41a		<p><u><i>(33a) The Programme relies on complex and constantly changing technologies. The reliance on such technologies results in uncertainty and risk for public contracts concluded under the Programme, insofar as those contracts involve long-term commitments to equipment or services. Specific measures concerning public contracts are therefore required in addition to the rules laid down in the Financial Regulation. It should thus be possible to award a contract in the form of a conditional stage-payment contract, introduce an amendment, under certain conditions, in the context of its performance, or impose a minimum level of subcontracting. As regards the latter, priority should be given, where possible, to start-ups and SMEs, particularly in order to enable their cross-border participation. Finally, given the technological uncertainties that characterise the Programme's components, contract prices cannot always be forecast accurately and it should therefore be possible to conclude contracts without stipulating a firm fixed price and to include clauses to safeguard the financial interests of the Union.</i></u></p>

Recital 39d				
47e		<p><u><i>(39d) In line with the objectives of the European Green Deal, the Programme should minimise, to the</i></u></p>		

	Commission Proposal	EP Mandate	Council Mandate	Draft Agreement
		<p><u>extent possible, its environmental impact. While the space-based assets do not themselves emit greenhouse gases while in use, their manufacturing and associated ground facilities do have an environmental impact. Measures should be adopted to mitigate that impact. To that end, the procurement referred under the Programme should include principles and measures on sustainability, such as provisions to minimise and offset the greenhouse gas emissions generated by the development, production and deployment of the infrastructure and measures to prevent light pollution such as the impact on ground-based astronomical observations, including the on wide-field surveys in the optical and infrared, as well as measures to mitigate air pollution from re-entering satellites.</u></p>		
Recital 39e				
47f		<p><u>(39e) Given the growing number of spacecraft and debris in orbit, the new European constellation should also satisfy space sustainability criteria and be an example of good practices in space traffic management and in space</u></p>		

	Commission Proposal	EP Mandate	Council Mandate	Draft Agreement
		<p><u>surveillance and tracking (SST), in order to reduce the amount of debris produced, prevent on-orbit break-ups and on-orbit collision, and provide appropriate end-of-life spacecraft measures. As legitimate concerns on the protection of space environment that are being discussed (e.g. in the United Nations' Committee on the Peaceful Uses of Outer Space (COPUOS) and Inter-Agency Space Debris Coordination Committee (IADC)), it is of the uttermost importance that the Union shows leadership in space activities sustainability.</u></p>		
Recital 39f				
47g		<p><u>(39f) Union-wide initiatives, such as the secure connectivity initiative, are shaped by the broad participation of innovative small, medium and large enterprises and start-ups from the up-, mid- and down-stream space sector all over the Union. In recent years, some space actors have challenged the space sector, in particular start-ups and SMEs developed innovative, market-driven space technologies and applications, sometimes with different business models. In order to ensure the Union's space</u></p>		

	Commission Proposal	EP Mandate	Council Mandate	Draft Agreement
		<u><i>ecosystem competitiveness, this Programme should maximise the development and use of innovative and disruptive technologies as well as innovative business models, in particular by start-ups and SMEs developing market-driven space technologies and applications, while covering the whole space value chain, encompassing upstream, midstream and downstream segment.</i></u>		
Recital 39g				
47h		<u><i>(39g) To optimise the efficiency and impact of the Programme, actions should be taken to promote the use and development of open standards, open source technologies and interoperability in the architecture of the secure connectivity system. A more open conception of the system could allow better synergies with other components of the Union Space Programme or national services and applications, optimise costs by avoiding duplication in the development of the same technology, and improve reliability.</i></u>

To that end, data will be collected as regards the following set of key indicators: <small>Text Origin: Commission Proposal</small>
Annex, first paragraph, point (1)				
384a			1. General objective referred to in Article 3(1), point (a):	
Annex, first paragraph, point (1), first paragraph				
384b			Indicator 1.1: Member States governments and EU institutions can access a set of first governmental services in 2024	
Annex, first paragraph, point (1), second paragraph				
384c			Indicator 1.2: Member States governments and EU institutions can access full operational capability that meets the user	

	Commission Proposal	EP Mandate	Council Mandate	Draft Agreement
			needs and demand determined in the service portfolio in 2027	
Annex, first paragraph, point (1), third paragraph				
384d			Indicator 1.3: Percentage of governmental service availability for each deployed governmental service	
Annex, first paragraph, point (1), fourth paragraph				
384e			Indicator 1.4: Speed, bandwidth and latency performance for each deployed governmental service	
Annex, first paragraph, point (1), fifth subparagraph				
384f			Indicator 1.5: Percentage of geographical availability of all deployed governmental services within Member States territories	
Annex, first paragraph, point (1), sixth subparagraph				
384g			Indicator 1.6: cost to completion	
Annex, first paragraph, first paragraph				
385	Indicators should be linked to the specific objectives but without repeating them to avoid incoherence.	Indicators should be linked to the specific objectives but without repeating them to avoid incoherence.	<i>deleted</i>	

