                  **21/22 JUNE 2007**

**PRESIDENCY CONCLUSIONS**

---

Delegations will find attached the revised version of the Presidency Conclusions of the Brussels European Council (21/22 June 2007).

The meeting of the European Council was preceded by an exposé by the President of the European Parliament, Mr Hans-Gert Pöttering, followed by an exchange of views.

1. Europe is united in its resolve that only by working together can we represent our interests and goals in the world of tomorrow. The European Union is determined to contribute its ideas of a sustainable, efficient and just economic and social order to the global process.
2. The European Union faces a twofold responsibility. In order to secure our future as an active player in a rapidly changing world and in the face of ever-growing challenges, we have to maintain and develop the European Union's capacity to act and its accountability to the citizen. That is why we have to focus our efforts on the necessary internal reform process. At the same time, the European Union is called upon to shape European policy here and now for the benefit of Europe's citizens.
3. The most recent positive results include the Roaming Regulation which reduces the cost of modern communication in Europe, the creation of the European payment area which makes travelling and living together easier in the EU and the constant improvement of consumer rights which guarantee citizens the same high standards across the entire European Union.
4. With its decisions on an integrated climate and energy policy the European Council in Spring 2007 underlined the synergies between these two key areas and paved the way for improved climate protection and dealing responsibly with energy.
5. Closer crossborder police and judicial cooperation means more security for everyone. At the same time the EU is working to protect and strengthen civil liberties at European level.
6. Contributing to the day-to-day life of its citizens and securing the European Union's ability to act in the future: with this twofold goal in mind, the European Council today adopted the following conclusions.

7. The European Council emphasises the crucial importance of reinforcing communication with the European citizens, providing full and comprehensive information on the European Union and involving them in a permanent dialogue. This will be particularly important during the upcoming IGC and ratification process.

## **I. TREATY REFORM PROCESS**

8. The European Council agrees that, after two years of uncertainty over the Union's treaty reform process, the time has come to resolve the issue and for the Union to move on. The period of reflection has provided the opportunity in the meantime for wide public debate and helped prepare the ground for a solution.
9. Against this background, the European Council welcomes the report drawn up by the Presidency (10659/07) following the mandate given to it in June 2006, and agrees that settling this issue quickly is a priority.
10. To this end the European Council agrees to convene an Intergovernmental Conference and invites the Presidency without delay to take the necessary steps in accordance with Article 48 of the TUE, with the objective of opening the IGC before the end of July as soon as the legal requirements have been met.
11. The IGC will carry out its work in accordance with the mandate set out in Annex I to these conclusions. The European Council invites the incoming Presidency to draw up a draft Treaty text in line with the terms of the mandate and to submit this to the IGC as soon as it opens. The IGC will complete its work as quickly as possible, and in any case before the end of 2007, so as to allow for sufficient time to ratify the resulting Treaty before the European Parliament elections in June 2009.

12. The IGC will be conducted under the overall responsibility of the Heads of State or Government, assisted by the members of the General Affairs and External Relations Council. The Representative of the Commission will participate in the Conference. The European Parliament will be closely associated with and involved in the work of the Conference with 3 representatives. The General Secretariat of the Council will provide the secretariat support for the Conference.
13. Having consulted the President of the European Parliament, the European Council invites the European Parliament, in order to pave the way for settling the issue of the future composition of the European Parliament in good time before the 2009 elections, to put forward by October 2007 a draft of the initiative foreseen in Protocol 34 as agreed in the 2004 IGC.
14. The incoming presidency is invited to ensure that the candidate countries are kept fully and regularly briefed throughout the Intergovernmental Conference.

## **II. JUSTICE AND HOME AFFAIRS**

15. On the basis of the Tampere and Hague Programmes significant progress has been made in developing the Union as an area of freedom, security and justice. The European Council stresses the need to continue the implementation of those programmes and to work on the succession to them in order to further strengthen Europe's internal security as well as the fundamental freedoms and rights of citizens.

16. Recent events have demonstrated once again the need to make rapid progress in developing a comprehensive European migration policy based on common political principles, capable of taking account of all aspects of migration (the migration and development agenda, as well as internal aspects such as legal migration, integration, protection of refugees, border control, readmission and the fight against illegal migration and human trafficking), based on a genuine partnership with third countries and fully integrated into the Union's external policies. The European Council welcomes the progress already made in implementing the priority actions focussing on Africa and the Mediterranean, including the recent EU missions to Africa and concrete cooperation with African and Euromed partners, as part of the Global Approach to Migration and calls for work on these priority actions to be taken forward and intensified. The European Council also welcomes the Commission's Communication of 16 May 2007 on applying the Global Approach to Migration to the eastern and south-eastern regions neighbouring the EU. Acknowledging the need for intensified and more coordinated cooperation with these regions, the European Council endorses the Council conclusions of 18 June 2007, including the list of priority measures. The European Council calls on the Member States and the Commission to ensure that adequate human and financial resources are allocated, within the existing financial framework, in order to enable the timely implementation of the comprehensive migration policy.
17. The European Council underlines the importance of closer cooperation with third countries in managing migration flows. Specific partnerships on migration with third countries could contribute to a coherent migration policy which combines measures aimed at facilitating well-managed legal migration opportunities and their benefits – while respecting Member States' competences and the specific needs of their labour markets – with those fighting illegal migration, protecting refugees and tackling the root causes of migration while at the same time impacting positively on development in countries of origin. The possibility of mobility partnerships should be further explored as well as possibilities for circular migration in the light of the Commission's communication of 16 May 2007; in this context the European Council endorses the Council conclusions of 18 June 2007. The European Council is convinced that illegal employment is one main pull factor driving illegal immigrants. It accordingly underlines the importance of the proposal for a Directive providing rules to avoid the illegal employment of third country nationals.

18. The European Council reaffirms the need for the Union's capacity to contribute to the management of the external borders of Member States to be reinforced and underlines the importance of continuing to strengthen the capacity of FRONTEX for this purpose. Joint operations at Member States' external borders are contributing to the fight against illegal migration and to saving lives and must therefore be maintained. The European Council therefore welcomes the agreement reached on the establishment of Rapid Border Intervention Teams, the launching of the Coastal Patrol Network, and the creation of a centralised "toolbox" of technical equipment available to be put at the disposal of Member States. The European Council calls for every effort to be made by all concerned for the Rapid Border Intervention Teams to become operational as soon as possible and for the new possibilities created by the Coastal Patrol Network and the "toolbox" to be used to the full, including the stepping-up and strengthening of joint patrols. Recalling the Hague Programme, the European Council reaffirms that European solidarity and fair sharing of responsibilities are among the founding principles guiding Europe's activities in managing the EU's external borders, in accordance with the integrated management system.
  
