REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
establishing the Authority for Anti-Money Laundering and Countering the Financing of
Terrorism and amending Regulations (EU) No 1093/2010, (EU) 1094/2010, (EU) 1095/2010
(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 114 thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee¹,

Having regard to the opinion of the European Data Protection Supervisor²,

¹ OJ C , , p. .

² [add reference] OJ C , , p. .

Acting in accordance with the ordinary legislative procedure,

Whereas:

(1) Experience with the current Anti-Money Laundering and Countering the Financing of Terrorism (AML/CTF) framework, which heavily relies on the national implementation of AML/CFT measures, has disclosed weaknesses not only with regard to the efficient functioning of the AML/CFT framework of the Union but also with regards to integrating international recommendations. Those weaknesses lead to the emergence of new obstacles to the proper functioning of internal market both due to the risks within the internal market as well as external threats facing the internal market.

(2) Cross-border nature of crime and criminal proceeds endanger Union financial system efforts relating to prevention of money laundering and financing of terrorism. Those efforts have to be tackled at Union level through the creation of an Authority responsible for contributing to the implementation of harmonised rules. In addition, the Authority should pursue a harmonised approach to strengthen the Union's existing AML/CFT preventive framework, and specifically AML supervision and cooperation between FIUs. That approach should reduce divergences in national legislation and supervisory practices and introduce structures that benefit the smooth functioning of the internal market in a determined manner and should, consequently, be based on Article 114 TFEU.

(3) Therefore, a European Authority for anti-money laundering and countering the financing of terrorism, the Anti-Money Laundering Authority ('the Authority') should be established. The creation of this new Authority is crucial to ensure efficient and adequate supervision of obliged entities having high Money Laundering/Terrorist Financing (ML/TF) risk, strengthening common supervisory approaches for non-selected obliged entities and facilitating joint analyses and cooperation between Financial Investigation Units (FIUs).

(4) This new instrument is part of a comprehensive package aiming at strengthening the Union's AML/CFT framework. Together, this instrument, Directive [please insert reference – proposal for 6th Anti-Money Laundering Directive], Regulation [please insert reference – proposal for a recast of Regulation (EU) 2015/847] and Regulation [please insert reference – proposal for the Anti-Money Laundering Regulation] will form the legal framework governing the AML/CFT requirements to be met by obliged entities and underpinning the Union's AML/CFT institutional framework.

(5) To bring AML/CFT supervision to an efficient and uniform level across the Union, it is necessary to provide the Authority with the following powers: direct supervision of a certain number of selected obliged entities of the financial sector, including crypto-asset service providers; monitoring, analysis and exchange of information concerning ML/TF risks affecting internal market; coordination and oversight of AML/CFT supervisors of the financial sector; coordination and oversight of AML/CFT supervisors of the non-financial sector, including self-regulatory bodies and the coordination and support of FIUs.

(6) Combining both direct and indirect supervisory competences over obliged entities, and also functioning as a support and coordination mechanism for FIUs, is the most appropriate means of bringing about supervision and cooperation between FIUs at Union level. This should be achieved by creating an Authority which should combine independence and a high level of technical expertise and which should be established in line with the Joint Statement and Common Approach of the European Parliament, the Council of the European Union and the European Commission on decentralised agencies³.

(7) A seat agreement should be established between the Authority and the host Member State, stipulating the conditions of establishment of the seat and advantages conferred by the Member State on the Authority and its staff.

(8) The powers of the Authority should allow it to improve AML/CFT supervision in the Union in various ways. With respect to selected obliged entities, the Authority should ensure group-wide compliance with the requirements laid down in the AML/CFT framework and any other legally binding Union acts that impose AML/CFT-related obligations on financial institutions. Furthermore, the Authority should carry out periodic reviews to ensure that all financial supervisors have adequate resources and powers necessary for the performance of their tasks. It should facilitate the functioning of the AML supervisory colleges and contribute to convergence of supervisory practices and promotion of high supervisory standards. With respect to non-financial supervisors, including self-regulatory bodies where appropriate, the Authority should coordinate peer reviews of supervisory standards and practices and request non-financial supervisors to investigate possible breaches of AML/CFT requirements. In addition, the Authority should coordinate the conduct of joint analyses by FIUs and make available to FIUs, IT tools and services to enhance the analysis capabilities, as well IT and artificial intelligence services and tools for secure information sharing, including through hosting of FIU.net.

(9) With the objective to strengthen AML/CFT rules at Union level and to enhance their clarity while ensuring consistency with international standards and other legislation, it is necessary to establish the coordinating role of the Authority at Union level in relation to all types of obliged entities to assist national supervisors and promote supervisory convergence, in order to increase the efficiency of the implementation of AML/CFT measures, also in the non-financial sector. Consequently, the Authority should be mandated to prepare regulatory technical standards, to adopt guidelines, recommendations and opinions with the aim that where supervision remains at national level, the same supervisory practices and standards apply in principle to all comparable entities. The Authority should be entrusted, due to its highly specialised expertise, with the development of a supervisory methodology, in line with a risk-based approach. Certain aspects of the methodology, which can incorporate harmonised quantitative benchmarks, such as approaches for classifying the inherent risk profile of obliged entities should be detailed in directly applicable binding regulatory measures – regulatory or implementing technical standards. Other aspects, which require wider supervisory discretion, such as approaches to assessing residual risk profile and internal controls of the obliged entities should be covered by non-binding guidelines, recommendations and opinions of the Authority.

The harmonised supervisory methodology should take due account of, and where appropriate, leverage the existing supervisory methodologies relating to other aspects of supervision of the financial sector obliged entities, especially where there is interaction between AML/CFT supervision and prudential supervision. Specifically, the supervisory methodology to be developed by the Authority should be complementary to guidelines and other instruments developed by the European Banking Authority detailing approaches of prudential supervisory authorities with respect to factoring ML/TF risks in prudential supervision, in order to ensure effective interaction between prudential and AML/CFT supervision.

(10) The Authority should be empowered to develop regulatory technical standards in order to complete the harmonised rulebook established in the [please insert references – proposal for 6th Anti-Money Laundering Directive, Anti-money laundering Regulation and proposal for a recast of Regulation (EU) 2015/847]. The Commission should endorse draft regulatory technical standards by means of delegated acts pursuant to Article 290 TFEU in order to give them binding legal effect. They should be subject to amendment only in very restricted and extraordinary circumstances, since the Authority is the actor in close contact with and knowing best the AML/CFT framework. To ensure a smooth and expeditious adoption process for those standards, the Commission’s decision to endorse draft regulatory technical standards should be subject to a time limit.

(11) The Commission should also be empowered to adopt implementing technical standards by means of implementing acts pursuant to Article 291 TFEU.

(12) Since there are no sufficiently effective arrangements to handle AML/CFT incidents involving cross-border aspects it is necessary to put in place an integrated AML/CFT supervisory system at Union level that ensures consistent high-quality application of the AML/CFT supervisory methodology and promotes efficient cooperation between all relevant competent authorities. For these reasons, the Authority and national AML/CFT supervisory authorities (‘supervisory authorities’) should constitute an AML/CFT supervisory system. This would also benefit supervisory authorities when facing specific challenges, for example vis-à-vis an enhanced AML/CFT risk or due to a lack of resources, as within that system mutual assistance should be possible on request. This could involve exchange and secondments of personnel, training activities and exchanges of best practices. Furthermore, the Commission could provide technical support to Member States under Regulation (EU) 2021/240 of the European Parliament and of the Council to promote reforms aimed at reinforcement of the fight against money laundering.⁴

⁴ Regulation (EU) 2021/240 of the European Parliament and of the Council of 10 February 2021 establishing a Technical Support Instrument (OJ L 57, 18.2.2021, p. 1).

(13) Considering the important role of thematic reviews in AML/CFT supervision across the Union as they enable to identify and compare the level of exposure to risks and trends in relation to obliged entities under supervision, and that currently supervisors in different Member States do not benefit from these reviews, it is necessary that the Authority identifies national thematic reviews that have a similar scope and time-frame and ensures their coordination at the level of the Union. To avoid situations of possibly conflicting communications with supervised entities, the coordination role of the Authority should be limited to interaction with relevant supervisory authorities, and should not include any direct interaction with non-selected obliged entities. For the same reason, the Authority should explore the possibility of aligning or synchronising the timeframe of the national thematic reviews and facilitate any activities that the relevant supervisory authorities may wish to carry out jointly or similarly.

(14) The efficient usage of data leads to better monitoring and compliance of firms. Therefore, both direct and indirect supervision by the Authority and supervisory authorities of all obliged entities across the system should rely on expedient access to relevant data and information about the obliged entities themselves and the supervisory actions and measures taken towards them. To that end, the Authority should establish a central AML/CFT database with information collected from all supervisory authorities, without any reference to specific STRs, and should make such information selectively available to any supervisory authority within the system and non-AML/CFT authorities for the purposes of facilitating their respective activities and without prejudice of applicable professional secrecy requirements. This data should also cover relevant information for the purposes of AML/CFT supervisory activities provided by non-AML/CFT authorities as well as other prudential national authorities and bodies. When collecting data from non-financial supervisors, the Authority should take account of the specificities and exposure to risk of the concerned activities according to the principle of proportionality.

This data, their transmission procedure and its timing should be specified in a regulatory technical standard. The database could also include data which due to its nature might require prior approval of the supervisory authorities which provided this data before it is shared, and statistical information about supervisory and other public authorities involved in AML/CFT supervision. Such information would enable effective oversight by the Authority of the proper functioning and effectiveness of the AML/CFT supervisory system. The information from the database would enable the Authority to react in a timely manner to potential weaknesses and cases of non-compliance by non-selected obliged entities. Pursuant to Article 24 of Council Regulation (EU) 2017/1939⁵, the Authority will without undue delay report to the EPPO any criminal conduct in respect of which it could exercise its competence in accordance with Article 22 and Article 25(2) and (3) of that Regulation. Pursuant to Article 8 of Regulation 883/2013⁶, the Authority will transmit to OLAF without delay any information relating to possible cases of fraud, corruption or any other illegal activity affecting the financial interests of the Union.

(15) With the objective of ensuring a more effective and less fragmented protection of the Union's financial framework, a limited number of the riskiest obliged entities should be directly supervised by the Authority. As ML/TF risks are not proportional to the size of the supervised entities, other criteria should be applied to identify the most risky entities. In particular, two categories should be considered: high-risk cross-border credit and financial institutions with activity in a significant number of Member States, selected periodically; and, in exceptional cases, any entity whose serious, systematic or repeated breaches of applicable requirements are not sufficiently or in a timely manner addressed by its national supervisor. In addition, the Authority shall ensure, as of the second selection process, that it directly supervises at least one entity in each Member State.

⁵ Council Regulation (EU) 2017/1939 of 12 October 2017 implementing enhanced cooperation on the establishment of the European Public Prosecutor's Office ('the EPPO') (OJ L 283, 31.10.2017, p. 1).

