Subject:	Proposal for a DIRECTIVE OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL amending Directive 2013/34/EU as regards disclosure of income tax information by certain undertakings and branches. - (poss) General Approach
----------	---

I. INTRODUCTION

1. On 12 April 2016, the European Commission submitted the above-mentioned proposal to the Council and the European Parliament. In the context of a broader strategy for a Fair and Efficient Corporate Tax System in the EU, the public scrutiny of tax payments in view of reinforcing public trust and strengthen companies' corporate social responsibility. This proposal requires that Multinational Enterprises (MNEs) disclose publicly in a specific report the income tax they pay together with other relevant information. MNEs, whether headquartered in the EU or outside, with turnover of more than EUR 750m will need to comply with these additional transparency requirements. For the first time, not only European businesses but also non-European multinational companies doing business in Europe will through their branches have the same reporting obligations.

The proposal complements undertakings' current financial reporting obligations under Accounting Directive No 2013/34/EU and does not interfere with these requirements in relation to their financial statements, for example as regards publishing of their annual accounts.

This proposal does not modify the rules already in place on non-financial reporting and sectoral CBCR for both the banking sector and the extractive and logging industries. However it introduces an exemption clause to avoid double reporting for the banking sector, which is already subject to stringent public reporting rules in the EU banking legislation. It is in line with OECD BEPS reporting and Council Directive (EU) 2016/881 of 25 May 2016 (OJ L146 of 3.6.16, p.8).

II. STATE OF PLAY

2. The Working Party on Company Law examined the proposal at eighteen occasions during the Netherlands, Slovak, Maltese, Estonian, Romanian and Finnish Presidencies. The latest meeting of the Working Party on Company Law (Attachés) examined doc 5134/19 on 12 November 2019.
3. The Presidency is presenting a compromise proposal in the Annex to this note in order to reach an agreement on a general approach to be endorsed at Competitiveness Council on 28 November 2019. Delegations are informed that changes compared to the previous document (doc. 5134/19) are indicated in **bold/underlined** and deletions are marked with ~~strikethrough~~.
4. The European Parliament adopted its first reading position in Plenary (doc. P8_TA-PROV(2019)0309) on 27 March 2019. The report tables 58 amendments.

III. OUTSTANDING ISSUES

Significant progress has been made since the detailed examination of the proposal began, two outstanding issues remain at this stage.

5. Article 48c, paragraph 3a: comply or explain clause

The Presidency compromise proposal aims to reach a common ground taking into account the different concerns expressed by Member States. On the one hand, the compromise proposal would guide the undertakings to conduct in a diligent manner in non-disclosure cases thus reinforcing the disclosure accountability. On the other hand, the compromise proposal would prolong the timeframe for non-disclosure to six years aiming at creating a balance with reinforced accountability. In order to compromise, the following text is proposed:

- Addition of the following sentence in Recital 9a:

"It is recognised that publicly disclosing data to be included in report on income tax information could in certain cases be seriously prejudicial to commercial position of an undertaking, since it would make it possible for competitors not subjected to similar transparency to draw significant conclusions about its current activities. Therefore, undertakings should have a possibility to defer disclosing certain information for a limited number of years, provided they clearly disclose the deferral and give a reasoned explanation for it in the report **and document the basis for the reasoning.**"

- In New 3a para in Article 48c:

Information otherwise required to be disclosed by paragraphs 2 and 3 of this Article may be omitted when its disclosure would be seriously prejudicial to the commercial position of the undertakings to which it relates. Any such omission shall be disclosed in the report together with reasoned explanation regarding its causes. Any information thus omitted shall be made public in a later report on income tax information within no more than **six** years from the date of its original omission. Information pertaining to tax jurisdictions listed in the EU list of non-cooperative jurisdictions for tax purposes may never be omitted.

6. Legal basis

One of the main items for discussion during the negotiations was the legal basis of the proposal. The views have been dissenting as to the file being a financial reporting file or a fiscal file. The Council Legal Service has issued an opinion stating that the legal basis for the Directive should be Article 115 TFEU (doc. 14384/16). The Commission maintains its position that the legal basis should be Article 50(1) TFEU as provided in its proposal. If the legal basis of the file were to be amended, it requires this a unanimous vote in the Council (Article 293(1) TFEU).

IV. CONCLUSION

7. The Permanent Representatives Committee is invited to:

- reach an agreement on the basis of the Presidency compromise text as set out in the Annex to this note;
- submit the text of the general approach to the Competitiveness Council on 28 November 2019; and
- invite the Council to
 - confirm the agreement on the general approach and
 - invite the Presidency to start negotiations with the European Parliament on the basis of this general approach, with a view to reaching an agreement at first reading.

Proposal for a

DIRECTIVE OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

amending Directive 2013/34/EU as regards disclosure of income tax information by certain undertakings and branches

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 50(1) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee¹,

Acting in accordance with the ordinary legislative procedure,

¹ OJ C , , p. .

Whereas:

- (1) The Commission in its communications entitled ‘Commission Work Programme 2016 - No time for business as usual’² and ‘Commission Work Programme 2015 - A New Start’³ identified as a priority the need to respond to our societies’ call for fairness and tax transparency.

