Where an EU Member State whose currency is not the euro or an Associated State encounters difficulties, or is seriously threatened with difficulties as regards its balance of payments either as a result of an overall disequilibrium in its balance of payments, or as a result of the type of currency at its disposal, and where such difficulties are liable in particular to jeopardise the functioning of this Agreement, the EU Member State or the Associated State concerned may take protective measures.

ARTICLE 30

Safeguard measures with regard to capital movements or payments

In exceptional circumstances, serious difficulties, or threat thereof, for the operation of the economic and monetary union of the EU, the EU may adopt or maintain safeguard measures with regard to capital movements or payments for a period not exceeding 6 months, as long as such safeguard measures are strictly necessary.

3. In the situations referred to in Article 29 of the Framework Agreement, where a sudden crisis in the balance of payments occurs and the procedures set out in paragraph 2 of this Article cannot be followed, the EU Member State or Associated State concerned may, as a precaution, take the necessary protective measures. Such protective measures shall cause the least possible disturbance in the functioning of this Agreement and shall not be wider in scope than is strictly necessary to remedy the sudden difficulties which have arisen.
4. When protective measures are taken in accordance with paragraph 3, notice thereof shall be given by the day of their entry into force, and the consultations and the exchange of information referred to in paragraph 2 shall then take place as soon as possible thereafter.

2. The transport-related objectives of this Agreement shall be pursued in accordance with Articles 34 to 37 of the Framework Agreement and Annex XIII to each Associated State Protocol.

ARTICLE 34

Non-discriminatory application of domestic rules

The provisions concerning the combined, rail, road, inland waterway and maritime transport that are in force in an Associated Party and that are not set out in the EU legal acts referred to in Annex XIII to each Associated State Protocol shall be no less favourable in their direct or indirect effect on carriers of the other Associated Party as compared with domestic carriers of that Associated Party.

ARTICLE 35

State aid in the transport sector

Aid to transport services shall be compatible with this Agreement if it meets the needs of coordination of transport or if it represents reimbursement for the discharge of certain obligations inherent in the concept of a public service.

ARTICLE 36

Prohibition of discriminatory rates or conditions

1. In the case of transport within the territory of the Associated Parties, there shall be no discrimination which takes the form of carriers charging different rates and imposing different conditions for the carriage of the same goods over the same transport links on grounds of the country of origin or the destination of the goods in question.
2. The Joint Committee shall examine, on its own initiative or at the request of an Associated Party, any cases of discrimination falling within the scope of this Article and take the necessary decisions within the framework of its own internal rules.

ARTICLE 37

Charges for crossing the frontiers

Charges or dues in respect of the crossing of frontiers which are charged by a carrier in addition to transport rates shall not exceed a reasonable level after taking the costs actually incurred thereby into account. The Associated Parties shall endeavour to reduce those costs progressively.

PART III

COMPETITION AND OTHER COMMON RULES

CHAPTER 1

RULES APPLICABLE TO UNDERTAKINGS

ARTICLE 38

Agreements between undertakings, decisions by associations of undertakings and concerted practices

1. The following shall be prohibited as incompatible with the functioning of this Agreement: all agreements between undertakings, decisions by associations of undertakings and concerted practices which may affect trade between the Associated Parties and which have as their object or effect the prevention, restriction or distortion of competition within the territory of the Associated Parties, and in particular those which:

- (a) directly or indirectly fix purchase or selling prices or any other trading conditions;
- (b) limit or control production, markets, technical development, or investment;
- (c) share markets or sources of supply;

- (d) apply dissimilar conditions to equivalent transactions with other trading parties, thereby placing them at a competitive disadvantage;
 - (e) make the conclusion of contracts subject to acceptance by the other parties of supplementary obligations which, by their nature or according to commercial usage, have no connection with the subject of such contracts.
2. Any agreements or decisions prohibited pursuant to this Article shall be automatically void.
3. Paragraph 1 may, however, be declared inapplicable in the case of:
- any agreement or category of agreements between undertakings;
 - any decision or category of decisions by associations of undertakings; or
 - any concerted practice or category of concerted practices,

which contributes to improving the production or distribution of goods or to promoting technical or economic progress, while allowing consumers a fair share of the resulting benefit, and which does not:

- (a) impose on the undertakings concerned restrictions which are not indispensable to the attainment of these objectives;
- (b) afford such undertakings the possibility of eliminating competition in respect of a substantial part of the products in question.

ARTICLE 39

Abuse of a dominant position

Any abuse by one or more undertakings of a dominant position within the territory of the Associated Parties or in a substantial part thereof shall be prohibited as incompatible with the functioning of this Agreement in so far as it may affect trade between the Associated Parties.

Such abuse may, in particular, consist in:

- (a) directly or indirectly imposing unfair purchase or selling prices or other unfair trading conditions;
- (b) limiting production, markets or technical development to the prejudice of consumers;
- (c) applying dissimilar conditions to equivalent transactions with other trading parties, thereby placing them at a competitive disadvantage;

ARTICLE 40

Competence of the European Commission

Where trade between EU Member States is likely to be affected, the European Commission alone is competent to apply this Chapter.

ARTICLE 41

Assessment criteria for prohibited practices

Any practice prohibited by Articles 38 and 39 of the Framework Agreement shall be assessed in accordance with the criteria resulting from the application of Articles 101 and 102 TFEU, as well as any secondary law in force in the EU. The relevant provisions are set out in Annex XIV to each Associated State Protocol.

