NOTE

Subject: MONTHLY SUMMARY OF COUNCIL ACTS - OCTOBER 2020

This document lists the acts¹ adopted by the Council in October 2020.²³

It provides information on the adoption of legislative and non-legislative acts, including:

- the date of adoption,
- the relevant Council session,
- the number of the document adopted,
- the Official Journal reference,
- reference to the minutes of the Council session when the act was adopted.

¹ For easy reference, the "short titles" as mentioned in the Council's agendas are also indicated (see in italics).

² With the exception of certain acts of limited scope such as procedural decisions, appointments, specific budgetary decisions, etc unless adopted by written procedure.

³ In the case of legislative acts adopted in the ordinary legislative procedure, there may be a difference between the date of the Council's meeting where the legislative act is adopted and the actual date of the act in question, since legislative acts adopted in the ordinary legislative procedure are only considered to have been adopted after signature by both the President of the Council and the President of the European Parliament and the Secretaries-General of the two institutions.

This document is also available on the Council's website at:

Council Conclusions on Human Rights, Participation and Well-Being of Older Persons in the Era of Digitalisation	11087/20
Statement from Poland Equality between women and men is enshrined in the Treaties of the European Union as a fundamental right. Poland ensures equality between women and men within the framework of the Polish national legal system in accordance with internationally binding human rights instruments and within the framework of fundamental values and principles of the European Union. For these reasons, in places, where the conclusions refer to gender equality, Poland will interpret it as equality between women and men, according to Article 8 TFEU.	
Statement from Slovakia The Slovak Republic recognizes and promotes equality between men and women in accordance with the Constitution of the Slovak Republic and primary law of the European Union. In this context, the Slovak Republic interprets the concept of "gender" in the text of the Council Recommendation and Council Conclusions as reference to sex, and the concept of "gender equality" as reference to the equality between men and women.

Council Conclusions on Strengthening Minimum Income Protection to Combat Poverty and Social Exclusion in the COVID-19 Pandemic and Beyond	11084/20
Statement from Poland Equality between women and men is enshrined in the Treaties of the European Union as a fundamental right. Poland ensures equality between women and men within the framework of the Polish national legal system in accordance with internationally binding human rights instruments and within the framework of fundamental values and principles of the European Union. For these reasons, in places, where the conclusions refer to gender equality, Poland will interpret it as equality between women and men,	

according to Article 8 TFEU.	
Statement from Slovakia The Slovak Republic recognizes and promotes equality between men and women in accordance with the Constitution of the Slovak Republic and primary law of the European Union. In this context, the Slovak Republic interprets the concept of "gender" in the text of the Council Recommendation and Council Conclusions as reference to sex, and the concept of "gender equality" as reference to the equality between men and women.	
Statement from Austria As a general remark, Austria states that it is exclusively up to the Member States to regulate minimum income protection systems – be it legislative or executive. As minimum income schemes aim at combating social exclusion, inter alia Article 153(2)(a) TFEU only allows the adoption by the European Parliament and the Council of "measures designed to encourage cooperation between Member States through initiatives aimed at improving knowledge, developing exchanges of information and best practices, promoting innovative approaches and evaluating experiences". Harmonisation of the laws and regulations of the Member States is excluded. The legal basis for these non-binding measures is Article 153(1)(j) TFEU. Subsequently, Member States shall, in strict compliance with the principle of subsidiarity, exchange information and experience by using the method of open coordination in order to develop their national systems while respecting their national competence.

Council Conclusions on Improving the working and living conditions of seasonal and other mobile workers	11079/1/20 REV1
Statement from Romania Romania welcomes the approval of the <i>Council Conclusions on Improving the working and living conditions of seasonal and other mobile workers</i> , which reflect the essential role of these categories of workers in the European Union and underline the importance of protecting them. While the EU seasonal workers perform critical activities in the Member States and support the functioning of the Single Market, they have proven to represent a category at greater risk. In this context, they deserve a stronger protection and effective enforcement of their rights throughout the Union. Both their crucial contribution and their vulnerabilities have been strongly emphasised during the health crisis, which has unfolded since the beginning of this year. Approaching this issue at the European level is timely and Romania welcomes the strong emphasis on the necessity to fully apply	

