In document 14219/23 INIT, page 10 (statement by Latvia):

The last sentence in paragraph 6 should read as follows:

“The remaining urban wastewater treatment plants are much smaller - 9 of them treat a load between 10 000 p.e. and 20 000 p.e.; 4 of them treat a load of between **20 000** p.e. and **30 000** p.e., and the remaining 5 treat a load of between 30 000 p.e. and 70 000 p.e.”

The last sentence in paragraph 8 should read as follows:

“On the other hand, the new requirements for treatment of nitrogen and micropollutants will increase the energy consumption of the *Riga* wastewater treatment **plant**.”
