|---|---|
| From: | General Secretariat of the Council |
| To: | Permanent Representatives Committee/Council |
| Subject: | Draft REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on horizontal cybersecurity requirements for products with digital elements and amending Regulations (EU) No 168/2013 and (EU) 2019/1020 and Directive (EU) 2020/1828 (Cyber Resilience Act)<br>**(first reading)**<br>- Adoption of the legislative act<br>= Statement |

**Joint political statement by the European Parliament, the Council and the Commission**

The European Parliament and the Council consider that this Regulation confers additional tasks on ENISA which result in additional workload and would require additional resources in terms of both expertise and number. In view of this, in order to enable ENISA to effectively carry out the tasks under this Regulation, the European Parliament, the Council and the Commission consider that an increase in its resources, in particular its human resources with the adequate expertise, may be necessary. Such increase could be provided for in the annual procedure related to the establishment plan of ENISA. Accordingly, the Commission, which is responsible for entering in the draft general budget of the Union the estimates it deems to be necessary for ENISA's establishment plan, in the framework of the budgetary procedure set out in Article 314 TFEU and in accordance the procedure set out in the Cybersecurity Act, shall assess the estimates for the establishment plan of ENISA entered for the first year after entry into force of this Regulation in consideration of the necessary

resources, in particular human resources, to enable ENISA to adequately carry out its tasks under this Regulation.
