NOTE

From:	General Secretariat of the Council
To:	Delegations
No. prev. doc.:	ST 11416/20 PECHE 284 CODEC 933 CADREFIN 302
Subject:	Proposal for a Regulation of the European Parliament and of the Council on the European Maritime and Fisheries Fund and repealing Regulation (EU) No 508/2014 of the European Parliament and of the Council (EMFF) -Estonian comments

Delegations will find attached written comments by the Estonian delegation on the above-mentioned document, and on other documents presented at the Working Party of 8 October on EMFF (WK 9508/1/20 REV 1 and WK5246/1/2020 REV 1) .

Comments of EE delegation on the revised mandate of EMFF (documents ST11416/20 and WK 9508/1/20 REV 1) and on draft list of types of interventions (document WK5246/2020 rev1)

Alignment to MFF: Examination of Presidency's compromise

Taking into account the Article 6 of MFF Regulation and that in the EMFF expert group on 23.09.2020 Commission informed Member States that the adoption of EMFF Regulation is not possible in 2020, we can support the Presidency compromise.

Examination of the draft revised mandate

Firstly, we would like to thank the Presidency for the changes in row 85. This is very important to us. However, we also stress the need to keep the principles in the row 186 of PGA. This important element was missing in the Commissions new text proposal for fleet measures.

With regard of fleet measures, it seems that Presidency is proposing to align the Councils position with the Commissions alternative drafting of fleet measures. Despite the fact that when compared to the initial Commissions proposal, this new text moves in right direction, there are still several shortcomings that which were also highlighted in written comments of Member States.

Row 162 –It is not reasonable to extend the verification of admissibility to all beneficiaries, including those that are not subject to the requirements of Control Regulation. We should keep PGA.

Row 179 – In order to ensure level playing field and not to discourage MS-s to introduce national rules going beyond EU legislation we should keep PGA. It is also important to keep wording *“unless otherwise provided for in this Regulation”* in order to allow support for the equipment related to the control.

Row 202 – It should be possible to support also acquisition of partial ownership of a vessel and therefore we believe that PGA should be kept.

Row 205d – The age of a vessel and the time it has been registered are two different things. We propose to use one of them consistently throughout the Articles.

Row 210j – we should keep the reference to the fishing capacity, since this enable to support investments that improve energy efficiency of a vessel and the increased capacity of the vessel will be compensated by prior withdrawal of same capacity as indicated in row 210n.

Row 210o – establishment of a limited list of actions that can be supported is not in line with the result based approach of new EMFAF. The conditionality's included in the Regulation are sufficient to mitigate the risk of negative effects of the support. The establishment of closed list does not enable to support new innovative solutions that enable the achievement of the objectives.

Row 220 – We believe that financing not linked to the costs is not appropriate method for this measure. We should keep PGA. The support of permanent cessation is provided as a “compensation” or as Commission has explained in current period as a “grant in form of simplified cost options” in the meaning of Common Provisions Regulation. The MS are compensating the removal of capacity based either unit costs (eg x euros per GT) or as lump sums (fixed amount per vessel). Based on the fleet report outcome, MS-s might have to establish an action plan to regulate fishing capacity and establish targets. However the achievement of the target depends about the decisions of vessel owners eg whether they are ready to remove the vessel from the register or not. Using the “financing not linked to the costs” to reimburse the expenditure incurred during implementation of permanent cessation might lead to a situation where MS have paid support for permanent cessation, but the targets established on the action plan will not be achieved. It seems that in this case the Commission would not reimburse the expenditure incurred by Member States. It also seems that it is appropriate to use same method in both levels, MS payments to beneficiaries and COM reimbursement to MS-s eg COM should reimburse the expenditure to MS using simplified cost options.

Row-s 267, 269, 270, 270 a, 270b, 271a, 271b, 274b-j etc. - EP proposes to include in the Regulation list of actions that can be supported. We believe that taking into account that EMFAF will be based on result management this list is not appropriate. We can agree with shifting the action to recitals only if it is made abundantly clear in the text, that they are inserted only for illustrative purposes and that this is not a closed list.

Row 275ca – we do not understand why separate specific objective is needed. It seems that this approach would make the quick reaction to the crisis more difficult. It is not possible to programme for environmental incidents and they should be dealt, when the need arises under other specific objectives, for example – in rows 184a, 275c and d. We would also remind that the monitoring through Infosys allows getting very detailed data on the level of individual operations.

Row 275e – we do not understand why the references to the Regulations in the PGA are replaced by the reference to CFP Regulation? Does the proposed change mean that if the Member States continue to support the eradication programmes the requirements in the Regulations 2016/429 do not apply anymore? What are EP concerns here?

Types of interventions: Examination

Our position on this topic is same as previously. The list should be shortened and the overlapping types of intervention should be merged.

TOI No 1 should be merged with TOI No 3 and 6 since climate neutrality and protected areas are contributing to the achievement on good environmental status. Moreover, we would propose to reword the TOI 1: „Contribution towards achieving Good Environmental Status“.

The climate and environmental coefficient of TOI 2 should be 40%, since it can be reasonably assumed that all new investments contribute to these objectives.

TOI 7 should be deleted. The types of intervention are used in the programming and it is impossible to forecast “unexpected events”. In order to separate the support paid to deal with “unexpected events” from other support we have Infosys report.

TOI No 16-19 should be merged. The allocations for TA under EMFF are very small and it is not reasonable to programme on such detailed level for 7 years. Moreover, if MS would like to get the reimbursement of TA from the Commission based on the flat rate established in the Common Provisions Regulation, it would not be possible to track real expenditure based on such different categories.

