NOTE

From:	General Secretariat of the Council
To:	Permanent Representatives Committee
No. prev. doc.:	12800/19 + ADD 1
No. Cion doc.:	5846/18 - COM(2017) 753 final + ADD 1
Subject:	Proposal for a Directive of the European Parliament and of the Council on the quality of water intended for human consumption (recast) – Preparation for the trilogue

In document 13781/19, on page 4, paragraph 6, the first bullet point should read as follows:

- Regarding Lead, firstly, the Presidency would like to receive confirmation that it is the general understanding of the Council that, in the context of the new Article 10a, new materials in contact with drinking water would comply with the aspirational limit value of **5 µg/l** currently foreseen in the Council's General Approach. Secondly, the Presidency would like to hear the views of delegations on the possibility for a compromise in which, for existing materials, the aspirational value of **5 µg/l** would be changed to a limit value if the deadline for implementation is extended to 20-25 years.
