Recital 1

<p>Y 10</p>	<p>(1) Our daily lives and economies become increasingly dependent on digital technologies, citizens become more and more exposed to serious cyber incidents. Future security depends, among others, on enhancing technological and industrial ability to protect the Union against cyber threats, as both civilian infrastructure and military capacities rely on secure digital systems.</p>	<p>(1) Our <u>More than 80 % of the population of the Union is connected to the internet and our</u> daily lives and economies <u>are becoming</u> become increasingly dependent on digital technologies, citizens become <u>with citizens becoming</u> more and more exposed to serious cyber incidents. Future security depends, among others, on <u>contributing to overall resilience, on enhancing technological and industrial ability to protect the Union against constantly evolving</u> cyber threats, as both civilian infrastructure and military security capacities rely on secure digital systems. <u>Such security can be achieved by raising the awareness for cybersecurity threats, by developing competences, capacities, capabilities throughout the Union, thoroughly taking into account the interplay of hardware and software infrastructure, networks, products and processes, and the societal and ethical implications and concerns.</u></p>	<p>(1) Our daily lives and economies become <u>are becoming</u> increasingly dependent on digital technologies, <u>and</u> citizens become more and more exposed to serious cyber incidents. Future security depends, among others <u>other things</u>, on enhancing technological and industrial ability to protect the Union against cyber threats, as both civilian infrastructure and military capacities rely on secure digital systems.</p>	<p>EP to make new proposal, merger with recital 10a. "awareness" to be put in square brackets (link recital 60a)</p>
-------------	--	---	---	--

Recital 1a					
Y	10a		<p><u><i>(1a) Cybercrime is a fast growing threat to the Union, its citizens and its economy. In 2017, 80 % of the European companies experienced at least one cyber incident. The Wannacry-attack in May 2017 affected more than 150 countries and 230 000 IT-systems and had significant impacts on critical infrastructures, such as hospitals. This underlines the necessity for the highest cybersecurity standards and holistic cybersecurity solutions, involving people, products, processes and technology in the Union, as well as for the Union's leadership in the matter, and for digital autonomy.</i></u></p>	<p>EP to make new proposal, merger with recital 10. "Cybercrime" possibly replaced by "Cyber incidents" Deletion of sentences with data</p>	
Recital 2					
G	11	<p>(2) The Union has steadily increased its activities to address growing cybersecurity challenges following the 2013 Cybersecurity Strategy¹ aimed to foster a reliable, safe, and open cyber ecosystem.
