'I' ITEM NOTE

From:	Presidency
To:	Permanent Representatives Committee
No. prev. doc.:	11312/18
Subject:	Amended proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on establishing a framework for interoperability between EU information systems (<u>borders and visa</u>) and amending Council Decision 2004/512/EC, Regulation (EC) No 767/2008, Council Decision 2008/633/JHA, Regulation (EU) 2016/399, Regulation (EU) 2017/2226, Regulation (EU) 2018/XX [the ETIAS Regulation], Regulation (EU) 2018/XX [the Regulation on SIS in the field of border checks] and Regulation (EU) 2018/XX [the eu-LISA Regulation] - Mandate for negotiations with the European Parliament

Introduction

1. On 12 December 2017, the Commission presented two legislative proposals for Regulations of the European Parliament and of the Council establishing a framework for interoperability between EU information systems: one focusing on large-scale information systems relating to borders and visa¹, the second on information systems relating to police and judicial cooperation, asylum and migration² (the 'Interoperability Proposals').

¹ 15119/17

² 15729/17

2. Considering the importance and the priority status of these proposals, the Bulgarian Presidency worked intensively in order to reach a compromise on both texts that would be acceptable to Member States, with a view to starting negotiations with the European Parliament as soon as it was ready. The initial compromise was endorsed by the Permanent Representatives Committee at its meeting on 14 June 2018³.
3. On 13 June 2018, the Commission amended the Interoperability Proposals in order to include some further necessary amendments to other legal instruments (ETIAS, SIS, ECRIS-TCN, Eurodac and eu-LISA)⁴. This was required to take into account the results of the ongoing negotiations between the co-legislators on some of the information systems concerned. A revised mandate was therefore adopted by the Permanent Representatives Committee as a 'I' item on 12 September 2018.
4. The LIBE Committee of the European Parliament adopted its report on 15 October 2018. The first trilogue took place on 24 October 2018. Both co-legislators have agreed to work towards a political agreement by December 2018. Following this trilogue, five technical meetings were organised with the Parliament and the Commission on 26 and 31 October, 5, 7 and 9 November. The JHA Counsellors met on 31 October and 7 November to examine the Parliament amendments and Presidency compromise proposals.

Revised mandate for the second trilogue

5. A second trilogue is scheduled for 15 November 2018. With respect to two issues (dactyloscopic data and business continuity), the Presidency would like to obtain some flexibility from the Member States and would ask for the initial Council mandate to be amended.

³ 10453/18

⁴ 10178/18 and 10190/18

6. In its mandate, the Council replaced the definition of 'fingerprint data' as proposed by the Commission by a definition of dactyloscopic data (Article 4(10) - line 149) that includes fingerprints images, images of fingerprint latents, palm prints, and palm prints latents. The European Parliament did not amend the Commission proposal on this point. As a compromise, the Presidency would like to suggest the deletion of palm prints and palm prints latents from the definition of 'dactyloscopic data', since they are only used in the Schengen Information System and can therefore not be crosschecked against data in other underlying systems. The Presidency would also recommend to replace the term 'dactyloscopic data' by 'fingerprint data', as was initially proposed by the Commission. So the definition would read *“fingerprint data' means fingerprints images and images of fingerprint latents, ~~palm prints,~~ and ~~palm prints latents~~ which due to their unique character and the reference points contained therein enable accurate and conclusive comparisons on a person's identity.*
7. As regards the provision on business continuity (Article 55i - line 878), the positions of the co-legislators are very close. Both Council and Parliament wish to ensure that even in case of a technical failure the interoperability components provide uninterrupted services to the Member States, allowing for a response time in line with the operational needs of the end-users of the systems. The Presidency has tabled a compromise text proposal incorporating elements of the Parliament position in the Council text (Article 53(1) - line 636).
8. As regards the other issues on the agenda for the upcoming trilogue, it has been agreed that no compromise proposals will be examined, pending further work at technical level. Therefore, the Presidency will stick to its mandate and will simply outline the main elements of the Council position. These issues are as follows:
- non discrimination (Article 5 - lines 178 and 179),
 - access to the Common Identity Repository (Articles 20 and 22 - lines 292 to 309),
 - data retention in the case of a red link (Article 23(3) - line 313),
 - delegated acts and implementing acts, including the no opinion clause (Article 64(2) - line 960).

9. The following points are also included in the agenda of the trilogue for general discussion. The Presidency will be listening to the explanations provided by the Parliament and will report back to Member States.
- Access by third country jurisdictions: this EP amendment excludes companies from preparing, designing or managing interoperability components when they may be subject to (court) orders in third countries where they are located requiring them to retrieve data from the EU information systems or from the interoperability components (new Article 56 - line 880),
 - Time limits for verification of different identities: the EP introduces a time limit of (i) 24 hours for Member States authorities to update and add links between data in the identity confirmation file (Article 29(3) - line 416) and (ii) 8 hours for the manual verification of identities (Article 29(5b) - line 420),
 - Web service for exercising data subjects' rights: the EP wishes eu-LISA to establish a web service enabling third-country nationals to access, rectify, erase or restrict the processing of their personal data (new Article 47(1a) and (1b) - lines 575 and 576).
10. The Presidency invites the Committee to confirm that it can accept the compromise texts in lines 149 and 636, as set out in the annex and to grant the Presidency a revised mandate to negotiate with the European Parliament on this basis, with a view to reaching an agreement with the European Parliament by the end of 2018.
-

Amended proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

on establishing a framework for interoperability between EU information systems (borders and visa) and amending Council Decision 2004/512/EC, Regulation (EC) No 767/2008, Council Decision 2008/633/JHA, Regulation (EU) 2016/399, Regulation (EU) 2017/2226, Regulation (EU) 2018/XX [the ETIAS Regulation], Regulation (EU) 2018/XX [the Regulation on SIS in the field of border checks] and Regulation (EU) 2018/XX [the eu-LISA Regulation]