19. The European Council welcomes the recent agreement on the Regulation on the Visa Information System and the exchange of data between Member States on short-stay visas as well as the Council Decision on access for consultation of the VIS by designated authorities of Member States and by Europol for the purposes of prevention, detection and investigation of terrorist offences. Along with the development of modern means of control and identification, these are further important steps in improving exchanges of information between the Member States, thus contributing to improving the management of the common visa policy and the security of citizens. The European Council calls for swift implementation of the VIS Regulation and the Council Decision.
  
20. The European Council likewise welcomes the efforts that have been made in order to improve the continued and deepened cooperation at EU level and between Member States in the area of integration and intercultural dialogue. The European Council welcomes, in particular, the Council conclusions of 12 June on the strengthening of integration policies in the EU by promoting unity in diversity. It emphasises the importance of further initiatives to facilitate the exchange of experience on integration policies of the Member States.

21. The European Council reaffirms its commitment to realising, as part of the comprehensive European migration policy, the Common European Asylum System by the end of 2010.
22. The European Council will review the state of implementation of the comprehensive migration policy at its next meeting in December 2007 on the basis of an interim progress report from the Commission. This report should include progress on the application of the Global Approach to Migration to Africa and the Mediterranean as well as first progress on the application of the Global Approach to Migration to the eastern and south-eastern regions neighbouring the European Union.
23. The extension of the Schengen area will improve the everyday lives of citizens and accordingly continues to be a high priority for the EU. The European Council welcomes the preparatory work undertaken through the SIS One4All project and encourages the Member States participating in the project to continue their endeavours to meet all the requirements as set out in the Council (JHA) conclusions of 5/6 December 2006 for the lifting of controls at internal borders at the land and sea borders at the end of December 2007 and at air borders by March 2008 at the latest, provided that all these requirements have been met. At the same time the European Council urges the Commission to complete the remaining work within the scheduled time frame in order to finalise the SIS II project by December 2008 at the latest.
24. Particular efforts must continue to be made to strengthen police and judicial cooperation and the fight against terrorism. Europe's citizens expect the EU and its Member States to take decisive action to preserve their freedom and security, particularly in the fight against terrorism and organised crime.
25. The recent decision to integrate the essential provisions of the Prüm Treaty into the Union's legal framework will help to intensify cross-border police cooperation. In the same context the European Council underlines the importance of strengthening further Europol's operational capabilities and welcomes the decision of the Council to transform the Europol Convention into a Council Decision, in accordance with the Council's (JHA) conclusions of 12/13 June 2007.

26. Safeguarding citizens' rights is as vital to creating an area of freedom, security and justice as ensuring protection for Europe's citizens. In this respect the European Council in particular requests the Council to reach agreement before the end of the year on the Framework Decision on the protection of personal data processed in the framework of police and judicial cooperation in criminal matters.
27. The European Council calls for work on procedural rights in criminal proceedings to be continued as soon as possible in order to contribute to increasing confidence in the legal systems of other Member States and thus to facilitate the mutual recognition of judicial decisions. The recent overall agreement on the Framework Decision on combating certain forms of racism and xenophobia is a clear signal for a Europe committed to the fight against intolerance.
28. In the interest of European citizens rapid agreement is needed on the Regulations on the applicable law relating to contractual obligations (Rome I), on jurisdiction and applicable law in matrimonial matters (Rome III) and on maintenance obligations.
29. The Council is requested to continue its work on evaluating the consistency and coherence of the provisions of contract law in Community law, including consumer contract law.
30. The European Council acknowledges the progress made in developing legislation for the exchange of information on national criminal convictions on a European basis and requests the Council to ensure that national criminal records systems become inter-connected through a European network as soon as possible. The Council should also further promote electronic communication on legal matters ("E-Justice") in the criminal as well as the civil areas.
31. The European Council welcomes the communication from the Commission on the fight against cybercrime and calls for the development of a policy framework in this field.

### **III. ECONOMIC, SOCIAL AND ENVIRONMENTAL ISSUES**

32. Further strengthening the four freedoms of the internal market (free movement of goods, persons, services and capital) and improving its functioning remain of paramount importance for growth, competitiveness and employment. The European Council looks forward to the presentation of the Commission's Single Market Review, together with accompanying proposals, in the autumn. It calls on the Council and the European Parliament to make rapid progress on the new approach and mutual recognition Regulations, without prejudice to the harmonisation of national technical rules where appropriate.
33. The European Council notes the progress achieved in the Council on the draft Directive on the achievement of the internal market in postal services which will have to ensure the financing of an efficient and high-quality universal service and invites the European Parliament, the Council and the Commission to rapidly deepen and conclude discussions on this issue with a view to finding an agreement on the Directive in due time.
34. The European Council invites the Council to swiftly agree on the first four proposals for Joint Technology Initiatives (ARTEMIS, on embedded computer systems, IMI, the Innovative Medicines Initiative, Clean Sky, on aeronautics and air transport, and ENIAC, on nano-electronics technologies) and invites the Commission to present as rapidly as possible the remaining Joint Technology Initiatives identified in the Specific Programme "Cooperation" implementing the 7th Framework Programme for Research. It recalls the importance of open and transparent management of these initiatives.
35. The European Council welcomes the fact that work on the Regulation for the European Institute of Technology is advancing well and therefore invites the Council to reach, at its meeting on 25 June, a general approach on this Regulation, including adequate financing in accordance with Community budgetary procedures. The European Council is confident that the final decision of Council and European Parliament will be taken before the end of this year.

36. The European Council reaffirms the value of Galileo as a key project of the European Union and asks the Council to take an integrated decision on the implementation of Galileo in Autumn 2007.
  
37. The European Council welcomes the initiative for a European Charter for the use of intellectual property from public research institutions and universities (IP-Charter) to improve the knowledge transfer between research and industry and its contribution to the development of the European Research Area. The European Council invites the Commission to present early in 2008 initiatives to follow up on the Green Paper on the European Research Area.
  
