Member States shall, jointly or individually, either nominate or establish a body or bodies as their national supervisory authority in order to assume the tasks assigned to such authority by this Regulation.	PCY insists on Commission’s initial provision: 1. Member States shall, jointly or individually, either nominate or establish a body or bodies as their national supervisory authority in order to assume the tasks assigned to such authority by this Regulation. EP insists that “or bodies” should be deleted. <i>Is the provision applicable to all supervisory authorities, including the military one?</i>