ARTICLE 42

Public undertakings and undertakings with special or exclusive rights or entrusted with the operation of services of general economic interest

1. In the case of public undertakings and undertakings to which either EU Member States or Associated States grant special or exclusive rights, EU Member States or Associated States shall neither enact nor maintain in force any measure contrary to the rules set out in this Agreement, in particular to those rules provided for in this Chapter.

2. Undertakings entrusted with the operation of services of general economic interest or having the character of a revenue-producing monopoly shall be subject to this Agreement, in particular its rules on competition, in so far as the application of such rules does not obstruct the performance, in law or in fact, of the particular tasks assigned to such undertakings. The development of trade shall not be affected to such an extent as would be contrary to the interests of the Associated Parties.

ARTICLE 43

Production of and trade in agricultural products

This Chapter shall apply to the production of and trade in agricultural products within the limits laid down by acts adopted pursuant to Article 42 TFEU for the application of Articles 101 and 102 TFEU to the production of and trade in agricultural products.

CHAPTER 2

STATE AID

ARTICLE 44

General principles

1. Save as otherwise provided in this Agreement, any aid granted by EU Member States, Associated States or through State resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall, in so far as it affects trade between the Associated Parties, be incompatible with the functioning of this Agreement.
2. The following shall be considered to be compatible with the functioning of this Agreement:

The Associated State concerned shall not put its proposed measures into effect until the procedure has resulted in a final decision.

2. The European Commission shall, in cooperation with the Associated States, keep any systems of aid existing in those Associated States under constant review. It shall propose to those Associated States any appropriate measures required by the progressive development or by the functioning of the internal market. Within 1 year of the entry into force of this Agreement, the Associated States shall carry out a comprehensive inventory of aid schemes established before the entry into force of this Agreement and adapt such aid schemes to the criteria referred to in Article 44 of the Framework Agreement within 2 years from the entry into force of this Agreement.

3. If, after giving notice to the parties concerned to submit their comments, the European Commission finds that aid granted by an Associated State or through the resources of an Associated State is not compatible with the internal market or that such aid is being misused, it shall decide that the Associated State is to abolish or alter such aid within a period to be determined by the European Commission.

4. If the Associated State does not comply with the decision referred to in paragraph 3 within the period set, the European Commission may refer the matter directly to the CJEU.

1. The Associated Parties shall pay particular attention to encouraging improvements, in particular in the working environment, as regards the health and safety of workers. In order to help achieve that objective, minimum requirements shall be applied for gradual implementation, having regard to the conditions and technical rules applicable in the Associated Parties. Those minimum requirements shall not prevent any Associated Party from maintaining or introducing more stringent measures for the protection of working conditions compatible with this Agreement.

2. Annex XVIII to each Associated State Protocol contains the provisions setting out the minimum requirements referred to in paragraph 1 of this Article.

ARTICLE 52

Labour law

In the field of labour law, the Associated Parties shall introduce the measures necessary to ensure the good functioning of this Agreement. Such measures are set out in Annex XVIII to each Associated State Protocol.

For the purposes of this Article, "pay" means the ordinary basic or minimum wage or salary and any other consideration, whether in cash or in kind, which workers receive, directly or indirectly, in respect of their employment from their employer.

Equal pay without discrimination based on sex means:

- (b) to contribute to protecting human health;
- (c) to ensure a prudent and rational utilisation of natural resources; and
- (d) to promote measures to combat climate change.

2. Action by the Associated Parties relating to the environment and climate shall be based on the principles that preventive action should be taken, that environmental damage should, as a priority, be rectified at its source, and that the polluter should pay. Environmental protection requirements and climate action shall be a component of the other policies of the Associated Parties.

ARTICLE 58

Protective measures

Annex XX to each Associated State Protocol sets out the specific provisions on protective measures which shall apply pursuant to Article 57 of the Framework Agreement.

PART V

COOPERATION

ARTICLE 62

Anti-fraud cooperation

1. The Associated Parties undertake to fight effectively against fraud, corruption, smuggling and any other illegal activity affecting the financial interests of the EU.

To that end, the competent authorities of the Associated States, on the one hand, and the European Commission, the European Anti-Fraud Office (OLAF) and the European Public Prosecutor's Office (EPPO), on the other hand, shall cooperate closely, consult each other regularly and assist each other within their respective mandates. The competent authorities of the Associated States and OLAF may enter into administrative arrangements for their cooperation.

Preferably, those administrative arrangements shall be entered into before an Associated State becomes eligible to receive EU funds in connection with its participation in programmes financed by the EU.

The Associated States shall cooperate with the EU in the fight against fraud and shall commit to gradually bringing their policies and legislation in line with EU anti-fraud provisions without, however, being required to harmonise them. Those EU anti-fraud provisions are listed in the Associated State Protocols.

2. The Associated Parties may exchange evidence, analyses or other types of information, including personal data, for the purpose of preventing, detecting, investigating, prosecuting and punishing, administratively and criminally, fraud, corruption, smuggling and any other illegal activity affecting their respective financial interests.

The information and evidence transmitted or obtained pursuant to this Article, whatever its form, shall be subject to professional confidentiality and shall enjoy the protection enjoyed by comparable information, including of personal data, conferred by the domestic law of the Associated Party receiving it and by the corresponding provisions applicable to the institutions of the EU.

In particular, such information and evidence shall not be communicated to persons other than persons within the institutions of the EU or the authorities of the Associated States whose functions require them to know that information and evidence, or be used by the institutions of the EU or the authorities of the Associated States for purposes other than those that fall within the scope of this Article.