38. In the social policy area, work on coordination of social security systems must be pursued vigorously with a view to resolving the remaining outstanding chapters as soon as possible. The European Council is looking forward to the forthcoming Commission Communication on flexicurity, on the basis of which common principles could be agreed before the end of this year and welcomes the progress made on the active inclusion strategy. The European Council looks forward to the presentation of an amended proposal for the Directive on minimum requirements for enhancing worker mobility by improving the vesting and preservation of supplementary pension rights as a basis for the continuation of work on this subject. Member States are invited to rapidly implement the recently adopted Community Strategy 2007-2012 on health and safety at work, which will strengthen the overall approach to well-being at work and relaunch prevention policies and improvements for workers. The European Council invites Member States, the Commission and social partners to make good use of the Alliance for Families to promote good practices and innovative approaches on family friendly policies consistent with Member States' national public policy and to promote gender equality. The European Council looks forward to the Commission's forthcoming social reality stocktaking report.

39. HIV/AIDS remains a matter of serious concern. Action to tackle the global HIV/AIDS pandemic should include broad-based prevention programmes, training of health care personnel, awareness raising in all groups of society and tackling the cost of treatment. The European Council invites the Commission to implement its action plan on combating HIV/AIDS within the European Union and in the neighbouring countries 2006-2009 and the European Programme for Action to Confront HIV/AIDS, malaria and tuberculosis through external action 2007-2011. It is for the Member States to provide the political leadership to fight this pandemic. The pharmaceutical industry should facilitate access to affordable medicines and cooperate in securing distribution channels for drugs against HIV/AIDS together with government institutions and NGOs.
40. The European Council recalls its conclusions of March 2007 on an integrated climate and energy policy. It welcomes the important signal sent by the G8 Summit at Heiligendamm. The clear reference to at least halving emissions by 2050, the commitment to the UNFCCC process (UN Framework Convention on Climate Change) and to achieving a comprehensive post-2012 agreement by 2009 provide an encouraging basis for the upcoming UNFCCC negotiations which should be launched in Bali in December 2007. The European Council encourages all parties to actively and constructively participate in an urgent and global response to the challenge of climate change on the basis of the principle of common but differentiated responsibilities and respective capabilities. It stresses the importance of implementing effectively and speedily all aspects of the comprehensive energy Action Plan with a view to taking forward the Energy Policy for Europe. On climate protection, the European Council looks forward to the timely presentation by the Commission of a proposal to amend the directive on the EU Emissions Trading Scheme based on the review process and the Council recommendations. It invites the Commission to consider, as part of the EU ETS review, a possible extension of the scope of the scheme to land use, land-use change and forestry. It underlines the Union's intention to include aviation activities in the scheme in a way that does not adversely affect competitiveness.

41. It is becoming increasingly evident that climate change will have a considerable impact on international security issues. The European Council invites the High Representative and the European Commission to work closely together on this important issue and to present a joint report to the European Council in Spring 2008.
  
42. The European Council recalls the importance of an efficient and sustainable European transport system and takes note of the Commission's intention to come forward no later than June 2008 with a model for the assessment of all external costs to serve as a basis for future calculations of infrastructure charges. This model shall be accompanied by an impact analysis of the internalisation of external costs for all modes of transport and further steps in line with the "Eurovignette" Directive.
  
43. The European Council welcomes the wide debate, in particular at the Bremen Conference in May 2007, that has taken place in Europe on the future Maritime Policy and invites the Commission to come forward with a European Action Plan to be presented in October. Taking into account the principle of subsidiarity, this Action Plan should aim at exploring the full potential of sea-based economic activity in an environmentally sustainable manner.
  
44. The European Council congratulates Cyprus and Malta on the convergence achieved since accession to the EU, based on sound economic and financial policies, and welcomes both countries' fulfilment of all the convergence criteria as set out in the Treaty. In this context, the European Council welcomes the Commission's proposal that Cyprus and Malta should adopt the euro on 1 January 2008.

#### **IV. EXTERNAL RELATIONS**

##### **European Neighbourhood Policy**

45. The European Council reaffirms the paramount importance of the ENP, which aims at consolidating a ring of prosperity, stability and security based on human rights, democracy and the rule of law, as well as supporting the process of reform and modernisation of partners in the Union's neighbourhood.
46. The European Council endorses the Council Conclusions on strengthening the European Neighbourhood Policy and the Presidency Progress Report, which includes a set of measures to further strengthen Neighbourhood Policy. While the ENP's character as a single and coherent policy framework should be maintained, implementation of the Policy should take due account of the specificity of partner countries. The European Council invites future Presidencies to continue work on the basis of the Presidency Report and relevant Commission proposals and communications.

##### **Central Asia**

47. The European Council adopted an EU strategy for a new partnership with Central Asia. This strategy will serve as an overall framework for EU relations with Central Asia, including in the fields of human rights, rule of law, good governance and democracy, education, economic development, trade and investment, energy and transport, environmental policies, migration and inter-cultural dialogue. The strategy defines the EU's priorities for its cooperation with the region as a whole, but implementation will be tailored to the specific requirements and performance of each Central Asian state. The European Council asks the Council and the Commission to regularly review progress in implementing this strategy and to submit a first progress report to the European Council by the middle of 2008.

### **Heiligendamm Process**

48. The European Council, recalling the development of EU instruments and dialogue fora with emerging economies, welcomes the initiation of the Heiligendamm Process by the G8 Summit in June 2007 launching a new form of dialogue in particular with Brazil, China, India, Mexico and South Africa. The European Council recognises the ever-growing importance of these and other emerging economies. The Heiligendamm Process should intensify the political dialogue and foster cooperation with these countries, especially in the fields of innovation and intellectual property, investment conditions including responsible business conduct, energy efficiency and development cooperation.

### **EU-Africa**

49. The second EU-Africa Summit in Lisbon in December 2007 will provide an important opportunity to enhance the relationship between the EU and Africa and to build an ambitious and strategic new partnership.
50. Recalling its conclusions of June 2005, the European Council underlines the importance it attaches to the further close cooperation with the African Union to ensure that a Joint EU-Africa strategy can be adopted by December 2007. The European Council reaffirms the commitment to continue support for the African Union, with a view, inter alia, to strengthening the African Union's capacity in conflict management, resolution and prevention. The European Council welcomes the intention to establish an Africa-EU energy partnership at the EU-Africa Summit.
51. The European Council stresses the need for new arrangements allowing early release of EU funds to support AU rapid deployment which should be addressed as a priority. The Council reaffirms the commitments undertaken in the EU Strategy "The EU and Africa: Towards a Strategic Partnership" and encourages Member States to make all efforts to reach the targets set therein.

