THE COUNCIL**

in respect of the delegation of powers referred to in Regulation (EU) 2019/833 of the European Parliament and of the Council of 20 May 2019 laying down conservation and enforcement measures applicable in the Regulatory Area of the Northwest Atlantic Fisheries Organisation, amending Regulation (EU) 2016/1627 and repealing Council Regulations (EC) No 2115/2005 and (EC) No 1386/2007

1. INTRODUCTION

Regulation (EU) 2019/833¹ implements into Union law conservation and enforcement measures applicable in the Regulatory Area of the Northwest Atlantic Fisheries Organisation (NAFO).

To achieve the objectives of Regulation (EU) 2019/833 and given that certain provisions of the NAFO conservation and enforcement measures (CEM) are amended frequently by NAFO Contracting Parties, the Commission has delegated powers to adopt acts under Article 290 of the Treaty on the Functioning of the European Union (TFEU) on a number of technical control measures, as specified below.

2. LEGAL BASIS

This report is required under Article 51(2) of Regulation (EU) 2019/833. This article delegates the powers to adopt delegated acts referred to in Article 50 of Regulation (EU) 2019/833 for five years from 17 June 2019. The Commission is required to prepare a report on how it has exercised these delegated powers no later than nine months before the end of the five years. The delegated powers are then tacitly extended for further five-year periods, unless the European Parliament or the Council objects, under Article 51(3) of Regulation 2019/833.

Article 50 of Regulation 2019/833 gives the Commission powers to adopt delegated acts on:

- a) supplementing the Regulation with the provisions of and Annexes to the CEM referred to in the Annex to the Regulation;
- b) the list of activities of research vessels referred to in Article 4(1);
- c) measures provided for in Article 9 relating to Northern prawn fishing areas; relevant reporting, change of fishery, fishing depths and references to restricted or closed areas;

3. EXERCISE OF THE DELEGATION OF POWERS

The Commission submitted all draft delegated acts based on the empowerments included in Regulation (EU) 2019/833 to the Expert Group for Fisheries and Aquaculture, which was set up to provide expert advice on the preparation of delegated acts. The European Parliament has been systematically invited to the meetings of this Expert Group. The Commission sent the meeting documents simultaneously to both the European Parliament and the Council, as required in the Common Understanding on delegated acts. After adoption, it notified all delegated acts to the European Parliament and the Council.

To date, the European Parliament and Council have not objected to any delegated act adopted by the Commission under Regulation (EU) 2019/833 within two months, as provided for in Article 51(6) of Regulation 2019/833. In some cases, the European Parliament requested an extension of the deadline for an additional two months.

4. LIST OF DELEGATED ACTS ADOPTED UNDER REGULATION (EU) 2019/833

5. CONCLUSION

Over the past five years, the Commission has exercised the delegated powers conferred to it under Regulation (EU) 2019/833. The Commission sees the need to extend this empowerment because NAFO conservation and enforcement measures change annually and subsequent changes need to be implemented into EU law.

With this report, the Commission meets the reporting requirement under Article 51(2) of Regulation (EU) 2019/833. It invites the European Parliament and the Council to take note of this report.
