The SEZ hosts manufacturing facilities including SuperCam, Aviatest Aero and Albatros that assemble UAV's. These facilities are part of a Russian state-backed program and have been set up with assistance from Iran in the training of staff and supply of material in order to assemble military drones for use in Russia's war of aggression against Ukraine. The UAVs (Shahed - 136) produced in the "Alabuga" SEZ with the financing of the State-owned VTB Banking Group are used by the Russian army in Ukraine. Therefore, JSC "Alabuga" is associated with JSC Albatross, AviatestAero and SuperCam Unmanned Systems Group.</p>