### **European Security and Defence Policy**

52. The European Council endorses the Presidency Report on ESDP, which includes the mandate for the incoming Presidency.

**V. NORTHERN IRELAND**

53. The British Prime Minister and the Taoiseach briefed the European Council on the restoration of fully inclusive, power-sharing, devolved government in Northern Ireland. The European Council welcomed the recent engagement between the President of the Commission and the new Northern Ireland Executive and underlined the European Union's longstanding and continuing support for the peace process.

## **IGC MANDATE**

The present mandate will provide the exclusive basis and framework for the work of the IGC that will be convened according to paragraph 10 of the European Council conclusions.

### **I. GENERAL OBSERVATIONS**

1. The IGC is asked to draw up a Treaty (hereinafter called the "*Reform Treaty*") amending the existing Treaties with a view to enhancing the efficiency and democratic legitimacy of the enlarged Union, as well as the coherence of its external action. The constitutional concept, which consisted in repealing all existing Treaties and replacing them by a single text called "Constitution", is abandoned. The *Reform Treaty* will introduce into the existing Treaties, which remain in force, the innovations resulting from the 2004 IGC, as set out below in a detailed fashion.

2. The *Reform Treaty* will contain two substantive clauses amending respectively the *Treaty on the European Union (TEU)* and the *Treaty establishing the European Community (TEC)*. The *TEU* will keep its present name and the *TEC* will be called *Treaty on the Functioning of the Union*, the Union having a single legal personality. The word "Community" will throughout be replaced by the word "Union"; it will be stated that the two Treaties constitute the Treaties on which the Union is founded and that the Union replaces and succeeds the Community. Further clauses will contain the usual provisions on ratification and entry into force as well as transitional arrangements. Technical amendments to the *Euratom Treaty* and to the existing *Protocols*, as agreed in the 2004 IGC, will be done via *Protocols* annexed to the *Reform Treaty*.

3. The *TEU* and the *Treaty on the Functioning of the Union* will not have a constitutional character. The terminology used throughout the Treaties will reflect this change: the term "Constitution" will not be used, the "Union Minister for Foreign Affairs" will be called High Representative of the Union for Foreign Affairs and Security Policy and the denominations "law" and "framework law" will be abandoned, the existing denominations "regulations", "directives" and "decisions" being retained. Likewise, there will be no article in the amended Treaties mentioning the symbols of the EU such as the flag, the anthem or the motto. Concerning the primacy of EU law, the IGC will adopt a Declaration recalling the existing case law of the EU Court of Justice<sup>1</sup>.

4. As far as the content of the amendments to the existing Treaties is concerned, the innovations resulting from the 2004 IGC will be integrated into the *TEU* and the *Treaty on the Functioning of the Union*, as specified in this mandate. Modifications to these innovations introduced as a result of the consultations held with the Member States over the past six months are clearly indicated below. They concern in particular the respective competences of the EU and the Member States and their delimitation, the specific nature of the Common Foreign and Security Policy, the enhanced role of national parliaments, the treatment of the Charter of Fundamental Rights and a mechanism, in the area of police and judicial cooperation in criminal matters, enabling Member States to go forward on a given act while allowing others not to participate.

## II. AMENDMENTS TO THE EU TREATY

5. Clause 1 of the *Reform Treaty* will contain the amendments to the present *TEU*.

In the absence of indications to the contrary in this mandate, the text of the existing Treaty remains unchanged.

6. The text of the first recital as agreed in the 2004 IGC will be inserted as a second recital into the Preamble.

7. The *TEU* will be divided into 6 Titles: *Common Provisions (I)*, *Provisions on democratic principles (II)*, *Provisions on institutions (III)*, *Provisions on enhanced cooperation (IV)*, *General Provisions on the Union's External Action and specific Provisions on the Common Foreign and Security Policy (V)*, and *Final Provisions (VI)*. Titles I, IV (present VII), V and VI (present VIII) follow the structure of the existing *TEU*, with amendments as agreed in the 2004 IGC.<sup>2</sup> The two other titles (II and III) are new and introduce innovations agreed in the 2004 IGC.

### *Common Provisions (I)*

8. Title I of the existing *TEU*, containing *inter alia* Articles on the Union's values and objectives, on relations between the Union and the Member States, and on the suspension of rights of Member States, will be amended in line with the innovations agreed in the 2004 IGC (see Annex 1, Title I).

---

<sup>1</sup> Whilst the Article on primacy of Union law will not be reproduced in the *TEU*, the IGC will agree on the following Declaration: "The Conference recalls that, in accordance with well settled case-law of the EU Court of Justice, the Treaties and the law adopted by the Union on the basis of the Treaties have primacy over the law of Member States, under the conditions laid down by the said case-law." In addition, the opinion of the Legal Service of the Council (doc. 11197/07) will be annexed to the Final Act of the Conference.

<sup>2</sup> The content of Title VI on police and judicial cooperation in criminal matters will be put into the Title on the Area of freedom, security and justice in the Treaty on the Functioning of the European Union (*TFEU*), see below under "Amendments to the EC Treaty".

9. The Article on fundamental rights will contain a cross reference<sup>3</sup> to the *Charter of fundamental rights*, as agreed in the 2004 IGC, giving it legally binding value and setting out the scope of its application.

10. In the Article on fundamental principles concerning competences it will be specified that the Union shall act only within the limits of competences conferred upon it by the Member States in the Treaties.

