(1) The European Union and INTERPOL shall cooperate with respect to ETIAS, for the purpose of security checks, border management and border control activities, in accordance with the provisions of this Article and other applicable provisions of this Agreement. To that end:

(a) INTERPOL shall apply to the ETIAS Central Unit the rules and procedures applicable to International Entities, provided for under the INTERPOL RPD and under the Statute of the Commission for the Control of INTERPOL's Files, as in force on the date of the signing of this Agreement. The ETIAS Central Unit shall comply with the rules and procedures applicable to International Entities, provided for under the INTERPOL RPD and under the Statute of the Commission for the Control of INTERPOL's Files, as in force on the date of the signing of this Agreement. This paragraph shall not be interpreted to prejudice Article 34(2)(d). For the purposes of this Agreement, the ETIAS Central Unit shall not be considered part of the EBCGA;

(b) the ETIAS Central Unit shall designate a team responsible for relations with INTERPOL as the sole authority to access SLTD and TDAWN data;

(c) duly authorised staff within that team shall be provided access via the ETIAS Information System to SLTD and TDAWN data, subject to the conditions set forth in paragraphs 2 to 7.

(2) The European Union and INTERPOL shall take the necessary steps in order that such access to SLTD and TDAWN complies with the following conditions:

(a) the ETIAS Central System shall be able to directly access SLTD and TDAWN, or a subset thereof, via the European Search Portal, in order to make automated queries using the following travel document elements inserted by the applicant in the ETIAS application form: (i) the document identification number; (ii) the country of issuance; and (iii) the type of travel document;

Once it has been established that the data correspond, it shall transmit the data described in subparagraph (b) to the ETIAS National Unit that is to decide whether to grant or refuse issuance of the travel authorisation to the applicant. That ETIAS National Unit shall use the data only for the purpose of carrying out security risk assessments to decide whether to grant or refuse the issuance of the travel authorisation;

(d) in view of the limited nature of the query, the response and the verification process described in subparagraphs (a) to (c), and the characteristics of SLTD and TDAWN, no automated notification to the source of the INTERPOL data shall take place upon query by the ETIAS Central System and verification by the ETIAS Central Unit;

(3) Without prejudice to the access of a National Central Bureau pursuant to paragraph 2, the National Central Bureau of the Member State of the European Union or other country concerned pursuant to Article 35, where designated by that Member State or country as a law enforcement designated authority, may access, pursuant to Regulation (EU) 2018/1240 (ETIAS Regulation) and for the purpose of the prevention, detection, and investigation of terrorist offences or other serious criminal offences, data recorded in the ETIAS Central System. When National Central Bureaus receive data from the ETIAS Central System, upon their request as designated authorities, they may transfer those data to countries that are not Member States of the European Union in accordance with the applicable conditions set out in the ETIAS Regulation.

(4) The data obtained from INTERPOL shall not be used to establish or implement the ETIAS screening rules or the ETIAS watchlist or, except as specified in this Article, be transmitted outside the ETIAS Central or National Units or inserted into the ETIAS Information System by the ETIAS Central or National Units in a manner permitting access by other bodies, agencies or authorities, without having sought and obtained the authorisation of the INTERPOL General Secretariat.

(5) When monitoring and evaluating the implementation of ETIAS, the European Union shall take the necessary steps for the European Commission to:

Subsequent reviews shall be conducted no later than every two years. Reviews shall be carried out swiftly.

If, upon such review, the European Union or INTERPOL identifies recurrent or significant non-compliance with the provisions of this Article, the European Union and INTERPOL shall engage without delay in consultations to resolve the problem(s) identified.

The period of this consultation and resolution shall not exceed four months. If no resolution is reached within that period, either the European Union or INTERPOL may suspend ETIAS access to SLTD and TDAWN by written notification until a resolution is reached. The suspension shall take effect twenty days from the date of receipt of such notification and shall be lifted upon transmission of a subsequent written notification to that effect.

Notwithstanding the third subparagraph of this paragraph, in case of urgency, the European Union or INTERPOL may provisionally suspend ETIAS access to SLTD or TDAWN, in which case notification to the other and consultations shall commence immediately thereafter.

shall make such notification as soon as possible. Such notification shall be deemed to have been given, if no notification of completion is received within six months of the entry into force of the bilateral agreement concerned.

(4) In the event that there is a period of time between the date on which the ETIAS Central Unit may provide data to the ETIAS National Units of the Member States of the European Union in accordance with paragraph 2 and the date on which the ETIAS Central Unit may provide such data to the ETIAS National Units of Iceland, the Kingdom of Norway, the Swiss Confederation or the Principality of Liechtenstein in accordance with paragraph 3, the ETIAS Central Unit shall, during that period, designate a Member State of the European Union that has been notified pursuant to paragraph 1, to process the data in place of a country to which the data may not yet be provided pursuant to paragraph 3.

JOINT DECLARATION BETWEEN THE EUROPEAN UNION AND INTERPOL WITH REGARD TO ARTICLE 26(3)(c) OF THE EU-INTERPOL COOPERATION AGREEMENT

The European Union and INTERPOL agree to make their utmost efforts to launch and swiftly progress negotiations for a Security of Information Agreement (SIA), concerning security procedures for exchanging and protecting classified information.

JOINT DECLARATION WITH REGARD TO ICELAND, THE KINGDOM OF NORWAY, THE SWISS CONFEDERATION AND THE PRINCIPALITY OF LIECHTENSTEIN

The European Union and INTERPOL take note of the close relationship between the European Union and Iceland, the Kingdom of Norway, the Swiss Confederation and the Principality of Liechtenstein, particularly by virtue of the Agreements of 18 May 1999 and 26 October 2004 concerning the association of those countries with the implementation, application and development of the Schengen acquis.

In such circumstances it is desirable that the authorities of Iceland, the Kingdom of Norway, the Swiss Confederation and the Principality of Liechtenstein, on the one hand, and INTERPOL, on the other hand, conclude expeditiously and without delay the bilateral agreements referred to in Article 35(3)(a) of the Cooperation Agreement between the European Union and the International Criminal Organization – INTERPOL providing, for the national authorities of Iceland, the Kingdom of Norway, the Swiss Confederation and the Principality of Liechtenstein respectively, to comply with the same obligations pertaining to ETIAS as those of the national authorities of the EU Member States under the Cooperation Agreement between the European Union and the International Criminal Police Organization - INTERPOL.

EUROPEAN UNION DECLARATION WITH REGARD TO THE EU VISA INFORMATION SYSTEM

Considering the operational needs of detecting whether applicants for a visa or residence permit in a Schengen country use travel documents that have been reported as stolen, lost, revoked, invalid or stolen blank or use travel documents associated with INTERPOL notices, the European Union recalls the importance to continue exploring solutions for the EU Visa Information System to query INTERPOL’s Stolen and Lost Travel Documents (SLTD) and Travel Documents Associated with Notices (TDAWN) to reinforce the overall security of the Schengen area.
