BUDGET 52

EXPLANATORY MEMORANDUM

Subject: Draft general budget of the European Union for the financial year 2025:
Council position of 13 September 2024

I. INTRODUCTION

The draft general budget of the European Union for 2025 (**DB 2025**) as proposed by the European Commission amounts¹ to:

- EUR 199 716.8 million in **commitment** appropriations²;
- EUR 152 684.1 million in **payment** appropriations².

Compared to the budget 2024³, these amounts represent a +2.3 % increase in commitment appropriations and a +4 % increase in payment appropriations.

II. APPROACH TAKEN

The DB 2025 has been examined during the months of June and July 2024 on the basis of the principles established in the Council conclusions on the budget guidelines for 2025⁴. In particular, the aim to ensure prudent and realistic budgeting, and to provide adequate resources to support clearly set priorities, constituted the guiding principles in establishing the present Council position on the DB 2025.

This led the Council to undertake a detailed analysis of the commitment appropriations for each programme and action by budget line, in order to ensure:

- a realistic absorption capacity;
- an appropriate acceleration of the implementation of programmes by avoiding excessive increases compared to 2024;
- sufficient margins under the ceilings to deal with unforeseen circumstances.

¹ These amounts include appropriations foreseen for special instruments outside the multiannual financial framework (MFF).

² Of which EUR 1 724 million programme-specific adjustments stemming from Article 5 MFF Regulation.

³ Amending budgets Nos 1/2024 and 2/2024 included.

⁴ Doc. 6195/24.

The result of the Council's assessment is reflected in the proposal to adjust downwards the commitment appropriations by EUR 1 519.95 million.

The proposed adjustments in headings 1 (*Single Market, Innovation and Digital*), 2 (*Cohesion, Resilience and Values*), 3 (*Natural Resources and Environment*), 4 (*Migration and Border Management*), 5 (*Security and Defence*) and 6 (*Neighbourhood and the World*) aim at reducing lines that were increased compared to the voted budget 2024, mainly in order to prevent risks in terms of absorption capacity, and to limit the increase of support expenditure to 2 % compared to the voted budget 2024.

A targeted adjustment is proposed for sub-heading 2b (*Resilience and Values*) for the European Union Recovery Instrument (EURI) line. The proposal is based on a more conservative approach, in line with prudent budgeting and sound financial management, with respect to the financing costs of NextGenerationEU (NGEU). Consequently, in line with the revised multiannual financial framework (MFF) Regulation¹, the Council has sought other financing possibilities, by reducing the appropriations of a few programmes in order to create more margins. The suggested adjustment for the EURI line will limit the use of both the Flexibility Instrument and the newly created EURI Instrument to cover the overrun costs.

An upward adjustment under headings 4 (*Migration and Border Management*), 5 (*Security and Defence*) and 6 (*Neighbourhood and the World*) is also suggested to reinforce the Union's priorities and support front-line Member States in the current geopolitical context (headings 4 and 5) and to ensure a sufficient level of humanitarian aid available in 2025, including for Ukraine, Georgia and Moldova (heading 6).

A Council statement on heading 6, as well as on the budgetary nomenclature for the Western Balkans Facility are recorded in Addendum 1 to this note.

¹ Council regulation (EU, Euratom) 2024/765 of 29 February 2024 amending Regulation (EU, Euratom) 2020/2093 laying down the multiannual financial framework for the years 2021 to 2027 (OJ L 2024/765, 29.2.2024).

As regards payment appropriations, the result of the Council's assessment is reflected in the proposal to adjust the level downwards by EUR 875.85 million. The reduction on headings 1, 2, 3, 4, 5 and 6 results from a proportionate amount corresponding to the adjustments in commitment appropriations, as well as from adjustments in non-differentiated appropriations (NDA).

A Council statement on payments is recorded in Addendum 1 to this note.

As regards administrative expenditure, the result of the Council's assessment is reflected in the proposal to adjust the level downwards by EUR 14.98 million. This reduction results from savings from expenditure related to buildings, and mainly from cutting the entire amount for housing allowances requested by institutions based in Luxembourg.

With regard to the latter, while respecting the 1970 Gentlemen's Agreement between the European Parliament and the Council, the Council's proposal does not include any specific reductions to Section I of the EU budget (European Parliament). Instead, it has distributed the equivalent amount, as additional reduction, among three other impacted institutions: the Commission, the European Court of Justice and the European Court of Auditors. In this regard, the Council invites the European Parliament to reconsider its position on the allowance and confirms that, if that is the case, the Council will agree to withdraw the additionally distributed amounts affecting the aforementioned three institutions.

At the same time, the Council has addressed the cyber-security needs of its own section of the budget with a contained upward adjustment.

A Council statement on heading 7 (*European Public Administration*) is recorded in Addendum 1 to this note.

Moreover, a Council statement on the progress of work on the implementation of the MFF mid-term revision is also recorded in Addendum 1 to this note.

III. OUTCOME OF PROCEEDINGS^{1,2}

On the basis of the above approach, an agreement **was reached** on the **Council's position on the DB 2025** that would amount³ to:

- EUR 191 526.99 million in **commitment** appropriations;
- EUR 146 214.61 million in **payment** appropriations.