⁶ Regulation (EU, EURATOM) No 883/2013 of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office (OLAF) and repealing Regulation (EC) No 1073/1999 of the European Parliament and of the Council and Council Regulation (Euratom) No 1073/1999 (OJ L 248, 18.9.2013, p. 1).

This entity could be either a parent undertaking of a group, a subsidiary of a group authorised and headquartered in another Member State or an obliged entity that does not belong to a group and which is authorized or registered in a Member state where no group or subsidiary has already been selected for direct supervision. Those entities would fall under the category of ‘selected obliged entities’.

(16) The first category of credit and financial institutions, including CASP, or groups of such institutions should be assessed every three years, based on a combination of objective criteria related to their cross-border presence and activity, and criteria related to their ML/FT risk profile. For the first selection process, the Authority should assess those institutions taking into account only inherent risk. For the second selection process, the Authority should assess those institutions taking into account residual risk in order to better target the riskiest of those obliged entities. To that end, the Authority should establish residual risk benchmarks aiming at assessing residual risk as objectively as possible. In order to ensure that direct supervision by the Authority brings added value, only cross-border entities operating in a minimal number of Member States through either an establishment or free provision of services should fall within the remit of the Authority.

(17) In order to ensure that only the riskiest obliged entities among those categories of institutions are supervised directly at the level of the Union, the assessment of their risk should be harmonised. Currently, there are various national approaches and supervisory authorities use distinct benchmarks for assessment and classification of ML/TF risk of obliged entities. Using these national methodologies for selection of entities for direct supervision at Union level could lead to a different playing field among them. Therefore, the Authority should be empowered to develop regulatory technical standards laying out a harmonised methodology and benchmarks for categorising the inherent ML/TF risk as low, medium, substantial, or high. The Authority shall also develop by the end of the first selection period residual risk benchmarks based on objective and comparable criteria. The methodology should be tailored to particular types of risks and therefore should follow different categories of obliged entities which are financial institutions in accordance with the Regulation of the European Parliament and of the Council on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing [OP please insert the next number for COM(2021)420]. That methodology should be sufficiently detailed and should establish specific quantitative and qualitative benchmarks considering at least the risk factors related to types of customers served, products and services offered, and geographical areas.

(17a) The periodic assessment of the risk profile of credit and other financial institutions for the purpose of selection for direct supervision should rely on data to be provided by the national financial supervisors and, for already selected obliged entities, by the Authority. In addition, the Authority should ensure harmonised application of the methodology by financial supervisors and provide coordination of the assessment of the risk profile of entities at group level. A regulatory technical standard should precise the respective role of the Authority and the financial supervisors in the assessment process. The Authority should ensure alignment, where appropriate, between the methodology for assessment of risk profile for the purpose of the selection process pursuant to article 12 and the methodology for harmonising the assessment of the inherent and residual risk profiles of obliged entities at national level, to be developed in the regulatory technical standards pursuant to article 31(2) of [OP: please insert reference to AMLD6].

(18) The final selection criterion should warrant a level playing field among directly supervised obliged entities, and to that end, no discretion should be left to the Authority or supervisory authorities in deciding on the list of obliged entities that should be subject to direct supervision. Therefore, where a given assessed obliged entity operates cross-border and falls within the high risk category in accordance with the harmonised methodology, it should be deemed a selected obliged entity.

(19) To provide transparency and clarity to the relevant institutions, the Authority should publish a list of the selected obliged entities within one month of commencement of a selection round, after verifying the correspondence of information provided by the financial supervisors to the cross-border activities criteria and the risk methodology. Therefore it is important that at the beginning of each selection period, the relevant financial supervisors provide the Authority with up-to-date statistical information to determine the list of financial institutions eligible for assessment in accordance with the assessment entry criteria relating to their cross-border operations. In this context, the financial supervisors should inform the Authority about the risk category that a financial institution falls into in their jurisdictions in accordance with the methodology laid down in the regulatory technical standards. The Authority should then assume the tasks related to direct supervision five months after the publication of the list. That time is needed to appropriately prepare the transfer of supervisory tasks from national to Union level, including the formation of a joint supervisory team, and adopting any relevant working arrangements with the relevant financial supervisors.

(20) To ensure legal certainty and a level playing field among selected entities, any selected entity should remain under direct supervision of the Authority for at least three years, even if since the moment of selection and in the course of the three years it ceases to meet any of the cross-border activity or risk-related criteria due to e.g. potential ceasing, consolidation, expansion or re-allocation of activities carried out via establishments or freedom to provide services. The Authority should also ensure that sufficient time is allocated to preparation by the obliged entities and their supervisory authorities to the transfer of supervision from national to Union level. Therefore, each subsequent selection should commence six months before the end-date of the three year period of supervision of the previously selected entities.

(20a) The Authority should supervise financial sector obliged entities with a high risk profile within the Union, where such entities operate in a large number of Member States through multiple establishments or through the freedom to provide services within the EU. In such cases, indeed, supranational supervision by the Authority would bring significant added value compared to fragmented supervision between home and host Member States by eliminating the need for national supervisors of home and host Member States to coordinate and align the measures taken vis-à-vis various parts of the single group.

While the exact number of entities that could meet the risk and cross-border activities criteria for direct supervision varies and depends on their business model and money-laundering risk profile at the moment of the assessment, it is necessary to ensure an optimal and dynamic repartition of competence between the Union and national authorities in the first phase of the existence of the Authority, until its mandate and functioning is duly evaluated.

To ensure a sufficient number and adequate range of types of high risk groups and entities that are supervised at Union level, the Authority should have sufficient resources to simultaneously supervise up to 40 groups and entities at least in the first selection process.

In case more than 40 entities would qualify for direct supervision based on their high risk profile, the Authority should select among them the 40 entities operating through the freedom of establishment or the freedom to provide services in the highest number of Member States. In the event that this criterion is not sufficient to select 40 entities, in particular where several obliged entities operate in the same number of Member States – for example, entity number 39, 40 and 41 all operate in the same number of Member States – the Authority should be able to distinguish among them and should select those that have the highest ratio of volume of transactions with third countries to the total volume of transactions.

In addition, in the steady state of functioning of the Authority, and building on experience with supervision in the first selection process, it would be beneficial that the Authority ensure a complete coverage of the internal market under its supervision. To that end, the Authority should supervise at least one entity – which may be a parent undertaking of a group, a subsidiary of a group authorised and headquartered in another Member State or an obliged entity that does not belong to a group and which is authorized or registered in a Member State – in each Member State, as of the second selection process. In the event that no entity has been selected in a Member State as a result of the regular selection process, it should be the entity with high risk profile in accordance with the risk methodology designed for the selection process. In case in the Member State in question several entities have a high risk profile, the entity operating in the largest number of Member States should be selected. If several entities with high risk profile operate in the same number of Member States, the Authority should select the one with the highest ratio of the volume of transactions with third countries to the total volume of transactions.

(21) The relevant actors involved in the application of the AML/CFT framework should cooperate with each other in accordance with the duty of sincere cooperation enshrined in the Treaties. In order to ensure that the AML supervisory system composed of the Authority and supervisory authorities functions as an integrated mechanism, and that jurisdiction-specific risks and local supervisory expertise are duly taken into account and well utilised, direct supervision of selected obliged entities should take place in the form of joint supervisory teams and, where appropriate, dedicated on-site inspection teams. These teams should be led by a staff member of the Authority coordinating all supervisory activities of the team.

The Authority should be in charge of establishment and composition of the joint supervisory team, and each local supervisors involved in the supervision of the entity should ensure that a sufficient number of their staff members are appointed to the team, taking into account the risk profile of the selected entity in their jurisdiction as well as its overall volume of activity.

(22) To ensure that the Authority can fulfil its supervisory obligations in an efficient manner with regard to selected obliged entities, the Authority should be able to obtain any internal documents and information necessary for the exercise of its tasks and for that purpose have general investigation powers afforded to all supervisory authorities under national administrative law.

(23) The Authority should have the power to require actions, internal to the entity, to enhance the compliance of obliged entities with the AML/CFT framework, including reinforcement of internal procedures and changes in the governance structure, going as far as removal of members of the management body, without prejudice to the powers of other relevant supervisory authorities of the same selected entity. Following relevant findings related to non-compliance or partial compliance with applicable requirements by the obliged entity, it should be able to impose specific measures or procedures for particular clients or categories of clients who pose high risks. On-site inspections should be a regular feature of such supervision and could be performed by dedicated teams. If a specific type of on-site inspection requires an authorisation by the national judicial authority, such authorisation should be applied for by the Authority.

(24) The Authority should have a full range of supervisory powers in relation to directly supervised entities in order to ensure compliance with applicable requirements. These powers should apply in cases where the selected entity does not meet its requirements, in cases where certain requirements are not likely to be met, as well as in cases where internal process and controls are not appropriate to ensure sound management of selected obliged entity's ML/FT risks. The exercise of these powers could be done by means of binding decisions addressed to selected individual obliged entities.

(25) In addition to supervisory powers and in order to ensure compliance, in cases of serious, systematic or repeated breaches of directly applicable requirements, the Authority should be able to impose administrative pecuniary sanctions on the selected obliged entities. Such sanctions should be proportionate and dissuasive, should have both punitive and deterrent effect, and should comply with the principle of *ne bis in idem*. The maximum amounts of pecuniary sanctions should be in line with those established by [please insert reference – 6th Anti-Money Laundering Directive] and available to all supervisory authorities across the Union. The basic amounts of these sanctions should be determined within the limits established by the AML/CFT framework, taking into account the nature of the requirements that have been breached. In order for the Authority to take aggravating or mitigating factors adequately into account, adjustments to the relevant basic amount should be possible. With the objective to achieve a timely change of the damaging business practice, the Executive Board of the Authority should be empowered to impose periodic penalty payments to compel the relevant legal or natural person to cease the relevant conduct. With the aim to heighten awareness of all obliged entities, by encouraging them to adopt business practices in line with the AML/CFT framework, the sanctions and penalties should be disclosed. The Court of Justice should have jurisdiction to review the legality of decisions adopted by the Authority, the Council and the Commission, in accordance with Article 263 TFEU, as well as for determining their non-contractual liability.

(26) In order for the Authority and financial supervisors to communicate swiftly and efficiently within AML/CFT supervisory system and to enable more coherent decision-making processes, it is necessary to have specific arrangements for communication within that system.

(26a) It is important that authorities in charge of overseeing implementation of targeted financial sanctions at national level are timely informed of any violation of such obligation by selected obliged entities. To that end, the Authority may share such information with the financial supervisor in the relevant Member State and instruct it to convey such information to the national authority responsible for overseeing the implementation of those sanctions.