and enforce the EU and national legislation on working and living conditions and social security coordination. This would adequately protect seasonal and other mobile workers, especially in times of crisis such as the COVID-19 pandemic. We are confident that the approval of these Conclusions will bring new impetus at the EU and national level. In our view, the text could have benefited further from the explicit reference to domestic caregivers, as they provide essential personal and household care services but are often confronted with discriminatory treatment and precarious working conditions. We consider, nevertheless, that the Council Conclusions apply as well to this category of workers. Furthermore, Romania would have preferred a more ambitious language when calling for setting specific requirements for temporary work and recruitment agencies, together with additional elements on the information list they have to provide to workers. Having regard to the above, we consider important to keep this subject high on the European agenda in the forthcoming period. We are also looking forward to the Commission's assessment of the areas where the protection of seasonal workers should be enhanced and its study aimed at the challenges they face and the subsequent policy recommendations.

Public access to documents – Confirmatory application No 19/c/01/20	10386/20
Statement by Italy Italy reiterates the considerations previously expressed. Therefore, Italy does not agree with the approval of the draft reply to Confirmatory application No 19/c/01/20, as set out in document 10386/20. In particular, Italy cannot fully concur with the analysis in para. 18 of the draft reply, considering that sharing CVs – without private information therein – would meet the public interest of granting transparency to the negotiating process which conducted to the approval of the EU Charter of Fundamental Rights, provided that the personalities involved were either public officials or persons entrusted with a public mandate and exercising public duties. As stated by the applicant(s), there is a public interest in accessing the information requested, which needs to be taken into account when assessing the level of personal data protection granted. Recent case-law would confirm this reading (see i.a. the ECJ decision in the case Google Spain vs. AEPD).	

Statement by Portugal Portugal is of the opinion that in this case, further extended partial access to the documents could have been given. Indeed, given the high profile of the position, Portugal considers that the concerned individuals would have been aware that by participating in the Convention, their professional information and CV details could be of increased public interest and accessible to the public. We also believe that it is important to weigh the amount of time already lapsed since the submission of these CVs (20 years). In this regard, Portugal considers that except for the personal contact details (addresses, telephone numbers and emails) and information clearly related to the private sphere of the individuals and not relevant for their nomination to the Convention (e.g. marital status and number of children), all data could have been disclosed. Furthermore, in accordance with guarantees concerning data protection of the GDPR, Portugal would agree to strikethrough all data that the persons concerned might have expressly objected to disclose, if/when consulted.	
Statement by Finland Finland stresses the importance of striking a balance between the principle of transparency and the right to the protection of personal data. Finland considers that public access could be granted to certain additional elements of the requested document.	
Statement by Sweden Sweden considers that the document can be fully disclosed given that the principle of transparency in this case appears to outweigh the protection of personal data. Sweden is not convinced that the subjects concerned were not aware that by participating in the Convention they approved of having these personal data examined, and that they thereby opened up for an increased examination of their person. In this context, Sweden would welcome a more detailed analysis of how the request relates to Article 9 (3) of Regulation 2018/1725.

<i>Decision of the European Parliament and of the Council empowering France to negotiate an agreement supplementing its existing bilateral Treaty with the United Kingdom concerning the construction and operation by private concessionaires of a Channel Fixed Link</i> Decision (EU) 2020/1531 of the European Parliament and of the Council of 21 October 2020 empowering France to negotiate, sign and conclude an international agreement supplementing the Treaty between France and the United Kingdom of Great Britain and Northern Ireland concerning the Construction and Operation by Private Concessionaires of a Channel Fixed Link OJ L 352, 22.10.2020, p. 4–6	31/20
Statement by the Commission The Commission disagrees with the omission of Article 2(1) TFEU as legal basis of the decision empowering France to negotiate with the UK. While Article 91 TFEU empowers the Union to adopt acts of transport policy, the legislator is warranted powers to authorise Member States to act in the Union's stead in an area of exclusive Union competence only under Article 2(1) TFEU. The decision can therefore be adopted only on the basis of both provisions.

