MEABHRÁN MÍNIÚCHÁIN

On 28 February 2022, the Council adopted Decision (CFSP) 2022/339 to establish an assistance measure under the European Peace Facility with the objective to contribute to strengthening the capabilities and resilience of the Ukrainian Armed Forces to defend the territorial integrity and sovereignty of Ukraine and protect the civilian population against the ongoing war of aggression by Russia. The reference amount of this assistance measure was EUR 50 million.

On 23 March 2022, the Council adopted Decision (CFSP) 2022/472 amending Council Decision 2022/339 doubling the EU military assistance to EUR 100 million in total. On 13 April, on 23 May and, later, on 21 July, the Council adopted Decisions (CFSP) 2022/637, 2022/810 and 2022/1284 increasing the overall EU military assistance under this assistance measure to EUR 170 million.

The unprovoked war of aggression by Russia continues. The proposed amendment foresees additional support to the Ukrainian Armed Forces to the amount of EUR 10 million.

The objective is to be achieved through the financing of the provision of equipment and supplies not designed to deliver lethal force, such as personal protective equipment, first aid kits, fuel and other non-lethal items to the Ukrainian Armed Forces.

In addition, the scope of this assistance measure is expanded to cover the provision of maintenance and repair of equipment and supplies not designed to deliver lethal force to the Ukrainian Armed Forces. As the high-intensity war of aggression continues, the Ukrainian Armed Forces need to devote considerable resources to ensuring that as far as possible equipment remains available for operational purposes. The amended assistance measure would allow for maintenance and repair services, provided by EU Member States, to be eligible for EPF reimbursement, thus offering an extra incentive for Member States to further address Ukrainian needs. Maintenance includes all actions taken to retain equipment or material in/or to restore it to a specified condition. This includes inspection, testing, servicing and classification as to serviceability, repair, rebuilding and

reclamation. Maintenance embraces all supply and repair action taken to keep a force in condition to accomplish its mission¹.

The equipment to be provided and its maintenance and repair under the proposed amendment of the assistance measure must be in line with the priorities communicated by Ukraine via the Clearing House Cell (established in EUMS). The implementing actors remain unchanged. The High Representative's assessment as outlined in the Explanatory Memorandum of the High Representative's initial proposal (ST 6658/22) remains valid and applicable to the proposed amended assistance measure.