Article 16b				
210i				Flexibility to compromise in a new Article 16b as in the alternative drafting suggested by the Commission: <i>"Article 16 b Increase of the gross tonnage of a fishing vessel to improve safety, working conditions or energy efficiency"</i>

	Commission Proposal	4/04/2019 EP position	(doc. 10297/19 + 12660/1/19 REV1) Council partial GA	Presidency's mandate
Article 16b(1)				
210j				Flexibility to refer to gross tonnage instead of to fishing capacity as per the alternative drafting suggested by the Commission: <i>"Without prejudice to Article 13(a), the EMFAF may support operations that increase the gross tonnage of a fishing vessel for the purpose of improving safety, working conditions or energy efficiency and to achieve the specific objective referred to in Article 14(1)(a), under the following conditions:"</i>
Article 16b(1), point a				
210k				The new drafting suggested by the Commission is consistent with the Council's PGA. <i>"(a) the fishing vessel belongs to a fleet segment for which the latest report</i>

	Commission Proposal	4/04/2019 EP position	(doc. 10297/19 + 12660/1/19 REV1) Council partial GA	Presidency's mandate
				<i>on fishing capacity, referred to in Article 22(2) of Regulation (EU) No 1380/2013, has shown a balance of the fishing capacity of the segment with the fishing opportunities available to that segment;"</i>
Article 16b(1), point b				
210l				Some flexibility to compromise on extending the possibility for funding to vessels longer than 24 metres, but these vessels will have to receive support through financial instruments, contrary to the Commission's alternative drafting that limits the measure to vessels not longer than 24 metres.
Article 16b(1), point c				
210m				Some flexibility to compromise on the age of the vessel in exchange of

	Commission Proposal	4/04/2019 EP position	(doc. 10297/19 + 12660/1/19 REV1) Council partial GA	Presidency's mandate
				vessels longer than 24 metres receive support, as per the Commission's suggested alternative drafting: <i>"(c) the fishing vessel is at least 15 years of age at the moment of submitting the application for support; and"</i>
Article 16b(1), point d				
210n				Flexibility for COM's alternative drafting: <i>"(d) the entry into the fleet of new fishing capacity generated by the operation is compensated by the prior withdrawal of at least the same amount of fishing capacity without public aid from the same fleet segment or from a fleet segment where the fishing capacity is not in balance with the available fishing opportunities."</i>
Article 16b(2)				

	Commission Proposal	4/04/2019 EP position	(doc. 10297/19 + 12660/1/19 REV1) Council partial GA	Presidency's mandate
210o				Flexibility to have a list of operations included but not in a delegated act as suggested by the Commission in the alternative drafting for Article 16b(2).
Article 16b(3)				
210p				See row 210l. No support for the Commission's suggested alternative drafting as: <i>"3. Support under this Article shall be granted through the financial instruments provided for in Article 52 of Regulation (EU) No [Regulation laying down Common Provisions] and through InvestEU, in accordance Article 10 of that Regulation."</i>
Article 16b(4)				
210q				Flexibility to compromise in including a clarification that operations aimed at

	Commission Proposal	4/04/2019 EP position	(doc. 10297/19 + 12660/1/19 REV1) Council partial GA	Presidency's mandate
				improving safety, working conditions or energy efficiency without increasing the fishing capacity are eligible, as per the Commission's suggested alternative drafting: <i>"4. Support under this Article shall not cover operations related to investments aimed at improving safety, working conditions or energy efficiency where such operations do not increase the fishing capacity of the vessel concerned. Those operations may be supported in accordance with Article 12a."</i>

Article 53a(1), point(a), introductory part				
411c			a Paragraphs 1 and 2 of Article 6 of Regulation (EU) No 2017/1004 are replaced by the following text:	

	Commission Proposal	4/04/2019 EP position	(doc. 10297/19 + 12660/1/19 REV1) Council partial GA	Presidency's mandate
			In the Council General Approach appears as point (1)	
	Article 53a(1), point(a), Amending Act, a			
411d			1. Without prejudice to their current data collection obligations under Union law, Member States shall collect data within the framework of a work plan drawn up in accordance with the multiannual Union programme ('national work plan')	
	Article 53a(1), point(a), Amending Act, b			
411e			2. Member States shall submit to the Commission by electronic means their national work plans by 31 October of the year preceding the year from which the work plan is to apply, unless an existing plan still applies, in which case they shall notify the Commission thereof.	
	Article 53a(1), point(a), Amending Act, c			
411f			3. The Commission shall adopt implementing acts approving the national work plans referred to in paragraph 1 and 1a by 31 December of the year preceding	

	Commission Proposal	4/04/2019 EP position	(doc. 10297/19 + 12660/1/19 REV1) Council partial GA	Presidency's mandate
			the year from which the work plan is to apply. When approving the national work plans, the Commission shall take into account the evaluation conducted by STECF in accordance with Article 10 of this Regulation. If such evaluation indicates that a national work plan does not comply with this Article or does not ensure the scientific relevance of the data or sufficient quality of the proposed methods and procedures, the Commission shall immediately inform the Member State concerned and indicate amendments to that work plan that the Commission considers necessary. Subsequently, the Member State concerned shall submit a revised national work plan to the Commission.	
	Article 53a(1), point(b), introductory part			
411g			b The following paragraph 5 is inserted: In the Council General Approach appears as point (2)	

	Commission Proposal	4/04/2019 EP position	(doc. 10297/19 + 12660/1/19 REV1) Council partial GA	Presidency's mandate
Article 53a(1), point(b), Amending Act, a				
411h			5. The Commission may adopt implementing acts laying down rules on procedures, format for the submission of the national work plans referred to in paragraph 1. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 25(2).