(27) For non-selected obliged entities, the AML/CFT supervision is to remain primarily at national level, with national competent authorities retaining full responsibility and accountability for direct supervision. The Authority should be granted adequate indirect supervisory powers to ensure that supervisory actions at national level are consistent and of a high quality across the Union. Therefore, it should carry out assessments of the state of supervisory convergence and publish reports with its findings. It should be empowered to issue guidelines and recommendations, addressed to both obliged entities as well as supervisory authorities, with a view to ensuring harmonised and high level supervisory practices across the Union.

(28) Certain obliged entities in the financial sector that do not meet the requirements for regular selection might still have a high inherent profile from the money laundering and terrorism financing perspective, or might take on, change or expand activities that entail high risk, not mitigated with a commensurate level of internal controls, thus leading to serious, systematic or repeated breaches of its AML/CFT requirements. If there are indications of possible serious, systematic or repeated breaches of applicable AML/CFT requirements, they may be a sign of gross negligence on part of the obliged entity. The supervisory authority should in most cases be able to adequately respond to any possible breaches and prevent the risks from materialising and leading to gross negligence of AML/CFT requirements. However, in certain cases a national level response might not be sufficient or timely, especially when there are indications that serious, systematic or repeated breaches at the level of the entity have already occurred. In those cases, the Authority should be able to request the local supervisor to take specific measures to remedy the situation, including requesting to issue financial sanctions. To prevent money laundering and terrorism risks from materialising, the deadline for action at national level should be sufficiently short.

(29) The Authority should have the opportunity to request a transfer of supervisory tasks and powers relating to a specific obliged entity on its own initiative in case of inaction, failure or inability to follow its instructions within the provided deadline. Since the transfer of tasks and powers over an obliged entity without the specific request of the financial supervisor to the Authority would require a discretionary decision on the part of the Authority, the Authority should address a specific request to that end to the Commission.

In order for the Commission to be able to take a decision coherent with the framework of the tasks allocated to the Authority within the AML/CFT framework, the request of the Authority should enclose an appropriate justification, and should indicate a precise duration of the reallocation of tasks and powers towards the Authority. The timeframe for the reallocation of powers should correspond to the time the Authority requires to deal with the risks at entity level, and should not exceed three years. The Authority should be able to request a prolongation of this timeframe in case the breaches identified have not been addressed. This prolongation should be limited to what is necessary to address those breaches and not exceed 3 years. The Commission should adopt a decision transferring powers and tasks for supervising the entity to the Authority swiftly, and in any case within a month.

(30) In order to improve supervisory practices in the non-financial sector, the Authority should carry out peer reviews of supervisory authorities in the non-financial sector, including public authorities overseeing self-regulatory bodies (SRBs). When performing those peer reviews, the Authority should not duplicate existing assessment and take account of all relevant information accessible, SRBs should be able to participate in peer reviews on a case-by-case basis where they have expressed their willingness to participate.

(31) With the objective to increase the efficiency of the implementation of AML/CFT measures also in the non-financial sector, the Authority should also be able to investigate possible breaches or incorrect application of Union law by supervisory authorities in that sector, including public authorities overseeing SRBs. These investigations are without prejudice to the powers of the Commission to launch an infringement procedure pursuant to TFEU.

(32) In order to analyse suspicious activity affecting multiple jurisdictions, the relevant FIUs that received linked reports should be able to efficiently conduct joint analyses of cases of common interest. To this end, the Authority should be able to coordinate and support with all appropriate means the joint analyses of cross-border suspicious transactions or activities. The joint analyses should be triggered where there is a need to conduct just such joint analyses pursuant to the relevant provisions in Union law. Joint analyses should be primarily conducted by national FIU staff, and supported by FIU delegates and AMLA staff. The Authority should establish and review methods and criteria for the selection and prioritisation of cases relevant for joint analysis, and grant support accordingly. Upon the explicit consent of all the FIUs participating in the joint analyses, the staff of the Authority supporting the conduct of joint analyses should be able to receive and process all necessary data and information, including the data and information pertaining to the analysed cases. If unanimous consent is not obtained, the joint analysis should be supported by FIU delegates for all tasks that require access to operational data and AMLA staff for tasks that do not. On the basis of unanimity, FIUs should grant prior consent for disseminating the outputs of joint analyses and define the modalities of such dissemination.

(33) In order to improve the effectiveness of the joint analyses, the Authority should be able to establish and review methods and procedures for the conduct of the joint analyses, with the aim of determining the lessons learnt and of improving and promoting these analyses. The feedback on the joint analysis should enable the authority to refine and improve these methods and procedures.

(34) In order to facilitate and improve cooperation between FIUs and the Authority, including for the purposes conducting joint analyses, the FIUs should be able to delegate one staff member per FIU to the Authority on a voluntary basis. The national FIU delegates should remain under the authority of their national FIU. They should support the Authority's staff in carrying out all the tasks relating to FIUs, including the conduct of joint analyses and the preparation of threat assessments and strategic analyses of money laundering and terrorist financing threats, risks and methods. Apart from the joint analyses, the Authority should encourage and facilitate various forms of mutual assistance between FIUs, including training and staff exchanges in order to improve capacity building and enable the exchange of knowledge and good practices amongst FIUs. The Authority should also facilitate the development or procurement of IT tools and services to enhance the analysis capabilities of FIUs.

(35) The Authority should manage, host, and maintain FIU.net, the dedicated IT system allowing FIUs to cooperate and exchange information amongst each other and, where appropriate, with their counterparts from third countries and third parties. The Authority should keep the system up-to-date, taking into account the needs of FIUs. To this end, the Authority should ensure that at all times the most advanced available state-of-the-art technology is used for the development of the FIU.net, subject to a cost-benefit analysis. The Authority should rely on third-party service providers only for non-essential tasks. In particular, the Authority should not outsource the hosting and management of FIU.net. The Authority should not have access to the content of the information exchanged within FIU.net, except where it is an intended recipient of such information.

(36) In order to establish consistent, efficient and effective supervisory and FIU-related practices and ensure common, uniform and coherent application of Union law, the Authority should be able to issue guidelines and recommendations addressed to all or a category of obliged entities and all or a category of supervisory authorities and FIUs. The guidelines and recommendations could be issued pursuant to a specific empowerment in the applicable Union acts, or on the own initiative of the Authority, where there is a need to strengthen the AML/CFT framework at Union level.

(37) The establishment of a solid governance structure within the Authority is essential for ensuring effective exercise of the tasks granted to the Authority, and for an efficient and objective decision-making process. Due to the complexity and variety of the tasks conferred on the Authority in both the supervision and FIU areas, the decisions cannot be taken by a single governing body, as is often the case in decentralised agencies. Whereas certain types of decisions, such as decisions on adoption of common instruments, need to be taken by representatives of appropriate authorities or FIUs, and respect voting rules of the TFEU, certain other decisions, such as the decisions towards individual selected obliged entities, or individual authorities, require a smaller decision-making body, whose members should be subject to appropriate accountability arrangements. Therefore, the Authority should comprise a General Board, and an Executive Board composed of five full-time independent members and of the Chair of the Authority.

(38) In order to ensure the relevant expertise, the General Board should have two compositions. For all the decisions on the adoption of acts of general application such as the regulatory and implementing technical standards, guidelines, recommendations, and opinions relating to FIUs, it should be composed of the heads of FIUs of Member States or their alternates ('General Board in FIU composition'). For the same types of acts related to direct or indirect supervision of financial and non-financial obliged entities, it should be composed of the heads of AML/CFT supervisors which are public authorities or their alternates ('General Board in supervisory composition'). All parties represented in the General Board should make efforts to limit the turnover of their representatives, in order to ensure continuity of the Board's work. All parties should aim to achieve a balanced representation between men and women on the General Board.

(39) For a smooth decision making process, the tasks should be clearly divided: the General Board in FIU composition should decide on the relevant measures for FIUs, the General Board in supervisory composition should decide on delegated acts, guidelines and similar measures for obliged entities. The General Board in supervisory composition should also be able to provide, following procedures to be defined in agreement with the Executive board, its opinion to the Executive Board on all draft decisions towards individual selected obliged entities proposed by the Joint Supervisory Teams. In absence of such opinion, the decisions should be taken by the Executive Board. Whenever the Executive Board deviates from the opinion provided by the General Board in supervisory composition in the final decision, it should explain the reasons thereof in writing.

(40) For the purposes of voting and taking decisions, each Member State should have one voting representative. Therefore, the heads of public authorities should appoint a permanent representative as the voting member of the General Board in supervisory composition. Alternatively, depending on the subject-matter of the decision or agenda of a given General board meeting, public authorities of a Member State may decide on an ad-hoc representative. The practical arrangements related to decision-making and voting by the General Board members in supervisory composition should be laid down in the Rules of Procedure of the General Board, to be developed by the Authority.

(40a) The General Board in FIU composition should be supported by a standing committee with a more limited composition. The standing committee should support the work of the General Board in FIU composition and perform its duties solely in the interest of the Union as a whole. It should work in close cooperation with FIU delegates and AMLA staff in charge of tasks related to FIUs, and in full transparency with the General Board in FIU composition.

(41) The Chair of the Authority should chair the General Board meetings and have a right to vote when decisions are taken by simple majority. The Commission should be a non-voting member on the General Board. To establish good cooperation with other relevant institutions, the General Board should also be able to admit other non-voting observers, in particular representatives of the Single Supervisory Mechanism and of each of the three European Supervisory Authorities (EBA, EIOPA and ESMA) for the General Board in its supervisory composition. In addition Europol, the EPPO and Eurojust for the General Board in its FIU composition would be particularly entitled to habitually qualify as observers. To allow a smooth decision-making process, decisions of the General Board should be taken by a simple majority, except for decisions concerning draft regulatory and implementing technical standards, guidelines and recommendations which should be taken by a qualified majority of Member State representatives in accordance with voting rules of the TFEU.

(42) The governing body of the Authority should be the Executive Board composed of the Chair of the Authority and of five full time members, appointed by the General Board based on the shortlist by the Commission. With the aim of ensuring a speedy and efficient decision making process, the Executive Board should be in charge of planning and execution of all the tasks of the Authority except where specific decisions are explicitly allocated to the General Board. In order to ensure objectivity and appropriate rapidity of the decision-making process in the area of direct supervision of the selected obliged entities, the Executive Board should take all binding decisions addressed to selected obliged entities. The representatives of the financial supervisors where the entity is established should be able to attend the deliberation of the Executive Board. In addition, together with a representative of the Commission, the Executive Board should be collectively responsible for the administrative and budgetary decisions of the Authority. The consent of the Commission should be required when the Executive Board is taking decisions related to the budget administration, procurement, recruitment, and audit of the Authority, given that a portion of funding of the Authority will be provided from Union budget.

(43) To allow for swift decisions, all decisions of the Executive Board, including the decision where the Commission has a right to vote, should be taken by simple majority, with the Chair holding a casting vote in case of a tied vote. To ensure sound financial management of the Authority, the Commission's consent should be required for decisions related to budget, administration and recruitment. The voting members of the Executive Board other than the Chair should be selected by the General Board, based on a shortlist established by the Commission.

