NOTE

From: Austrian delegation
To: Delegations
Subject: Issuing of visa stickers

The Austrian delegation wishes to inform delegations that, as of 1 November 2022, not all Austrian visa authorities will issue - due to technical reasons - visa stickers with the new 2D barcode.

Delegations are kindly invited to forward this message to their respective competent authorities. Austria asks Schengen partners to accept these visas without the 2D barcode and allow their holders to travel through or enter their countries.
