.

Further explanations on the data presented in Sections 9.2 and 9.3 below shall be provided, in particular concerning the total error rate.

5.8 Details of any financial corrections relating to the accounting year and implemented by the managing authority before submitting the accounts to the Commission, and as a consequence of the audits of operations, including flat rate or extrapolated corrections leading to a reduction to 2% of the residual error rate of the expenditure included in the accounts pursuant to Article 92.

⁴⁹ Random, systemic, anomalous

⁵⁰ For instance: eligibility, public procurement, State aid

⁵¹ The stratum error rate is to be disclosed where stratification was applied, covering sub-populations with similar characteristics such as operations consisting of financial contributions from a programme to financial instruments, high-value items, Funds (in case of multi-Fund programmes).

5.9 Comparison of the total error rate and the residual error rate (as shown in Section 9.2 below) with the materiality level of 2%, in order to ascertain if the population is materially misstated and the impact on the audit opinion.

5.10 Details of whether any irregularities identified were considered to be systemic in nature, and the measures taken, including a quantification of the irregular expenditure and any related financial corrections.

5.11 Information on the follow-up of audits of operations carried out in respect of the common sample for Interreg programmes based on the specific rules on audits on operations applicable to Interreg programmes as set out in Article 48 of Regulation EU No [ETC Regulation].

5.12 Information on the follow-up of audits of operations carried out for previous accounting years, in particular on serious deficiencies of systemic nature.

5.13 A table categorising errors identified by type.

5.14 Conclusions drawn from the main findings of the audits of operations with regard to the proper functioning of the management and control system.

Section 5.14 is to be adapted for Interreg programmes in order to describe the steps taken to draw the conclusions based on the specific rules on audits on operations applicable to Interreg programmes as set out in Article 48 of Regulation EU No [ETC Regulation].

6. Audits of accounts

6.4 Indication of whether any irregularities identified were considered to be systemic in nature, and of the measures taken.

7. Other information

7.1 Audit authority's assessment of the cases of suspicions of fraud detected in the context of their audits (including the cases reported by other national or EU bodies and related to operations audited by the audit authority), together with the measures taken. Information on number of cases, gravity, and the amounts affected, if known.

7.2 Subsequent events occurred after the end of the accounting year and before the transmission of the annual control report to the Commission and considered when establishing the level of assurance and opinion by the audit authority.

8. Overall level of assurance

8.1 Indication of the overall level of assurance on the proper functioning of the management and control system, and an explanation of how the level was obtained from the combination of the results of the system audits and audits of operations. Where relevant, the audit authority shall take also account of the results of other national or Union audit work carried out.

ANNEX XXI

Determination of the level of financial corrections: flat-rate and extrapolated financial corrections – Article 98(1)

Elements for applying an extrapolated correction

Where extrapolated financial corrections are to be applied, the results of the examination of the representative sample are extrapolated to the rest of the population from which the sample was drawn for purposes of determining the financial correction.

Elements for consideration when applying a flat rate correction

- (a) gravity of the serious deficiency(-ies) in the context of the management and control system as a whole;
- (b) the frequency and extent of the serious deficiency(-ies);
- (c) the degree of financial prejudice to the Union budget.

The level of flat rate financial correction is determined as follows:

- (a) where the serious deficiency(-ies) is so fundamental, frequent or widespread that it represents a complete failure of the system that puts at risk the legality and regularity of all expenditure concerned, a flat rate of 100 % is applied;
- (b) where the serious deficiency(-ies) is so frequent and widespread that it represents an extremely serious failure of the system that puts at risk the legality and regularity of a very high proportion of the expenditure concerned, a flat rate of 25 % is applied;
- (c) where the serious deficiency(-ies) is due to the system not fully functioning or functioning so poorly or so infrequently that it puts at risk the legality and regularity of a high proportion of the

expenditure concerned, a flat rate of 10 % is applied;

- (d) where the serious deficiency(-ies) is due to the system not functioning consistently so that it puts at risk the legality and regularity of a significant proportion of the expenditure concerned, a flat rate of 5 % is applied.

Where, due to a failure of the responsible authorities to take corrective measures following the application of a financial correction in an accounting year, the same serious deficiency (-ies) is identified in a subsequent accounting year, the rate of correction may, due to the persistence of the serious deficiency(-ies) be increased to a level not exceeding that of the next higher category.