Provisions on democratic principles (II)

11. This new Title II will contain the provisions agreed in the 2004 IGC on democratic equality, representative democracy, participatory democracy and the citizens' initiative. Concerning national parliaments, their role will be further enhanced compared to the provisions agreed in the 2004 IGC (see Annex 1, Title II):

- The period given to national parliaments to examine draft legislative texts and to give a reasoned opinion on subsidiarity will be extended from 6 to 8 weeks (the *Protocols on national Parliaments and on subsidiarity and proportionality* will be modified accordingly).
- There will be a reinforced control mechanism of subsidiarity in the sense that if a draft legislative act is contested by a simple majority of the votes allocated to national parliaments, the Commission will re-examine the draft act, which it may decide to maintain, amend or withdraw. If it chooses to maintain the draft, the Commission will have, in a reasoned opinion, to justify why it considers that the draft complies with the principle of subsidiarity. This reasoned opinion, as well as the reasoned opinions of the national parliaments, will have to be transmitted to the EU legislator, for consideration in the legislative procedure. This will trigger a specific procedure:
  - before concluding the first reading under the ordinary legislative procedure, the legislator (Council and Parliament) shall consider the compatibility of the legislative proposal with the principle of subsidiarity, taking particular account of the reasons expressed and shared by the majority of national parliaments as well as the reasoned opinion of the Commission;
  - If, by a majority of 55 % of the members of the Council or a majority of the votes cast in the European Parliament, the legislator is of the opinion that the proposal is not compatible with the principle of subsidiarity, the legislative proposal shall not be given further consideration (the *Protocol on subsidiarity and proportionality* will be modified accordingly).

A new general Article will reflect the role of the national parliaments.

---

<sup>3</sup> Therefore, the text of the Charter of fundamental rights will not be included in the Treaties.

Provisions on institutions (III)

12. The institutional changes agreed in the 2004 IGC will be integrated partly into the *TEU* and partly into the *Treaty on the Functioning of the Union*. The new Title III will give an overview of the institutional system and will set out the following institutional modifications to the existing system, i.e. the Articles on the Union's institutions, the European Parliament (new composition), the European Council (transformation into an institution<sup>4</sup> and creation of the office of President), the Council (introduction of the double majority voting system and changes in the six-monthly Council presidency system, with the possibility of modifying it), the European Commission (new composition and strengthening of the role of its President), the Union Minister for Foreign Affairs (creation of the new office, its title being changed to High Representative of the Union for Foreign Affairs and Security Policy) and the Court of Justice of the European Union.<sup>5</sup>

13. The double majority voting system, as agreed in the 2004 IGC, will take effect on 1 November 2014, until which date the present qualified majority system (Article 205(2) TEC) will continue to apply. After that, during a transitional period until 31 March 2017, when a decision is to be adopted by qualified majority, a member of the Council may request that the decision be taken in accordance with the qualified majority as defined in Article 205(2) of the present TEC.

In addition, until 31 March 2017, if members of the Council representing at least 75 % of the population or at least 75 % of the number of Member States necessary to constitute a blocking minority resulting from the application of Article [I-25(1) first subparagraph], or Article [I-25(2)], indicate their opposition to the Council adopting an act by a qualified majority, the mechanism provided for in the draft Decision contained in Declaration n° 5 annexed to the Final Act of the 2004 IGC will apply. As from 1 April 2017, the same mechanism will apply, the relevant percentages being, respectively, at least 55 % of the population or at least 55 % of the number of Member States necessary to constitute a blocking minority resulting from the application of Article [I-25(1) first subparagraph], or Article [I-25(2)].

Provisions on enhanced cooperation (IV)

14. Title IV (former Title VII of the existing *TEU*) will be amended as agreed in the 2004 IGC. The minimum number of Member States required for launching an enhanced cooperation will be nine.

---

<sup>4</sup> Including modalities of vote.

<sup>5</sup> There will be some drafting adaptations due to the merging of some provisions.

General Provisions on the Union's external action and specific Provisions on the Common Foreign and Security Policy (V)

15. In Title V of the existing *TEU*, a new first Chapter on the general provisions on the Union's external action will be inserted containing two Articles, as agreed in the 2004 IGC, on the principles and objectives of the Union's external action and on the role of the European Council in setting the strategic interests and objectives of this action. The second Chapter contains the provisions of Title V<sup>6</sup> of the existing *TEU*, as amended in the 2004 IGC (including the European External Action Service and the permanent structured cooperation in the field of defence). In this Chapter, a new first Article will be inserted stating that the Union's action on the international scene will be guided by the principles, will pursue the objectives of, and will be conducted in accordance with, the general provisions on the Union's external action which are laid down in Chapter 1. It will be clearly specified in this Chapter that the CFSP is subject to specific procedures and rules. There will also be a specific legal basis on personal data protection in the CFSP area<sup>7</sup>.

Final Provisions (VI)

16. Title VI (former Title VIII of the existing *TEU*) will be amended as agreed in the 2004 IGC. There will in particular be an Article on the legal personality of the Union<sup>8</sup>, an Article on voluntary withdrawal from the Union and Article 48 will be amended so as to bring together the procedures for revising the Treaties (the ordinary and the two simplified procedures). This Article, in its paragraph on the ordinary revision procedure, will make it clear that the Treaties can be revised to increase or reduce the competences conferred upon the Union. In Article 49, on conditions of eligibility and the procedure for accession to the Union, the reference to the principles will be replaced by a reference to the Union's values and the addition of a commitment to promoting such values, an obligation to notify the European Parliament and national parliaments of an application for accession to the Union and a reference to take into account the conditions of eligibility agreed upon by the European Council (see Annex 1, Title VI). The usual final provision will also be adapted (territorial scope, duration, ratification and authentic texts and translations).<sup>9</sup>

### III. AMENDMENTS TO THE EC TREATY

17. Clause 2 of the *Reform Treaty* will contain the amendments to the present *TEC*, which will become the *Treaty on the Functioning of the European Union*.

---

<sup>6</sup> The IGC will agree on the following Declaration: "*The Conference underlines that the provisions in the Treaty on European Union covering the Common Foreign and Security Policy, including the creation of the office of High Representative of the Union for Foreign Affairs and Security Policy and the establishment of an External Action Service, do not affect the responsibilities of the Member States, as they currently exist, for the formulation and conduct of their foreign policy nor of their national representation in third countries and international organisations.*

*The Conference also recalls that the provisions governing the Common Security and Defence Policy do not prejudice the specific character of the security and defence policy of the Member States.*

*It stresses that the EU and its Member States will remain bound by the provisions of the Charter of the United Nations and, in particular, by the primary responsibility of the Security Council and of its Members for the maintenance of international peace and security.*"

<sup>7</sup> With regard to the processing of such data by the Member States when carrying out activities which fall within the CFSP and ESDP and the movement of such data.