(44) To ensure the independent functioning of the Authority the five Members of the Executive Board and the Chair of the Authority should act independently and in the interest of the Union as a whole. They should behave, both during and after their term of office, with integrity and discretion as regards the acceptance of certain appointments or benefits. To avoid giving any impression that a Member of the Executive Board might use its position as a Member of the Executive Board of the Authority to get a high-ranking appointment in the private sector after his term of office and to prevent any post-public employment conflicts of interests, a cooling-off period for the five Members of the Executive Board, including the Chair of the Authority, should be introduced.

(45) The Chair of the Authority should be appointed based on objective criteria by the Council after approval by the European Parliament and following a hearing and an opinion of the General Board to the Parliament and the Council. He or she should represent the Authority externally and should report on the execution of Authority's tasks.

(46) The Executive Director of the Authority should be appointed by the Executive Board based on a shortlist from the Commission and following a hearing and an opinion of the General Board to the Executive Board. The Executive Director of the Authority should be a senior administrative official of the Authority, in charge of the day-to-day management of the Authority, and responsible for budget administration, procurement, and recruitment and staffing.

(47) To protect effectively the rights of parties concerned, for reasons of procedural economy and to reduce the burden on the Court of Justice of the European Union, the Authority should provide natural and legal persons with the possibility to request a review of decisions taken under the powers related to direct supervision and conferred on the Authority by this Regulation and addressed to them, or which are of direct and individual concern to them. The independence and objectivity of the decisions taken by the Administrative Board of Review should be, among others, ensured by its composition of five independent and suitably qualified persons. Decisions of the Administrative Board of Review should be in turn appealable before the Court of Justice of the European Union.

(48) It is necessary to provide the Authority with the requisite human and financial resources so that it can fulfil the objectives, tasks and responsibilities assigned to it under this Regulation. To guarantee the proper functioning of the Authority, funding should be provided, depending on the tasks and functions by a combination of fees levied on certain obliged entities and a contribution from the Union budget. The fees levied on certain obliged entities should be calculated according to the principle of proportionality and taking into account, in particular, whether the obliged entities have qualified for direct supervision or not. The budget of the Authority should be part of the Union budget, confirmed by the Budgetary Authority on the basis of a proposal from the Commission. The Authority should submit to the Commission a draft budget and an internal financial regulation for approval.

(49) To ensure that the Authority can also fulfil its tasks as direct and indirect supervisor of obliged entities, an adequate mechanism for the determination and the collection of the fees should be introduced. As regards the fees levied on selected obliged entities and certain non-selected obliged entities, the methodology for their calculation and the process of collection of fees should be developed in a delegated act of the Commission. The methodology should be based on the risk of the directly and indirectly supervised entities as well as their turnover or revenue.

(50) The rules on establishment and implementation of the budget of the Authority, as well as the presentation of annual accounts of the Authority, should follow the provisions of Commission Delegated Regulation (EU) 2019/715⁷ as regards cooperation with the European Public Prosecutor's Office and the effectiveness of the European Anti-Fraud Office investigations.

(51) In order to prevent and effectively combat internal fraud, corruption or any other illegal activity within the Authority, it should be subject to Regulation (EU, Euratom) No 883/2013 as regards cooperation with the European Public Prosecutor's Office and the effectiveness of the European Anti-Fraud Office investigations. The Authority should accede to Interinstitutional Agreement concerning internal investigations by OLAF, which should be able, to carry out on-the-spot checks within the area of its competence.

(52) As stated in the Cybersecurity Strategy for the European Union⁸, it is essential to ensure a high level of cyber resilience in all EU institutions, bodies and agencies due to the increasingly hostile threat environment. The Executive Director must thus ensure appropriate IT risk management, a strong internal IT governance and sufficient IT security funding. The Authority shall work closely with the Computer Emergency Response Team of the European Union Institutions, Bodies and Agencies and report major incidents with 24 hours to CERT EU as well as to the Commission.

(53) The Authority should be accountable to both the European Parliament and the Council for the execution of its tasks and implementation of this Regulation. The Chair of the Authority should present a respective report to the European Parliament, the Council and the Commission on a yearly basis.

⁷ Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (*OJ L 122, 10.5.2019, p. 1*).

(54) The staff of the Authority should be composed of temporary agents, contractual agents and seconded national experts as well as national delegates placed at the disposition of the Authority by Union FIUs but remaining under the Authority of their national FIU. The Authority, in agreement with the Commission, should adopt the relevant implementing measures in accordance with the arrangements provided for in Article 110 of the Staff Regulations⁹.

(55) To ensure that confidential information is treated accordingly, all members of the governing bodies of the Authority, all staff of the Authority, including seconded staff and staff placed at the disposition of the Authority, as well as any persons carrying out tasks for the Authority on a contractual basis, should be subject to obligation of professional secrecy, including any confidentiality restrictions and obligations stemming from the relevant provisions of Union legislation, and related to the specific tasks of the Authority. However, confidentiality and professional secrecy obligations should not prevent the Authority from cooperating with, exchanging or disclosing information to other relevant national or Union authorities or bodies, where it is necessary for the performance of their respective tasks and where such cooperation and exchange of information obligations are envisaged in Union law.

(56) Without prejudice to the confidentiality obligations that apply to the Authority's staff and representatives in accordance with the relevant provisions in Union law, the Authority should be subject to Regulation (EC) No 1049/2001 of the European Parliament and of the Council¹⁰. In line with the confidentiality and professional secrecy restrictions related to supervisory and FIU support and coordination tasks of the Authority, such access should not be extended to confidential information handled by the staff of the Authority. In particular, any operational data or information related to such operational data of the Authority and of the EU FIUs that is handled by staff of the Authority due to carrying out the tasks and activities related to support and coordination of FIUs should be deemed as confidential.

⁹ Regulation No 31 (EEC), 11 (EAEC) laying down the Staff Regulations of Officials and the Conditions of Employment of Other Servants of the European Economic Community and the European Atomic Energy Community (OJ P 045 14.6.1962, p. 1385).

¹⁰ Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents (OJ L 145, 31.5.2001, p. 43).

With regard to supervisory tasks, access to information or data of the Authority, the financial supervisors, or the obliged entities obtained in the process of carrying out the tasks and activities related to direct supervision should in principle also be treated as confidential and not subject to any disclosure. However, confidential information listed that relates to a supervisory procedure can be fully or partially disclosed to the obliged entities which are parties to such supervisory procedure, subject to the legitimate interest of legal and natural persons other than the relevant party, in the protection of their business secrets.

(57) Without prejudice to any specific language arrangements that could be adopted within AML supervisory system and with selected obliged entities, Council Regulation No 1¹¹ should apply to the Authority and any translation services which may be required for the functioning of the Authority should be provided by the Translation Centre for the Bodies of the European Union.

¹¹ Council Regulation No 1 determining the languages to be used by the European Economic Community (OJ 17, 6.10.1958, p. 385).

(58) Without prejudice to the obligations of the Member States and their authorities, the processing of personal data on the basis of this Regulation for the purposes of the prevention of money laundering and terrorist financing should be considered necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the Authority under Article 5 of Regulation (EU) 2018/1725 of the European Parliament and of the Council¹² and Article 6 of Regulation 2016/679 of the European Parliament and of the Council¹³. When developing any instruments or taking any decisions that may have a significant impact on the protection of personal data, the Authority should closely cooperate, where relevant, with the European Data Protection Board established by Regulation (EU) 2016/679 and with the European Data Protection Supervisor established by Regulation (EU) 2018/1725 to avoid duplication. The Authority should take particular attention to opinions issued by the European Data Protection Board and the European Data Protection Supervisor when performing those tasks and, where applicable, in the course of public consultation.

¹² Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC (OJ L 295, 21.11.2018, p. 39).

¹³ Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ L 119, 4.5.2016, p. 1).

(59) The Authority should establish cooperative relations with the relevant Union agencies and bodies, including Europol, Eurojust, the EPPO, and the European Supervisory Authorities, namely the European Banking Authority, the European Securities and Markets Authority and the European Insurance and Occupational Pensions Authority. To improve cross-sectoral supervision and a better cooperation between prudential and AML/CFT supervisors, the Authority should also establish cooperative relations with the authorities competent for prudential supervision of financial sector obliged entities, including the European Central Bank with regard to matters relating to the tasks conferred on it by Council Regulation (EU) No 1024/2013¹⁴, as well as with resolution authorities as defined in Article 3 of Directive (EU) 2014/59/EU of the European Parliament and the Council¹⁵ and designated Deposit Guarantee Schemes authorities as defined in Article 2 (1), point 18 of Directive 2014/49/EU of the European Parliament and the Council¹⁶. To this end, the Authority should be able to conclude agreements or memoranda of understanding with such bodies, including with regard to any information exchange which is necessary for the fulfilment of the respective tasks of the Authority and these bodies. The Authority should make its best efforts to share information with such bodies on their request, within the limits posed by legal constraints, including data protection legislation. In addition, the Authority should enable effective information exchange between all financial supervisors in the AML/CFT supervisory system and the aforementioned authorities, such cooperation and information exchanges should take place in a structured and efficient way.

¹⁴ Council Regulation (EU) No 1024/2013 of 15 October 2013 conferring specific tasks on the European Central Bank concerning policies relating to the prudential supervision of credit institutions (OJ L 287, 29.10.2013, p. 63).

¹⁵ Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms and amending Council Directive 82/891/EEC, and Directives 2001/24/EC, 2002/47/EC, 2004/25/EC, 2005/56/EC, 2007/36/EC, 2011/35/EU, 2012/30/EU and 2013/36/EU, and Regulations (EU) No 1093/2010 and (EU) No 648/2012 of the European Parliament and of the Council (OJ L 173, 12.6.2014, p. 190).

¹⁶ Directive 2014/49/EU of the European Parliament and of the Council of 16 April 2014 on deposit guarantee schemes (OJ L 173, 12.6.2014, p. 149).

(60) Public-private partnerships ('PPPs') have become increasingly important cooperation and information exchange fora between FIUs, various national supervisory and law enforcement authorities and obliged entities in some Member States. Where the Authority would act as direct supervisor of selected obliged entities which are part of a PPP in any Member State, it could be beneficial for the Authority to also participate therein, on conditions determined by the relevant national public authority or authorities that set up such PPP, and with their explicit agreement.

(61) Considering that cooperation between supervisory, administrative and law enforcement authorities is crucial for successful combatting of money laundering and terrorism financing, and certain Union authorities and bodies have specific tasks or mandates in that area, the Authority should make sure that it is able to cooperate with such authorities and bodies, in particular OLAF, Europol, Eurojust, and the EPPO. If there is a need to establish specific working arrangements or conclude Memoranda of Understanding between the Authority and these bodies and authorities, the Authority should be able to do so. The arrangement should be of strategic and technical nature, should not imply sharing of any confidential or operational information in possession of the Authority and should account for tasks already carried out by the other Union institutions, bodies, offices or agencies as regards the prevention of and fight against money laundering and terrorist financing.