3. OLAF may carry out on-the-spot checks and inspections on economic operators on the territory of the Associated State concerned where that Associated State is in receipt of EU funds under programmes financed by the EU, where OLAF has been entrusted by the European Commission with budget implementation tasks under those programmes or where fraudulent activities in the Associated State are to the detriment of EU customs duties or other own resources identified by a decision of the Joint Committee. The competent authorities of the Associated State concerned shall assist OLAF in this respect within the framework of the close cooperation referred to in paragraph 1.

Within the limits of its powers and on the basis of a duly substantiated request to the competent authorities of an Associated State, OLAF may carry out on-the-spot checks and inspections on economic operators in the territory of that Associated State in cases other than those provided for in the first subparagraph of this paragraph, provided that the competent authority of an Associated State does not object to that duly substantiated request.

ARTICLE 63

Cooperation on other matters

1. The Associated Parties recognise and undertake to implement the principles of good governance in tax matters, including existing international standards on transparency and exchange of information, fair taxation and minimum standards against base erosion and profit shifting. The Associated Parties shall promote good governance in tax matters, improve international cooperation in the field of taxation and facilitate the protection of tax revenues.
2. The Associated Parties undertake to amend, within a period of 4 years from the entry into force of this Agreement, the Associated State Protocol to include provisions on mutual assistance for the recovery of all tax claims.

2. In particular, the Associated Parties may exchange information and, at the request of one of them, hold consultations within the Joint Committee in respect of plans or proposals for the establishment or amendment of framework programmes, specific programmes, actions and projects in the fields referred to in Article 64 of the Framework Agreement.
3. Part VII shall apply *mutatis mutandis* with regard to this Part whenever this Part or the Associated State Protocols specifically provide therefor.

ARTICLE 66

Forms of cooperation

The cooperation provided for in Article 64 of the Framework Agreement may take one of the following forms:

- (a) the participation of Associated States in EU framework programmes, specific programmes, projects or other actions;

- (b) the establishment of joint activities in specific areas, which may include concertation or coordination of activities, merging of existing activities and the establishment of ad hoc joint activities;
- (c) the formal and informal exchange or provision of information;
- (d) common efforts to encourage certain activities throughout the territory of the Associated Parties;
- (e) parallel legislation, where appropriate, of identical or similar content;
- (f) coordination, where this is of mutual interest, of efforts and activities via, or in the context of, international organisations, and of cooperation with third countries.

ARTICLE 67

Participation by the Associated States

in EU framework programmes, specific programmes, projects or other actions

Where cooperation takes the form of participation by Associated States in an EU framework programme, specific programme, project or other action, the following principles shall apply:

- (a) the Associated States shall have access to all or some parts of a programme;
- (b) the status of the Associated States in the committees which assist the European Commission in the management or development of an EU activity to which Associated States may be contributing financially by virtue of their participation shall fully reflect such contribution;

- (c) EU decisions, other than those relating to the general budget of the EU, which directly or indirectly affect a framework programme, specific programme, project or other action in which the Associated States participate pursuant to a decision under this Agreement, shall be subject to the provisions of Article 65(3) of the Framework Agreement; the terms and conditions of continued participation in the activity in question may be reviewed by the Joint Committee in accordance with Article 72 of the Framework Agreement;
- (d) at the project level, institutions, undertakings, organisations and nationals of the Associated States shall have the same rights and obligations in the EU programme or other action in question as the rights and obligations applicable to partner institutions, undertakings, organisations and nationals of EU Member States; the same shall apply *mutatis mutandis* to participants in exchanges between EU Member States and the Associated States under the activity in question;
- (e) Associated States, their institutions, undertakings, organisations and nationals shall have the same rights and obligations with regard to the dissemination, evaluation and exploitation of results as the rights and obligations applicable to EU Member States, their institutions, undertakings, organisations and nationals;
- (f) Associated Parties undertake, in accordance with their respective rules and regulations, to facilitate the movement of participants in programmes or other actions to the extent necessary.

ARTICLE 68

Financial participation by Associated States

1. When the cooperation provided for in this Part involves a financial participation by an Associated State, that financial participation shall take one of the following forms:
 - (a) the contribution of Associated States, arising from their participation in EU activities, shall be calculated proportionally to:
 - the commitment appropriations, and
 - the payment appropriations,

entered each year for the EU in its general budget for each budgetary line corresponding to the activities in question.

The proportionality factor determining the contribution of Associated States shall be the sum of the ratios between, on the one hand, the gross domestic product at market prices of each Associated State and, on the other hand, the sum of the gross domestic products at market prices of the EU Member States and of the Associated State concerned. The proportionality factor shall be calculated, for each budgetary year, on the basis of the most recent statistical data.

The amount of the contribution of the Associated States shall be additional, both in commitment appropriations and in payment appropriations, to the amounts entered for the EU in its general budget for each budgetary line corresponding to the activities in question.

The contributions to be paid each year by Associated States shall be determined on the basis of the payment appropriations.

Commitments entered into by the EU prior to the participation of Associated States, on the basis of this Agreement, in the activities in question, as well as the payments which result from this, shall not give rise to a contribution on the part of the Associated States;

- (b) the financial contribution of the Associated States deriving from their participation in certain projects or other activities shall be based on the principle that each Associated State is to cover its own costs and make an appropriate contribution, which shall be fixed by the Joint Committee, to the overhead costs of the EU;
- (c) the Joint Committee shall take the necessary decisions concerning the contribution of Associated States to the costs of the activity in question.