<sup>8</sup> The IGC will agree on the following Declaration: "*The Conference confirms that the fact that the European Union has a legal personality will not in any way authorise the Union to legislate or to act beyond the competences conferred upon it by the Member States in the Treaties.*"

<sup>9</sup> Articles 41, 42, 46 and 50 of the *TEU* will be deleted, Article 47 being placed, as amended in the 2004 IGC, in the CFSP Chapter.

18. The innovations as agreed in the 2004 IGC will be inserted into the Treaty by way of specific modifications in the usual manner. They concern the categories and areas of competences, the scope of qualified majority voting and of codecision, the distinction between legislative and non-legislative acts, provisions *inter alia* on the Area of freedom, security and justice, the solidarity clause, the improvements to the governance of the euro, horizontal provisions such as the social clause, specific provisions such as public services, space, energy, civil protection, humanitarian aid, public health, sport, tourism, outermost regions, administrative cooperation, financial provisions (own resources, multiannual financial framework, new budgetary procedure).

19. The following modifications will be introduced compared to the results of the 2004 IGC (see Annex 2):

- a) A new Article 1 will state the purpose of the Treaty on the functioning of the Union and its relation with the EU Treaty. It will state that the two Treaties have the same legal value.
- b) In the Article on categories of competences, placed at the beginning of the *TEC*, it will be clearly specified that the Member States will again exercise their competence to the extent that the Union has decided to cease exercising its competence.<sup>10</sup>
- c) In the Article on supporting, coordinating or complementary action, the introductory sentence will be amended so as to underline that the Union carries out actions to support, coordinate or supplement the actions of the Member States.
- d) In Article 18(3), as amended in the 2004 IGC, the phrase on the adoption of measures on passports, identity cards, residence permits and similar documents will be removed and transferred to a similar legal basis on this issue to be placed in the Title on the Area of freedom, security and justice, in the Article on border checks.
- e) In Article 20 (diplomatic and consular protection), as amended in the 2004 IGC, the legal basis will be amended so as to provide in this field for the adoption of directives establishing coordination and cooperation measures.
- f) In Article 286 (personal data protection), as amended in the 2004 IGC, a subparagraph will be inserted stating that the rules adopted on the basis of this Article will be without prejudice to those adopted under the specific legal basis on this subject which will be introduced in the CFSP Title (the IGC will also adopt a declaration on personal data protection in the areas of police and judicial cooperation in criminal matters, as well as, where appropriate, specific entries in the relevant Protocols on the position of individual Member States clarifying their applicability in this respect).

---

<sup>10</sup> (a) The IGC will also agree a Declaration in relation to the delimitation of competences: "*The Conference underlines that, in accordance with the system of division of competences between the Union and the Member States as provided for in the Treaty on European Union, competences not conferred upon the Union in the Treaties remain with the Member States. When the Treaties confer on the Union a competence shared with the Member States in a specific area, the Member States shall exercise their competence to the extent that the Union has not exercised, or has decided to cease exercising, its competence. The latter situation arises when the relevant EU institutions decide to repeal a legislative act, in particular better to ensure constant respect for the principles of subsidiarity and proportionality. The Council may, at the initiative of one or several of its members (representatives of Member States) and in accordance with Article 208, request the Commission to submit proposals for repealing a legislative act. Equally, the representatives of the governments of the Member States, meeting in an Intergovernmental Conference, in accordance with the ordinary revision procedure provided for in Article [IV-443] of the Treaty on European Union, may decide to amend the Treaties on which the Union is founded, including either to increase or to reduce the competences conferred on the Union in the said Treaties.*"

(b) The following Protocol will be annexed to the Treaties:

"*With reference to Article [I-12(2)] on shared competences, when the Union has taken action in a certain area, the scope of this exercise of competence only covers those elements governed by the Union act in question and therefore does not cover the whole area.*"

- g) In Article 42 (aggregation of insurance periods and export of social security benefits), an addition will be made to stress that the procedure is halted in the brake system if the European Council does not take any action within four months (see point 1) of Annex 2).<sup>11</sup>
- h) Article 60 (freezing of assets to combat terrorism), as amended in the 2004 IGC, will be transferred towards the end of the Chapter on general provisions in the Title on the Area of freedom, security and justice.
- i) On the issue of services of general economic interest (cf. Article 16, as amended in the 2004 IGC) a Protocol will be annexed to the Treaties<sup>12</sup>.
- j) In the Chapter on general provisions applying to the area of freedom, security and justice, insertion of a provision about cooperation and coordination by Member States in the field of national security (see point 2)(a) of Annex 2).
- k) In the Chapter on judicial cooperation in civil matters, paragraph 3 of the Article on such cooperation, as agreed in the 2004 IGC, will be modified so as to give a role to national parliaments in the "passerelle" clause on family law (see point 2)(b) of Annex 2).
- l) In the Chapters on judicial cooperation in criminal matters and on police cooperation, as amended in the 2004 IGC, in the Articles on mutual recognition of judgments, minimum rules on the definition of criminal offences and sanctions, the European Public Prosecutor, and police cooperation, a new mechanism will be inserted enabling Member States to go forward with adopting measures in this field while allowing others not to participate (see point 2)(c) and (d) of Annex 2). Moreover, the scope of the Protocol on the position of the United Kingdom and Ireland (1997) will be extended so as to include, in relation to the UK, and on the same terms, the Chapters on judicial cooperation in criminal matters and on police cooperation. It may also address the application of the Protocol in relation to Schengen building measures and amendments to existing measures. This extension will take account of the UK's position under the previously existing Union *acquis* in these areas. Ireland will determine in due course its position with regard to that extension.
- m) In Article 100 (measures in case of severe difficulties in the supply of certain products), a reference to the spirit of solidarity between Member States and to the particular case of energy as regards difficulties in the supply of certain products will be inserted (see point 3) of Annex 2).

---

<sup>11</sup> The IGC will also agree a Declaration in relation to this Article: "*The Conference recalls that in that case, in accordance with Article [I-21(4)], the European Council acts by consensus*".

