'I/A' ITEM NOTE

From:	General Secretariat of the Council
To:	Permanent Representatives Committee/Council
Subject:	COMMISSION REGULATION (EU) .../... of XXX amending Commission Regulation (EU) 2023/826 to clarify definitions and some aspects of the measurement conditions and amending Commission Regulation (EU) 2023/2533 in relation to the methodology for calculating the average final moisture content, the identification and availability of spare parts and of repair information among other aspects - Decision not to oppose adoption (regulatory procedure with scrutiny)

1. The measure envisaged being in accordance with the opinion of the relevant committee, the Commission has submitted the above draft measure¹ to the Council for scrutiny in accordance with the procedure in Article 5a(3)(a) of Council Decision 1999/468/EC². The Commission having submitted the draft measure on 23 May 2025, the Council has until 15 August 2025 to decide to oppose the adoption.

¹ 9433/25 + ADD 1

² Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission (OJ L 184, 17.7.1999, p. 23), as amended by Decision 2006/512/EC (OJ L 200, 22.7.2006, p. 11).

2. Delegations were asked to submit any comments on this file by 27 June 2025. Delegations have not provided indication that there is any reason to oppose the draft measure in question on the grounds described in Council Decision 1999/468/EC, namely that it:
- exceeds the implementing powers provided for in the basic instrument;
 - is incompatible with the aim or content of the basic instrument; or
 - does not respect the principles of subsidiarity or proportionality.
3. It is therefore suggested that Coreper recommend that the Council confirms that there are no grounds for opposing the draft measure. This implies that, unless the European Parliament opposes it, the Commission may adopt the proposed measure in accordance with Article 5a(3)(d) of Council Decision 1999/468/EC.
-