(62) Since both predicate offences as well as the crime of money laundering itself often are of global nature, and given that the Union obliged entities also operate with and in third countries, effective cooperation with all the relevant third country authorities in the areas of both supervision and functioning of FIUs are crucial for strengthening the Union AML/CFT framework. Given the Authority's unique combination of direct and indirect supervision and FIU cooperation-related tasks and powers, it should be able to take an active role in such external cooperation arrangements. Specifically, the Authority should be empowered to develop contacts and enter into administrative arrangements with authorities in third countries that have regulatory, supervisory and FIU-related competences. The Authority's role could be particularly beneficial in cases where the interaction of several Union public authorities and FIUs with third country authorities concerns matters within the scope of the Authority's tasks. In such cases, the Authority should have a leading role in facilitating this interaction.

(63) Since the Authority will have a full range of powers and tasks related to direct and indirect supervision and oversight of all obliged entities, it is necessary that these powers remain consolidated within one Union body, and do not give rise to conflicting competences with other Union bodies. Therefore, the European Banking Authority should not retain its tasks and powers related to anti-money laundering and countering the financing of terrorism, and the respective articles in Regulation (EU) No 1093/2010 of the European Parliament and of the Council¹⁷ should be deleted. The resources allocated to the European Banking Authority for the fulfilment of those tasks should be transferred to the Authority.

¹⁷ Regulation (EU) No 1093/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Banking Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/78/EC (OJ L 331, 15.12.2010, p. 12).

Considering that all three European Supervisory Authorities (EBA, ESMA and EIOPA) will be cooperating with the Authority, and may attend the meetings of the General Board in supervisory composition as observers, the same possibility should be afforded to the Authority in respect of meetings of the Board of Supervisors of the European Supervisory Authorities. In cases where the respective Boards of Supervisors discuss or decide on matters that are relevant for the execution of the Authority's tasks and powers, the Authority should be able to participate in their meetings as an observer. The articles on the compositions of the Board of Supervisors in Regulation (EU) No 1093/2010, Regulation (EU) 1094/2010 of the European Parliament and the Council¹⁸, and Regulation (EU) 1095/2010 of the European Parliament and the Council¹⁹ should therefore be amended accordingly.

(64) The Authority should be fully operational by the beginning of 2024. Direct supervision of selected obliged entities should commence as of 2026. This should give the Authority sufficient time to establish its headquarter in the Member State as determined by this Regulation.

(65) The European Data Protection Supervisor has been consulted in accordance with Article 42 of Regulation (EU) 2018/1725 [and delivered an opinion on ...],

¹⁸ Regulation (EU) No 1094/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Insurance and Occupational Pensions Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/79/EC (OJ L 331, 15.12.2010, p. 48).

¹⁹ Regulation (EU) No 1095/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Securities and Markets Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/77/EC (OJ L 331, 15.12.2010, p. 84).

HAVE ADOPTED THIS REGULATION:

1. With respect to the selected obliged entities, the Authority shall have the supervisory and investigative powers as specified in Articles 16 to 20 and the power to impose administrative pecuniary sanctions and periodic penalty payments as specified in Articles 21 and 22.

The Authority shall also have the powers and obligations which financial supervisors have under the relevant Union law, unless otherwise provided for by this Regulation. To the extent necessary to carry out the tasks conferred on it by this Regulation, the Authority may require, by way of instructions, those financial supervisors to make use of their powers, under and in accordance with the conditions set out in national law, where this Regulation does not confer such powers on the Authority, in particular where such powers stem from Article 41(1) (a) to (f), (2) and (3) [OP please insert the next number to the AMLD, COM(2021)423]. Those financial supervisors shall fully inform the Authority about the exercise of those powers.

For the purposes of exercising those powers, the Authority may issue binding decisions addressed to individual selected entities. The Authority shall have the power to impose administrative measures as well as administrative pecuniary sanctions for non-compliance with the decisions taken in the exercise of powers laid down in Article 20 in accordance with Article 21.

2. With respect to supervisors and supervisory authorities, the Authority shall have the following powers:

(a) to require the submission of information or document, including written or oral explanations, necessary for the performance of its functions, including statistical information and information concerning internal processes or arrangements of national supervisors and supervisory authorities;

(b) to issue guidelines and recommendations;

(b) to collect information and statistics in relation to the tasks and activities of the FIUs;

(c) to obtain and process information and data required for the support of joint analyses as specified in Article 33;

(d) to issue guidelines.

4. For the purposes of carrying out the tasks set out in Article 5(1), the Authority shall have the following powers:

(a) to develop draft regulatory technical standards in the specific cases referred to in Article 38;

(b) to develop draft implementing technical standards in the specific cases referred to in Article 42;

(c) to issue guidelines and recommendations, as provided in Article 43;

(d) to issue opinions to the European Parliament, to the Council, or to the Commission as provided for in Article 44.

SECTION 2

AML/CFT supervisory system

Article 7

Cooperation within the AML/CFT supervisory system

1. The Authority shall be responsible for the effective and consistent functioning of the AML/CFT supervisory system.
2. The Authority and supervisory authorities shall be subject to a duty of cooperation in good faith, and to an obligation to exchange information for the purposes of prevention of money laundering and the financing of terrorism.

Article 8

AML/CFT supervisory methodology

1. The Authority shall develop and maintain an up-to-date and harmonised AML/CFT supervisory methodology detailing the risk-based approach to supervision of obliged entities in the Union. The methodology shall comprise guidelines, recommendations and opinions as well as draft regulatory and implementing technical standards, on the basis of the empowerments laid down in the acts referred to in Article 1(2).

2. When developing the supervisory methodology the Authority shall make a distinction between obliged entities based, in particular on their activity, type and the nature of money laundering and the financing of terrorism risks they are exposed to. The supervisory methodology shall contain at least the following elements:

- (a) benchmarks and methodology for classification of obliged entities into risk categories on the basis of their residual risk profile, separately for each category of obliged entities;
- (b) approaches to supervisory review of money laundering and the financing of terrorism risk self-assessments of obliged entities;
- (c) approaches to supervisory review of obliged entities' internal policies and procedures of obliged entities, including customer due diligence policies, in line with a risk-based approach to the prevention of money laundering and the financing of terrorism;
- (d) approaches to supervisory evaluation of risk factors inherent in, or related to, customers, business relationships, transactions and delivery channels of obliged entities, as well as geographical risk factors.

3. The methodology shall reflect high supervisory standards at Union level and shall build on relevant international standards and guidance. The Authority shall periodically review and update its supervisory methodology, taking into account the evolution of risks affecting the internal market and to the extent possible best practices and guidance developed by international standard setters.

Article 9

Thematic reviews

1. No later than the 1st December each year, supervisory authorities shall provide information to the Authority on supervisory reviews they intend to carry out on a thematic basis. The information shall be provided for the reviews that are planned for the following year or supervisory term with the aim of assessing ML/TF risks or a specific aspect of such risks which multiple obliged entities are exposed to at the same time. The following information should be provided:

(a) the scope of each planned thematic review in terms of category and number of obliged entities included and the subject matter(s) of the review;

(b) the timeframe of each planned thematic review;

(c) the planned types, nature and frequency of supervisory activities to be performed in relation to each thematic review, including any on-site inspections or other types of direct interaction with obliged entities, where applicable.

2. By the end of each year, the Chair of the Authority shall present to the General Board in supervisory composition as referred to in Article 46(2) a consolidated planning of the thematic reviews that supervisory authorities intend to undertake during the following year.

3. Where the scope and Union-wide relevance of thematic reviews justify coordination at Union level, they shall be carried out jointly by the relevant supervisory authorities and shall be coordinated by the Authority. The General Board in supervisory composition shall draw up a list of joint thematic reviews. The General Board in supervisory composition shall draw up a report relating to the conduct, subject-matter and outcome of each joint thematic review. The Authority shall publish that report on its website.

4. The Authority shall coordinate the activities of the supervisory authorities and facilitate the planning and execution of the selected joint thematic reviews referred to in paragraph 3. Any direct interaction with obliged entities other than the selected obliged entities in the context of any thematic review shall remain under the exclusive responsibility of the supervisory authority responsible for supervision of these obliged entities and shall not be construed as a transfer of tasks and powers related to those entities within the AML/CFT supervisory system.

5. Where planned thematic reviews at national level are not subject to a coordinated approach at the level of the Union, the Authority shall, jointly with the supervisory authorities, explore the need for and the possibility of aligning or synchronising the timeframe of those thematic reviews, and shall facilitate information exchange and mutual assistance between supervisory authorities carrying out those thematic reviews. The Authority shall also facilitate any activities that the relevant supervisory authorities may wish to carry out jointly or in similar manner in the context of their respective thematic reviews.

6. The Authority shall ensure the sharing with all supervisory authorities of the outcomes and conclusions of thematic reviews conducted at national level by several supervisory authorities, with the exception of confidential information pertaining to individual obliged entities. The sharing of information shall include any common conclusions resulting from exchanges of information or any joint or coordinated activities among several supervisory authorities.

Article 10

Mutual assistance in AML/CFT supervisory system

1. The Authority may, as appropriate, develop:
 - (a) new practical instruments and convergence tools to promote common supervisory approaches and best practices;
 - (b) practical tools and methods for mutual assistance following:
 - (i) specific requests from supervisory authorities;
 - (ii) referral of disagreements between supervisory authorities on the measures to be taken jointly by several supervisory authorities in relation to an obliged entity.
2. The Authority shall facilitate and encourage at least the following activities:
 - (a) sectoral and cross-sectoral training programmes, including with respect to technological innovation;

- (b) exchanges of staff and the use of secondment schemes, twinning and short-term visits;
- (c) exchanges of supervisory practices between supervisory authorities, when one authority has developed expertise in a specific area of AML/CFT supervisory practices.

3. Each supervisory authority may submit a request for mutual assistance related to its supervisory tasks to the Authority, specifying the type of assistance that can be provided by the staff of the Authority, the staff of one or more supervisory authorities, or a combination thereof. If the request concerns activities that relate to the supervision of specific obliged entities, the requesting supervisory authority shall transmit to the Authority information and data necessary for the provision of assistance. The Authority shall keep and regularly update the information on specific areas of expertise and on the capacities of supervisory authorities to provide mutual assistance.

4. Where the Authority is requested to provide assistance for the performance of specific supervisory tasks at national level towards obliged entities other than selected obliged entities, the requesting supervisory authority shall detail the tasks for which support is sought in its request. The assistance shall not be construed as the transfer of supervisory tasks, powers, or accountability for supervision of the obliged entities other than selected obliged entities from the requesting supervisory authority to the Authority.

5. After having assessed whether the request is reasonable and feasible, the Authority shall make every effort to provide the requested assistance, including by mobilising own human resources as well as by ensuring mobilisation of resources at supervisory authorities on a voluntary basis.

