Proposal for a

### **EUROPEAN COUNCIL DECISION**

#### **establishing the composition of the European Parliament**

THE EUROPEAN COUNCIL,

Having regard to the Treaty on European Union, and in particular Article 14(2) thereof,

Having regard to the Treaty establishing the European Atomic Energy Community, and in particular Article 106a(1) thereof,

Having regard to the proposal of the European Parliament<sup>1</sup>,

Having regard to the consent of the European Parliament<sup>2</sup>,

Whereas:

- (1) Article 14(2), first subparagraph, of the Treaty on European Union (TEU) lays down the criteria for the composition of the European Parliament, namely that representatives of the Union's citizens are not to exceed seven hundred and fifty in number, plus the President, that representation is to be degressively proportional, with a minimum threshold of six members per Member State, and that no Member State is to be allocated more than ninety-six seats.
- (2) Article 10 TEU provides, inter alia, that the functioning of the Union is to be founded on representative democracy, with citizens being directly represented at Union level in the European Parliament and Member States being represented by their governments, themselves being democratically accountable to their national Parliaments or citizens, in the Council.
- (3) Article 14(2) TEU therefore applies within the context of the wider institutional arrangements set out in the Treaties, which also include the provisions on decision making in the Council.
- (4) An appropriate number of representatives in the European Parliament to be elected in a Union-wide constituency should be laid down subject to the adoption of the legal basis for that constituency,

HAS ADOPTED THIS DECISION:

#### *Article 1*

In the application of Article 14(2) TEU, the following principles shall be respected:

---

<sup>1</sup> Proposal adopted on ... (not yet published in the Official Journal).

<sup>2</sup> Consent of ... (not yet published in the Official Journal).

- the total number of seats in the European Parliament shall not exceed 750 in number, plus the President,
- the allocation of seats to Member States shall be degressively proportional with a minimum threshold of 6 seats and a maximum threshold of 96 seats per Member State while reflecting as closely as possible the sizes of the respective populations of the Member States,
- degressive proportionality is defined as follows: the ratio between the population and the number of seats of each Member State before rounding up or down to the nearest whole number shall vary in relation to their respective populations in such a way that each Member of the European Parliament from a more populous Member State represents more citizens than each Member of the European Parliament from a less populous Member State and, conversely, that the larger the population of a Member State, the greater its entitlement to a large number of seats in the European Parliament.

## *Article 2*

The total population of the Member States is calculated by the Commission (Eurostat) on the basis of data provided by the Member States, in accordance with a method established by means of Regulation (EU) No 1260/2013 of the European Parliament and of the Council<sup>1</sup>.
