COMMISSION REGULATION (EU) .../...

of **XXX**

amending Annex II to Regulation (EC) No 1333/2008 of the European Parliament and of the Council as regards the use of phosphoric acid – phosphates – di – tri – and polyphosphates (E 338-452) in frozen vertical meat spits

(Text with EEA relevance)

COMMISSION REGULATION (EU) .../...

of **XXX**

amending Annex II to Regulation (EC) No 1333/2008 of the European Parliament and of the Council as regards the use of phosphoric acid – phosphates – di – tri – and polyphosphates (E 338-452) in frozen vertical meat spits

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1333/2008 of the European Parliament and of the Council of 16 December 2008 on food additives¹, and in particular Article 10(3) thereof,

Whereas:

- (1) Annex II to Regulation (EC) No 1333/2008 lays down a Union list of food additives approved for use in food and their conditions of use.
- (2) That list may be updated in accordance with the common procedure referred to in Article 3(1) of Regulation (EC) No 1331/2008 of the European Parliament and of the Council², either on the initiative of the Commission or following an application.
- (3) On 28 August 2015 an application was submitted for the authorisation of the use of phosphoric acid, phosphates, diphosphates, triphosphates and polyphosphates ('phosphates') as a stabiliser and a humectant in frozen vertical meat spits falling under the food category 08.2 'Meat preparations as defined by Regulation (EC) No 853/2004' in Part E of Annex II to Regulation (EC) No 1333/2008. The application was subsequently made available to the Member States pursuant to Article 4 of Regulation (EC) No 1331/2008.
- (4) The use of phosphates is required for a partial extraction and breakdown of meat proteins to form a protein film on vertical meat spits to bond meat pieces together in order to ensure homogenous freezing and roasting. Furthermore, phosphates ensure that meat remains juicy during thawing and that vertical meat spits remain stable. Such technological need was recognised for frozen vertical rotating meat spits made of sheep, lamb, veal or beef treated with liquid seasoning or from poultry meat treated with or without liquid seasoning used alone or combined as well as sliced or minced and designed to be roasted by a food business operator. Thoroughly roasted meat strips are then consumed by the final consumer.
- (5) Pursuant to Article 3(2) of Regulation (EC) No 1331/2008, the Commission has to seek the opinion of the European Food Safety Authority (the Authority) in order to update the Union list of food additives set out in Annex II to Regulation (EC)

¹ OJ L 354, 31.12.2008, p. 16.

² Regulation (EC) No 1331/2008 of the European Parliament and of the Council of 16 December 2008 establishing a common authorisation procedure for food additives, food enzymes and food flavourings (OJ L 354, 31.12.2008, p. 1).

No 1333/2008, except where the update in question is not liable to have an effect on human health.

- (6) Safety of phosphates was evaluated by the Scientific Committee for Food which established the Maximum Tolerable Daily Intake of 70 mg/kg body weight expressed as phosphorus³. Phosphates are authorised for use as food additives in a wide variety of foods including meat products and certain meat preparations. Thus it is not expected that the extension of use to frozen vertical meat spits will have a significant impact on the overall exposure to phosphates. In order to limit further exposure to added phosphates the extension of use should be restricted only to the frozen vertical meat spits for which the technological need was identified.
- (7) Since the extended use of those additives constitutes an update of the Union list which is not liable to have an effect on human health, it is not necessary to seek the opinion of the Authority.
- (8) Annex II to Regulation (EC) No 1333/2008 should therefore be amended accordingly.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Annex II to Regulation (EC) No 1333/2008 is amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Commission
The President
Jean-Claude JUNCKER