2. The detailed provisions for the implementation of this Article shall be set out in the Associated State Protocol on modalities for the implementation of Article 68 of the Framework Agreement referred to in Article 72 of the Framework Agreement.

ARTICLE 69

Exchange of information between public authorities

Where cooperation takes the form of an exchange of information between public authorities, Associated States shall have the same rights to receive and obligations to provide information as EU Member States have, subject to the requirements of confidentiality, which shall be fixed by the Joint Committee.

ARTICLE 70

Cooperation in specific fields

The arrangements for cooperation in specific fields are set out in the Associated State Protocols.

ARTICLE 71

The Joint Committees shall, in accordance with Part VI, take all decisions necessary for the implementation of Articles 64 to 71 of the Framework Agreement and measures derived therefrom, which may include, inter alia, drawing up, supplementing or amending the provisions of the Associated State Protocol on modalities for the implementation of Article 68 of the Framework Agreement, as well as adopting any transitional arrangements required for the implementation of Article 71 of the Framework Agreement.

ARTICLE 73

New fields of cooperation

The Associated Parties shall take the necessary steps to develop, strengthen or broaden cooperation within the framework of EU activities in fields not listed in Article 64 of the Framework Agreement, where such cooperation is considered likely to contribute to the attainment of the objectives of this Agreement or otherwise deemed to be of mutual interest. Such steps may include the amendment of Article 64 of the Framework Agreement by the addition of new fields to the fields listed therein.

ARTICLE 74

7. Experts of the Associated States shall be associated with the work of the committees that are not covered by paragraphs 4 and 5 when that is required to ensure the proper functioning of this Agreement. The lists of those committees and, where applicable, other committees with similar characteristics shall be included in the Associated State Protocols. The modalities of such an association are set out in the Associated State Protocols and Annexes on those respective matters.

CHAPTER 3

HOMOGENEITY

ARTICLE 81

Amendment of the Annexes

1. In order to ensure compliance with the principles of Article 4 of the Framework Agreement, the Associated Parties shall cooperate closely to enable efficient and quick decision-making by the Joint Committees and ensure that EU legal acts adopted in the fields covered by this Agreement are incorporated into the relevant Annexes as soon as possible after their adoption and transmission to the Associated States.
2. The Joint Committees shall take the decisions to amend the Annexes with a view to ensuring, to the extent possible, the simultaneous application of EU legal acts, as referred to in paragraph 1, in the EU and the national legislation implementing them in the Associated States. In the event of any difficulties, the consultations between the Associated Parties shall be enhanced formally or informally with a view to finding a mutually acceptable solution, including the possibility to take notice of the equivalence of national legislation. The Associated State concerned shall transmit in writing all useful information to the EU to enable an in-depth assessment of the situation.

3. The decisions of Joint Committees pursuant to paragraph 2 of this Article shall be taken, at the latest, at the expiry of a period of 6 months from the date of referral to the Joint Committee. If, at the expiry of that period, an Associated State still has not consented to the incorporation of an EU legal act into the relevant Annex in accordance with paragraph 1 of this Article, the dispute settlement procedure provided for in Article 90 of the Framework Agreement shall apply. The matter is deemed to have been referred to the Joint Committee pursuant to Article 90(1) of the Framework Agreement by the end of that period.

4. Where a decision of a Joint Committee amends an Annex which, pursuant to that amendment, makes reference to EU legal acts, and where that amendment requires the enactment of implementing measures in the Associated State concerned, those implementing measures shall be enacted within a period equal to the one laid down for the implementation of those EU legal acts by EU Member States, unless decided otherwise by the Joint Committee. That period shall begin on the day of entry into force of the decision by the Joint Committee.

ARTICLE 82

Constitutional requirements of the Associated States

Where a decision taken by a Joint Committee can only be implemented in an Associated State after the fulfilment of certain constitutional requirements, that decision shall enter into force in the legal order of that Associated State after those constitutional requirements have been fulfilled. The date of the fulfilment of those constitutional requirements shall be notified to the EU.

2. If upon the expiry of a period of 6 months after the decision of the Joint Committee has been taken, such a notification has not taken place, the decision of the Joint Committee shall apply provisionally pending the fulfilment of the constitutional requirements referred to in paragraph 1 unless the Associated State notifies the EU that such a provisional application cannot take place and of the reason therefor.

3. If upon the expiry of a period of 12 months after the decision by the Joint Committee has been taken, that decision has not been implemented in the Associated State, Article 90 of the Framework Agreement shall apply.

ARTICLE 83

Automatic procedure

1. By way of derogation from Article 81 of the Framework Agreement, where Annex I to an Associated State Protocol makes reference to an EU legal act, that reference shall be read as a reference to that EU legal act as updated, without the need for incorporating the new EU legal acts into Annex I.

2. For the purposes of paragraph 1, "as updated" shall mean:

- (a) the full replacement of an EU basic act by a new basic act;

By way of derogation from Article 81 of the Framework Agreement, and without prejudice to Article 83 of the Framework Agreement, the Associated States shall take measures simultaneously with the EU Member States corresponding to those taken by the EU Member States pursuant to the relevant EU legal acts adopted in the following fields, without the need for incorporating those new EU legal acts in Annex I to an Associated State Protocol:
- (a) control measures for animal diseases;
 - (b) food and feed from third countries that are subject to restrictions;
 - (c) non-commercial movements of pet animals;
 - (d) imports from third countries;

Uniform interpretation

1. This Agreement and the EU legal acts referred to therein shall be interpreted and applied in a uniform manner.

2. The EU legal acts to which reference is made in this Agreement and, to the extent that their application involves concepts of EU law, the provisions of this Agreement shall be interpreted and applied in accordance with the case-law of the CJEU, whether rendered prior or subsequent to the signature of this Agreement.