Malta's Written Statement on the Council Decision on the EU position in the reply to ICAO as regards the notification of differences to Annexes 1, 3, 4, 6, 10, 11, 14, 15 and 16 to the Convention on International Civil Aviation and in the Council of the ICAO in respect of the adoption of Amendments 46 and 39 to Annex 6 to that Convention (COVID-19 contingency) Malta agrees with the urgency to adopt an EU position in view of the ICAO Council in respect of the adoption of Amendments 46 and 39 to Annex 6 to that Convention and supports the conclusion to split the Council decision. In this context, Malta reiterates that a Council Decision is not considered to be appropriate in order to establish a Union position on the filing of differences, and highlights that Article 1(2), and the reference to “notify compliance” therein, in particular, should be without prejudice to the ongoing discussions on the procedure for EU Member States to notify ICAO of differences to the Chicago Convention and its Annexes, and should not constitute a precedent in this regard.

<i>Council Regulation fixing for 2021 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in the Baltic Sea, and amending Regulation (EU) 2020/123 as regards certain fishing opportunities in other waters</i> Council Regulation (EU) 2020/1579 of 29 October 2020 fixing for 2021 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in the Baltic Sea and amending Regulation (EU) 2020/123 as regards certain fishing opportunities in other waters OJ L 362, 30.10.2020, p. 3–14	11882/20
Joint Statement by Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden and the Commission on swaps of Eastern Baltic cod quota In a spirit of solidarity, those Member States who do not need their entire by-catch quota for Eastern Baltic cod will endeavour to agree on quota exchanges with a Member State which can demonstrate that it will be confronted with a choke effect due to its limited Eastern Baltic cod quota. The Member States in the Baltic Sea and the Commission will assess the adequacy of these swaps ahead of the fixing of the fishing opportunities for 2022.	11886/1/20 REV1

Joint Statement by Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden on the management of the eastern Baltic cod quota by the Russian Federation Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Sweden and Poland urge the Commission to take all possible steps to reach an agreement with the Russian Federation on the management of the eastern Baltic cod quota in line with the scientific advice. Given the current condition of the eastern Baltic cod stock, it is imperative that the responsibility of rebuilding of the stock is shared fairly among all states having an interest in the management of cod. Taking necessary measures for the restoration of the stock solely by the European Union without the participation of the Russian Federation will not ensure that negative impacts of fishing activities on the cod stock are minimised.	
Joint Statement by Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden on the need to find the cause of the increase of natural mortality of cod Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Sweden and Poland will take necessary actions to investigate the increase of natural mortality of cod, which is higher than fishing mortality. Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Sweden and Poland urge the Commission also to increase the EMFF funding from its financial envelope on joint scientific research projects intended for investigation of natural mortality growth of the cod in the Baltic Sea.	
Joint Statement by the Commission, Estonia and Finland on survivability of salmon in the Gulf of Finland Finland and Estonia commit to providing ICES with the relevant scientific information to address the reported uncertainty around salmon discarding and survival. The Commission will request ICES to better develop the science and understanding concerning the reported uncertainty around salmon discarding and survival.	
Joint Statement by the Commission, Finland and Sweden on herring in the Gulf of Bothnia The Commission will encourage ICES to finalise an analytical assessment for herring in the Gulf of Bothnia and to produce new advice for that stock in 2021. Where justified on the basis of that advice, the Commission will consider submitting a proposal for an in-year amendment of the 2021 TAC for herring in the Gulf of Bothnia.	
Joint Statement by the Commission, Denmark, Germany, Poland and Sweden on herring in the Western Baltic Sea The stock of Spring Spawning Herring is managed in two areas: The Western Baltic Sea (subdivisions 22 - 24) and Skagerrak and Kattegatt (subarea 3a). Therefore, consistency of TAC setting between the two management areas is needed.	

