### 1. PRINCIPLES

In the framework of the World Customs Organization (WCO), the Union shall:

- (a) promote, contribute to and facilitate the customs classification of goods and the uniform interpretation and application of the Harmonized System (HS), and the reduction of the number of cases and disputes concerning divergent interpretations of the HS;
- (b) work towards the appropriate involvement of stakeholders in the preparation phase for decisions of the Harmonized System Committee (HSC) and ensure that decisions adopted in the WCO are in accordance with the International Convention on the Harmonized Commodity Description and Coding System (HS Convention)<sup>1</sup>;
- (c) ensure that measures adopted in the WCO are consistent with the general rules for the interpretation of the HS;
- (d) promote positions consistent with the best practices developed by the Union in the area concerned;
- (e) promote the simplification and modernisation of the HS Nomenclature according to the evolution of the needs of the users and development of new technologies;
- (f) ensure coherence with its other policies, including the objective to protect the financial interests of the Union, and international commitments to the extent relevant in light of the specific nature of customs classification.

### 2. CRITERIA

The positions to be taken on the Union's behalf in the WCO:

- (a) shall be established according to the following general criteria:
  - the principle that, in the interest of legal certainty and ease of verification, the decisive criterion for the classification of goods for customs purposes is in general to be sought in their objective characteristics and properties as defined in the wording of the relevant headings of the HS and in the Section or Chapter notes, and
  - the general rules for the interpretation of the HS as set out in the Annex to the HS Convention.
- (b) where applicable, and except for the Recommendation to the Contracting Parties concerning the amendment of the Nomenclature appended as an Annex to the Harmonized System Convention, shall take into account the following specific criteria:

In order to preserve Union's rights and interests within the WCO, the Commission shall attach special attention to the availability of working documents in conformity with the rules of procedures of the HSC.

To this effect, and based on that information, the Commission shall transmit to the Council, in sufficient time before each meeting of the HSC referred to in point 1, a written document setting out the particulars of the proposed specification of the Union's position for discussion and endorsement of the details of the position to be expressed on the Union's behalf. The Council shall examine the Commission's documents within the best possible timeframe.

If the Council does not endorse a specific part of the proposal, the Commission will not present a Union position on that part at the HSC.
