COMMISSION DELEGATED REGULATION (EU) .../...

of 6.10.2025

supplementing Regulation (EU) 2019/1700 of the European Parliament and of the Council by establishing a multiannual rolling planning for the period 2029-2036

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE DELEGATED ACT

In accordance with Article 4(1) of Regulation (EU) 2019/1700 of the European Parliament and of the Council establishing a common framework for European statistics relating to persons and households, based on data at individual level collected from samples, the Commission is empowered to adopt delegated acts in order to supplement that Regulation by establishing or adapting a multiannual rolling planning. The multiannual rolling planning must:

- (a) be adopted for a period of eight years;
- (b) apply to the collection of data covered by the Regulation;
- (c) comply with the periodicity specified in Annex IV to the Regulation;
- (d) specify the period during which data are collected for:
 - (i) the detailed topics attached to the domains listed in Annex I to the Regulation;
 - (ii) ad hoc subjects requested by users, for the labour force and the income and living conditions domains, as provided for in Annex IV to the Regulation.

This Commission Delegated Regulation therefore establishes a multiannual rolling planning for a period of eight years starting in 2029.

2. CONSULTATIONS PRIOR TO THE ADOPTION OF THE ACT

The Commission carried out appropriate consultations in preparation for this delegated act. The Commission consulted national experts who were invited to expert meetings to discuss the draft delegated act. Consultations took place within the Commission Expert Group: European Directors of Social Statistics and within the Commission Expert Group: National Statistical Institutes of the European Statistical System. The Commission kept both the European Parliament and the Council duly informed of the consultations.

3. LEGAL ELEMENTS OF THE DELEGATED ACT

The objective of this delegated act establishing a multiannual rolling planning is to specify the frequency at which data are collected for the detailed topics attached to the domains listed in Annex I to Regulation (EU) 2019/1700 and ad hoc subjects requested by users, for the labour force and the income and living conditions domains, as provided for in Annex IV to Regulation (EU) 2019/1700. This act establishes the appropriate periodicity of the data collection, on one hand by setting a data collection period for those domains having one data periodicity, and on the other hand by setting a data collection period for those domains having several data collection frequencies and grouping together detailed topics according to their periodicity.

COMMISSION DELEGATED REGULATION (EU) .../...