Joint Statement by Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden and the Commission on the stocks shared with Russia Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden find that scientific advice should be handled separately from sharing arrangement. Therefore, aforementioned Member States consider that all biological components of the scientific advice such as migration, seal damaged fish and other stock specific components should be taken into account before applying sharing arrangements. The Commission will initiate discussions on an appropriate methodology reflecting the above issues in the context of the Joint Baltic Sea Fisheries Committee.	
Joint Statement by Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden on the application of Article 15(9) in the Basic Regulation for Eastern cod in 2021 Given that the biomass of the stock of eastern Baltic cod is below Blim and that only by-catch and scientific fisheries will be permitted in 2021, in order to ensure the recovery of the stocks in accordance with Regulation (EU) 2016/1139, Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden undertake not to make use of inter-annual flexibility under Article 15(9) of Regulation (EU) No 1380/2013 for transfers from 2020 to 2021. This undertaking is a response to the current exceptional circumstances for the eastern cod stock.	
Joint Statement by the Commission and Germany on the option of support for the temporary cessation of fishing activities by the European Maritime and Fisheries Fund (EMFF) 1. Point (a) of Article 5(3) of Regulation (EU) 2016/1139 of the European Parliament and of the Council of 6 July 2016 establishing a multiannual plan for the stocks of cod, herring and sprat in the Baltic Sea and the fisheries exploiting those stocks allows the Member States to adopt emergency measures in accordance with Article 13 of Regulation (EU) No 1380/2013 of the European Parliament and of the Council of 11 December 2013 on the Common Fisheries Policy. 2. Given the assessment of the International Council for the Exploration of the Sea (ICES) on cod and the herring in in Subdivisions 22-24 Germany therefore deems it necessary to adopt emergency measures in accordance with Article 13(1) of Regulation 1380/2013. The emergency measures consist of limitation of fishing activities in Subdivisions 22-24 by additional 30 days for German fishing vessels fishing for cod and 20 days for vessels fishing for herring. 3. The Commission and Germany agree that this emergency measure under point (a) of Article 33(1) of Regulation (EU) No 508 /2014 of the European Parliament and of the Council of 15 May 2014 on the European Maritime and Fisheries Fund and repealing Council Regulation (EC) No 2328/2003 is eligible for funding from the EMFF and might also be eligible under the forthcoming	

EMFF Regulation, in accordance with the conditions therein.	
Joint statement by Latvia and Lithuania regarding the 2021 TAC variation for herring in subdivisions 25-27, 28.2, 29, 32 for 2021	
Lithuania and Latvia understand the rationale of the proposal by the Commission, which is in line with the latest ICES advice, issued in May 2020, and the provisions of the Baltic Sea multiannual plan. However, Lithuania and Latvia consider that a stepwise approach would take into account the specificities of the pelagic fisheries in the Baltic Sea and avoid drastic TAC fluctuations. Therefore, Lithuania and Latvia regret that the TAC for central herring, one of the most important stocks for the Baltic pelagic fleet, has been set without providing stability for the sector. Lithuania and Latvia urge the Commission and the Council to explore possible legal solutions in a future legal framework to ensure that yearly fluctuations of fishing opportunities would not exceed 20%, especially given the difficult fisheries situation in the Baltic Sea.

Council's position on DAB No 9/2020 accompanying the proposal to mobilise the European Union Solidarity Fund to provide assistance to Croatia and Poland in relation to a natural disaster and to provide for the payment of advances to Croatia, Germany, Greece, Hungary, Ireland, Portugal and Spain in relation to a public health emergency	11807/20

Statement by Spain on the DAB No 9/2020 and the mobilisation of the EU Solidarity Fund <u>Spain</u> fully supports this instrument but we are in total disagreement with the procedure followed by the Commission in the proposal to provide for the payment of advances to Croatia, Germany, Greece, Hungary, Ireland, Portugal and Spain in relation to a public health emergency. The Commission has not followed the normal procedure of communication to the Member States the decision on the amounts and did not follow-up the corresponding contradictory procedure.

Statement by Austria, Denmark, The Netherlands and Sweden on transfer No DEC 17/2020 The recovery of unused funds from a programme where the legal base has expired violates the budgetary principles of annuality and accuracy as set out in the financial regulation and thus cannot be considered a good budgeting practice. The possibility to reactivate unused funds set out in Article 32(1) of the Financial Regulation should in our opinion be used only in exceptional cases where there is an urgent need for funds and the programme cannot be financed otherwise. The Commission has been unsuccessful in showing the urgency and necessity of the transfer, which is why we, <u>AT, DK, NL and SE</u>, will abstain from voting.