	Commission Proposal	EP Mandate	Council Mandate	Draft Agreement
Annex, first paragraph, point (2)				
385a			2. General objective referred to in Article 3(1), point (c):	
Annex, first paragraph, point (2), first paragraph				
385b			Indicator 2.1: Percentage of commercial service availability	
Annex, first paragraph, point (2), second paragraph				
385c	Indicator 1: Speed of the commercial satellite broadband <i>Moved reference text</i>		Indicator 2.2: Speed of the commercial satellite broadband service Indicator 2.2: Speed, bandwidth and latency performance of the commercial satellite broadband service <i>Moved from row 400</i>	
Annex, first paragraph, point (2), third paragraph				
385d			Indicator 2.3: Percentage of communication dead zones in Member States territories	
Annex, first paragraph, point (2), fourth paragraph				
385e			Indicator 2.4: Amount invested by private sector	
Annex, first paragraph, point (3)				

	Commission Proposal	EP Mandate	Council Mandate	Draft Agreement
385f			3. Specific objective referred to in Article 3(2), point (-a):	
Annex, first paragraph, point (3), first paragraph				
385g			Indicator 3.1: GOVSATCOM Hubs can provide services stemming from the secure connectivity system	
Annex, first paragraph, second paragraph, introductory part				
386	Specific objective 1: Improve the resilience of the Union communication services by developing, building and operating a multi-orbital connectivity infrastructure, continuously adapted to evolution of demand for satellite communications, while taking into account the existing and future assets of the Member States used in the frame of the GOVSATCOM component of the Union Space Programme established by Regulation (EU) 2021/696.	Specific objective 1: Improve the resilience of the Union communication services by developing, building and operating a multi-orbital connectivity infrastructure, continuously adapted to evolution of demand for satellite communications, while taking into account the existing and future <u>quality, resilience and autonomy of the Union's and</u> Member States used in the frame of the GOVSATCOM component of the Union Space Programme established by Regulation (EU) 2021/696. <u>satellite services</u>	4. Specific objective 1: Improve the resilience of the Union communication services by developing, building and operating a multi-orbital connectivity infrastructure, continuously adapted to evolution of demand for satellite communications, while taking into account the existing and future assets of the Member States used in the frame of the GOVSATCOM component of the Union Space Programme established by Regulation (EU) 2021/696. referred to in Article 3(2), point (a):	
Annex, first paragraph, second paragraph, first paragraph				
387	Indicator 1: Member States	Indicator 1: Member States

	governments and EU institutions can access initial set of governmental services in 2025, with full capacity in 2027	governments and EU institutions, <u>bodies, offices and agencies of the Union</u> can access initial set of governmental services in 2025 <u>2024</u> , with full capacity in 2027	<i>deleted</i>	
<i>Annex, first paragraph, second paragraph, second paragraph</i>				
388	Indicator 2: Service availability	Indicator 2: <u>The system performance in term of worldwide coverage, service availability, bandwidth</u>	<i>deleted</i>	
<i>Annex, first paragraph, second paragraph, third paragraph</i>				
389	Indicator 3: Full integration of existing capacity from the Union pool via the integration of GOVSATCOM ground infrastructure	Indicator 3: Full integration of existing capacity from the Union pool via the integration of GOVSATCOM ground infrastructure	<i>deleted</i>	
<i>Annex, first paragraph, point (4), first paragraph</i>				
389a			Indicator 4.1: Percentage of services deployed related to the service portfolio	
<i>Annex, first paragraph, point (4), second paragraph</i>				
389b			Indicator 4.2: Percentage of available capacity for each deployed service	

	Commission Proposal	EP Mandate	Council Mandate	Draft Agreement
Annex, first paragraph, second paragraph, fourth paragraph				
390	Indicator 4: Annual number of major outages of the telecommunication networks in the Member States mitigated by the secure connectivity system	Indicator 4: Annual number of major outages of the telecommunication networks in the Member States mitigated by the <u>governmental services offered by the</u> secure connectivity system	Indicator 4 4.3 : Annual number of major outages of the telecommunication networks in the Member States due to crisis situations mitigated by the governmental services offered by the secure connectivity system	
Annex, first paragraph, second paragraph, fifth paragraph				
391	Indicator 5: User's satisfaction with the performance of the secure connectivity system	Indicator 5: User's satisfaction with the performance of the secure connectivity system	Indicator 5 4.4 : Governmental user's satisfaction with the performance of the secure connectivity system measured through annual survey	
Annex, first paragraph, point (4), fifth paragraph				
391a			Indicator 4.5: Governmental infrastructure and related governmental services obtain security accreditation	
Annex, first paragraph, point (5)				
391b			5. Specific objective referred to in Article 3(2), point (aa):	
Annex, first paragraph, point (5), first paragraph				

	Commission Proposal	EP Mandate	Council Mandate	Draft Agreement
391c			Indicator 5.1: Number and severity of cyber security incidents and number of electromagnetic disturbances related to the secure connectivity system (classified)	
Annex, first paragraph, point (6)				
391d			6. Specific objective referred to in Article 3(2), point (ab):	
Annex, first paragraph, point (6), first paragraph				
391e			Indicator 6.1: validation and accreditation of different technologies and communication protocols	
Annex, first paragraph, point (7)				
391f			7. Specific objective referred to in Article 3(2), point (ac):	
Annex, first paragraph, point (7), first paragraph				
391g			Indicator 7.1: Number of satellites per orbital slot	
Annex, first paragraph, second paragraph, fifth paragraph a				
391h		<i>Indicator 6: Number of users of</i>
