**Joint statement of the European Parliament and the Council in relation to Regulation (EU) 2022/...<sup>+</sup>, as regards the importance of establishing in all Member States a register held by national competent authorities on the use of plant protection products in agriculture**

As part of the European Green Deal, the Farm to Fork Strategy and the Biodiversity Strategy highlight the need for a transition to a sustainable food system, in particular by reducing the use and risk of pesticides by 50 % by 2030 and by increasing organic farming and biodiversity-rich landscape features on agricultural land.

<sup>+</sup> OJ: Please insert in the text the number of the Regulation in the document COD(2021)0020 (PE-CONS 37/22).

Under Regulation (EU) 2022/... of the European Parliament and of the Council<sup>1++</sup>, the full collection of data on the use of plant protection products by professional users in an agricultural activity, that is a coverage of 95 % of the use in each Member State, can only be achieved when a legal requirement for professional users of plant protection products to transmit their records in electronic format to national competent authorities is applicable under Union law.

The European Parliament and the Council recognise the importance of introducing such a requirement into Union legislation and commit to working together to that end.

<sup>1</sup> Regulation (EU) 2022/... of the European Parliament and of the Council of ... on statistics on agricultural input and output, amending Commission Regulation (EC) No 617/2008 and repealing Regulations (EC) No 1165/2008, (EC) No 543/2009 and (EC) No 1185/2009 of the European Parliament and of the Council and Council Directive 96/16/EC (OJ L ...).

**Statement by the Commission in relation to Regulation (EU) 2022/...<sup>+</sup>, as regards on-going work to ensure the availability in electronic format of the records to be kept by professional users of plant protection products pursuant to Article 67(1) of Regulation (EC) No 1107/2009**

The European Green Deal and the Farm to Fork Strategy establish a reduction in the use and risk of chemical pesticides as a key objective for the Union. In order to ensure effective and impactful policies, robust and comprehensive data on the use of pesticides at farm level is crucial. The on-going work to ensure the availability in electronic format of the records kept by professional users of plant protection products is an important enabling factor to implementing the reporting obligations on pesticides that are part of Regulation (EU) .../... of the European Parliament and of the Council<sup>2++</sup> (SAIO).

Therefore, the Commission has prepared a draft Commission Implementing Regulation, on the basis of Article 67(4) of Regulation (EC) No 1107/2009 of the European Parliament and of the Council<sup>3</sup>, as regards the content and format of the records of the use of plant protection products to be kept by professional users in accordance with Article 67(1) of Regulation (EC) No 1107/2009.

That Implementing Regulation would, if adopted as currently foreseen, regulate the record-keeping required under Regulation (EC) No 1107/2009 in detail, including by identifying the elements to be recorded by the professional users, and by ensuring that those records will be available in electronic format from 1 January 2025 at the latest.
