Statements by the Commission**- On LULUCF sink and 2030 target**

"The EU land use, land use change and forestry (LULUCF) sector both emits greenhouse gases and absorbs CO₂ in its soil and biomass. Restoring and growing our land carbon sink – the ability to absorb CO₂ by our natural environment such as trees - is crucial to our climate goals.

We need a growing sink in order for the EU to achieve climate neutrality by 2050. Reversing the current trend requires significant short-term action. The Commission Communication "Stepping up Europe's 2030 climate ambition - Investing in a climate-neutral future for the benefit of our people" estimates that it is needed and possible to reverse the current trend and increase the carbon sink to levels above 300 million tons CO₂eq. by 2030.

The Commission will make proposals to revise the LULUCF Regulation, in line with this ambition."

- On Access to Justice

"The EU and its Member States are parties to the United Nations Economic Commission for Europe (UNECE) Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters of 25 June 1998 (the 'Aarhus Convention').

When performing their obligations under Regulation (EU) 2018/1999 concerning the involvement of the public in the preparation of the national energy and climate plans and the consultations on the long-term strategies, Member States should ensure that the public concerned is granted access to justice in case of breach of such obligations. This shall be in line with the relevant case law of the Court of Justice of the European Union related to access to justice in environmental matters and in full respect of the obligations Member States have undertaken as parties to the Aarhus Convention.¹"

Statement by the Commission

"By its judgement in joined cases C-103/12 and C-165/12 (European Parliament and the Commission v. Council) the Court of Justice clearly confirmed that decisions relating to the conclusion of external fisheries agreements fall fully within the scope of Article 43(2) TFEU (in conjunction with the applicable procedure of Article 218 TFEU, i.e. Article 218(6)(a)(v) for the decisions on the conclusion of the agreements) and rejected the position that such decisions could fall within the scope of Article 43(3) TFEU.

In relation to the Decision on the signing and provisional application as well as on the conclusion of the Implementing Protocol (2021-2026) to the Fisheries Partnership Agreement between the Gabonese Republic and the European Community, the Commission regrets the Council's amendment replacing the substantive legal basis of Article 43(2) TFEU with Article 43 (without mentioning the paragraph).

While not opposing the adoption of the amendment by the Council by a qualified majority vote, the Commission reserves all its rights in this regard."

Statement by the Commission

"The Commission considers that the Decision on the signing and provisional application of the Protocol implementing the Fisheries Partnership Agreement between the European Union and Gabon, should refer to the person designated by the negotiator as the one to be empowered to sign the Protocol. Therefore, the changes to Article 2 that provide for the President of the Council to designate the person who is to sign the agreement on behalf of the Union are not in accordance with the Treaties.

The Decision on the conclusion of the Protocol implementing the Fisheries Partnership Agreement between the European Union and Gabon, should indicate the Commission as responsible for the notification of the Union's consent to be bound by the Protocol. The changes to Article 3 that provide for the President of the Council to make this notification are thus also not in accordance with the Treaties.

Both the signature of an international agreement and the subsequent notification of the consent to be bound by it are acts of external representation of the Union, which, in accordance with Article 17(1) TEU, is the institutional prerogative of the Commission.

The Court of Justice has emphasized that consistent practice by Union institutions that is not in accordance with the EU Treaties 'cannot alter the rules of the Treaties that the institutions are obliged to respect' (Case C-687/15 Commission v Council, EU:C:2017:803, para. 42). While not opposing the adoption of the amendment by the Council by a qualified majority vote, the Commission reserves all its rights in this regard."

Statement by Hungary

"Equality between women and men is enshrined in the Treaties of the European Union as a fundamental right. Hungary ensures equality between women and men within the framework of the Hungarian national legal system in accordance with internationally binding human rights instruments and within the framework of fundamental values and principles of the European Union. For these reasons, Hungary interprets the concept of "gender" in the text as a reference to sex in line with art. 10, art. 19 para 1 of the Treaty on the Functioning of the European Union, as well as art. 21 of the EU Charter of Fundamental Rights."
