### Remarks

These comments apply to all the budget headings in the "Direct research" policy area (with the exception of Chapter 10 05).

The appropriations cover not only expenditure on operations and staff covered by the Staff Regulations, but also other expenditure on staff, contracting, infrastructure, information and publications and any other administrative expenditure arising from research and technological development operations, including exploratory research.

In accordance with Article 18 of the Financial Regulation, any revenue entered in Items 6 2 2 4 and 6 2 2 5 of the statement of revenue may give rise to the provision of additional appropriations.

Miscellaneous revenue may give rise to the provision of additional appropriations to be used in Chapter 10 02, 10 03 or 10 04 or Article 10 01 05, depending on their purpose.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Community programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations pursuant to Article 18(1)(d) of the Financial Regulation.

The possibility of third countries or organisations from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Item 6 0 1 3 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 18 of the Financial Regulation.

The additional appropriations will be provided under Articles 10 02 02 and 10 03 02.

The appropriations in this title cover approximately 16 % of the cost of the staff working in the financial and administrative departments of the Joint Research Centre and of the support which they need.

The main objectives of the programme are as follows:

- to ensure over 250 days' operation of the HFR per annum in order to guarantee the availability of neutrons for experimental purposes,
- to ensure the rational use of this reactor according to the needs of research institutes requesting the assistance of the HFR in areas such as:
  - improving the safety of existing nuclear reactors,
  - health, and in particular the development of medical isotopes for medical research and the testing of therapeutic techniques,
  - fusion,
  - basic research and training,

## Remarks

## New item

The main objectives of the programme are primarily:

- to ensure the safe and reliable operation of the high flux reactor (HFR), in order to guarantee the availability of the neutron flux for experimental purposes,
- to allow an efficient use of HFR by research institutes in a broad range of disciplines: improvement of safety of existing nuclear reactors, health including the development of medical isotopes to answer the questions of medical research, nuclear fusion, fundamental research and training, and waste management including the possibility to study the safety behaviour of nuclear fuels for the new generation of reactor systems.

In accordance with Article 18 of the Financial Regulation, this item will, in the course of the financial year, be provided with additional appropriations within the limits of the revenue from, notably, the three Member States concerned (currently the Netherlands, Belgium and France) to be entered in Item 6 2 2 1 of the statement of revenue.

## Legal basis

## *Remarks*

The Community's financial assistance helps accelerate the eradication or control of animal diseases by providing funds to supplement national financial resources and contributes to harmonising measures at Community level. The bulk of these diseases or infections are zoonoses communicable to man (BSE, brucellosis, avian influenza, salmonellosis, tuberculosis, etc.). Moreover, the persistence of the diseases in question hampers smooth operation of the internal market; fighting them helps to improve the level of public health and to boost food safety in the European Union.

## *Legal basis*

Council Decision 90/424/EEC of 26 June 1990 on expenditure in the veterinary field (OJ L 224, 18.8.1990, p. 19), as last amended by Decision 2006/965/EC (OJ L 397, 30.12.2006, p. 22).

# **TITLE 18 — AREA OF FREEDOM, SECURITY AND JUSTICE**

## *Overall objectives*

- Establish an area of free movement in which persons can cross internal borders without being submitted to border checks, external borders are controlled and illegal immigration is prevented.
- Establish an open and secure European Union, which, as part of a comprehensive policy:
  - promotes legal immigration to increase its competitiveness and to address demographic ageing,
  - limits illegal immigration,
  - strengthens dialogue and cooperation with third countries, and applies common European asylum rules.
- Ensure a high level of protection and promotion of the rights of citizens and of fundamental rights across the EU, including the rights of the child, contribute to upholding them in all areas of EU activity, and establish a high level of protection of personal data.
- Prevent and combat terrorism and crime, leading to a high level of safety for citizens.
- Establish an area of justice in which citizens have good access to justice and civil and criminal proceedings are conducted efficiently irrespective of differences between national legal systems.
- Enhance the EU's capacity to prevent and limit the demand and the supply of drugs, reduce the social harm and health damage caused by the use of and trade in illicit drugs, and strengthen international cooperation.

- Promote the values underpinning the area of freedom, security and justice in relations with third countries to contribute to the successful building of the internal area of freedom, security and justice and advance the European Union's external relations objectives.
