= **State of play**

The Presidency informed the Committee on the opposition of the Italian delegation to the statement by the Council and the European Parliament on correlation tables. In order to accommodate the Italian concerns, the Presidency submitted to the Committee alternative solutions to be further considered.

The Presidency presented to the Committee the solution found to replace the statement by the Council and the European Parliament on correlation tables in the context of the Eurovignette Directive: a unilateral statement by the European Parliament, a unilateral statement by the European Commission and a unilateral statement by the Hungarian Presidency and three incoming Presidencies (Poland, Denmark and Cyprus).

The Presidency signed the letter confirming the second reading agreement with the European Parliament on the above mentioned Directive.