3. The Joint Committees shall review developments in the case-law of the CJEU in order to identify any discrepancy between the domestic legal order of an Associated State and the case-law of the CJEU and examine how to bring it to an end.

4. ARTICLE 87

An Associated State may rely on the cooperation with one or several EU Member States or institutions of the EU to fulfil its obligations in terms of implementation and effective application of this Agreement. In such cases, the Associated State shall make arrangements laying down the details of such cooperation and inform the European Commission thereof within the Joint Committee. Such arrangements shall in no way affect the powers of the European Commission.

CHAPTER 5

DISPUTE SETTLEMENT AND JUDICIAL REVIEW

ARTICLE 89

Exclusivity principle

The Associated Parties shall not submit a dispute concerning the interpretation or application of this Agreement or EU legal acts referred to therein to any method of settlement other than those provided for in this Agreement.

ARTICLE 90

Settlement of disputes between Associated Parties

1. Where a difficulty arises, the Associated Parties shall consult each other and endeavour to make this Agreement function effectively and settle any problem through constructive dialogue. In the event of a dispute concerning the interpretation or application of this Agreement or an EU legal act referred to therein, the EU Party or the Associated State may refer the matter to the Joint Committee by a written notice. The EU Party or the Associated State that intends to refer the matter to the Joint Committee pursuant to this paragraph shall inform the other Party thereof in advance.

2. Where the EU Party or the Associated State refers the matter to the Joint Committee, the Joint Committee shall meet as soon as possible within a period of 2 months from when the matter was referred to it. The Joint Committee shall be provided with all relevant information to allow a detailed examination of the situation. The Joint Committee shall examine all possibilities for finding a solution in line with this Agreement and may take any decision that may be useful to that end.

3. If the Joint Committee is unable to find a solution to the difficulty referred to in paragraph 1 of this Article within a period of 6 months from the date of the first meeting in accordance with this Article, either Associated Party may refer the matter to the CJEU. As regards their implementation and application, the CJEU shall interpret the provisions referred to in Article 85(1) and (2) of the Framework Agreement. When an Associated Party considers referring a matter to the CJEU in accordance with this paragraph, it shall promptly notify the other Associated Party in writing and provide it with all relevant information.

4. The Associated States shall enjoy the same rights as EU Member States and institutions of the EU and shall be subject to the same procedures before the CJEU.

5. The Associated Parties shall consult each other within the Joint Committee and settle their dispute in order to ensure the implementation of the CJEU judgment by the EU Party or the Associated State within 12 months of the date of that CJEU judgment. For that purpose, the Joint Committee shall be provided with all relevant information to allow a detailed examination of the situation.

6. If the Joint Committee fails to resolve the dispute, it may take a decision on compensatory measures for the alleged incorrect application of this Agreement so as to remedy possible imbalances. That decision shall be taken within 12 months of the date of the CJEU judgment.

7. If the Joint Committee has not taken a decision on compensatory measures as referred to in paragraph 6, the Associated Party alleging incorrect application of this Agreement may take compensatory measures to remedy possible imbalances, including the suspension of all or part of this Agreement. The scope and duration of those compensatory measures shall be limited to what is strictly necessary to remedy the situation and cause the least possible disturbance to the functioning of this Agreement.

8. The Associated Party affected by the compensatory measures referred to in paragraph 7 may submit its observations to the Joint Committee with a view to a decision on the proportionality of those compensatory measures. If the Joint Committee is unable to take a decision within a period of 3 months from when the matter was referred to it, either Associated Party may submit the question of the proportionality of those compensatory measures to arbitration in accordance with Framework Protocol 6. No question concerning the interpretation of this Agreement, as referred to in paragraph 3, shall be addressed in arbitration. The arbitration ruling shall be binding on the Associated Parties.

Where compensatory measures have been taken pursuant to paragraph 6 or 7, the rights of individuals by virtue of this Agreement on the date on which those compensatory measures come into effect shall be preserved, as shall the concomitant obligations under this Agreement.

ARTICLE 91

Judicial review

1. Any review of the legality of EU legal acts adopted by institutions, bodies, offices or agencies of the EU within the scope of this Agreement shall be the exclusive competence of the CJEU.
2. The EU legal acts referred to in paragraph 1 that are addressed to an Associated State or to a natural or legal person domiciled or established in an Associated State shall be subject to review by the CJEU. Such review shall be carried out in accordance with Article 263 TFEU.
3. Notwithstanding the expiry of the period laid down in the sixth paragraph of Article 263 TFEU, an Associated State, as well as any natural or legal person domiciled or established on its territory, may, in proceedings in which an act of general application adopted by an institution, body, office or agency of the EU is at issue, plead the grounds specified in the second paragraph of Article 263 TFEU in order to invoke the inapplicability of that act before the CJEU.

ARTICLE 92

Action for failure to act

1. An Associated State, as well as any natural or legal person domiciled or established on its territory, may complain to the CJEU that an institution, body, office or agency of the EU has failed to address to that natural or legal person an act in breach of this Agreement, other than a recommendation or an opinion.