6. By the end of each year, the Chair of the Authority shall inform the General Board in supervisory composition of the human resources that the Authority will allocate to providing such assistance. When changes occur to the availability of human resources due to performance of tasks referred to in Article 5(2) to 5(4), the Chair of the Authority shall inform the General Board in supervisory composition thereof.

7. Any interaction between the staff of the Authority and the obliged entity shall remain under the exclusive responsibility of the supervisory authority responsible for the supervision of that entity, and shall not be construed as a transfer of tasks and powers related to individual obliged entities within the AML/CFT supervisory system.

Central AML/CFT database

1. The Authority shall establish and keep up to date a central database of information collected pursuant to paragraph 2 and paragraph 5. The Authority shall analyse the information received and ensure that it is made available to supervisory authorities, non-AML/CFT authorities as well as other national authorities and bodies competent for ensuring compliance with the requirements of Directive 2014/17/EU [consumer credit directive], Directive (EU) 2015/2366 [PSD], Directive 2009/110/EC [e-money Directive], Directive 2009/138/EC [Solvency II], Directive 2014/65/EU [Mifid II], and Regulation [MiCA] on a need-to-know and confidential basis. The Authority may share the information obtained or the results of its analysis on its own initiative with supervisory authorities for the purposes of facilitating their supervisory activities.

2. The supervisory authorities shall transmit to the Authority the following information, including the data related to individual obliged entities:

(a) a list of all supervisory authorities and self-regulatory bodies entrusted with supervision of obliged entities, including information about their mandate, tasks and powers;

(b) statistical information about the type and number of supervised obliged entities in each Member State and basic information about the risk profile;

(c) sanctions taken in the course of supervision of individual obliged entities in response to serious, systematic or repeated breach of AML/CFT requirements;

- (e) outcomes and measures taken in the course of supervisory activities;
- (g) statistical information regarding performed supervisory activities over the past calendar year;
- (h) statistical information about staffing and other resources of supervisors and supervisory authorities.

The information provided pursuant to this paragraph shall not include reference to specific suspicious transaction reported pursuant to article 50 AMLR.

The Authority shall develop a draft regulatory technical standard specifying the data to be transmitted by supervisory authorities as well as the transmission procedure and timeline. This draft regulatory technical standard shall take into account any relevant distinction between obliged entities, in particular in the non-financial sector, their exposure to risk as well as the tasks of the Authority on those obliged entities.

The regulatory technical standard referred to in paragraph 2 shall also specify the information whose dissemination by the Authority, pursuant to a reasoned request or at its own initiative, requires a prior approval of the supervisory authority that originated it.

The Authority shall submit the draft regulatory technical standards to the Commission by eighteen months after the entry into force of this regulation.

The Commission is empowered to adopt the regulatory technical standards referred to in the first subparagraph in accordance with Article 38 of this Regulation.

4. Any supervisory authority, non-AML/CFT authorities as well as other national authorities and bodies competent for ensuring compliance with the requirements of Directive 2014/17/EU [consumer credit directive], Directive (EU) 2015/2366 [PSD], Directive 2009/110/EC [e-money Directive], Directive 2009/138/EC [Solvency II], Directive 2014/65/EU [Mifid II], and Regulation [MiCA], may address to the Authority a reasoned request for information collected pursuant to paragraph 2 that is relevant for its supervisory activities. The Authority shall assess those requests and provide the information requested by the supervisory authorities or non-AML/CFT authorities on a need-to-know basis and confidential basis and in a timely manner. The Authority may also share information obtained or the results of its analysis on its own initiative with the aforementioned authorities for the purposes of facilitating their respective activities.

The Authority shall inform the authority or body that has initially provided the requested information, of the identity of the requesting supervisory or other authority, the identity of an obliged entity concerned, the reason for the information request as well as whether the information has been provided to the requesting authority.

5. The Authority shall incorporate in the database any data or information relevant for the purposes of AML/CFT supervisory activities which is voluntarily provided by the non-AML/CFT authorities as well as other national authorities and bodies competent for ensuring compliance with the requirements of Directive 2014/17/EU [consumer credit directive], Directive (EU) 2015/2366 [PSD], Directive 2009/110/EC [e-money Directive], Directive 2009/138/EC [Solvency II], Directive 2014/65/EU [Mifid II], and Regulation (MiCA).

SECTION 3

Direct supervision of selected obliged entities

Article 12

Assessment of obliged entities for the purposes of selection for direct supervision

1. For the purposes of carrying out the tasks listed in Article 5(2), the Authority shall carry out a periodic assessment based on criteria and following the process specified in paragraphs 2 to 6 of this Article and in Article 13 of credit institutions, financial institutions, groups of credit and financial institutions referred to in paragraph 3 where, in at least seven Member States, including the home Member State, they provide services either via establishments referred to in article 2 (8) of [AMLD], or actively provide services through free provision of services.
2. The risk profile of the assessed obliged entities referred to in paragraph 1 shall be classified as low, medium, substantial or high in each jurisdiction they operate in, based on the benchmarks and following the methodology set out in the regulatory technical standard referred to in paragraph 5.
3. The methodology for classifying the risk profile shall be established separately for at least the following categories of obliged entities:
 - (a) credit institutions;

- (b) bureaux de change;
- (c) collective investment undertaking;
- (d) credit providers other than credit institutions;
- (e) e-money institutions;
- (f) investment firms;
- (g) payments service providers;
- (h) life insurance undertakings;
- (i) life insurance intermediaries;
- (j) crypto-asset service providers;
- (k) Other financial institutions.

4. For each category of obliged entities referred to in paragraph 3, the benchmarks in the assessment methodology shall be based on the risk factor categories related to customer, products, services, transactions, delivery channels and geographical areas. The benchmarks shall be established for at least the following indicators of inherent risk in any Member State they operate in:

(a) with respect to customer-related risk: the share of non-resident customers, the presence and share of customers identified as Politically exposed persons ('PEPs');

(b) with respect to products and services offered:

(i) the significance and the trading volume of products and services identified as the most potentially vulnerable to money laundering and terrorist financing risks at the level of the internal market in the supra-national risk assessment or at the level of the country in the national risk assessment;

(ii) the volume of the deposit and payment account services provided under the freedom to provide services;

(iii) for money remittance service providers, the significance of aggregate annual emission and reception activity of each remitter in a jurisdiction;

(c) with respect to geographical areas:

(i) the annual volume of correspondent banking services provided by Union financial sector entities in third countries;

(ii) the number of correspondent banking relationships from third countries with structural weaknesses in their AML systems identified by global standard setting bodies;

5. The Authority shall develop draft regulatory technical standard specifying:

(a) the assessment criteria referred to in the first paragraph, including criteria under which an obliged entity would be considered to actively provide services through the free provision of services for the purposes of the periodic assessment;

(b) the methodology with the benchmarks referred to in paragraph 4 for classifying the risk profile of credit or financial institution as low, medium, substantial or high.

Where a credit institution or financial institution is part of a group, the risk profile should be classified at group-wide level.

The Authority shall submit the draft regulatory technical standards to the Commission by 1 January 2025.

The Commission is empowered to adopt the regulatory technical standards referred to in the first subparagraph in accordance with Article 38 of this Regulation.

6. The Authority shall review the benchmarks and methodology at least every three years. For the first selection process referred to in Article 13, the Authority shall develop benchmarks for the assessment of the inherent risk profile of obliged entities. In addition, and before the end of the first selection process, the Authority shall develop benchmarks for assessment of the residual risk of obliged entities. Where amendments are required, the Authority shall submit amended draft regulatory technical standards to the Commission.

Article 13

The process of listing selected obliged entities

1. The credit institutions, financial institutions and groups thereof whose risk profile has been classified as high pursuant to article 12 shall qualify as a selected obliged entity.

2. The Authority shall commence the first selection process on 1 July 2025 and shall conclude the selection within one month. The selection shall be made every three years after the date of commencement of the first selection, and shall be concluded within one month in each selection process. The list of the selected obliged entities shall be published by the Authority without undue delay upon completion of selection process. The Authority shall commence the direct supervision of the selected obliged entities five months after publication of the list.

3. A selected obliged entity shall remain subject to direct supervision by the Authority until the Authority commences the direct supervision of selected obliged entities based on a list established for the subsequent selection round which no longer includes that obliged entity.

4. For the first selection process, in case more than 40 obliged entities would be selected pursuant to paragraph 1, the Authority shall carry out the tasks listed in article 5(2) in respect of the 40 obliged entities or groups operating in the highest number of Member States either through establishments or active free provision of services.

In the case that the criterion referred to in the first subparagraph yields more than 40 obliged entities or groups, the Authority shall select, from the obliged entities or groups that would be selected in accordance with paragraph 1 and that actively operate in the smallest number of Member States, those which have the highest ratio of the volume of transactions with third countries to the total volume of transactions measured in the last financial year.

5. As of the second selection process, where in a Member state no credit, financial institution or a group of credit and/or financial institutions which is established, authorised or registered, or has a subsidiary therein qualifies as a selected obliged entity pursuant to paragraph 1, the credit or financial institution or a group of credit and/or financial institutions established or registered in this Member State whose risk profile qualifies as high pursuant to the methodology referred to in article 12 (5) shall qualify as a selected obliged entity. If several credit or financial institutions have a high risk profile, then the selected obliged entity shall be the one operating in the highest number of Member States through either free establishment or active free provision of services. If several credit or financial institutions operate in the same number of Member States, the entity with the highest ratio of transaction volume with third countries to total transaction volume as measured over the last financial reporting year shall qualify as a selected obliged entity.

Cooperation within the AML/CFT supervisory system for the purposes of direct supervision

1. Without prejudice to the Authority's power pursuant to Article 20(2), point (g), to receive directly, or have direct access to, information reported, on an ongoing basis, by selected obliged entities, financial supervisors shall provide the Authority with all information necessary for carrying out the tasks conferred on the Authority.

2. Where appropriate, financial supervisors shall be responsible for assisting the Authority with the preparation and implementation of any acts relating to the tasks referred to in Article 5(2), point (b), as regards all selected obliged entities, including assistance in verification activities. They shall follow the instructions given by the Authority when performing those tasks.

3. The Authority shall develop implementing technical standards specifying:
 - (a) the conditions under which financial supervisors are to assist the Authority pursuant to paragraph 2;

(b) the process of periodic assessment referred to in article 12 (1) including the respective roles of the supervisory authorities and the Authority in assessing the risk profile of credit institutions and other financial institutions referred to in this same paragraph.

4. The Authority shall submit the draft implementing technical standards to the Commission by 1 January 2025.

The Commission is empowered to adopt the implementing technical standards referred to in the first subparagraph in accordance with Article 42.