<sup>12</sup> The following Protocol will be annexed to the Treaties:

*"Protocol on services of general interest*

*The High Contracting Parties,*

*Wishing to emphasise the importance of services of general interest*

*Have agreed upon the following interpretative provisions, which shall be annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union:*

*Article 1*

*The shared values of the Union in respect of services of general economic interest within the meaning of Article 16 EC Treaty include in particular:*

- *the essential role and the wide discretion of national, regional and local authorities in providing, commissioning and organizing services of general economic interest as closely as possible to the needs of the users;*
- *the diversity between various services of general economic interest and the differences in the needs and preferences of users that may result from different geographical, social or cultural situations;*
- *a high level of quality, safety and affordability, equal treatment and the promotion of universal access and of user rights;*

*Article 2*

*The provisions of the Treaties do not affect in any way the competence of Member States to provide, commission and organise non-economic services of general interest."*

- n) In Article 152 (public health), as amended in the 2004 IGC, point (d) on measures concerning monitoring, early warning of and combating serious cross-border threats to health will be transferred to the paragraph on adoption of incentive measures (the IGC will also adopt a declaration clarifying the internal market aspect of measures on the quality and safety standards for medicinal products and devices).
- o) In the Article on European space policy, agreed in the 2004 IGC, it will be specified that measures adopted may not entail harmonisation of the laws and regulations of the Member States.
- p) In Article 174 (environment), as amended in the 2004 IGC, the particular need to combat climate change in measures at international level will be specified (see point 4) of Annex 2).
- q) In the Article on energy, agreed in the 2004 IGC, a reference to the spirit of solidarity between Member States will be inserted (see point 5) of Annex 2), as well as a new point (d) on the promotion of interconnection of energy networks.
- r) At the beginning of the Part on the Union's external action, an Article will be inserted stating that the Union's action on the international scene will be guided by the principles of, will pursue the objectives of, and will be conducted in accordance with, the general provisions on the Union's external action which are laid down in Chapter 1 of Title V of the *TEU*.
- s) In the Article on the procedure for concluding international agreements, it will be added that the agreement on the accession of the Union to the ECHR will be concluded by the Council, by unanimity and with ratification by Member States.
- t) Article 229 A (extension of ECJ jurisdiction on disputes relating to European intellectual property rights) will remain unchanged.
- u) In Article 249 (definition of EU acts: regulation, directive and decision), in a new Section 1 on the Union's legal acts, the definition of a decision will be aligned with the one agreed in the 2004 IGC.
- v) As a consequence of dropping the denominations "law" and "framework law", the innovations agreed in the 2004 IGC will be adapted, while maintaining the distinction between what is legislative and what is not and its consequences. Accordingly, after Article 249, three Articles will be introduced on, respectively, acts which are adopted in accordance with a legislative procedure, delegated acts and implementing acts. The Article on legislative acts will state that acts (regulations, directives or decisions) adopted under a legislative procedure (ordinary or special) will be legislative acts. The terminology in the Articles on delegated and implementing acts, as agreed in the 2004 IGC, will be adapted accordingly.
- w) In Article 308 (flexibility clause), as amended in the 2004 IGC, a paragraph will be added stating that this Article cannot serve as a basis for attaining objectives pertaining to the CFSP, and that any acts adopted pursuant to this Article will have to respect the limits set out in Article [III-308, second subparagraph].<sup>13</sup>

---

<sup>13</sup> The IGC will also agree two Declarations in relation to this Article:

- 1) *"The Conference declares that the reference in Article 308 to objectives of the Union refers to the objectives as set out in Article [I-3(2) and (3)] and to the objectives of Articles [I-3(4)] with respect to external action under Part III, Title V of the Treaty. It is therefore excluded that an action based on Article 308 would only pursue objectives set out in Article [I-3(1)]. In this connection, the Conference notes that in accordance with Article [I-40(6)], legislative acts may not be adopted in the area of Common Foreign and Security Policy."*
- 2) *"The Conference underlines that, in accordance with the settled case-law of the Court of Justice of the European Union, Article 308, being an integral part of an institutional system based on the principle of conferred powers, cannot serve as a basis for widening the scope of Union powers beyond the general framework created by the provisions of the Treaties as a whole and, in particular, by those that define the tasks and the activities of the Union. In any event, Article 308 cannot be used as a basis for the adoption of provisions whose effect would, in substance, be to amend the Treaties without following the procedure which they provide for that purpose."*

- x) After Article 308, an Article will be inserted excluding from the coverage of the simplified revision procedure those legal bases which were not covered by this procedure in the texts as agreed in the 2004 IGC.

20. In addition, a number of provisions agreed in the 2004 IGC will be located in the *Treaty on the Functioning of the Union* (see list in Part B of Annex 2).

#### **IV. PROTOCOLS AND THE EURATOM TREATY**

21. The new Protocols agreed in the 2004 IGC<sup>14</sup> will be annexed to the existing Treaties (i.e. Protocol on the role of national Parliaments in the European Union, Protocol on the application of the principles of subsidiarity and proportionality, Protocol on the Euro Group, Protocol on permanent structured cooperation in the field of defence and Protocol on the accession of the Union to the ECHR).

22. A Protocol annexed to the *Reform Treaty* will amend the existing Protocols, as agreed in the 2004 IGC (including the deletion of ten of them).

23. A Protocol annexed to the *Reform Treaty* will make the necessary technical amendments, as agreed in the 2004 IGC, to the *Euratom Treaty*.

#### **V. DECLARATIONS**

24. In addition to the Declarations referred to in the present mandate, the Declarations as agreed by the 2004 IGC will be taken over by the present IGC, to the extent they relate to provisions or protocols examined during the present IGC.

---

---

<sup>14</sup> Some of these Protocols are not necessary due to the fact that the existing Treaties are not repealed and are therefore not listed. It is underlined that all existing Treaties, including the Accession Acts, remain in force.

<sup>17</sup> The IGC will agree the following Declaration: "The Conference declares that:

1. The Charter of Fundamental Rights, which has legally binding force, confirms the fundamental rights guaranteed by the European Convention on Human Rights and Fundamental Freedoms and as they result from the constitutional traditions common to the Member States.

2. The Charter does not extend the field of application of Union law beyond the powers of the Union or establish any new power or task for the Union, or modify powers and tasks as defined by the Treaties."

Whereas the aforementioned Article [xx] requires the Charter to be applied and interpreted by the courts of the United Kingdom strictly in accordance with the Explanations referred to in that Article;

Whereas the Charter contains both rights and principles;

Whereas the Charter contains both provisions which are civil and political in character and those which are economic and social in character;

2. In particular, and for the avoidance of doubt, nothing in [Title IV] of the Charter creates justiciable rights applicable to the United Kingdom except in so far as the United Kingdom has provided for such rights in its national law.