2. The action for failure to act referred to in paragraph 1 shall be admissible only if the institution, body, office or agency of the EU has first been called upon to act. If, within 2 months of being so called upon, the institution, body, office or agency of the EU concerned has not defined its position, the action may be brought within a further period of 2 months.

ARTICLE 93

Appeal in the case of non-contractual liability

In cases of non-contractual liability and in accordance with this Agreement, an Associated State, as well as the natural or legal persons domiciled or established on its territory, may refer the case to the CJEU to obtain compensation for damages caused by the activities of the institutions, bodies, offices or agencies of the EU or by their officials or other servants in the performance of their duties.

ARTICLE 94

Reference for a preliminary ruling

1. Where, in a case pending before a court or tribunal of an Associated State, a question is raised relating to the interpretation of this Agreement or to the validity of an act adopted by institutions, bodies, offices or agencies of the EU within the scope of this Agreement, that court or tribunal of an Associated State may seek a preliminary ruling from the CJEU.

2. Where such a question is raised in a case pending before a court or tribunal of an Associated State against whose decisions there is no judicial remedy under the national law of the Associated State, that court or tribunal of an Associated State shall bring the matter before the CJEU.

3. An Associated State shall have the right to submit statements of case or written observations to the CJEU in cases where a court or tribunal in an EU Member State has requested a preliminary ruling in respect of this Agreement, or where a court or tribunal in an Associated State has done so in the case referred to in paragraph 1.

ARTICLE 95

Law applicable to proceedings before the CJEU

Where an action is brought before the CJEU pursuant to Articles 90 to 94 of the Framework Agreement, the procedure applicable before the CJEU shall be the same as the one provided for in EU law in respect of similar actions based on the TFEU.

ARTICLE 96

CJEU judgments

1. CJEU judgments rendered under this Agreement shall be binding.
2. The institution, body, office or agency of the EU whose act has been declared void, or whose failure to act has been declared contrary to this Agreement, shall be required to take the necessary measures to comply with the CJEU judgment.

CHAPTER 6

In the event of serious economic, societal or environmental difficulties of a sectorial or regional nature that are caused by the application of this Agreement and that are likely to persist, an Associated Party may unilaterally take appropriate safeguard measures under the conditions and in accordance with the procedures laid down in this Article.
2. The safeguard measures referred to in paragraph 1 shall be limited in scope and duration to what is strictly necessary to remedy the situation. Priority shall be given to measures which least disturb the functioning of this Agreement.

4. The Associated Parties shall immediately consult each other within the Joint Committee with a view to finding an acceptable solution.

5. The Associated Party concerned may not take the safeguard measures referred to in paragraph 1 before 1 month has expired from the date of the notification provided for in paragraph 3, unless the procedure for consultation within the Joint Committee has been completed before. Where exceptional circumstances require immediate action which precludes prior consultation, the Associated Party concerned may, without delay and subject to the prompt submission of a reasoned notification to the Joint Committee, take such emergency safeguard measures as are strictly necessary to remedy the situation.

6. The Associated Party concerned shall promptly notify the safeguard measures taken to the Joint Committee and provide all relevant information.

7. The safeguard measures taken shall be subject to consultations within the Joint Committee every 3 months from the date of their adoption, with a view to their possible removal before the date on which they are due to expire or the possible limitation of their scope. Either Associated Party may ask the Joint Committee to review or repeal those safeguard measures.

8. If a safeguard measure taken by an Associated Party creates an imbalance between the rights and obligations under this Agreement, the other Associated Party may take such proportionate rebalancing measures as are strictly necessary to remedy the imbalance. Priority shall be given to measures which least disturb the functioning of this Agreement.

9. Either Associated Party may ask the Joint Committee at any time to decide on the proportionality of the safeguard measures referred to in paragraph 1, of the emergency safeguard measures referred to in paragraph 5 or of the rebalancing measures referred to in paragraph 8. If the Joint Committee is unable to take a decision within 3 months after the matter has been referred to it, either Associated Party may submit to arbitration the question of the proportionality of those measures in accordance with Framework Protocol 6. No question concerning the interpretation of this Agreement shall be addressed in arbitration. The arbitration ruling shall be binding on the parties to the dispute.

4. The safeguard measures taken shall be subject to consultations within the Joint Committee every 3 months from the date of their adoption, with a view to their possible removal before the date on which they are due to expire or the possible limitation of their scope. Either Associated Party may ask the Joint Committee at any time to review or repeal those safeguard measures.

5. If a safeguard measure taken by an Associated Party creates an imbalance between the rights and obligations under this Agreement, the other Associated Party may take such proportionate rebalancing measures as are strictly necessary to remedy the imbalance. Priority shall be given to measures which least disturb the functioning of this Agreement.

6. Either Associated Party may ask the Joint Committee to decide on the proportionality of the measures referred to in paragraph 1 or 5. If the Joint Committee is unable to take a decision within 3 months after the matter has been referred to it, either Associated Party may submit to arbitration the question of the proportionality of those measures in accordance with Framework Protocol 6. No question concerning the interpretation of this Agreement shall be addressed in arbitration. The arbitration ruling shall be binding on the parties to the dispute.

3. When the formalities referred to in paragraph 2 have been completed on application by the party concerned, the party concerned may proceed to enforcement by bringing the matter directly before the competent authority in accordance with the law of the State on the territory of which enforcement is to be carried out. Enforcement may be suspended only by a decision of the CJEU. However, the courts of the States concerned shall have jurisdiction over complaints that enforcement is being carried out in an irregular manner.