- (2) In parallel with the work undertaken by the Council to fight corporate income tax avoidance, it is necessary to enhance public scrutiny of corporate income taxes borne by multinational undertakings carrying out activities in the Union, as this is an essential element to further foster corporate responsibility to contribute to the welfare of our societies, to promote a better informed public debate and to regain the trust of citizens of the Union in the fairness of the national tax systems. Such public scrutiny can be achieved by means of a report on income tax information, irrespective of where the ultimate parent undertaking of the multinational group is established.

² COM(2015) 610 final of 27 October 2015.

³ COM(2014) 910 final of 16 December 2014.

- (3) Following the European Council conclusions of 22 May 2013, a review clause was introduced in Directive 2013/34/EU of the European Parliament and of the Council⁴ requiring the Commission to consider the possibility of introducing an obligation on large undertakings of additional industry sectors to produce, on an annual basis, a country-by-country report taking into account the developments in the Organisation for Economic Cooperation and Development (OECD) and the results of related European initiatives.

⁴ Directive 2013/34/EU of the European Parliament and of the Council of 26 June 2013 on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings, amending Directive 2006/43/EC of the European Parliament and of the Council and repealing Council Directives 78/660/EEC and 83/349/EEC (OJ L 182, 29.6.2013, p. 19).

- (6) The public should be able to scrutinise all the activities of a group when the group has certain establishments within the Union. For groups which carry out activities within the Union only through subsidiary undertakings or branches, operating subsidiaries and branches should publish and make accessible the report of the ultimate parent undertaking to the extent that the requested information is available to the subsidiary or branch. If the requested information is not available the subsidiary or branch should explain in the report the reasons of this omission. However for reasons of proportionality and effectiveness, the obligation to publish and make accessible the report should be limited to medium-sized or large subsidiaries established in the Union, or branches of a comparable size opened in a Member State. The scope of Directive 2013/34/EU should therefore be extended accordingly to branches opened, and still operating, in a Member State by an undertaking which is established outside the Union and which has a legal form which is comparable to the types of undertakings listed in Annex I of Directive 2013/34/EU.
- (6a) Multinational groups, and where relevant, certain standalone undertakings, should provide the public with a report on income tax information when they exceed a certain size over a period of the last two consecutive financial years, depending on the consolidated revenue of the group or the revenue of the standalone undertaking. Given the wide array of financial reporting frameworks with which financial statements may comply, in order to determine the scope of application, such revenue should be defined as net turnover for undertakings governed by the law of a Member State and following national financial reporting framework of a Member State. Article 43(2)(c) of Directive 86/635/EEC and Article 66(2) of Directive 91/674/EEC provide definitions as to the determination of the net turnover of a credit institution or of an insurance undertaking, respectively. For other undertakings, the revenue should be assessed in accordance with the financial reporting framework on the basis of which these financial statements are prepared. It should be noted that "revenue" has a different definition for purposes of content of the report.

- (6b) At the same time it is stressed that, as concluded by the G20 and the OECD, country-by-country reports will be helpful for high-level transfer pricing risk assessment purposes only. The information in the Country-by-Country Report on its own does not constitute conclusive evidence that transfer prices are or are not appropriate and that information should not be used as a substitute for a detailed transfer pricing analysis of individual transactions and prices based on a full functional analysis and comparability analysis.
- (7) In order to avoid double reporting for the banking sector, ultimate parent undertakings and standalone undertakings which are subject to Directive 2013/36/EU of the European Parliament and of the Council⁵ and which include in their report prepared in accordance with Article 89 of Directive 2013/36/EU all its activities and, where appropriate, all the activities of its affiliated undertakings included in the consolidated financial statements, including activities not subject to the provisions of Chapter 2 of Title 1 of Part Three of Regulation (EU) No 575/2013 of the European Parliament and of the Council⁶, should be exempted from the reporting requirements set out in this Directive.

⁵ Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC (OJ L 176, 27.6.2013, p. 338)

⁶ Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (OJ L 176, 27.6.2013, p. 1).

- (8) The report on income tax information should provide information concerning all the activities of all the affiliated undertakings of a group consolidated by an ultimate parent undertaking or, depending on the circumstances, concerning all the activities of a standalone undertaking. The information should be limited to what is necessary to enable effective public scrutiny, in order to ensure that disclosure does not give rise to disproportionate risks or disadvantages for undertakings. For this reason, the list of required information is exhaustive. The report should be made accessible within 12 months after the balance sheet date. Any shorter periods for the publication of financial statements should not apply with regard to the report on income tax information. The provisions of Chapter 10a of this Directive do not affect the provisions regarding annual financial statements and consolidated financial statements.
- (8a) In order to avoid administrative burden, when preparing a report on income tax information in compliance with this Directive, undertakings should be entitled to prepare the information on the basis of the reporting specifications laid down in Annex III, Section III, parts B and C of Council Directive 2011/16/EU as amended. For this reason, the report should specify the reporting framework used. The report might in addition include an overall narrative providing explanations in case of material discrepancies at group level between the amounts of taxes accrued and the amounts of taxes paid, taking into account corresponding amounts concerning previous financial years.
- (9) In order to ensure a level of detail that enables citizens to better assess the contribution of multinational undertakings to welfare in each Member State, the information should be broken down by Member State. Moreover, information concerning the operations of multinational enterprises should also be shown with a high level of detail as regards certain third country tax jurisdictions which pose particular challenges. For all other third country operations, the information should be given in an aggregate number, unless the undertaking wishes to present more detailed information.

