NOTE

From:	General Secretariat of the Council
To:	Permanent Representatives Committee
No. Cion doc.:	COM(2018) 382 final
Subject:	European Social Fund Plus (ESF+) Regulation - Progress report

I. INTRODUCTION

1. On 30 May 2018, the Commission tabled the proposal for the European Social Fund Plus Regulation (ESF+ Regulation)¹, which is part of the Cohesion Policy legislative package for 2021-2027. The overarching policy objective of the ESF+ Regulation is to help create a more performing and resilient ‘Social Europe’ and implement the European Pillar of Social Rights as well as the social and employment priorities endorsed by the European economic governance process.
2. The ESF+ Regulation was presented to the Structural Measures Working Party in June 2018 during the Bulgarian Presidency. The detailed examination of the ESF+ Regulation took place under the Austrian and the Romanian Presidencies. The Permanent Representatives Committee endorsed a (partial) mandate for negotiations with the European Parliament on the ESF+ Regulation on 3 April 2019².

² Doc. 7982/19.

3. On 28 May 2020, following the COVID-19 outbreak, and as part of the revised MFF 2021-27 and of the Recovery Package, the Commission proposed various amendments to the Cohesion policy legislative package 2021-2027, including to the ESF+ Regulation³. On 22 July 2020, the Permanent Representatives Committee endorsed a (partial) mandate for negotiations with the European Parliament as regards the amended Commission proposal for the EFS+ Regulation⁴.
4. On 5 October 2020, Coreper endorsed an updated partial mandate for negotiations on the ESF+ Regulation⁵, to take account of the European Council Conclusions adopted in the special meeting of the European Council of 17, 18, 19, 20 and 21 July 2020 and of all related elements included therein.

II. STATE OF PLAY OF INTER-INSTITUTIONAL NEGOTIATIONS

5. During the German Presidency, 8 technical meetings and 2 political trilogues on the ESF+ Regulation have taken place. Progress on the negotiations in the last months has been substantial, with a provisional common understanding reached at trilogue level on most of the provisions, only excluding thematic concentration requirements, governance and budgetary provisions. The results of the negotiations are included in the Annex to this note.
6. Remaining work on the ESF+ Regulation at both political and technical level is to be finalised as soon as possible during the Portuguese Presidency.
7. In the past months, substantial progress has been made during the inter-institutional negotiations with the European Parliament. Moreover, the Structural Measures Working Party has been regularly informed and consulted about the progress on the negotiations. Following the Structural Measures Working Party on 3 December 2020 as well as informal contacts with delegations, **the Presidency is of the view that, based on the principle that "nothing is agreed until everything is agreed", a balanced compromise text has emerged -pending work on the remaining open provisions- which has been supported by a majority of Member States.**

III. CONCLUSION

8. The Permanent Representatives Committee is, therefore, invited to take note of the progress made and acknowledge the results achieved on the negotiations with the European Parliament on the ESF+ Regulation, as set out in the Annex to this note;

⁶ Council position: *Recital (33) is amended as follows*: (33) Lack of access to finance for microenterprises, social economy and social enterprises is one of the main obstacles to business creation, especially among people furthest from the labour market. **Under the EaSI strand**, the ESF+ Regulation lays down provisions in order to create a market eco-system to increase the supply of and access to finance for social enterprises as well as to meet demand from those who need it most, and in particular the unemployed, women and vulnerable people who wish to start up or develop a microenterprise. This objective will also be addressed through financial instruments and budgetary guarantee under the social investment and skills policy window of the InvestEU Fund. *(Comment from TM on 27/1: Agreed to use the term “people in vulnerable situations” throughout the proposal during discussion on Row III-9).*

¹² Council position: *In order to clarify that transnational cooperation may be supported under the shared management strand, recital (31) is amended as follows: (31) Social experimentation is a small-scale project testing which allows gathering evidence on the feasibility of social innovations **in each policy area under Article 4**. It should be possible for feasible ideas to be pursued on a wider scale or in other contexts with financial support from the ESF+, as well as from other sources. **Transnational cooperation under direct or indirect management should accelerate the transfer and facilitate the upscaling of innovative solutions, whilst transnational cooperation can also be supported by programmes under shared management.***