FRAMEWORK PROTOCOL 3 ON FINANCIAL SERVICES

PREAMBLE

This Framework Protocol takes into account the specificities of the Associated States and how their financial services markets would integrate within the EU internal market for financial services and its supervisory infrastructure. In view of that, specific rules and provisions catering for a smooth market integration should be introduced.

The adoption of a staggered approach for the implementation and application of EU legal acts is envisaged to offer an Associated State the flexibility to prioritise specific segments of EU legal acts for which it intends to provide cross-border financial services first. Such approach allows the Associated State to gradually adopt EU legal acts and apply them in a phased manner, taking into account its particular circumstances and preferences.

The assessment of the supervisory infrastructure of the Associated State, through an assessment to access the EU internal market for financial services, and subsequent regular assessments, serves the purpose of evaluating its effectiveness, robustness, and suitability, taking into consideration the characteristics of the Associated State's financial sector, such as its nature, diversity, size and complexity. A robust supervisory framework is crucial for ensuring the integrity and stability of the EU internal market, promoting confidence among market participants and safeguarding the interests of consumers and investors. The EU supervisory authorities are entrusted with a pivotal role in conducting those assessments comprehensively requiring, where necessary, the active collaboration and cooperation from the competent authorities of EU Member States.

In light of the specificities of Andorra and San Marino and the specific modalities for market integration provided for by this Framework Protocol, it is necessary to include specific supervisory arrangements and safeguards in this Framework Protocol that are without prejudice to and different to the supervisory arrangements and safeguards that govern relations between EU Member States and the internal market as a whole. In order to avoid abuses of the freedom of establishment, financial operators based in the Associated States should be required to provide at least part of their services within the jurisdiction of the Associated States. The competent authorities of the Associated States will prevent the creation of legal entities with no or minimal substance that perform no or very little economic activities in their jurisdiction. Such supervisory arrangements and safeguards are strictly limited to this Agreement and are not intended to constitute a precedent, extend beyond their scope or be applied in other contexts.

ARTICLE 3

Conditions for access to the EU internal market

1. An Associated State shall be granted access to the EU internal market for financial services if the following conditions have been fulfilled:
 - (a) complete, full and effective implementation and application of all EU legal acts applicable to the financial services sector as set out in Annexes IX, XII and XXII to the relevant Associated State Protocol;
 - (b) the existence and proper functioning of supervisory capacity and arrangements for the financial services sector; and
 - (c) the conclusion of a memorandum of understanding between the competent authorities of the Associated State and the EU supervisory authorities on supervisory cooperation, information exchange and consultation.

2. To assess whether the conditions set out in points (a) and (b) of paragraph 1 have been fulfilled, the European Commission shall conduct a comprehensive evaluation in accordance with Part II of this Framework Protocol. That evaluation shall include a review of the financial sector of the Associated State, an assessment of the implementation and application of the relevant EU legal act, and an assessment of the supervisory infrastructure of the Associated State.

3. The evaluation referred to in paragraph 2 of this Article shall be carried out at the request of the Associated State once it is satisfied that the conditions set out in paragraph 1 of this Article have been fulfilled. The Associated State shall submit its request through the Subcommittee on Financial Services established pursuant to Article 20 of this Framework Protocol.

ARTICLE 4

Partial access to the EU internal market

1. An Associated State may decide not to seek access to the entire EU internal market for financial services, by temporarily excluding one or more of the following market segments:

- (a) banking;
- (b) insurance and reinsurance;
- (c) asset management;
- (d) securities markets.

For the purposes of the first subparagraph, the Associated State shall notify the European Commission within 1 year from the date of entry into force of this Agreement of its intent, indicating the segments it wishes to exclude temporarily. Upon receiving such a notification, the European Commission shall, within 2 months, provide a response to the Associated State by communicating the list of provisions of EU legal acts that the Associated State will temporarily not be required to implement and apply.

2. Following the response referred to in the second subparagraph of paragraph 1 of this Article, the Joint Committee established by Article 76 of the Framework Agreement shall adopt a decision in accordance with Article 81 of the Framework Agreement, to amend Annex IX to the relevant Associated State Protocol on the basis of the list provided by the European Commission to the Associated State concerned, in order to specify:

- (a) the list of the provisions of EU legal acts for which full implementation and application by the Associated State is required;
- (b) the list of the provisions of EU legal acts for which the obligation of full implementation and application by the Associated State is temporarily suspended pursuant to paragraph 1 of this Article.

3. Where the Associated State opts for the derogation provided for in paragraph 1 of this Article, Article 3 of this Framework Protocol shall apply only to the market segment or segments for which the Associated State wishes to obtain market access, as long as that derogation remains in force.

4. Where the Associated State, at a later stage, wishes to obtain access to the EU internal market in one or more of the segments for which it initially requested a derogation as referred to in paragraph 1 of this Article, it shall duly inform the European Commission of its intent. The Joint Committee shall amend Annex IX to the relevant Associated State Protocol in accordance with Article 81 of the Framework Agreement to update the list of applicable provisions of EU legal acts. The provisions of EU legal acts that are no longer subject to a derogation as referred to in paragraph 1 of this Article shall be duly implemented and applied by the Associated State before it can obtain access to the relevant segment or segments. The evaluation referred to in Article 3(2) of this Framework Protocol shall be carried out each time the Associated State decides to seek access to an additional market segment.

