Statement by the UK

"The United Kingdom welcomes the adoption of the two Council Decisions concerning the Framework Convention on Tobacco Control Protocol and looks forward to timely ratification of the instrument. In particular, the UK supports the approach adopted by the Council and European Commission in this case concerning the application of Protocol (No 21) to the Treaties. The United Kingdom considers that the Union does not enjoy exclusive external competence in relation to any of the Justice and Home Affairs provisions of the Tobacco Control Protocol."

Statement by DK

"Denmark holds a strong tradition involving and engaging in close dialogue with the business community in relation to creation, drafting and execution of National legislation as well as EU legislation.

It is the perception of Denmark that such a dialogue is an essential instrument in the democratic process to ensure that decisions are made on a solid foundation.

It is thus a fundamental and a democratic issue, that outcomes originating from the WHO's Protocol to Eliminate Illicit Trade in Tobacco Products, are developed without the involvement of the affected parties of the business community. The criticality of the democratic issue is seen especially in relation to the development and implementation of the so-called 'Track & Trace'-system and by introduction of unique and validating product identifiers. These solutions will be managed, implemented and executed in practise by the affected business communities, and due to their key role, the business communities must be actively involved in the decision making processes.

Denmark is generally positive towards initiatives aimed at elimination of illicit trade of tobacco products, but must stress that a close and democratic dialogue with the affected parties of the business communities is a paramount pre-requisite for affective solutions."

14. Draft Council Decision on the Conclusion, on behalf of the European Union, of the Protocol to Eliminate Illicit Trade in Tobacco Products to the World Health Organisation's Framework Convention on Tobacco Control, in so far as the provisions of the Protocol which fall under Title V of Part III of the Treaty on the Functioning of the European Union are concerned

Joint statement by IE and LU

"Even though Ireland and Luxembourg do not oppose the adoption of the General Approach on the money market funds Regulation, Ireland and Luxembourg consider that further work is necessary in order for money market funds to remain a viable and credible alternative to bank deposits. This goal is in line with the underlying objectives of the Capital Markets Union. Against this background, it is important to ensure that the liquidity requirements for the Low Volatility Net Asset Value (LVNAV) funds and the Constant Net Asset Value (CNAV) funds are operable. In particular, there should be further recognition of the high liquidity of high quality Government debt.

Further technical enhancements to the General Approach are warranted to ensure that the proposed framework for money market funds is sound, workable and efficient.

Ireland and Luxembourg consider that these issues should be addressed during the trilogues with the European Parliament and will continue to work constructively towards achieving such an outcome."