- (9a) It is recognised that publicly disclosing data to be included in report on income tax information could in certain cases be seriously prejudicial to commercial position of an undertaking, since it would make it possible for competitors not subjected to similar transparency to draw significant conclusions about its current activities. Therefore, undertakings should have a possibility to defer disclosing certain information for a limited number of years, provided they clearly disclose the deferral and give a reasoned explanation for it in the report **and document the basis for the reasoning.**

To be read in conjunction with Article 48c (3a).

- (10) In order to strengthen responsibility vis-à-vis third parties and to ensure appropriate governance, the members of the administrative, management and supervisory bodies of the ultimate parent undertaking or standalone undertakings which are established within the Union and which have the obligation to draw up, publish and make accessible the report on income tax information, should be collectively responsible for ensuring the compliance with these reporting obligations. Given that members of the administrative, management and supervisory bodies of the subsidiaries which are established within the Union and which are controlled by an ultimate parent undertaking established outside the Union or the person(s) in charge of carrying out the disclosures formalities for the branch may have limited knowledge of the content of the report on income tax information prepared by the ultimate parent undertaking or may have limited ability to obtain such information or report from their ultimate parent undertaking, their responsibility to publish and make accessible the report on income tax information should be limited. In case this information or report is not provided, the subsidiary undertakings should publish and make accessible a statement as to why the report on income tax information could not be published and made accessible.

- (11) To ensure public awareness on the scope of and on compliance with the reporting obligations Member States might require that statutory auditor(s) or audit firm(s) state whether an undertaking is required to draw up a report on income tax information.
- (12) This Directive aims to enhance transparency and public scrutiny on corporate income tax by adapting the existing legal framework concerning the obligations imposed on companies and firms in respect of the publication of reports, for the protection of the interests of members and others, within the meaning of Article 50(2)(g) TFEU. As the Court of Justice held, in particular, in Case C-97/96 *Verband deutscher Daihatsu-Händler*⁷, Article 50(2)(g) TFEU refers to the need to protect the interests of "others" generally, without distinguishing or excluding any categories falling within the ambit of that term. Moreover, the objective of attaining freedom of establishment, which is assigned in very broad terms to the institutions by Article 50(1) TFEU, cannot be circumscribed by the provisions of Article 50(2) TFEU. Given that this Directive does not concern the harmonisation of taxes but only obligations to publish reports on income tax information, Article 50(1) TFEU constitutes the appropriate legal basis.

⁷ Judgement of the Court of Justice of 4 December 1997, C-97/96 *Verband deutscher Daihatsu-Händler* ECLI:EU:C:1997:581

(12a) To ensure the full functioning of the internal market and a level playing field between the European Union and third-country multinational enterprises, the Commission should continue to explore possibilities of increasing fairness and tax transparency.

(14) Since the objective of this Directive cannot be sufficiently achieved by the Member States but can rather, by reason of its effect, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality as set out in that Article, this Directive does not go beyond what is necessary in order to achieve that objective.

- (15) This Directive respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union.
- (16) In accordance with the Joint Political Declaration of 28 September 2011 of Member States and the Commission on explanatory documents⁸, Member States have undertaken to accompany, in justified cases, the notification of their transposition measures with one or more documents explaining the relationship between the components of a directive and the corresponding parts of national transposition instruments. With regard to this Directive, the legislator considers the transmission of such documents to be justified.
- (17) Directive 2013/34/EU should therefore be amended accordingly,

HAVE ADOPTED THIS DIRECTIVE:

Article 1

However, in the case mentioned in the second subparagraph of Article 48b(3a), the subsidiary undertaking shall publish the report in the currency in which it publishes its annual financial statements.

7. Where Member States have not adopted the euro, the threshold referred to in Article 48b(1) may be converted into the national currency. Such conversion must apply the exchange rate as at *[Publications Office- set the date = the date of the entry in force of this Directive]* published in the Official Journal of the European Union and may increase or decrease the thresholds by not more than 5 % in order to produce a round sum in the national currencies.

The thresholds referred to in Article 48b(3) and (4) shall be converted to an equivalent amount in the national currency of any relevant third countries by applying the exchange rate as at *[Publications Office - set the date = the date of the entry in force of this Directive]*, rounded off to the nearest thousand.

8. The report shall specify whether it was prepared in accordance with paragraph 2 or 2a of this Article.

The report on income tax information or the statement mentioned in Article 48b shall be published within 12 months after the balance sheet date of the financial year for which the report is drawn up as laid down by the laws of each Member State in accordance with Chapter 2 of Directive 2009/101/EC and where relevant in accordance with Article 7 of Council Directive 89/666/EEC.