5. The derogation provided for in paragraph 1 of this Article shall not last longer than 15 years from the date of entry into force of this Agreement. At the latest 1 year before the end of the maximum duration of the derogation, the Associated Parties shall amend Annex IX to the Associated State Protocol to ensure that all relevant provisions of EU legal acts are implemented and applied by the Associated State before the date of expiry of that derogation. 6 months before that date of expiry, the Associated State shall have completely, fully, and effectively implemented and applied all EU provisions for the financial services sector. The evaluation referred to in Article 3(2) of this Framework Protocol shall assess the fulfilment of the obligation to have completely, fully, and effectively implemented and applied all EU provisions for the financial services sector by the Associated State as provided for in this paragraph.

ARTICLE 5

Action plan for the implementation and application of EU legal acts

2. The Associated State shall notify the European Commission through the Subcommittee on Financial Services of the adoption of the action plan and of any significant modifications to it. The Associated State may provide follow-up reports stemming from the action plan.

Following the adoption by the European Commission of a positive recommendation, as referred to in Article 11(3) of this Framework Protocol, that all necessary conditions set out in Article 3 of this Framework Protocol are fulfilled, and upon recommendation of the Subcommittee on Financial services, the Joint Committee shall adopt a decision extending access to one or more segments of the EU internal market for financial services to the Associated State.
2. The decision referred to in paragraph 1 shall take effect on the first day of the month following the date of its adoption by the Joint Committee.
3. Throughout the period in which the derogation referred to in Article 4(1) of this Framework Protocol is in effect, access for EU operators to the financial market of the Associated State shall commence on the date on which the decision of the Joint Committee, granting the Associated State access to one or more segments of the EU internal market for financial services, comes into effect. The supervisory authorities of the Associated State shall ensure that financial service providers established in their territories carry out a substantial part of their business in their jurisdictions, serving their markets. They shall prohibit the establishment in their jurisdictions of providers without active business operations or significant assets.
2. Compliance with the obligation set out in paragraph 1 shall be monitored in the context of the monitoring of the supervisory infrastructure of the Associated State referred to in Article 13 of this Framework Protocol.

2. The compliance of the legislation and of the regulatory framework of the Associated State with the relevant EU legal act may be assessed with the assistance of third parties at national or international level. 3. The costs associated with the assessment under this Article shall be borne by the Associated State.

ARTICLE 10

1. The assessment of the supervisory infrastructure of the Associated State shall cover the independence, robustness, effectiveness and efficiency of the supervisory framework of the Associated State. 2. The assessment referred to in paragraph 1 shall be performed by each relevant EU supervisory authority in cooperation with the relevant competent authorities of the EU Member States. The recommendation referred to in the first subparagraph of this paragraph shall determine whether the Associated State is to be granted access to the EU internal market for financial services or to one or more market segments thereof, taking into account the following considerations:

- (a) if the balance sheet reviews or asset quality reviews referred to in Article 8(1), point (b), of this Framework Protocol identify risks to the proper functioning of the EU internal market, access to the corresponding segment or segments of the EU internal market for financial services shall not be granted until such risks have been appropriately remedied;

6. The parties to the dispute shall enforce arbitration rulings without delay.

ARTICLE 31

Mutually agreed solution or other reasons for terminating the arbitration procedure

1. The parties to the dispute may reach a mutually agreed solution to their dispute at any time. If the mutually agreed solution requires the approval of one of the parties to the dispute, the notification shall refer to such requirement, and the arbitration procedure shall be suspended pending such procedure. If an approval of one of the parties to the dispute is not required, or upon notification of the completion of any such domestic procedures, the arbitration procedure shall be terminated.

2. If, before the arbitration ruling is issued, the continuation of the arbitration procedure becomes impossible or is rendered unnecessary for a reason which is not referred to in paragraph 1 of this Article, the arbitration panel shall inform the parties to the dispute of its intention to issue an order to terminate the arbitration procedure. The arbitration panel may issue that order unless there are outstanding issues which it may be necessary to rule on, or where the arbitration panel considers it to be appropriate.

3. The arbitration panel shall transmit to the parties to the dispute the order terminating the arbitration proceedings or the mutually agreed settlement, signed by the members of the arbitration panel. Article 30(2) to (6) of this Framework Protocol shall apply to mutually agreed settlements.

ARTICLE 32

Correction of an arbitration ruling

1. Within 30 days of the receipt of the award, either party to the dispute, with notice to the other party to the dispute and to the Permanent Court of Arbitration, may request the arbitration panel to correct in the arbitration ruling any errors in computation, any material or typographical errors, or any errors or omissions of a similar nature. Where it considers such request to be justified, the arbitration panel shall make such corrections within 45 days of receiving that request. Such request shall not have suspensive effect.

2. The arbitration panel may make corrections on its own initiative within 30 days of the notification of its ruling.

3. Corrections pursuant to this Article shall be made in writing and shall form an integral part of the arbitration ruling. Article 30(2) to (6) of this Framework Protocol shall apply to such corrections.

ARTICLE 35

Deposit of costs

1. At the beginning of the arbitration procedure, the Permanent Court of Arbitration may request the parties to the dispute to transfer in advance a deposit equal to an estimate of the total amount of the costs referred to in Article 34(2) of this Framework Protocol.

2. In the course of the arbitration procedure, the Permanent Court of Arbitration may request the parties to the dispute to deposit additional amounts.

3. All amounts deposited by the parties to the dispute pursuant to this Article shall be transferred to the Permanent Court of Arbitration, which shall disburse them to cover the costs actually incurred, including, in particular, the fees of the members of the arbitration panel and the Permanent Court of Arbitration.