Article 15

Joint supervisory teams

1. A joint supervisory team shall be established for the supervision of each selected obliged entity. Each joint supervisory team shall be composed of staff from the Authority and from each financial supervisor responsible for supervision of the selected obliged entity at national level. Financial supervisor may decide to opt out in case the exposure to risk of the obliged entity in the concerned Member State is low. The members of the joint supervisory team shall be appointed in accordance with paragraph 4 and shall work under the coordination of a designated staff member from the Authority ('JST coordinator').

Each financial supervisor that appoints more than one staff member to the joint supervisory team may designate one of them as sub-coordinator ('national sub-coordinator'). The national sub-coordinators shall assist the JST coordinator as regards the organization and coordination of the tasks in the joint supervisory team, in particular as regards the staff members that were appointed by the same financial supervisor as the relevant national sub-coordinator. The national sub-coordinator may give instructions to the members of the joint supervisory team appointed by the same financial supervisor, provided that these do not conflict with the instructions given by the JST coordinator.

2. The JST coordinator shall ensure the coordination of the work within the joint supervisory team. Joint supervisory team members shall follow the JST coordinator's instructions as regards their tasks in the joint supervisory team. This shall be without prejudice to their tasks and duties within their respective financial supervisors.

3. The tasks of a joint supervisory team shall include the following:

(a) performing the supervisory reviews and assessments for the selected obliged entities;

(b) coordinating on-site inspections at selected obliged entities and preparing supervisory measures where necessary;

(c) taking into account the reviews, assessments and on-site inspections referred to in points (a) and (b), participating in the preparation of draft decisions applicable to the respective selected obliged entity to be proposed to the General Board and Executive Board;

(d) liaising with financial supervisors where necessary for exercises of supervisory tasks in any Member State where a selected obliged entity is established.

4. The Authority shall be responsible for the establishment and the composition of joint supervisory teams. The Authority and the respective financial supervisors shall appoint one or more persons from their staff as a member or members of a joint supervisory team. A member may be appointed as a member of more than one joint supervisory team.

5. The Authority and financial supervisors shall consult each other and agree on the use of staff with regard to the joint supervisory teams.

Article 16

Request for information

1. The Authority may require selected obliged entities and natural or legal persons employed by or belonging to them, including agents and distributors, and third parties to whom the selected obliged entities have outsourced operational functions or activities and natural or legal persons affiliated to them, to provide all information that is necessary in order to carry out the tasks conferred on it by this Regulation.

2. The persons referred to in paragraph 1 or their representatives and, in the case of legal persons or associations having no legal personality, the persons authorised to represent them by law or by their constitution, shall supply the information requested without undue delay. Lawyers duly authorised to act may supply the information on behalf of their clients. The latter shall remain fully responsible if the information supplied is incomplete, incorrect or misleading.

3. Where the Authority obtains information from or about the natural or legal persons referred to in paragraph 1, it shall make that information available to the financial supervisor concerned.

Article 17

General investigations

1. In order to carry out the tasks conferred on it by this Regulation, the Authority may conduct all necessary investigations of any selected obliged entity or any natural or legal person employed by or belonging to a selected obliged entity and established or located in a Member State.

To that end, the Authority may:

(a) require the submission of documents;

(b) examine the books and records of the persons and take copies or extracts from the books and records;

(c) obtain access to internal audit reports, certification of accounts and any software, databases, IT tools or other electronic means of recording information;

(d) obtain written or oral explanations from any person referred to in Article 16 or their representatives or staff;

(e) interview any other person who consents to be interviewed for the purpose of collecting information relating to the subject-matter of an investigation.

2. The persons referred to in Article 16 shall be subject to investigations launched on the basis of a decision of the Authority. When a person obstructs the conduct of the investigation, the financial supervisor of the Member State where the relevant premises are located shall provide, in compliance with national law, the necessary assistance, including facilitating the access by the Authority to the business premises of the legal persons referred to in Article 16, so that the rights listed in paragraph 1 of this Article can be exercised.

Article 18

On-site inspections

1. In order to carry out the tasks conferred on it by this Regulation, the Authority may, subject to prior notification to the financial supervisor concerned, conduct all necessary on-site inspections at the business premises of the natural or legal persons referred to in Article 16. Where the proper conduct and efficiency of the inspection so require, the Authority may carry out the on-site inspection without prior announcement to those legal persons.

1a) For the purpose of performing on-site inspections, the Authority may decide to entrust a joint supervisory team or a dedicated team, which could include JST members as the case may be, with the task referred to in the last paragraph of article 15. The Authority shall be in charge of the establishment and the composition of on-site inspection teams in cooperation with the financial supervisors.

2. The staff of the Authority and other persons authorised by the Authority to conduct an on-site inspection may enter any business premises and land of the natural or legal persons subject to a decision on investigation adopted by the Authority and shall have all the powers provided in Article 20.

3. The natural and legal persons referred to in Article 16 shall be subject to on-site inspections on the basis of a decision of the Authority.

4. Staff and other accompanying persons authorised or appointed by the financial supervisor of the Member State where the inspection is to be conducted shall, under the supervision and coordination of the Authority, actively assist the officials of and other persons authorised by the Authority. To that end, they shall enjoy the powers set out in paragraph 2. Staff of financial supervisors of the Member State concerned shall also have the right to participate in the on-site inspections.

5. Where a person opposes the conduct of an on-site inspection ordered pursuant to this Article, the financial supervisor of the Member State concerned shall provide the necessary assistance in accordance with national law. To the extent necessary for the inspection, this assistance shall include the sealing of any business premises and books or records. Where that power is not available to the financial supervisor concerned, it shall use its powers to request the necessary assistance of other national authorities.

Article 19

Authorisation by a judicial authority

1. If an on-site inspection provided for in Article 18 requires authorisation by a judicial authority in accordance with national law, the Authority shall apply for such an authorisation.

2. Where an authorisation as referred to in paragraph 1 is applied for, the national judicial authority shall control that the decision of the Authority is authentic and that the coercive measures envisaged are neither arbitrary nor excessive having regard to the subject matter of the inspection. In its control of the proportionality of the coercive measures, the national judicial authority may ask the Authority for detailed explanations, in particular relating to the grounds the Authority has for suspecting that an infringement of the acts referred to in Article 1(2), has taken place, the seriousness of the suspected infringement and the nature of the involvement of the person subject to the coercive measures. However, the national judicial authority shall not review the necessity for the inspection or demand to be provided with the information on the Authority's file. The lawfulness of the Authority's decision shall be subject to review only by the Court of Justice of the European Union.

Article 20

Administrative measures

1. For the purpose of carrying out its tasks referred to in Article 5(2), the Authority shall have the powers set out in paragraph 2 of this Article to require any selected obliged entity to take the necessary measures where:

(a) the selected obliged entity does not meet the requirements of Union acts and national legislation referred to in Article 1(2);

(b) the Authority has sufficient indication that the selected obliged entity is likely to breach the requirements of Union acts and national legislation referred to Article 1(2) within the next 12 months;

(c) the arrangements, strategies, processes and mechanisms implemented by the selected obliged entity do not ensure, based on a determination by the Authority, a sound management and coverage of its ML/TF risks.

2. For the purposes of Article 6(1) the Authority shall have, in particular, the following powers:

(a) to require the reinforcement of the arrangements, processes, mechanisms and strategies;

(b) to require a plan to restore and ensure compliance with supervisory requirements pursuant to Union acts and national legislation referred to in Article 1(2) and to set a deadline for its implementation, including improvements to that plan regarding its scope and deadline;

(c) to mandate specific requirements or policy relating, in particular, to categories of or individual clients, transactions, activities or delivery channels that pose high risks;

(d) to restrict or limit the business, operations or network of institutions comprising the selected obliged entity, or to require the divestment of activities that pose excessive ML/TF risks, where applicable, taking into account the assessment of the authority that has granted the license or registered the obliged entity;

(e) to require the implementation of measures to bring about the reduction of the money laundering and terrorism financing risks in the activities, products and systems of selected obliged entities;

(f) to require changes in the governance structure;

(g) to require the provision of any data or information necessary for the fulfilment of tasks listed in Article 5(2), to require submission of any document, or impose additional or more frequent reporting requirements;

(i) in case the application of the measures listed in points (a) to (h) did not result in remedying the breach of requirements by an obliged entity, the Authority shall be able to propose the withdrawal of licence or suspension of registration of a selected obliged entity to the authority that has granted such license or carried out such registration.

Administrative pecuniary sanctions

1. For the purpose of carrying out the tasks conferred on it by this Regulation, where a selected obliged entity intentionally or negligently breaches a requirement listed in Annex II under directly applicable acts of Union law referred to in Article 1(2), or does not comply with a binding decision referred to in Article 6(1), the Authority may impose administrative pecuniary sanctions, under the conditions specified in paragraphs 2 to 7 of this Article.

2. Where the Executive Board of the Authority finds that a selected obliged entity has, intentionally or negligently, committed a serious, systematic or repeated breach of directly applicable requirements contained in [OP please insert the next number to the AMLR, COM(2021)420] or [OP please insert the next number to the TFR, COM(2021)422], it shall adopt a decision imposing administrative pecuniary sanctions, in accordance with paragraph 3. Administrative pecuniary sanctions shall, depending on the circumstances of each individual case, be imposed in addition to, or instead of, the measures referred to in Article 20(2).

3. The basic amount of the administrative pecuniary sanctions referred to in paragraph 1 shall be included within the following limits:

(a) for serious, systematic or repeated breaches of one or more requirements related to customer due diligence, group wide policies and procedures including internal controls and/or reporting obligations that have been identified in two or more Member States where a selected obliged entity operates, the sanction shall amount to at least EUR 500 000 and shall not exceed EUR 2 000 000 or in the Member States whose currency is not the Euro their equivalent in national currency, or 1% of the annual turnover, whichever is higher;

(b) for serious, systematic or repeated breaches of one or more requirements related to customer due diligence, internal policies, procedures and controls and/or reporting obligations that have been identified in one Member State where a selected obliged entity operates, the sanction shall amount to at least EUR 100 000 and shall not exceed EUR 1 000 000 or in the Member States whose currency is not the Euro, their equivalent in national currency or 0,5% of the annual turnover, whichever is higher;

(c) for serious, systematic or repeated breaches of all other requirements that have been identified in two or more Member States where a selected obliged entity operates, the sanction shall amount to at least EUR 500 000 and shall not exceed EUR 2 000 000 or in the Member States whose currency is not the Euro, their equivalent in national currency;

2. The Authority may, under circumstances referred to in the first paragraph or where it has indications of serious, systematic or repeated breaches by a non-selected obliged entity, obtained independantly notably when performing the tasks refered to in article 5 (3) request its financial supervisor to:

Where necessary, the Authority may also request a financial supervisor to adopt an individual decision addressed to that entity requiring it to undertake all necessary actions to comply with its obligations under directly applicable Union law or under national law, to the extent that it transposes Directives or exercises options granted to Member States by Union law, including the cessation of any practice. The requests referred to in this paragraph shall not impede ongoing supervisory measures by the financial supervisor to which the request is addressed.