Article 2

To the extent that a provision of the Charter refers to national laws and practices, it shall only apply in the United Kingdom to the extent that the rights or principles that it contains are recognised in the law or practices of the United Kingdom."

<sup>20</sup> Two delegations reserved their right to join in the Protocol referred to in footnote 19.

2. The Union shall accede to the European Convention for the Protection of Human Rights and Fundamental Freedoms. Such accession shall not affect the Union's competences as defined in the Treaties.

3. Fundamental rights, as guaranteed by the European Convention for the Protection of Human Rights and Fundamental Freedoms and as they result from the constitutional traditions common to the Member States, shall constitute general principles of the Union's law.

1. The Union's competence in matters of common foreign and security policy shall cover all areas of foreign policy and all questions relating to the Union's security, including the progressive framing of a common defence policy that might lead to a common defence.

---

<sup>22</sup> The IGC will agree the following Declaration: "In addition to the specific procedures referred to in [paragraph 1 of Article 11], the Conference underlines that the provisions covering the Common Foreign and Security Policy including in relation to the High Representative of the Union for Foreign Affairs and Security Policy and the External Action Service will not affect the existing legal basis, responsibilities, and powers of each Member State in relation to the formulation and conduct of its foreign policy, its national diplomatic service, relations with third countries and participation in international organisations, including a Member State's membership of the Security Council of the UN.  
The Conference also notes that the provisions covering the Common Foreign and Security Policy do not give new powers to the Commission to initiate decisions or increase the role of the European Parliament.  
The Conference also recalls that the provisions governing the Common Security and Defence Policy do not prejudice the specific character of the security and defence policy of the Member States."

The common foreign and security policy is subject to specific procedures. It shall be defined and implemented by the European Council and the Council acting unanimously, except where the Treaties provide otherwise. The adoption of legislative acts shall be excluded. The common foreign and security policy shall be put into effect by the High Representative of the Union for Foreign Affairs and Security Policy and by Member States, in accordance with the Treaties. The specific role of the European Parliament and of the Commission in this area is defined by the Treaties. The Court of Justice of the European Union shall not have jurisdiction with respect to these provisions, with the exception of its jurisdiction to monitor the compliance with Article [III-308] and to review the legality of certain decisions as provided for by Article [III-376, second subparagraph]."

## Amendments to the EC Treaty

## Annex 2<sup>\*23</sup>

### A. Modifications compared with the results as agreed in the 2004 IGC

The purpose of this Annex is to clarify the exact drafting where necessary (A) and to clarify the location of certain provisions (B)

- 1) *In Article 42, insertion of amendments as agreed in the 2004 IGC, with addition of the following, at the end:*

"Where a member of the Council declares that a draft legislative act referred to in the first subparagraph would affect important aspects of its social security system, including its scope, cost or financial structure, or would affect the financial balance of that system, it may request that the matter be referred to the European Council. In that case, the ordinary legislative procedure shall be suspended. After discussion, the European Council shall, within four months of this suspension, either:

- (a) refer the draft back to the Council, which shall terminate the suspension of the ordinary legislative procedure, or,
- (b) take no action or request the Commission to submit a new proposal; in that case, the act originally proposed shall be deemed not to have been adopted."

- 2) *Replacement, as agreed in the 2004 IGC, of Title IV with the provisions of a new Title on the area of freedom, security and justice\*, which includes Chapter 1 (general provisions), Chapter 2 (policies on border checks, asylum and immigration), Chapter 3 (judicial cooperation in civil matters), Chapter 4 (judicial cooperation in criminal matters) and Chapter 5 (police cooperation).*

- (a) *In Chapter 1 (general provisions), insertion in [Article III-262] of the following new second subparagraph:*

"It shall be open to Member States to organise between themselves and under their responsibility forms of cooperation and coordination as they deem appropriate between the competent departments of their administrations responsible for safeguarding national security."

- (b) *In Chapter 3 (judicial cooperation in civil matters), replacement of paragraph 3 of [Article III-269] as follows:*

3. Notwithstanding paragraph 2, measures concerning family law with cross-border implications shall be established by the Council, acting in accordance with a special legislative procedure. The Council shall act unanimously after consulting the European Parliament.

The Council, on a proposal from the Commission, may adopt a decision determining those aspects of family law with cross-border implications which may be the subject of acts adopted by the ordinary legislative procedure. The Council shall act unanimously after consulting the European Parliament.

The proposal referred to in the second subparagraph shall be notified to the national Parliaments. If a national Parliament makes known its opposition within six months of the date of such notification, the decision referred to in the second subparagraph shall not be adopted. In the absence of opposition, the Council may adopt the decision."

<sup>23</sup> Throughout this Annex, this sign (\*) indicates that the innovations to be inserted are the same as those agreed by the 2004 IGC.

- (c) *In Chapter 4 (judicial cooperation in criminal matters), replacement of, respectively, paragraphs 3 and 4 of [Article III-270] and of [Article III-271] by the following:*

"3. Where a member of the Council considers that a draft directive as referred to in [paragraph 2 of III-270] [paragraphs 1 or 2 of III-271] would affect fundamental aspects of its criminal justice system, it may request that the draft directive be referred to the European Council. In that case, the ordinary legislative procedure shall be suspended. After discussion, and in case of a consensus, the European Council shall, within four months of this suspension, refer the draft back to the Council, which shall terminate the suspension of the ordinary legislative procedure.

Within the same timeframe, in case of disagreement, and if at least nine Member States wish to establish enhanced cooperation on the basis of the draft directive concerned, they shall notify the European Parliament, the Council and the Commission accordingly. In such a case, the authorisation to proceed with enhanced cooperation referred to in [Articles I-44(2)] and [III-419(1)] shall be deemed to be granted and the provisions on enhanced cooperation shall apply."

- (d) *In Chapter 4 (judicial cooperation in criminal matters) and in Chapter 5 (police cooperation) insertion of the following new last subparagraphs, respectively, in paragraph 1 of [III-274] and in paragraph 3 of [Article III-275]:*

"In case of the absence of unanimity in the Council, a group of at least nine Member States may request that the draft [regulation/measures] be referred to the European Council. In that case, the procedure in the Council shall be suspended.