3. The financial supervisor concerned shall comply with any request addressed to it in accordance with paragraph 2 and shall inform the Authority, as soon as possible and within ten working days from the day of the notification of such request at the latest, of the steps it has taken or intends to take to comply with that request.

4. Where the financial supervisor concerned does not comply, is not able to comply or does not inform the Authority of the steps it has taken or intends to take to comply with the request referred to in paragraph 2 within ten days from the day of the notification of the request, the Authority may request the Commission to grant permission to transfer temporarily the relevant tasks and powers referred to in Article 5(2) and Article 6(1) related to direct supervision of the non-selected obliged entity from the financial supervisor concerned to the Authority.

5. The request from the Authority to the Commission pursuant to paragraph 4 shall contain:

(c) a timelimit, which shall not exceed three years, for the requested transfer of the relevant tasks and powers;

(d) a description of the measures that the Authority intends to take in relation to the non-selected obliged entity upon the transfer of the relevant tasks and powers to address the serious, systematic or repeated breaches referred to in paragraph 2.

The decision shall be notified to the Authority, which shall immediately inform the financial supervisor and the non-selected obliged entity thereof.

7. On the tenth working day after the notification of the decision authorising the transfer of tasks and powers in relation to the non-selected obliged entity, the non-selected obliged entity referred to in paragraph 2 shall be deemed a selected obliged entity for the purposes of the exercise of the tasks referred to in Article 5(2) and the powers referred to in Article 6(1) and Articles 16 to 22. The Commission decision shall set a time limit for the exercise of these tasks and powers, upon the expiry of which they shall be deemed as non-selected obliged entities and automatically transferred back to the financial supervisor concerned. SECTION 5

OVERSIGHT OF NON-FINANCIAL SECTOR

Article 31

Peer reviews

1. The Authority shall periodically conduct peer reviews of some or all of the activities of supervisory authorities in the non-financial sector to strengthen consistency and effectiveness in supervisory outcomes. To that end, the Authority shall develop methods to allow for an objective assessment and comparison between supervisory authorities reviewed taking into account their specificities and characteristics. When planning and conducting peer reviews, the Authority shall avoid duplication of assessments or reports already available with regard to the non-financial supervisory authorities concerned, which have been drawn up by international organisations and intergovernmental bodies competent in the field of preventing money laundering and the financing of terrorism. Existing information, including any relevant information provided to the Authority in accordance with Article 11, and any relevant information from stakeholders shall be taken into account.

2. For the purposes of this Article, the Authority shall establish ad hoc peer review committees, which shall be composed of staff from the Authority and members of supervisory authorities in the non-financial sectors. The peer review committees shall be chaired by a member of the Authority's staff. (c) the application of best practices developed by supervisory authorities in the non-financial sector whose adoption might be of benefit for other non-financial supervisors;

(d) the effectiveness and the degree of convergence reached with regard to the enforcement of the provisions adopted in the implementation of Union law, including the administrative sanctions and other administrative measures imposed against persons responsible where those provisions have not been complied with.

4. The Authority shall produce a report setting out the results of the peer review. That peer review report shall be prepared by the peer review committee. A draft version of the report shall be submitted to the concerned supervisory authorities in the non-financial sector or the supervisory authorities in the non-financial sector subject to the assessment for comments, prior to its consideration by the General Board in supervisory composition. The report shall be adopted by the Executive Board, having received the observations of the General Board in supervisory composition as to the consistency of application of the methodology with other peer review reports. The report shall explain and indicate the follow-up measures that are deemed appropriate, proportionate and necessary as a result of the peer review. Those follow-up measures may be adopted in the form of guidelines and recommendations pursuant to Article 43 and opinions pursuant to Article 44. The supervisory authorities in the non-financial sector shall make every effort to comply with any guidelines and recommendations issued, in accordance with Article 43.

5. The Authority shall submit an opinion to the Commission where, having regard to the outcome of the peer review or to any other information acquired by the Authority in carrying out its tasks, it considers that further harmonisation of Union rules applicable to obliged entities in the non-financial sector or to supervisory authorities in the non-financial sector would be necessary from the Union's perspective.

6. The Authority shall provide a follow-up report two years after the publication of the peer review report. The follow-up report shall be prepared by the peer review committee and adopted by the Executive Board, having received the observations of the General Board in supervisory composition on the consistency with other peer review reports. The follow-up report shall include an assessment of the adequacy and effectiveness of the actions undertaken by the supervisory authorities in the non-financial sector that were subject to the peer review in response to the follow-up measures of the peer review report. The Authority shall publish the findings of the follow-up report on its website.

7. For the purposes of this Article, the Executive Board shall adopt a peer review work plan every two years, after approval by the General Board, which shall reflect the lessons learnt from the past peer review processes and discussions held in the General Board in supervisory composition. The peer review work plan shall constitute a separate part of the annual and multiannual working programme and shall be included in the Single Programming Document. In case of urgency or unforeseen events, the Authority may decide to carry out additional peer reviews.

8. When supervision is performed by SRBs, the peer review exercise shall include the assessment of the implementation of measures pursuant to Article 38 of [OP please insert the next number to the AMLD, COM(2021)423] that are taken by the public authority in charge of overseeing these bodies to ensure that they perform their function in accordance with Union law.

9. On a case by case basis, when SRBs indicate an interest to participate in a peer review exercise, representatives of such bodies entrusted with supervisory functions may be invited to participate in that peer review. Article 31 (1) to (6) shall apply accordingly.

Powers over supervisory authorities in the non-financial sector

1. Where a supervisory authority in the non-financial sector has not applied the Union acts or the national legislation referred to in Article 1(2), or has applied them in a way which appears to be a breach of Union law, in particular by failing to ensure that an entity under its supervision or oversight satisfies the requirements laid down in those acts or in that legislation, the Authority shall act in accordance with the powers set out in paragraphs 2, 3, 4, 6 and 7 of this Article.

2. Upon request from one or more supervisory authorities in the non-financial sector, the European Parliament, the Council, or the Commission, including when this is based on well-substantiated information from natural or legal persons, and after having informed the supervisory authority in the non-financial sector concerned, the Authority shall outline how it intends to proceed with the case and, where appropriate, investigate the alleged breach or non-application of Union law.

The supervisory authority shall, without delay, provide the Authority with information which the Authority considers necessary for its investigation including information on how the Union acts or in that legislation referred to in Article 1(2) are applied in accordance with Union law.

Whenever requesting information from the supervisory authority concerned has proven, or is deemed to be, insufficient to obtain the information that is deemed necessary for the purposes of investigating an alleged breach or non-application of Union law, the Authority may, after having informed the supervisory authority, address a duly justified and reasoned request for information directly to other supervisory authorities.

The addressee of such a request shall provide the Authority with clear, accurate and complete information without undue delay.

3. The Authority may, not later than six months from initiating its investigation, address a recommendation to the supervisory authority in the non-financial sector concerned setting out the action necessary to comply with Union law.

Before issuing such a recommendation, the Authority shall engage with the supervisory authority concerned, where the Authority or the supervisory authority consider such engagement appropriate in order to resolve a breach of Union law, in an attempt to reach agreement on the actions necessary for compliance with Union law.

The supervisory authority in the non-financial sector shall, within one month of receipt of the recommendation, inform the Authority of the steps it has taken or intends to take to ensure compliance with Union law.

6. Where the supervisory authority is a public authority overseeing a SRB, and where it does not comply with the recommendation referred to in paragraph 3 within the period specified therein, the Authority may issue a recommendation to an SRB to ensure it acts in accordance with Union law.

7. Recommendations adopted in accordance with paragraph 6 shall prevail over any previous measures adopted by the supervisory authority on the same matter.

If at least one other FIU accepts to join the Joint analysis team, the Authority shall ensure that the joint analysis is launched promptly, taking into account the urgency of the case.

2 Any FIU that declines to participate in the conduct of the joint analysis may provide the reasons thereof in writing to the Authority. The Authority shall provide such explanation without delay to the FIU having identified the need for a joint analysis.

3. Upon explicit consent of all the FIUs participating in the joint analysis, the staff of the Authority supporting the joint analysis shall be granted access to all the data pertaining to the subject-matter of the joint analysis and shall be able to process those data for the purposes of conducting the joint analysis.

If unanimous consent is not obtained, the joint analysis shall be supported by FIU delegates pursuant to article 35 of this Regulation. FIU delegates supporting the joint analysis shall be granted access to all data pertaining to the subject-matter of the joint analysis and shall be able to process those data for the purposes of conducting the joint analysis. AMLA staff may provide support to the joint analysis for tasks that do not require access to operational data.

Article 80

Cooperation with OLAF, Europol, Eurojust and the EPPO

1. The Authority may conclude working arrangements with Union institutions, Union decentralised agencies and other Union bodies, acting in the field of law enforcement and judicial cooperation. Those working arrangements may be of a strategic or technical nature, and shall in particular aim to facilitate cooperation and the exchange of information between the parties thereto. The working arrangements shall neither form the basis for allowing the exchange of personal data nor shall bind the Union or its Member States.

2. The Authority shall establish and maintain a close relationship with OLAF, Europol, Eurojust, and the EPPO. To that end, the Authority shall conclude separate working arrangements with OLAF, Europol, Eurojust, and the EPPO setting out the details of their cooperation. The relationship shall aim in particular to ensure the exchange of strategic information and trends in relation to money laundering and terrorist financing threats facing the Union.

Article 81

Cooperation with third countries and international organisations

1. In order to achieve the objectives set out in this Regulation, and without prejudice to the respective competences of the Member States and the Union institutions, the Authority may develop contacts and enter into administrative arrangements with AML/CFT authorities in third countries that have regulatory, supervisory and FIU-related competences in the field of anti-money laundering and counter terrorism financing as well as with international organisations and third-country administrations. Those arrangements shall not create legal obligations in respect of the Union and its Member States nor shall they prevent Member States and their competent authorities from concluding bilateral or multilateral arrangements with those third countries.

2. The Authority may develop model administrative arrangements, with a view to establishing consistent, efficient and effective practices within the Union and to strengthening international coordination and cooperation in the fight against money laundering and terrorist financing. The public authorities and FIUs shall make every effort to follow such model arrangements.

3. In cases where the interaction of several Union public authorities and FIUs with third country authorities concerns matters falling within the scope of the Authority's tasks as defined in Article 5, the Authority shall have a leading role in facilitating such interaction where necessary. This role of the Authority shall be without prejudice to the regular interactions by competent authorities and FIUs with third-country authorities.

4. The Authority shall, within its powers pursuant to this Regulation and to the legislative acts referred to in Article 1(2), contribute to the united, common, consistent and effective representation of the Union's interests in international fora, including by assisting the Commission in its tasks relating to Commission's membership of the Financial Action Task Force and by supporting the work and objectives of the Egmont Group of Financial Intelligence Units.
